Main Campus Map & Directions

From I-95 or Florida's Turnpike

Exit at I-595, proceed west to University Drive exit. Turn left (south) onto University Drive. Proceed approximately 1 ½ miles to SW 30 Street (Abe Fischler Blvd.), turn left (east). NSU's main campus will be on the right side.

From University Drive

From North of I-595

Take University Drive south 1 ½ miles past I-595 to SW 30 Street (Abe Fischler Blvd.). Turn left (east). NSU's main campus will be on the right side.

From South of Griffin Road

Take University Drive north approximately 2 miles past Griffin Road to SW 30 Street (Abe Fischler Blvd.). Turn right (east). NSU's main campus will be on the right side.

From I-75

From Miami heading north or west coast/Naples heading east

Merge onto I-595 eastbound (towards Fort Lauderdale). Exit at University Drive exit, turn right (south). Proceed approximately 1 ½ miles on University Drive to SW 30 Street (Abe Fischler Blvd.), turn left (east). NSU's main campus will be on the right side.

Message from the President

Welcome to Nova Southeastern University and congratulations on becoming a proud Shark!

As president and CEO of NSU, I invite you to become an ambassador of this extraordinary educational institution.

NSU began in 1964 in downtown Fort Lauderdale on E. Las Olas Boulevard, but it was not until 1967 that we were able to raise the necessary funds to build our first building on what is now our main campus. That one building has developed into our 314-acre campus in Davie-Fort Lauderdale. From our initial graduating class of 17 Ph.D. students, we have grown to approximately 25,000 students and more than 5 million square feet of classroom space, libraries, laboratories, and recreation areas. Our programs are offered on campuses around the state of Florida and in Puerto Rico, as well as in 12 countries and online around the world. We have more than 162,000 alumni, and our graduates reside in all 50 states and in more than 63 countries.

The university continues to experience a sustained period of academic growth, due in large part to its exploration of alternative strategies in educating professionals and its commitment to excellence in academics, research, clinical training, community service, and well-rounded opportunities for all students. Collaboration at all levels with diverse partners is the essence of NSU.

The entire NSU community is focused on achieving our Vision 2020 while adhering to our core values. I welcome you to explore this catalog and communicate with our admissions offices to best address your future goals, dreams, and ambitions. We are dedicated to providing service and academic excellence to you as you continue toward the progressive realization of your worthy goal--success.

We look forward to a lifelong partnership with you, our student.

George L. Hanbury II, Ph.D.
NSU President and Chief Executive Officer

Dean's Welcome

Welcome to NSU's College of Arts, Humanities, and Social Sciences (CAHSS)! In this exciting new academic year, as an inclusive learning community, we are building on existent strengths and vibrant successes, and committed to furthering collaborative opportunities for cross-disciplinary learning, research, and practice to fulfill NSU's Vision 2020.

Understanding and betterment of human interrelations are a central theme of our multidisciplinary, multi-professional, and multicultural endeavors at CAHSS. Our vigorous curricula have deep interdisciplinary roots. Our cutting-edge programs employ a variety of innovative models and technologies. In the course of addressing emergent challenges and complex social issues, we are building a creative bridge across theory, research, and practice drawn from different social sciences, arts, humanities, and helping professions. The CAHSS vitality is a tribute to our faculty, students, alumni, staff, and town-gown partners, in Florida and elsewhere. We are looking forward to working with you closely on campus, online, and in the communities.

Good luck with your intellectual life and career pathway!

Honggang Yang, Ph.D.
Dean and Professor

NSU VISION 2020 STATEMENT

By 2020, through excellence and innovations in teaching, research, service and learning, Nova Southeastern University will be recognized by accrediting agencies, the academic community, and the general public, as a premier private not-for-profit university of quality and distinction that engages all students and produces alumni who serve with integrity in their lives, fields of study, and resulting careers.

NSU MISSION STATEMENT

The Mission of Nova Southeastern University, a private, not-for-profit institution, is to offer a diverse array of innovative academic programs that complement on-campus educational opportunities and resources with accessible distance learning programs to foster academic excellence, intellectual inquiry, leadership, research, and commitment to community through engagement of students and faculty members in a dynamic, life-long learning environment.

NSU CORE VALUES

Academic excellence is the provision of the highest quality educational and learning experience made possible by academically and professionally qualified and skilled instructional faculty and staff, opportunities for contextual learning, state-of-the-art facilities, beautiful surroundings, and effective resources necessary to support learning at the highest level. Additionally, academic excellence reflects the successful relationship between engaged learners and outstanding instructional faculty and staff. Academic excellence is the provision of the highest quality educational and learning experiences made possible by academically and professionally qualified and skilled instructional faculty and staff, opportunities for contextual learning, state-of-the-art facilities, beautiful surroundings, and effective resources necessary to support learning at the highest level. Additionally, academic excellence reflects the successful relationship between engaged learners and outstanding instructional faculty and staff.

CAHSS MISSION STATEMENT

NSU's College of Arts, Humanities, and Social Sciences is committed to achieving inclusive excellence in teaching, research and community service. CAHSS emphasizes multidisciplinary learning, and the development of skills and competencies necessary for success in our students' respective fields. It is dedicated to the improvement of life quality, and the pursuit of collaborative and equitable means to address human challenges. Our unique and talented students learn to become reflective scholars, creative artists, ethical practitioners and skilled professionals with a critical understanding of theory and method as well as an appreciation of the diversity, responsibility and privilege inherent in global citizenship.

NSU NONDISCRIMINATION STATEMENT

Consistent with all federal and state laws, rules, regulations, and/or local ordinances (e.g., Title VII, Title VI, Title III, Title II, Rehab Act, ADA, Title IX, and the Florida Civil Rights Act), it is the policy of Nova Southeastern University not to engage in discrimination or harassment against any persons because of race, color, religion or creed, sex, pregnancy status, national or ethnic origin, nondisqualifying disability, age, ancestry, marital status, sexual orientation, gender, gender identity, military service, veteran status, political beliefs or affiliations, and to comply with all federal and state nondiscrimination, equal opportunity and affirmative action laws, orders, and regulations. Any such acts are unacceptable and strictly prohibited by the university.

In addition, the law prohibits retaliation against an individual for opposing any practices forbidden under this policy, for bringing a complaint of discrimination or harassment, for assisting someone with such a complaint, for attempting to stop such discrimination or harassment, or for participating in any manner in any investigation or resolution of a complaint of discrimination or harassment. This nondiscrimination policy applies to admissions, enrollment, scholarships, loan programs, athletics, employment, and access to, participation in, and treatment in all university centers, programs, and activities. NSU admits students of any race, color, religion or creed, sex, pregnancy status, national or ethnic origin, nondisqualifying disability, age, ancestry, marital status, sexual orientation, gender, gender identity, military service, veteran status, political beliefs or affiliations, and activities generally accorded or made available to students at NSU and does not discriminate in the administration of its educational policies, admission policies, scholarship and loan programs, and athletic and other school administered programs.

ACCREDITATION

Nova Southeastern University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, Georgia 30033-4097: Telephone number 404-679-4501) to award bachelor's, master's, educational specialist, and doctoral degrees.

INTRODUCTION TO THE COLLEGE

The College of Arts, Humanities, and Social Sciences offers stimulating undergraduate and graduate programs of study that challenge and engage students through inclusive excellence and academic innovation in teaching, research, and community outreach. A central theme in the college's doctoral, master's, and baccalaureate programs is understanding and betterment of human interrelations through multidisciplinary, multi-professional, and multicultural perspectives. CAHSS is also home to the Performing and Visual Arts Series, the Family Therapy Clinic, and Campus Diversity Dialogs. In the course of addressing emergent challenges and complex social issues, our preeminent faculty and alumni build a creative bridge across theory, research, and practice in the social sciences, arts, humanities, and helping professions. Our commitment to experiential learning and the scholarship of engagement provides our students with opportunities to become reflective scholars, creative artists, ethical practitioners, and skilled professionals. Dual Degree Programs

M.S. in Conflict Analysis and Resolution/J.D.

Ph.D. in Conflict Analysis and Resolution/J.D.

DUAL ADMISSION INTO ONE OF OUR M.S./M.A. PROGRAMS

The Dual Admission program represents collaboration between undergraduate programs and graduate programs at NSU. Selected master level programs in CAHSS participate in the Dual Admission program. This means that a well-qualified student accepted into an NSU undergraduate program may seek to have their eligibility determined for Dual Admission into one of our M.S./M.A. programs. If all qualifications and requirements are met and continue to be met throughout their undergraduate studies, a seat in the graduate program would be reserved for that undergraduate student upon their graduation. Dual Admission students are in contact with the graduate program throughout their undergraduate studies and may be invited to certain graduate events. For more information about Dual Admission, please see:

<http://www.nova.edu/undergraduate/academics/dual-admission/index.html>

For Information on Undergraduate programs, please refer to the Undergraduate Student Catalog: <http://www.nova.edu/undergraduatestudies/index.html>

Tuition and Fees

2018-2019 Tuition and Fee Schedule

Tuition:

- Doctoral Programs: \$1095 per credit
- Master's and Graduate Certificate Programs: \$755 per credit
- Undergraduate Programs: \$998 per credit

Veterans: A 20% tuition discount on doctoral programs, master's programs, and graduate certificate programs is awarded to veterans, upon verification.

Fees:

- Registration Fee: \$30 per term
- Student Services Fee: \$450 per term for students enrolled in 4 or more credits
\$225 per term for students enrolled in fewer than 4 credits

For additional fees which would apply to individual undergraduate courses please refer to the Undergraduate Student Catalog:

<http://www.nova.edu/undergraduatestudies/index.html>

Admissions, Enrollment, Orientation, and Registration

Instructions for applying to our programs are detailed in our application packet available at <http://cahss.nova.edu/graduate/index.html>. Specific programs admit for fall term only while other programs admit for fall, winter, and summer terms.

