Action Plan Update Items 2017-2018 Academic Year

1. Provide an update on changes in the last year that have been made to areas indicated as needing improvement in your ARC report.
2. Provide a plan for how the faculty are reviewing, evaluating, and utilizing student learning outcomes to improve; demonstrate how the program's outcomes are aligned to the mission of the college and NSU.
3. Provide a breakdown of the FTE of faculty and assess the sufficiency of the faculty to meet program objectives.

Programs that are undergoing any part of the Academic Review cycle (ASLO, IRC, ECs, ARC, Executive Review) are exempt from the schedule until they have completed the cycle.

As our office is making an attempt to go paperless, information related to Academic Review will now come from the email address: academicreview@nova.edu. We will no longer print APR documents.
