SCOPE: This guide is designed to aid the beginning Audiology student in finding online and print resources in the HPD Library. It is not meant to be comprehensive. To find these and other resources, always start at the HPD Library homepage, www.nova.edu/hpdlibrary.

PRINT MATERIALS: Audiology books and multimedia are classified in the WV and WL 700 sections of the library. To find topics on related subjects, such as neurology, surgical otology or communication disorders, look in Novacat, NSU’s online catalog of all electronic, print, and other materials. Circulating books are shelved on the right side of the library (can be checked out for 4 weeks), reference books on the left on low shelves (library use only), and reserve books in the front (can be used for 3 hours in the library). Study rooms can be used for 3 hours, both in the library and Assembly II Building.

USEFUL BOOKS in the REREFERENCE and RESERVE SECTIONS: A partial list.

RESEARCH DATABASES: Most of the databases can be accessed through the Quick Links listing on the HPD Library homepage. www.nova.edu/hpdlibrary Links for the others have been provided.

CINAHL, Internet equivalent of the Cumulative Index of Nursing & Allied Health Literature. Covers almost all the English-language nursing journals, publications of the American Nurses association, and the National League for Nursing. It also indexes 13 Allied Health disciplines from 1983 to the present.
MEDLINE. Produced by the U.S. National Library of Medicine. The premier source for bibliographic coverage of biomedical literature. Almost 12 million records from 4,800 journals indexed and abstracted.
CHID, Combined Health Information Database. Contains the Deafness and Communications Disorders database, covering such topics as hearing, balance, smell, taste, voice, speech and language.
ERIC, Contains citations and abstracts of international journal and report literature in education and related fields. http://0-oh1.csa.com.novacat.nova.edu/ids70/advanced_search.php?SID=f0ec2184c3a8c2d5028402d9ec655e120

ONLINE FULL TEXT JOURNALS: To locate all of the available full-text audiology journals, go to this site: http://0-atoz.ebsco.com.novacat.nova.edu/Search.asp?id=nseu and select the “Subjects” tab at the top of the page. Search under “Otolaryngology.” Here is a partial list:

American Journal of Audiology
Audiology and Neuro-Otology
Auris Nasus Larynx
Australian Journal of Oto-Laryngology
BMC Ear, Nose and Throat Disorders
Clinical Otolaryngology and Allied Sciences
Ear and Hearing
Ear Nose and Throat Journal
Hearing Research
International Journal of Audiology
Journal of Speech and Hearing Research
Journal of Speech Language and Hearing Research
Journal of the American Academy of Audiology
Otology and Neurotology
Otolaryngologic Clinics of North America
Seminars in Hearing
Trends in Amplification

NOTE: You can also access this page through the HPD Library homepage: www.nova.edu/hpdlibrary by selecting the Electronic full text journals link.
ONLINE BOOKS: To access these books click on the “Electronic Books” link found on the HPD Library’s homepage under the “ELECTRONIC BOOKS” section.

USEFUL ONLINE RESOURCES: For other valuable online resources go to: [http://www.nova.edu/hpdlibrary/links.html](http://www.nova.edu/hpdlibrary/links.html)

AAO-HNS: American Academy of Otolaryngology-Head and Neck Surgery. Maintains links to a variety of audiology and communication sites as well as offering ENT resources. [http://www.entlink.net/resources/index.cfm](http://www.entlink.net/resources/index.cfm)

Audiology Online. Searchable site for all hearing disorders. Features seminars, access to *The Hearing Journal* archives, email consultation with hearing experts, and links to other audiology sites. [http://www.audiologyonline.com](http://www.audiologyonline.com)

Listen-Up Web: Audiology Resources. A plethora of resources for the audiologist. [http://www.listen-up.org/haid/audio.htm](http://www.listen-up.org/haid/audio.htm)

Otolaryngology Resources on the Internet: Otology/Neurotology. Excellent resource for images of all aspects of ear anatomy. [http://www.bcm.edu/oto/otherosa3.html](http://www.bcm.edu/oto/otherosa3.html)

NATIONAL GOVERNMENTAL INSTITUTES and AGENCIES: partial list.

National Institute on Deafness and Other Communication Disorders (NIDCD). “[Our] mission is to uncover new knowledge that will lead to better health for everyone. Simply described, the goal of [our organization’s] research is to acquire new knowledge to help prevent, detect, diagnose, and treat disease and disability.” [http://www.muschealth.com/medical_services/specialty_listing/spec_audiology/onlineres.htm](http://www.muschealth.com/medical_services/specialty_listing/spec_audiology/onlineres.htm)

National Student Speech Language Hearing Association (NSSLHA). National organization for students studying communication disorders. Links to all manner of sites of interest to audiologists and others. Access provided to several relevant journals. [http://www.nsslha.org/NSSLHA/students/resources.htm](http://www.nsslha.org/NSSLHA/students/resources.htm)

National Institutes for Health. Among many other health topics, NIH provides links to government-sponsored resources for hearing loss due to a variety of conditions. Search under “hearing loss.” [http://www.nih.gov](http://www.nih.gov)

U.S. Department of Health and Human Services. Access to a large number of resources relating to communication disorders. [http://www.hhs.gov](http://www.hhs.gov)

OTHER PATHFINDERS with ADDITIONAL SUGGESTED LINKS

University of British Columbia. UBC Library. Links to both Canadian and U.S. to audiology and speech sciences. [http://toby.library.ubc.ca/subjects/subpage1.cfm?id=39](http://toby.library.ubc.ca/subjects/subpage1.cfm?id=39)

TUTORIALS for NSU DATABASES:

HPD produced tutorials: [http://www.nova.edu/hpdlibrary/tutorials.html](http://www.nova.edu/hpdlibrary/tutorials.html)

Tutorials developed by the Main Library: [http://www.nova.edu/library/help/techhelp.html](http://www.nova.edu/library/help/techhelp.html)