Admissions Criteria

Specific degree and program admissions criteria are available online, as indicated in the chart, below. All CAHSS programs require that students have a willingness to be tolerant, nonjudgmental, and open-minded towards different types of people across multiple cultures as well as the ability to show compassion and fairness in challenging situations.

Doctoral Programs

CAHSS accepts applications to the doctoral programs from any person who possesses, or is in the process of completing, a master's degree from a regionally accredited university. Applicants to the doctoral programs in Conflict Analysis and Resolution, Family Therapy and Marriage and Family Therapy should have a minimum GPA of 3.5 in their master's program. Applicants to the doctoral program in Criminal Justice should have a minimum GPA of 3.0 in their master's program. Applicants must possess a master's degree prior to beginning doctoral studies.

Applicants chosen for admission to the Ph.D. programs demonstrate not only prior academic excellence in their undergraduate and graduate work, but also the ability to think and write analytically, communicate respectfully. Ph.D. applicants should have written and verbal communication skills; research or evaluation experience; and a demonstrated commitment to the focused pursuit of a doctoral degree program.

Master's Degree Programs and Graduate Certificate Programs

CAHSS accepts applications to the master's degree programs and graduate certificate programs from any person who possesses, or is in the process of completing a bachelor's degree from a regionally accredited university. Master's and graduate certificate applicants should have a minimum GPA of 3.0 in their bachelor's program; for the M.A. in Composition, Rhetoric, and Digital Media, this is a preferred qualification. Applicants must complete all bachelor's degree requirements before beginning graduate studies.

Student Enrollment

In order to maintain an active student status, all students are to be in continuous registration until they receive their degree unless prior approval is received. Failure to remain in continuous registration will be considered formal withdrawal from the program.

Full-Time Status

Students are considered to be full-time if they complete six credit hours each semester. Ph.D. students are recommended to follow the "Course of Study/Degree Plan." A student on financial aid considering completing less than the scheduled credit hours in any given semester/term should discuss this with the Financial Aid Office prior to the time of registration.

Time Limits

Master's Programs: Students must complete their program within five years from the date of first enrollment. This means that students are expected to graduate with the Master degree within this time period.

Doctoral Program: Students must complete their program within seven years from the date of first enrollment. This means that students are expected to graduate with the Doctoral degree within this time period.

In order to remain an active and matriculated student, registration is required in every semester, until the completion of degree requirements unless a leave of absence has been granted. Failure to remain in continuous registration will be deemed the student's formal withdrawal from the program. All other program, center, and university requirements will be in effect.

Leave of Absence

Matriculated students (degree candidates) who must interrupt their studies for an adequate reason such as illness may be granted a leave of absence. Students must apply in writing or by e-mail for a leave of absence to the program office three (3) weeks prior to the start of the new term. If granted, the leave shall be for a stated period of time, not to exceed one year. Time spent on an approved leave of absence is charged against the degree program time limit (5 years for master's degree and 7 years for doctoral degree). Students who interrupt their studies without being on an approved leave of absence will be assumed to have terminated their studies.

Auditing Classes

Students wishing to audit a class may do so if there is space and with permission of the instructor and Department Chair. Students who are auditing a class may participate in class discussions, but will not be required to fulfill class requirements. Auditing students do not complete class assignments and do not receive academic credit for the class. An audit notation (AU) will appear on transcripts. Auditing fees equal 60% of the regular tuition cost of the course.

Non-degree Seeking Students

CAHSS accepts applications for non-degree seeking students from any person who possesses a bachelor's degree or is waiting for their degree to be conferred from a regionally accredited university. Non-degree seeking students may take up to three classes (9 credits). These credits may transfer into a relevant CAHSS degree program. If a non-degree seeking student wishes to enter a degree program, s/he must formally apply to the program of interest.

New Student Orientation

Students enrolled in on-campus programs receive a one-day orientation at the beginning of the fall term. At that time, students meet the faculty, talk with their program administrators, attend computer workshops, library training, and participate in various student activities. New student orientation is intended to provide information, answer questions, and welcome students to the CAHSS learning community. Much of the information presented at orientation is available on the college's website.

Distance students in the Department of Conflict Resolution Studies attend sessions at the fall Residential Institute that cover this information. Students also receive an email

containing all of the necessary orientation information, as well as a link to a recorded orientation presentation.

Department of History and Political Science graduate students receive an email containing all of the necessary orientation information as well as a link to a recorded orientation presentation. Students are also invited to participate in a synchronous orientation follow-up, facilitated by faculty and staff members.

For information on new student orientation for incoming undergraduate students, please go to: <http://www.nova.edu/studentorientation/index.html>

Textbooks

Barnes & Noble College Bookstores, the university's official bookstore, offers comprehensive services to local and online students. While students have the option to purchase textbooks from other online and local sources, there may be benefits from purchasing from the university's bookstore (on-campus or online). The university's bookstore provides a wide range of shipping options; to access the NSU Bookstore website please visit:

<http://nsubooks.bncollege.com/webapp/wcs/stores/servlet/BNCBHomePage?storeId=10055&catalogId=10001&langId=-1>

Registration

Student Enrollment Agreement (SEA): All students registering for classes must complete the Student Enrollment Agreement as part of the registration process. To view a copy of the NSU Student Enrollment Agreement, please visit:

<http://www.nova.edu/registrar/forms/catch-the-sea-wave.pdf>

Registration Process: Students will participate in course selection via SharkLink/WebStar prior to the start of each term. General registration procedures and information are provided to students at the time of entrance to the program. It is the students' responsibility to register for their courses by logging onto the official Nova Southeastern University (NSU) SharkLink portal which can be found at: <https://sharklink.nova.edu/cp/home/displaylogin>

After students have registered, should any problems arise related to registration information or credit fees, students should contact their program administrators.

Failure to Register: Students who fail to register for a semester without an approved leave of absence are considered to have terminated their studies. Such students may petition for re-entry into the program if they wish to reenter the program.

ABOUT OUR ACADEMIC POLICIES

Attendance

Students are required to attend all scheduled learning activities, which include but are not limited to lectures, chats, seminars, and exams. It is the policy of the university to excuse, without penalty, absences due to religious observations and to allow students to make up missed work. Course instructors should be notified in advance in the case of any anticipated absence. Students should review the course syllabus for course-specific policies related to attendance.

Academic Progress

Students shall be placed on academic probation when they receive an F for a course, when they have two Cs, when they have more than two active incompletes, or when their GPA falls below 3.0 for masters, 3.5 for the Conflict Analysis and Resolution, Family Therapy, and Marriage and Family Therapy doctoral programs. In the Department of History and Political Science, students will be placed on academic probation when their GPA falls below 3.0 grade point average to remain in good standing in the program. Students will have one semester in which to bring their program GPA back to 3.0 or above. Failure to do so will lead to dismissal from the program. Academic probation is noted on the student's transcript.

All courses with an F must be retaken and passed at the next time offered and within one year. If a student has two Cs, course(s) must be retaken within one year to reduce the number of Cs to one. Students with an 'I' (Incomplete) must resolve all incomplete grades within one term. Students who do not successfully resolve academic probation within one academic year may be dismissed from the program. In the Department of History and Political Science, students will have one semester in which to bring their program GPA back to 3.0 or above. Failure to do so will lead to dismissal from the program.

MACS students within the Department of Multidisciplinary Studies who receive a second C or an F in an elective course have the option to retake that course or replace it with a different elective. The Department must be notified of this inclusion/exclusion.

NSA students within the Department of History and Political Science who receive an F for any course will be dismissed from the program, subject to the right of appeal. All appeals must be submitted in writing to the Chair of the Department of History and Political Science and are then subject to review by the National Security Affairs Admissions Committee.

Students with more than one F at any time will no longer be considered in good standing in the program. These students will be required to meet with the Program Director/Chair and faculty representatives in order to determine whether the student will be allowed to continue in the program (In the Department of Justice and Human Services, communications will take place online). The program reserves the right to dismiss such students from the program.

Students dismissed from the program may petition for readmission after one academic year. Such students will have their records examined by the program's administration. If approved, the student will be readmitted to the program at that time. Only those courses with grades of B or better will be applied toward the degree. Dismissal for violations of professional, ethical conduct will be final. In the Department of History and Political Science, all cases of documented plagiarism or cheating will lead to automatic dismissal from the program. Reports of plagiarism and cheating are first reported by faculty, with

supporting documentation, to the Chair of the Department of History and Political Science. Students accused of plagiarism or cheating may submit an appeal in writing to the Chair of the Department of History and Political Science, which will then be adjudicated by the National Security Affairs Admissions Committee. Students dismissed for such conduct will not be considered for readmission to the program.

Readmission

Students dismissed from the program may petition for readmission after one academic year and will need to reapply (repeat the application process) and have their records examined by the Program Office. Upon approval, the student will be readmitted to the program in effect at that time. Only those courses completed within the past 5 years with grades of "B" or higher will be applied toward the degree.

Transfer of Credit

Credit hours may be accepted for transfer into the Ph.D. and M.A./M.S. programs. These must be graduate courses taken at regionally accredited colleges or universities. All courses to be transferred must be substantially equivalent to courses taught in the program to which the student is applying. Each applicant's submissions will be reviewed on an individual basis. There are no transfer credits given for electives except within the Department of Writing and Communication.

Transfer of credits need to be submitted upon admission to a program and prior to the development of degree plans. Requests for transfer of credit must be completed before the end of the student's first term. Requests for transfer of credit received after the completion of the student's first term will not be accepted.

