

Public Health

CVR 8293

Course Description

Independent Study III in Public Health

Continuation of individual study in a specific topic proposed by the student and approved by the student's faculty advisor. Weekly conferences with the faculty advisor are required. Data analysis and interpretation of findings occur during this portion of the independent study series. Consideration of recruiting more subjects, to add differing statistical analyses and or design modifications may be considered. Students are encouraged to submit preliminary findings for peer-review and presentation at one of the national meetings (AAO, ARVO, or AOA).

Learning Outcomes / Course Objectives:

By the end of this course the students will:

- 1) Complete data collection and analysis
- 2) Submit draft of thesis for preliminary review to the advisor
