

Public Health

CVR 8292

Course Description

Independent Study II in Public Health

Individual study in a specific topic proposed by the student and approved by the student's faculty advisor. IRB approved projects may take the form of literature reviews, retrospective or prospective research proposals. Weekly conferences with the faculty advisor are required to report on the recruitment of subjects and data collection.

Learning Outcomes / Course Objectives:

By the end of this course the students will:

- 1) Recruit subjects or gather the materials for the thesis project
- 2) Perform the intervention, treatment or experiment to test H_0/H_a
- 3) Prepare an abstract for review and presentation of preliminary findings at a peer-reviewed professional meeting