To be considered for transfer of credit, students must submit an Application for Transfer of Credit, available online for the program to which they are applying. The application must be supported with a catalog course description and the syllabus that documents the content of each of the course. No more than two courses may be used to establish equivalence with a single NSU course. Approved transfer credit from a single course completed at a prior institution may be applied to only one NSU course; transfer credit from a single course may not be applied across multiple NSU courses. To be considered for transfer of credit, courses must have been completed less than 7 years prior to the beginning of the student's first term. Also, course grades for any transfer of credit request must be a "B" or higher. Courses approved for transfer of credit are recorded on the student's NSU transcript.

Course work submitted from a foreign institution will be evaluated for equivalency in accordance with accreditation standards.

The following is the maximum number of transfer credits accepted by each program:

Maximum Number of Transfer Credits Accepted, by Program

Program	Maximum Number of Transfer Credits
Doctor of Philosophy in Conflict Analysis and Resolution	15
Doctor of Philosophy in Family Therapy	21
Doctorate in Marriage and Family Therapy	Varies; consult program
Master of Arts in Composition, Rhetoric, and Digital Media	6
Master of Arts in Cross-Disciplinary Studies	12
Master of Science in College Student Affairs	9
Master of Science in Conflict Analysis and Resolution	9
Master of Science in Family Therapy	9
Master of Science in National Security Affairs and International Relations	6

DCRS or DMS students who may be unable to receive Transfer of Credit but who can demonstrate mastery of a required course, (i.e., through extensive professional experience) may be able to receive a Waiver of Requirement. The Waiver of Requirement does not provide credit; rather it enables a student to take an elective in lieu of the required course. Waivers are at the sole discretion of the department and must be requested prior to the end of the first term in the program.

Students entering the M.S. in National Security Affairs and International Relations may apply for credit based on prior experience, for example military training programs. They must demonstrate through a portfolio and, when appropriate, a test or an oral presentation that they have mastered through experience the learning outcomes of a particular course. This is included in the maximum 6 credits mentioned above. Please contact the Department of History and Political Science for more details.

For more information about the transfer of credits, please visit the NSU Transfer Evaluation Services website at: <http://www.nova.edu/tes/graduate/index.html>.

Masters En Route

Students enrolled in the Ph.D. in Conflict Analysis and Resolution, Ph.D. in Family Therapy, and D.M.F.T. in Marriage and Family Therapy programs oftentimes complete master’s level core courses to achieve readiness to begin doctoral level courses. In doing so, these students may complete the requirements for a M.S. degree in Conflict Analysis and Resolution or for a M.S. degree in Family Therapy and may be eligible to request, be considered for, and be awarded a master’s degree. For a master’s degree to be awarded to a doctoral student, the student must be in good academic standing, have maintained a minimum cumulative GPA of 3.5, have remained actively enrolled, and must request in writing to be evaluated for this “Granting of a Master’s degree” provision.

Students who are enrolled in a master’s or doctoral degree program in the Department of Conflict Resolution Studies (DCRS) or in the Department of Family Therapy (DFT), but are

unable to complete the program, may be eligible to request, be considered for, and be awarded a graduate certificate in their field of study. Students must be in good academic standing, actively enrolled, and have a minimum cumulative GPA of 3.0. This applies to DFT and DCRS students, only.

The program director and department chair will review each student request to determine if the requirements set forth are met. A decision will be made and communicated in writing by the department chair. If approved, the student will be eligible to submit a degree application. All NSU degrees are awarded by the Nova Southeastern University Board of Trustees, upon the recommendation of the faculty.

Adding/Dropping/Withdrawing from Classes

Students must register for courses prior to the beginning of the term. The Drop/Add period can be identified on the CAHSS Academic Calendar located in this catalog and online. Various refund periods are detailed in the Academic Calendar:

<http://cahss.nova.edu/students/academic-calendars.html>

The dates for withdrawing from a course are identified on the Academic Calendar. Withdrawal from a course during the timeframe designated on the Academic Calendar shall lead to a W being placed for that course on the transcript.

If a student does not participate in a course during the first two weeks, that student will be dropped from the course, per university registrar guidelines.

A student will only be permitted to petition and receive consideration for a retroactive drop, withdrawal, or refund for a course no more than 30 days after the end of the term if he or she has extremely extenuating circumstances and provides the appropriate documentation.

Refund Schedule (Graduate students only)

The following schedule applies to refund payments for each class:

Drops during the first week of the term: 100% refund
Drops during the second week of the term: 75% refund
Drops during the third week of the term: 50% refund
Drops during the fourth week of the term: 25% refund

The withdrawal deadline is three weeks before the end of the course: no refund.

Changes to course registrations will not be accepted 30 days after each semester ends. Students are responsible for reviewing their registration and academic records each semester for accuracy.

Call the program office and/or notify the instructor concerning unanticipated withdrawals (e.g., sudden illness) or class absences. For advisement on withdrawals and refunds, contact the program office.

Course Cancellation

The university reserves the right to cancel any course. If a course is cancelled and a replacement is not offered, students will receive a full refund of tuition paid for the cancelled course.

Incomplete Grades

A student can request an incomplete grade under certain extenuating circumstances when unable to complete all course requirements within the term registered. An incomplete grade may be granted only if the student is maintaining a passing average on all required course work up to the point of the request. Students, rather than faculty, must initiate a request for an incomplete grade.

A student must discuss with his or her instructor the need for an incomplete in the course and then make a formal, written request to his or her instructor for an incomplete grade. Such requests, unless there is an unexpected medical emergency, must be approved two weeks before the last regularly scheduled class (refer to the CAHSS Academic Calendar). The Incomplete Grade Request Form must include a detailed description of the work that needs to be completed, the term, expected completion date, and any other information agreed to by the student and instructor. Signatures must be completed prior to a final approval and filing the originally signed form with the Program Coordinator. To review an Incomplete Grade Request Form visit <http://CAHSS.nova.edu/Downloads>.

An incomplete, noted as "I" on the student's transcript, is for a period of one term only. It is the responsibility of the student to work with the instructor and submit completed work by the agreed upon date and prior to the last day of class of the following term. At the end of the following term, if the work has not been completed, the incomplete grade is automatically changed to an F. Students who have an outstanding incomplete grade or who have a failing average may not receive an additional incomplete.

Please note that incomplete grade policies for various programs may vary. For example, no incomplete grades are given for practicum courses in Family Therapy; however, DCRS offers consideration of an incomplete grade under extreme unexpected circumstances. The practicum handbook for each department offers information about the current policy.

Academic Evaluation and Standards

All CAHSS graduate courses will be graded according to the following scale:

Grade	Quality Points	Percentage Points
A	4.00	93 - 100
A ⁻	3.75	90 - 92
B ⁺	3.50	87 - 89
B	3.00	83 - 86
B ⁻	2.75	80 - 82
C ⁺	2.50	77 - 79
C	2.00	73 - 76
C ⁻	1.75	70 - 72
F	0.00	69 and below

Degree Conferral

Students who have completed all degree requirements must submit an application for degree. A fee is required upon submission of the degree application form, which is available on the CAHSS resource page (<http://cahss.nova.edu/students/current.html>) and on the Registrar's webpage (<http://www.nova.edu/registrar/index.html>).

Upon approval, the application is presented to the University's Board of Trustees for conferral. Degrees are conferred at the end of the month in which the application for degree/diploma was approved and recommended to the Board of Trustees by the academic department and the Office of the Registrar.

Graduation Requirements

Students must complete all degree requirements within the stated time limit. In addition, doctoral students must have a 3.5 GPA (3.0 in the Ph.D. in Criminal Justice program) and M.A./M.S. students must have a minimum 3.0 GPA at the time of degree completion. Students must not be in financial arrears with any office at NSU.

Alumni Association

All graduates of Nova Southeastern University are automatically members of the NSU Alumni Association, which provides many benefits and opportunities for engagement. Information about the NSU Alumni Association can be found at: <http://www.nova.edu/alumni/benefits/alumni-discounts.html>.

STUDENT RIGHTS AND RESPONSIBILITIES

Nova Southeastern University Statement on Student Rights

The following is excerpted from the NSU Student Handbook
(http://www.nova.edu/studentaffairs/forms/studenthbk_may2018.pdf)

Nova Southeastern University, as a community of women and men, is committed to furthering scholarship, academic pursuits, and service to our society. As an institution, our purpose is to ensure all students an equal opportunity to fulfill their intellectual potential through pursuit of the highest standards of academic excellence.

Nova Southeastern University students enjoy the right to learn, both within and outside of the classroom, in an environment that is free from discrimination based on the University Equal Opportunity/Nondiscrimination Policy included below.

While it is not possible to address all eventualities, it is important that rights of Nova Southeastern students be embraced by the community and observed in the spirit of the university's mission. These rights include, but are not limited to,

- **the right to scrupulous respect for the equal rights and dignity of others**
- the right to be treated equally in academic and social settings
- the right to live and/or attend classes in a physically safe environment
- the expectation of a positive living/learning environment
- the right to hold other students accountable to the Code of Student Conduct and Academic Responsibility

- **the rights of personal and intellectual freedom which are fundamental to the idea of a university**
- the right of dedication to the scholarly and educational purposes of the university
- the right to participate in promoting and ensuring the academic quality and credibility of the institution.

- **the right to provide service to our community and beyond**
- the right to engage in service opportunities that enhance learning outcomes, both on and off campus
- the right to associate with student organizations of one's own choosing

A. Academic Standards

The university is an academic community and expects its students to manifest a commitment to academic integrity through rigid observance of standards for academic honesty. The university can function properly only when its members adhere to clearly established goals and values. Accordingly, the academic standards are designed to ensure that the principles of academic honesty are upheld.

The following acts violate the academic honesty standards:

- 1. Cheating**—intentionally using or attempting to use unauthorized materials, information, or study aids in any academic exercise
- 2. Fabrication**—intentional and unauthorized falsification or invention of any information or citation in an academic exercise
- 3. Facilitating Academic Dishonesty**—intentionally or knowingly helping or attempting to help another to violate any provision of this code
- 4. Plagiarism**—the adoption or reproduction of ideas, words, or statements of another person as one's own without proper acknowledgment

Students are expected to submit tests and assignments that they have completed without aid or assistance from other sources. Using sources to provide information without giving credit to the original source is dishonest. Students should avoid any impropriety or the appearance thereof in taking examinations or completing work in pursuance of their educational goals.

