

Full Text Books Online

On the HPD Library home page, select “online books”

The screenshot shows the HPD Library home page navigation menu. On the left, there is a vertical list of database links including CINAHL, EMBASE.com, ERIC, and others. The main content area is divided into four sections: 'Books & Other Materials', 'Library Information', 'Online Journals, Books & Resources', and 'Library Services & Help'. The 'Online Journals, Books & Resources' section contains a list of links, with 'Online books' circled in red. Below this section is a 'Website Search' box with a search button and radio buttons for 'HPD Library' and 'NSU'.

After signing in, select your book by keyword, alphabetical list or browse by health subject. This will bring you to the Novacat catalog where you can choose the link for the particular eBook you are interested in. We purchase these electronic books from various sources so you must gain access to the database which houses the title. If you know the particular vendor of the eBook you are looking for, you can select it on the left side of the page. You can print individual pages, but not an entire chapter or the whole book.

The screenshot shows the 'Electronic / Online Books' page. At the top, there is a navigation bar with 'Home', 'Site Map', and 'Go Back' links. The main heading is 'Electronic / Online Books'. Below this is a search section titled 'Search Novacat Catalog for Online Resources' with a text input field labeled 'KEYWORD' circled in red and a 'Search' button. To the left of the search section is a 'Featured Resources' sidebar with links for 'Books@Ovid', 'MDConsult', 'STAT!Ref', and 'NSU E-Book Collections'. Below the search section is the 'HPD Library E-Book Subscriptions' section, with 'Alphabetical Listing' and 'Health Subjects' circled in red. To the right of this section is a list of health subjects including AIDS / HIV, ALLERGY, ALLIED HEALTH, ALTERNATIVE MEDICINE, ANATOMY, ANESTHESIOLOGY, BIOLOGY / CHEMISTRY, CARDIOLOGY / HEART DISEASE, CLINICAL MEDICINE, CRITICAL CARE MEDICINE, DENTAL MEDICINE, DERMATOLOGY, DIABETES, DIAGNOSTIC TECHNIQUES & PROCEDURES, MICROBIOLOGY, MUSCULOSKELETAL SYSTEM, NEPHROLOGY, NEUROLOGY / BRAIN / COGNITION, NURSING, NUTRITION, OBSTETRICS / GYNECOLOGY, ONCOLOGY, OPHTHALMOLOGY / OPTICS / OPTOMETRY, ORTHOPEDIC MEDICINE, OTORHINOLARYNGOLOGY, PALLIATIVE CARE / LONG-TERM CARE, PATHOLOGY, PEDIATRICS, and PHARMACOLOGY / PHARMACY.