Students are expected to comply with the following academic standards:

1. Original Work

Assignments such as course preparations, exams, texts, projects, term papers, practicum, or any other work submitted for academic credit must be the original work of the student. Original work may include the thoughts and words of another author. Entire thoughts or words of another author should be identified using quotation marks. At all times, students are expected to comply with the university and/or program center's recognized form and style manual and accepted citation practice and policy.

Work is not original when it has been submitted previously by the author or by anyone else for academic credit. Work is not original when it has been copied or partially copied from any other source, including another student, unless such copying is acknowledged by the person submitting the work for the credit at the time the work is being submitted, or unless copying, sharing, or joint authorship is an express part of the assignment. Exams and tests are original work when no unauthorized aid is given, received, or used before or during the course of the examination, re-examination, and/or remediation.

2. Referencing the Works of Another Author

All academic work submitted for credit or as partial fulfillment of course requirements must adhere to each program center's specific accepted reference manuals and rules of documentation. Standards of scholarship require that the writer give proper acknowledgment when the thoughts and words of another author are used. Students must acquire a style manual approved by their center and become familiar with accepted scholarly and editorial practice in their program. Students' work must comport with the adopted citation manual for their particular center.

At Nova Southeastern University, it is plagiarism to represent another person's work, words, or ideas as one's own without use of a center-recognized method of citation. Deviating from center standards (see above) are considered plagiarism at Nova Southeastern University.

3. Tendering of Information

All academic work must be the original work of the student. Knowingly giving or allowing one's work to be copied, giving out exam questions or answers, or releasing or selling term papers is prohibited.

4. Acts Prohibited

Students should avoid any impropriety or the appearance thereof, in taking examinations or completing work in pursuance of their educational goals. Violations of academic responsibility include, but are not limited to the following:

- Plagiarism
- any form of cheating
- conspiracy to commit academic dishonesty
- misrepresentation
- bribery in an attempt to gain an academic advantage
- forging or altering documents or credentials
- knowingly furnishing false information to the institution

Students in violation will be subjected to disciplinary action.

Student Appeals

Students must initiate the appeals process no later than 30 days after the decision to be appealed is made. In case of a grade appeal, the appeals process must be initiated no later than 30 days after the grade is posted. As students follow the process steps and make contact with the appropriate faculty and administrators, they are encouraged to use email

as a means of confirmation. Please copy the appropriate department assistant to enhance follow-up.

1. Discuss the matter with the faculty member. If the matter is not resolved within 30 days after contact is made and the student wishes to continue the appeal process, s/he should:
2. Discuss the matter with the appropriate Program Director/Chair of the Department. If the matter is not resolved within 30 days after contact is made and the student wishes to continue the appeal process, s/he should:
3. Discuss the matter with the appropriate Department Chair. Please note that at Step 3, the student must document his/her grievance. If the matter is not resolved within 30 days after contact is made, and the student wishes to continue the appeal process, she or he should:
4. Discuss the matter with the Dean of CAHSS, who is the final arbitrator.

Institutional Review Board (IRB)

NSU encourages the conduct of research in and among its colleges and centers, and in collaboration with other educational institutions, agencies, and organizations. While respecting the right of faculty to full academic freedom in research, the university is firmly committed to adhering to basic ethical principles underlying the acceptable conduct of research involving human subjects.

Students must process **all** proposed research through the CAHSS IRB representative. Please consult the Chair of the department and the IRB website for additional information. The IRB website is <http://www.nova.edu/irb/>. Any violation of this process is considered a breach of ethics and grounds for dismissal.

Email Policy

In keeping with NSU policy, the College of Arts, Humanities, and Social Sciences (CAHSS) requires its students to hold and regularly maintain one official university-assigned account that is used to access major computing resources, including email. Students **MUST** use their NSU email accounts when sending email to faculty and staff and must clearly identify their names and other appropriate information, e.g., course or program. When communicating with students via email, faculty and staff members will send mail **ONLY** to NSU email accounts using NSU-recognized usernames. Students who forward their NSU-generated email to other email accounts do so at their own risk of not receiving required program information.

Faculty/Student Collaboration

Students are encouraged to collaborate with faculty on articles and books for publication. Students are also encouraged to collaborate with faculty on presentations, and may do co-therapy, co-mediation, etc. with faculty as indicated by their practicum supervisor. In general, collaborative relationships are encouraged within the boundaries of mutual respect and appropriate roles.

Advertising

It is against University policy for students to advertise their business activity, even if program related, through e-mail or mail box distribution to faculty, students and staff.

Drug-Free Schools and Campuses

In order to comply with the Drug-Free Schools and Communities Act (Pub. L. No. 101-226, title 34 C.F.R., part 86) Nova Southeastern University has adopted the following policy for all workplace, school, campus, and field-based programs.

The unlawful manufacture, distribution, dispensation, possession, or use of illicit drugs and the abuse of alcohol are prohibited in and on Nova Southeastern University-owned or -controlled property and as a part of any of its activities. No Nova Southeastern University employee or student is to report to work or school while under the influence of illicit drugs or alcohol.

Tobacco-Free Policy

Smoking and tobacco use are prohibited in all Nova Southeastern University facilities and on all university property and other properties owned or leased by the University with no exceptions. For more information please visit: <http://www.nova.edu/tobacco-free/policy.html>.

Privacy of Records

Nova Southeastern University maintains a system of records that includes application forms, admission test scores, and transcripts of students' previous academic records and performance. These records are available for review by current and former students upon written request to the Office of the University registrar. However, the registrar will not release transcripts of students' academic records until all accounts, both academic and nonacademic, have been paid.

The University is regulated by FERPA (Family Education Rights and Privacy Act) which limits access by and disclosure to a third party. Such access is given only upon consent of the student or if required by law, except for the following information, which may be released as directory information: a) student's name, b) address, c) dates of attendance, d) degree and awards received. Requests for such information must be submitted in writing to the university. The university reserves the right to refuse the above information if the reason for the request is not considered to be sufficient need to know.

Any student or parent not wishing to have this information disclosed should notify the Office of the University Registrar in writing before September 1 of the relevant School year.

Students do not have the right of access to educational records until they have been admitted to and have actually begun attending Nova Southeastern University. There is no prohibition from disclosing such information to the parents of students who are listed on their parents' federal income tax forms.

Parents or eligible students will be provided a hearing by the university if they wish to challenge the content of the record. If they are still not satisfied, the parents or eligible students may add explanatory or rebuttal matter to the record.

If students' are denied access to a hearing or if the records are alleged to have been illegally disclosed to a third party, the student or parent(s) may file a complaint with the U.S. Department of Education.

Reservation of Power

Nova Southeastern University reserves the right to amend, modify, add to, or delete its rules, policies, and procedures affecting its institutional relationship with students as deemed necessary by the administration. Any such amendment, modification, addition, or deletion shall not be considered a violation of the relationship between the university and the student. Such right includes modification to academic requirements, curriculum, tuition, and/or fees when in the judgment of the administration such changes are required in the exercise of its educational responsibility.

ACADEMIC SUPPORT SERVICES

Library Resources

The university library system is composed of the East Campus Branch Library, Einstein Library, Health Professions Division Library, Law Library, North Miami Beach Branch Media Union, Oceanographic Library, and four school libraries on the main campus. Also, branch libraries are located in the Bahamas, Jamaica, and Panama. Agreements have been signed with 19 academic libraries throughout the world to provide library support for NSU programs offered in specific geographical areas. The catalogs of all libraries are accessible to local and distance education students and faculty, wherever they may be located, via computers using the Electronic Library. Overall, the university's libraries house approximately 360,000 volumes and 1,300,000 microfilm units. Online and CD-ROM databases complement the paper-based holdings and provide full-text resources. Interlibrary loan arrangements through networked organizations such as the Online computer Library Center (OCLC), the Southeast Florida Library Information Network (SEFLIN), the Consortium of Southeastern Law Libraries (COSELL), and the National Library of Medicine (NLM) provide broad access to a wide range of materials.

Distance education student have access to books, journal articles, microfiche, dissertations, index searches, catalog searches, and reference librarians. Librarians travel to class sites to teach students at a distance from the campus. Distance students can request library material using fax, mail, or computer.

The 325,000-square-foot Alvin Sherman Library is one of the largest library buildings in the state of Florida and offers full collections of research materials, specialized databases, popular fiction and nonfiction books, magazines and journals, CDs, and DVDs. The library houses 800,000 volumes, electronic classrooms, a 500-seat auditorium, museum-style collections and exhibits, and has access to educational resources throughout the country.

Career Development

The mission of the Career Development office is to provide a supportive environment for NSU students and alumni to engage in individualized career exploration and planning that complements their academic experience and supports their professional goals.

All students are encouraged to participate in career advisement, opportunities to meet employers, and assistance with preparation for the job or graduate school search. Come and let us:

- Develop a career life plan, from choosing a major to conducting a job search
- Explore career and/or graduate/professional school opportunities
- Secure employment

Financial Aid

Nova Southeastern University's Office of Student Financial Assistance, administers comprehensive federal, state, institutional, and private financial aid programs. The purpose of these programs is to provide monetary assistance to students who can benefit from further education but who cannot do so without such assistance. Students interested in applying for financial aid should contact the Office of Student Financial Assistance at (954) 262-3380 or toll free at 800-806-3680 or via e-mail at finaid@nova.edu

When to apply for Financial Aid

It is recommended that students apply for financial aid well in advance of the date the funds will be needed because normal application processing can take up to twelve weeks. It is extremely important that students complete all forms correctly and respond promptly to all inquiries in order to prevent delays in processing. Awards are made only for the academic year. Applications are generally available each January for the following academic year.

General Eligibility Requirements

In order to participate in the financial aid programs, participants generally must:

1. Be U.S. citizens, permanent residents, or in the United States for other than temporary purpose and be able to provide proof of such
2. Be accepted for enrollment in an eligible degree-seeking program at Nova Southeastern University
3. Be making satisfactory progress in their course of study
4. Not be in default of or owe a refund for any financial aid received previously
5. Sign a statement of educational certification
6. Be registered with Selective Service if required to do so by federal law.

International Students

The Office of International Students and Scholars (OISS) provides complete support and advisory services. The goal of OISS is to provide excellent service to all international students to allow for an overall remarkable experience. OISS staff are available to answer your questions and help you with any immigration-related problem that you may have. Please feel free to email them if you have any questions or concerns.

Intl. Students and Scholars
Nova Southeastern University
Horvitz Admin. Bldg., 2nd Floor
3301 College Avenue
Ft. Lauderdale, FL 33314
(954) 262-7240
800-541-6682, ext. 27240
For more information, please visit:

<http://www.nova.edu/internationalaffairs/students/index.html>

Students with Disabilities

Nova Southeastern University complies with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990. No qualified individual with a disability shall be excluded from participation in or be denied the benefits of the services, programs, or activities of the university, or be subjected to discrimination by reasons of his or her disability. Student requests for accommodation will be considered on an individual basis in accordance with the Institute's procedures.

Suicide and Violence Prevention

NSU's commitment to collaboration is clearly evidenced by the Office of Suicide and Violence Prevention. Dr. Douglas Flemons, CAHSS Professor of Family Therapy, co-directs the office with Dr. Scott Poland, CPS Professor of Psychology. The office, which reports to the Division of Clinical Operations, is also staffed by a post-doc psychologist and a graduate assistant. Drs. Flemons and Poland and their staff offer trainings throughout the campus on suicide prevention, suicide assessment, stress reduction, and time management, and their website

at <http://www.nova.edu/suicideprevention/> provides resources for campus based *and* online students, faculty, and staff. The office is just completing a 3-year SAMHSA grant that funded the creation of three video-supported Blackboard training modules on suicide prevention and assessment, designed to assist in the creation of a human safety net for the entire NSU community. Drs. Flemons and Poland, co-PIs for the grant, were assisted by the grant coordinator, Dr. Erin Procacci, and by creative consultant Dr. David Spangler, a professor and administrator in the Fischler School of Education.

Veterans

Veterans' Benefits

Nova Southeastern University programs are approved for the training of veterans and other eligible persons by the Bureau of State Approval for Veterans' Training, Florida Department of Veterans' Affairs. Eligible veteran's and veterans' dependents should contact:

NSU Veteran Benefit Administrator/Certifying Official
800-541-6682, ext. 27236
Fax (954) 262-3864
Office Hours: Monday - Friday, 8:30 am - 5:00 pm EST

Veterans Resource Center

The mission of the Veterans Resource Center (VRC) is to link veterans with university and community resources, as well as provide a welcoming environment for student-veterans to meet, relax, and gather. The VRC is located on the second floor of the Rosenthal Building in Room 218. The room is open from 7:00 a.m. to 10:00 p.m., seven days a week. For more information about NSU's Veterans Resource Center, please call (954) 262-FLAG (3524) , email us (VRC@nova.edu) or visit website www.nova.edu/veterans

Standard of Progress

A student receiving veterans' benefits must maintain satisfactory progress. Students will be considered to be making satisfactory progress as long as they meet the academic standards set by their departments for retention in their degree programs.

A student who, at the end of any evaluation period, has not attained and maintained satisfactory progress will be certified, in a probationary status, for only one additional evaluation period. Should this student not attain and maintain satisfactory progress by the end of the probationary period (one evaluation period), the student's VA educational benefits will be terminated for unsatisfactory progress.

A student whose VA educational benefits have been terminated for unsatisfactory progress may petition the school to be re-certified after one evaluation period has elapsed. The school may re-certify the student for VA educational benefits only if there is a reasonable likelihood that the student will be able to attain and maintain satisfactory progress for the remainder of the program.

For VA payment of benefits purposes, an "I" (Incomplete) designation for a course must be converted to a credit grade counting toward graduation, or a failing grade, by the end of one calendar year unless permission for a delay is granted by the Academic Dean for that program.

Grade/Progress Reports for VAs

Each VA student will be provided a grade/progress report at the end of every evaluation period (e.g., term, semester). A copy of each report will be placed in the student's permanent file maintained by the school. The university periodically furnishes each student with a working transcript that shows current status of grades and earned semester hours for all courses completed and/or attempted, plus grades for courses in which the student is currently enrolled.

Credit for Prior Training (CPT)

Nova Southeastern University complies with federal regulations for veterans' training that it is mandatory for all veterans benefits recipients to report either prior education and/or training. A student receiving veterans benefits who has previous post-secondary educational training/experience must request official transcript(s) be sent to the school. If the transcript has not been received prior to the end of the student's second term here at Nova Southeastern University, the student cannot be certified for veteran's benefits for the upcoming term. The student can be certified for veteran's benefits after the transcript has been received.

The school will evaluate the student's previous training and/or experience and grant credit as appropriate. Should credit(s) be accepted and/or granted, the student's tuition and training time will be reduced proportionately, with the veteran and VA so notified.

Write from the Start Writing and Communication Center (WCC)

The NSU Write from the Start Writing and Communication Center (WCC) is an innovative workspace where students, consultants, and faculty from all disciplines come together, in person and online, to discuss and develop writing and communication skills.

Located on the 4th floor of Alvin Sherman Library, the WCC offers all NSU students one-on-one assistance at any stage of the process, from brainstorming through final editing. WCC consultants help students develop and strengthen general writing and communication skills during face-to-face or online consultations.

Services include assistance on the following: academic projects (essays, lab reports, theses, dissertations); digital projects (presentations, posters, infographics); professional projects (articles for publication); personal projects (creative writing); oral presentations.

For more information or to make an appointment, students can visit the WCC website—www.nova.edu/wcc—or call 954-262-4644.

ABOUT OUR PROGRAM FORMATS

Campus-Based Programs

All campus-based programs offered through CAHSS are scheduled at times convenient for most working adults.

Graduate programs in Conflict Analysis and Resolution are offered in both campus-based and distance learning formats. Students may enroll on a full time (9 credits per term) or part time (6 credits per term) basis. Please note that for purposes of financial aid, 6 credits are considered fulltime. Courses are offered during 3 terms per year: Fall, Winter, and Summer.

Campus-based classes in the Department of Conflict Resolution Studies are scheduled in the evening, 6:00 P.M. – 9:00 P.M. Full-time students attend classes three evenings per week; part-time students attend classes two evenings per week. All residential courses are also offered online; times for synchronous sessions in online courses vary.

The residentially offered **Ph.D. in Family Therapy** program can be completed in 5 years with the maximum timeframe of 7 years. If a student has not graduated once she/he has reached the 5-year mark, the student must apply for a one-year extension and receive approval from the program director. Approval from the program director must be obtained for each subsequent extension until the 7-year mark has been reached. Once students have passed the 7-year mark, students will be dismissed from the program. Full-time enrollment is considered to be at least nine credit hours per term, fall, winter, and summer. Please note that, for the purposes of financial aid, 6 credits are considered fulltime. Once students begin their dissertation, they are considered full-time when registered for at least three credit hours per term. After taking 9 credit hours of dissertation, students may enroll in one dissertation credit hour per term and still be considered full time in the program. Students must continually be enrolled to remain active in the program. If a student cannot take classes due to unforeseen circumstances, s/he must to apply for a Leave of Absence three weeks prior the beginning of a term. Students can request a leave of absence for no more than three terms. Obtaining a Leave of Absence does not extend the time a student has to complete the program.

Classes in Family Therapy are scheduled 3:00 P.M. - 6:00 P.M. and 6:00 P.M. – 9:00 P.M. with Doctoral Seminars I-III scheduled in a hybrid format at 12:00 PM., 1:00 P.M., or 2:00 P.M. Students can often complete course requirements by attending classes two-three days per week; additional on and off campus time requirements are a part of clinical practicum experiences. Internal clinical practicums are offered throughout the week and on Saturdays.

Classes in the **Master of Arts in Cross-disciplinary Studies** program vary based on the department in which they are offered. Required courses are offered residentially generally in the evening from 6:00 P.M.-9:00 P.M. or online. Courses available in the department and from DFT and DCRS are offered at the times mentioned above.

Classes in **College Student Affairs** are scheduled in the evening, 6:00 P.M. – 9:00 P.M. Full-time students attend classes three evenings per week; part-time students attend classes two evenings per week. All courses are offered residentially and online.

Classes in **National Security Affairs** are online and some may be offered residentially. Those offered residentially through CAHSS are scheduled in the evening, 6:00P.M.- 9:00 P.M.

The **Master of Arts in Composition, Rhetoric, and Digital Media** is a residential program. Most classes meet once per week in the evening, and some are offered in hybrid and online formats.

Distance Learning Programs

The CAHSS distance learning programs employ an optimal combination of dynamic learning models and flexible interactive media. Students can participate in online courses. Students are provided NSU computer accounts but must obtain their own Internet service providers.

Distance learning programs are available in the Department of Conflict Resolution Studies, the Department of History and Political Science, and the Department of Multidisciplinary Studies. For specific program information, please see the CAHSS Degree Programs chart on pages 7-9.

Residential Institutes

All online students in the following programs are required to attend two Residential Institutes (RIs) each academic year:

- Ph.D. in Conflict Analysis and Resolution
- M.S. in Conflict Analysis and Resolution
- M.S. in College Student Affairs
- M.A. in Cross-disciplinary Studies (ONLY if taking online classes in meditation and facilitation)
- Graduate Certificate in Advanced Conflict Resolution Practice
- Graduate Certificate in College Student Personnel Administration
- Graduate Certificate in Peace Studies

Currently, the RIs are held in the fall and winter, in February and late September. Only online students taking Mediation, Facilitation, or Negotiation are required to attend the winter RI. The RI helps online students build a learning community. During the RIs, students participate in experiential exercises, role-plays, group simulations, guest speaker presentations, panel discussions, career development seminars, poster presentations, social events, and much more. There is also time allotted for degree plan advising and library research skills training. Failure to attend RI without a waiver from the department will result in the reduction of a student's final grade by one letter grade.

Online media and interactive methods are used throughout the instructional sequence, such as Blackboard, distance library services, electronic library, plus a range of online activities that facilitate frequent student to faculty, and student to student interaction. Online activities include real-time and/or synchronized forums using threaded discussion boards, chat rooms, email, and electronic classroom sessions. NSU offers extensive distance and electronic library services. For more information, visit the website at <http://www.nova.edu/library/>.

DEPARTMENT OF CONFLICT RESOLUTION STUDIES

The Department of Conflict Resolution Studies (DCRS) is committed to academic excellence, cultural diversity, social responsibility, and reflective practice in the fields of sociology, anthropology, and conflict resolution. Through both undergraduate and graduate programs, we focus on the study of human behavior in societies, what social theories and research reveal about individuals, groups, institutions, and nations, and how parties achieve constructive agreements based on the principles of nonviolence, equity, dignity, and appreciation for human diversity. The department explores how people group themselves and behave in groups, and provides a learner-centered approach to practice and research to support improved social relations among individuals, groups, organizations, and nations. The academic environment in the department is multi-disciplinary, dynamic, and innovative, utilizing faculty expertise, student experience, learning technologies, and practitioners who are knowledgeable in peacebuilding skills and techniques.

The following programs are offered by the Department of Conflict Resolution Studies:

- **Doctor of Philosophy in Conflict Analysis and Resolution**
- **Master of Science in Conflict Analysis and Resolution**
- **Graduate Certificate in Advanced Conflict Resolution Practice**
- **Graduate Certificate in Peace Studies**
- **Bachelor of Science in Sociology**
- **Undergraduate Minors:**
 - Anthropology**
 - Sociology**

Note: For information on all undergraduate programs, please see the Undergraduate Student Catalog:

<http://www.nova.edu/undergraduatestudies/index.html>

Doctor of Philosophy in Conflict Analysis and Resolution (Ph.D.)

Program Description

The Ph.D. program in Conflict Analysis and Resolution trains students in the skills and techniques of practice, interdisciplinary research, policy and program development, historical critique, cultural analysis, and theoretical foundations of the field. The mission of the doctoral program is to advance the study and practice of conflict analysis and resolution by mentoring and developing practitioners trained in theory, practice, research, teaching, and informed leadership in the field. Students pursue an in-depth study in the field of conflict resolution while drawing from a variety of theoretical perspectives and the knowledge of an experienced, interdisciplinary faculty.

The 76-credit-hour degree program is designed to prepare graduate students for careers as advanced practitioners, college and university educators, researchers, theoreticians, consultants, program evaluators, and organization administrators. The Ph.D. program is offered in both residential and distance learning formats. These flexible formats allow mid-career working adults and those unable to attend the residential program, to study conflict resolution in a creative, rigorous, and structured fashion. The distance learning Ph.D. program is one of the few offered nationally in the fields of peacemaking and conflict resolution. Students enrolled in the distance learning program participate in Residential Institutes on the main campus at least once per year, as well as online Web-based courses.

The Ph.D. program focuses on improving skills for reflective practice, understanding and mastering qualitative and quantitative research knowledge and analysis, developing professional leadership skills, and producing publications of quality and substance.

In addition to core courses, students may pursue concentrations in the following areas (though a concentration is not required):

- Interpersonal Conflict
- Community-based Conflict
- Conflict in Organizations
- Global Conflict

Permission to take more than 9 credits:

If a student has a GPA of 3.5 or higher, is in good academic standing, and has no incompletes, a DCRS student may request to be registered by the department for a fourth course within a term (Excluding 1 credit Doc Seminar- automatic approval).

Student Advising

A student who wishes to seek advising regarding course selection or degree plan should consult with the program administrators.

Peer Mentors

Each first-year student upon enrollment in the program may request a peer mentor. The purpose of the Peer Mentoring Program at DCRS is to assist the students with their graduate studies transition. Peer mentors provide support and guidance to fellow DCRS students in navigating their degree by offering advice about managing coursework and accessing resources that expand academic and professional development. Peer mentoring sessions occur in a group format at the RIs and one-on-one, either in person, telephonically or by email.

Degree Plans

Students are required to take courses in 3 core competency areas: conflict resolution theory, research methods, and conflict resolution practice. In the core competency of conflict resolution theory, students are required to take CARD 5000 The Foundations of Conflict Resolution, as well as 3 of the following 4 courses: CARD 7040 Theories of Conflict Resolution I, CARD 7050 Theories of Conflict Resolution II, CARD 6120 Culture and Conflict, and CARD 7250 Public Policy. In the core competency of research methods, students are required to take CARD 7090 Quantitative Research I, CARD 7100 Quantitative Research II, CARD 7110 Qualitative Research Methods I, and CARD 7120 Qualitative Research Methods II. In the core competency area of conflict resolution practice, students are required to take CARD 5040 Human Factors, as well as 3 of the following 5 courses: CARD 5100 Mediation Theory and Practice, CARD 5140 Negotiation Theory and Practice, CARD 6140 Facilitation Theory and Practice, CARD 7020 Systems Design, and CARD 7500 Teaching and Training. In addition, students are required to take 2 of the following practicum courses: CARD 6130 Practicum I, CARD 6624 Advanced Practicum, CARD 6625 Global Practicum, or CARD 7510 Teaching and Training Practicum. In addition, students are required to take 7 elective courses.

Courses are offered according to a set schedule (see below). Students are responsible for ensuring that they have fulfilled their individualized degree plans, which will be verified by the department, before they are given the opportunity to take their Qualifying Exam. In their last term of coursework, students are also required to take CARD 7001 Doctoral Seminar, which provides preparation for taking the Qualifying Exam. Upon successful completion of the Qualifying Exam, students will be registered for 3 dissertation credits per term, starting with CARD 7901, the Dissertation Preparation Course. After 12 credits have been completed, students will register for 1 credit of dissertation per term until the degree is conferred.

A sample degree plan for a full-time student who begins his/her studies in fall term is provided on the following page. Degree plans will be modified based on a student's enrollment date and pace of study.

Sample Degree Plan: 76 credits hours (Full time)

	Fall (August)	Winter (January)	Summer (May)
Year 1	CARD 5000: Foundations and Development of Conflict Resolution CARD 5040: Human Factors CARD 7110: Qualitative Research I	CARD 5100: Mediation Theory and Practice CARD 7040: Theories of Conflict and Conflict Resolution I CARD 7120: Qualitative Research II	CARD 6140: Facilitation Theory and Practice (on-campus program) Or Elective (online program) CARD 7250: Public Policy or CARD 7050: Theories of Conflict and Conflict Resolution II CARD 66__: Elective
Year 2	CARD 6120: Culture and Conflict CARD 66__: Elective CARD 7090: Quantitative Research I Preliminary Review	CARD 5140: Negotiation Theory and Practice CARD 66__: Elective CARD 7100: Quantitative Research II	CARD 7020: Systems Design Or Elective CARD 66__: Practicum I or Global Practicum CARD 66__: Elective
Year 3	CARD 6140: Facilitation Theory and Practice or CARD 7500: Teaching and Training (online program) Or Elective (on-campus program) CARD 66__: Elective CARD 7500: Teaching and Training	CARD 7001: Doctoral Seminar (1 credit) CARD 7510: Teaching and Training Practicum	Qualifying Examination (Registration by Program Manager) CARD 7901: Dissertation Preparation (3 credits)** **After eligible students are registered for the Qualifying Exam by the Program Manager, students may then register themselves for CARD 7901.
Year 4	CARD 7900 Dissertation (3 credits)	CARD 7900 Dissertation (3 credits)	CARD 7900 Dissertation (3 credits)
Year 5	CARD 7900 Dissertation (1 Credit) <i>If required</i>		Graduation and Celebration

Please Note: After a total of 12 dissertation credits are completed, if necessary, students will register for 1 credit of dissertation per term until they complete and successfully defend their dissertation, bind, and turn in their final document, and register their dissertation with ProQuest, UMI. Such registration after final defense shall, if needed, only be for one additional term subject to such exceptions as are provided for by law. If the student fails to complete the requirements within the additional term, they shall automatically be withdrawn from the program.

Program Specifics

Practicum

To complete the Ph.D. in Conflict Analysis and Resolution, students must complete two courses from the following four options: CARD 6130 Practicum I, CARD 6624 Advanced Practicum, CARD 6625 Global Practicum, or CARD 7510 Teaching and Training Practicum. Students are encouraged to consult with the Practicum Coordinator in order to determine which options would best fit their career goals.

Practicum placements have been established in an array of settings, such as schools, prisons, court systems, parks, human services agencies, community organizations and corporations. Additionally, students are encouraged to explore and initiate a Practicum setting specific to their own individual interests. The student finds an appropriate site, and the Practicum Coordinator will assist the student in calling the site and negotiating for a placement if necessary.

The Practicum Coordinator can be consulted for detailed information during each term and at Residential Institute. Students preparing for practicum are encouraged to attend one or more sessions either in person or through telephonic appointments with the Practicum Coordinator for assistance with practicum placements.”

Students should visit <http://CAHSS.nova.edu/Downloads/car.htm> for the Practicum Handbook and related forms.

Examinations and Evaluations

There are three program evaluations that students must pass in the course of their doctoral studies. Each is described briefly below and more information is provided at <http://CAHSS.nova.edu/Downloads/car.htm>.

I. Writing Assessment and Requirement

Doctoral students will undergo a writing assessment by the end of their second term in the program. If students are found to be in need of skill building, the student will be required to pass a graduate level writing course (such as SHSS 6620 Academic Writing or a comparable class). The course must be completed before the student’s preliminary review. This course will count as an elective.

II. Preliminary Review

The Preliminary Review takes place after an accumulation of at least 18-24 credits. The focus of the preliminary review is to determine whether the student should continue in the doctoral program. In advance of the preliminary review, the student must complete the required activities included on the DCRS PhD Passport, which is provided at the start of the student’s first term. Prior to the preliminary review interview, the student will submit specified materials for review, including but not limited to sample term papers, a CV, and a reflection form.

The preliminary review meeting is an approximately 30-minute discussion between the student and a DCRS administrator. Successes and challenges will be discussed. These discussions will include a review of grades and any other relevant behavioral or performance-based issues reported by faculty, students, or the administrative staff. Students should come prepared to discuss what they have learned, how they are applying it in their work, dissertation preparation or relevant practice areas.

Students with a "C" in any class during the first year will remain on preliminary review status, and may be required to take additional classes such as writing or ESL, obtain a tutor, or take other remedial action. They must also work with the faculty to demonstrate evidence of progressive improvement during each successive term. Students with serious academic issues such as academic probation based on grades, poor writing, poor attendance or other serious issues may be academically dismissed from the doctoral program as a result of this preliminary review.

Students who have shown disruptive, hostile, dangerous or other questionable behavior during the first year will be confidentially counseled by their advisor, a department administrator, the Associate Dean of Student Affairs, additional faculty as appropriate, and any other person deemed to be relevant to the discussion. This process may be initiated at any time, as needed. It need not wait until the preliminary review process. Such behavior may result in dismissal from the program.

Following the preliminary review meeting, the student will receive one of the following outcomes:

- a) Pass review, effective immediately.
- b) Pass review, with faculty recommendations for changes.
***Please Note:** In order to obtain one of these recommendations, all grades must be B or higher, with no grades of incomplete. Courses with a grade C may have to be retaken.*
- c) Repeat Preliminary Review, with continued enrollment contingent on the student satisfying one or more specified criteria in the course of a specified amount of time.
- d) Dismissal from doctoral program.

III. Qualifying Exam

The qualifying examination is a written examination given after students have completed all the required course work, and before beginning dissertation hours. Successful completion of the qualifying examination is required to move to advanced standing and begin dissertation research. Doctoral Seminar, a one-credit course, is offered to help students prepare for the exam and should be taken in the student's final term of coursework. In addition, some students find it helpful to form study groups. Students are encouraged to begin to prepare for the exam well in advance.

Qualifying exams are given three times per academic year, once per term. The exam is available on-line and takes place over three weekdays. Students may take the examination on NSU's campus or anywhere else of their choosing. Students will be able to access the exam at a specific time on the morning of the first day, and their answers will be due 72 hours later. Students may use whatever materials they choose, but are expected to work alone. They are expected to write the exam answers in their own words and to use appropriate citations when applicable. Exam answers will be submitted to Turnitin.com to check for proper citation. The exam consists of a single question; the answer will integrate theory, research, and practice aspects of conflict analysis and resolution.

Teams of faculty members grade the exam answers. Students are assigned an examination number. Thus, faculty members do not know whose answers they are reviewing. Students' answers are evaluated on the substantive content, logical and coherent style, and relevant use of class and other academic material. Students who receive a failing grade by the team of faculty graders may take the examination again, up to a maximum of three times. However, students will be required to prepare and wait until the next examination is offered.

Following failure of the exam, faculty may require that a student retake a particular class, prepare a special written assignment, or other remedial tasks before the exam can be taken for the second time. After three consecutive failures, the student will be dismissed from the doctoral program. A failure to submit after accessing the exam will be counted as an exam fail. Please visit <http://CAHSS.nova.edu/Downloads/car.htm> to view practice questions for the qualifying examination.

After students are registered for the qualifying exam by the department, they should register themselves for CARD 7901: Dissertation Preparation. Upon passing the qualifying exam, students are considered to be at the dissertation status.

Dissertation

Dissertation Chairs and Committees

A dissertation committee for all doctoral students will be composed of at least three members, one of whom will serve as the dissertation chair. The dissertation chair must be a full-time DCRS faculty member. At least one other committee member must be a full-time CAHSS faculty member. A student may have one or more outside members on the committee if methodological or a substantive topical issue make such membership advisable and is approved by the dissertation chair. All members who are not DCRS faculty must have an earned doctorate degree and must provide copies of their credentials to the department. Dissertation committee members may not be from among the student's family members or personal friends, nor have graduated from CAHSS within the past three academic years.

Prior to the end of CARD 7901, students must select their dissertation chair and complete the appropriate form, which is available online on the DCRS Students Resources page.

Registering for Dissertation

Students are required to complete 12 credits of dissertation. Dissertation students register for three credits per term, beginning with CARD 7901, the Dissertation Preparation course. If a student is still in progress after 12 credits, the student registers for 1 credit per term until they complete and successfully defend their dissertation, bind, and turn in their final document, and register their dissertation with ProQuest, UMI. Such registration after final defense shall if needed, only be for one additional term subject to such exceptions as are provided for by law. If the student fails to complete the requirements within the additional term, the student will be automatically withdrawn from the program. If a student receives a NP (No Progress) grade while registered for Dissertation, that term will not count toward the required 12 credits of dissertation. If, for some reason, the student cannot continue working on their dissertation, they must apply in writing for a leave of absence. If they request a leave for longer than a term, it may not be possible, upon their return, to continue with their original dissertation chair.

Dissertation Proposal

The dissertation proposal will be defended by the doctoral candidate before his/her full dissertation committee. All committee members must agree that the proposal is ready for defense before the defense can be scheduled. Proposal defenses may be performed using any appropriate and relevant technology, depending on the location of committee members, and the student. The student is permitted to defend his/her proposal by being present at CAHSS in person, or via telephone or video conferencing. Please see the Dissertation Proposal Guidelines and related forms at <http://CAHSS.nova.edu/Downloads/car.htm>

Final Dissertation

Final dissertation defenses may take place during each of the three academic terms. The final day a student may hold the final dissertation defense within each term is the Friday two calendar weeks before the last day of the term. In order to take part in the June commencement ceremony, a student must have their final dissertation defense notice sent out by May 1.

After the student has passed the final defense and completed all required revisions to the satisfaction of the dissertation chair, the student must submit the document to the Doctoral Director for a format review. Upon passing the format review, the student will be provided with information regarding how to obtain bound copies of the dissertation. Prior to degree conferral, the student must submit one bound copy of the dissertation and one pdf file of the final dissertation, both of which must include the signed approval page. Students should refer to the Dissertation Guidelines at <http://CAHSS.nova.edu/Downloads/car.htm> for detailed information.

Summary

The offered Ph.D. in Conflict Analysis and Resolution can be completed with the maximum time frame of 7 years. If a student has not graduated once she/he has reached the 7-year mark, the student must apply for an extension and receive approval from the program director. Approval from the Program Director must be obtained for each subsequent extension until the 10-year mark has been reached subject to such exceptions as are provided for by law. Once students have passed the 10-year mark, she/he will be automatically dismissed from the program. Once students begin their dissertation, they are considered full-time when registered for at least three credit hours per term. After taking 12 credit hours of dissertation, students may enroll in one dissertation credit hour per term and still be considered full time in the program. Students must continually be enrolled to remain active in the program. If a student cannot take classes due to unforeseen circumstances, she/he must apply for a Leave of Absence before the end of the semester in which they are in status. Students can request a leave of absence for no more than three terms. Obtaining a Leave of Absence does not extend the time a student has to complete the program.

A student who has not registered for more than 3 consecutive terms is considered withdrawn from the program and must reapply to request readmission to the program. . If approved for readmission, the student must be continually registered to remain in good standing in the program.

Graduation Requirements/ Degree Completion

Students must comply with the following requirements in order to graduate with their Ph.D. in Conflict Analysis and Resolution:

- Pass all course work with a 3.5 cumulative GPA or above. Nothing lower than a "C" is permitted. Only one "C" is allowed.
- Earn a minimum of 76 credit hours
- Successfully defend their dissertation
- Complete the binding and submission of the final dissertation and PDF version
- Apply for and receive degree conferral
- Complete all requirements above within the stated time limit of the program

Master of Science in Conflict Analysis and Resolution (M.S.)

Program Description

The M.S. in Conflict Analysis and Resolution is designed to train reflective professionals in the practice, design, and evaluation of a variety of conflict resolution applications. The M.S. program focuses on pragmatic approaches to solving problems inherent in human social relations. Students are exposed to a wide array of techniques and strategies to help people achieve improve relations and resolve conflicts that arise in many personal, professional, organizational, and social environments. The M.S. program consists of a 12-course (36 credits) sequence that includes conflict resolution theory, practice skills, field placement, research design, and program evaluation.

Program Formats

The M.S. program is offered in both residential and distance learning formats. These flexible formats allow mid-career working adults and those unable to attend the on-campus program, to study conflict resolution in a creative, rigorous, and structured fashion. Students may enroll full or part time, taking six to nine credit hours per term. Students who attend full-time can expect to complete the program in 15 months. Part-time students will complete the program in 2 years. Maximum enrollment time is five (5) years. Summer attendance is mandatory.

Students taking online classes are required to attend two Residential Institutes (RI) per academic year. Each RI is 5 days. Currently the RIs are held in February and September or October. Please visit <http://CAHSS.nova.edu/RI> for current information.

Student Advising

A student who wishes to seek advising regarding course selection or his/her degree plan should consult with the program administrators.

Degree Plans

A sample of a degree plan for a full-time, residential student who begins their studies in the Fall term is shown below. Degree plans will be modified based on a student's enrollment date and pace of study. (See departmental webpage for additional degree plans). Capstone and Practicum are taken in the final term.

Degree Plan: 36 credits hours (For students who entered the program Fall 2016 and on)

	Fall (August)	Winter (January)	Summer (May)
Year 1	CARM 5000: Foundations and Development of Conflict Resolution and Peace Studies CARM 5040: Communication Dynamics in Dispute Resolution: The Human Factor CARM 6120: Culture and Conflict: Cross-cultural Perspectives	CARM 5100: Mediation Theory and Practice CARM 5140: Negotiation Theory and Practice CARM 5200: Research Design and Program Evaluation	CARM 6150: Professional Practice and Ethics CARM 6140: Facilitation Theory and Practice (on campus) CARM 66__: Elective
Year 2	CARM 6130: Practicum I: Supervised Field Experience CARM 6450: M.S. Capstone CARM66__: Elective		Graduation and Celebration

Program Specifics

Practicum

To complete the M.S. in Conflict Analysis and Resolution, students must complete Practicum I, including the accrual of at least 65 hours of practicum. Students may elect to complete Practicum II as an elective. Students are responsible for documenting practicum hours, and must have these hours verified and signed by an on-site supervisor. The practicum experience is designed to provide students with an experiential opportunity to utilize conflict resolution methodology and theory within a diversity of professional settings. Students will have the opportunity to apply theoretical concepts within a practical framework.

Practicum provides a community placement for the student to develop and refine practitioner skills. Using the Practicum experience, students have the opportunity to apply theoretical concepts within a practical framework under the supervision of an on-site supervisor.

Please consult the Practicum Coordinator and Practicum Professor for detailed information. During each term and at every Residential Institute, one or more Practicum Advising sessions are scheduled. Students who have not yet registered for practicum courses are encouraged to attend one or more sessions. Students may also seek individual in-person or telephonic appointments with the Practicum Coordinator for assistance with practicum placements.

Please visit <http://cahss.nova.edu/departments/crs/resources> for the Practicum Handbook and forms.

Master's Thesis Option

A student may write a research thesis. The thesis is 6 credits and counts as two electives. Instead of the electives offered in the fall and winter terms of the second year, thesis students register for Master's Thesis. Entrance into the thesis track is not automatic; students must meet eligibility requirements. Please contact the department for further details.

Graduate Certificate in Advanced Conflict Resolution Practice

The Graduate Certificate in Advanced Conflict Resolution Practice offers students the fundamentals of applied conflict resolution and advanced training in the conflict resolution skill-set. It is intended to meet the needs of those individuals who seek more expertise in conflict resolution and are mainly interested in becoming practitioners in the field. It may also be appropriate for professionals who have already earned a graduate degree in their professional area, but who would benefit from academic study of applications of conflict analysis and resolution in their current profession.

The Graduate Certificate consists of five courses (15 credits), which include conflict resolution theory and practice skills. Students who decide to continue their studies in conflict resolution may apply 12 of these credit hours toward the M.S. or the Ph.D. program in Conflict Analysis and Resolution, if accepted to the program.

The Graduate Certificate in Advanced Conflict Resolution Practice is offered in both residential and distance learning formats. These flexible formats allow mid-career working adults and those unable to attend the residential program, to study conflict resolution in a creative, rigorous, and structured fashion. Students enrolled in the distance learning

program participate in Residential Institutes on the main campus twice per year, as well as online Web-based courses.

Students may enroll full or part time, taking three to nine credit hours per term. Students who attend full-time can expect to complete the program in 2 terms. Part-time students will complete the program in 3 terms. Maximum enrollment time is two (2) years.

Degree Plans

Below is a sample of a degree plan for a full-time student who begins their studies in Fall term. Degree plans will be modified based on a student’s enrollment date and pace of study.

Degree Plan: 15 credits hours

	Fall (September)	Winter (January)	Summer (April)
Year 1	CARM 5040: Human Factors CARM 6140: Facilitation Theory and Practice	CARM 5100: Mediation Theory and Practice CARM 5140: Negotiation	CARM 6000: Organizational Conflict: Theory and Practice Graduation and Celebration

Graduate Certificate in Peace Studies

The Graduate Certificate Program in Peace Studies offers interdisciplinary graduate studies for life-long learners who want to become familiar and skilled in the discourse of peace studies. This program offers an opportunity to gain a broad understanding of various aspects of peace building and conflict resolution skills. Areas of study include the history and theory of international and domestic conflict; the political, economic, cultural, and social roots of such conflict; the causes and conduct of warfare; violence prevention; and global institutions for the resolution of conflict.

The Graduate Certificate Program in Peace Studies seeks to: 1) apply an interdisciplinary approach to understanding the field of peace building and peace studies; 2) provide an opportunity for students to engage in significant study and practice within the field; and 3) prepare students for professional positions in the fields of peacemaking and peace studies. The Peace Studies program focuses on a broad range community and global issues including social oppression, economic exploitation, peace keeping, peacemaking, peace building, peace education, civil rights, conflict resolution, violence prevention and intervention, social justice, social change and community advocacy, to name a few. The programs in Peace Studies serve as an academic catalyst for applied research, theoretical development, and the use of culturally informed methods for transforming oppressive situations. Students are trained to identify, assess, and create interventions that respond to the desire for justice and peace.

The Graduate Certificate in Peace Studies is appropriate for those who seek graduate training in peace studies as well as those who have already earned a degree in their professional field but would benefit from academic training in the applications of peace studies to their

current professions. The Graduate Certificate program collaborates closely with our sister programs in Conflict Analysis and Resolution and Family Therapy.

The Graduate Certificate is a 15 credit program. Students can tailor the Graduate Certificate to their interests. The program is offered in both residential and distance learning formats. These flexible formats allow mid-career working adults and those unable to attend the on-campus program, to study in a creative, rigorous, and structured fashion. Students enrolled in the online program participate in Residential Institutes on the main campus twice per year, as well as online Web-based courses.

Students may enroll full or part time, taking three to nine credit hours per term. Students who attend full-time can expect to complete the program in 2 terms. Part-time students will complete the program in 3 terms.—Maximum enrollment time is two (2) years.

Degree Plan: 15 credits hours

Below is a sample of a degree plan for a full-time student who begins their studies in the fall term. Degree plans will be modified based on a student’s enrollment date and pace of study. To complete the requirements for the Graduate Certificate in Peace Studies, students must take 6 credits of electives (2 courses) approved by the department as Peace Studies curriculum.

	Fall (August)	Winter (January)	Summer (May)
Year 1	CARM 5000: Foundations and Development of Conflict Resolution CARM 6663—Introduction to Peace Studies CARM 6170: Violence Prevention and Intervention	Elective #1 Elective #2	Graduation and Celebration

DEPARTMENT OF FAMILY THERAPY

The Department of Family Therapy educates and trains students, utilizing a systemic/relational paradigm, to become couple, marriage, and family therapists, with the ability to work with culturally and sexually diverse populations and marginalized groups in individual, couple, family, organizational and group settings. Our programs uphold professional standards in the field. The master's program requires a bachelor's degree for admission. At the master's level students develop clinical excellence and prepare for careers as licensed marriage and family therapists. Students are prepared to assume professional positions in private practice, employee assistance programs, managed care and health care organizations, child care and school settings, family service agencies, faith based settings, and other clinical settings. There are two doctoral programs, both of which require a master's degree for admission. The Ph.D. program in family therapy strives to develop students who are prepared for scholarly leadership in the field of marriage and family therapy. The emphasis is on research, supervision, teaching, and advanced clinical practice. The Doctor of Marriage and Family Therapy (D.M.F.T.) program prepares students for advanced clinical practice and supervision. Students in both doctoral programs are trained for leadership positions directing clinical programs, in private practice, and providing training and supervision. All family therapy programs share a common relational/systemic focus, and a commitment to diversity and cultural issues.

The following programs are offered by the Department of Family Therapy:

- **Doctor of Philosophy in Family Therapy**
- **Doctor of Marriage and Family Therapy**
- **Master of Science in Family Therapy**
- **Graduate Certificate in Family Studies**
- **Graduate Certificate in Family Systems Health Care**
- **Graduate Certificate in Solution Focused Coaching**
- **Bachelor of Science in Human Development and Family Studies**

Note: For information on all undergraduate programs, please see the Undergraduate Student Catalog: <http://www.nova.edu/undergraduatestudies/index.html>

Doctor of Philosophy in Family Therapy (Ph.D.)

Program Description

The Ph.D. in Family Therapy is a 96-credit-hour program designed for individuals holding master's degrees who wish to fully grasp both the historical as well as cutting edge theory informing the current practice of family therapy. The program is dedicated to understanding the relationship between theory and clinical practice through a variety of established as well as emerging schools of family therapy. The program is designed to enhance students' clinical skills in order to become top level practitioners, while at the same time demonstrating the importance of qualitative and quantitative research in this pursuit. Graduates of the program should look forward to productive careers in academic, supervisory, clinic, and community-based employment settings.

The Department of Family Therapy has full time faculty and supervisors as well as adjunct faculty and supervisors who represent diversity in gender, age, religion, race, culture, and sexual orientation. The student body of the doctoral program reflects the rich cultural diversity of South Florida and across the nation in terms of race, religion, gender, sexual orientation, and age.

Vision

The Ph.D. program in Family Therapy strives to develop students who are committed to academic integrity and advanced clinical practice and endeavors to prepare students for advanced leadership in the field of couples, marriage, and family therapy. The application of a systemic/relational paradigm is the foundation for such training and is utilized to support a vision of competent service to the community, especially culturally and sexually diverse populations in a variety of settings. Our program further strives to uphold all ethical and professional standards in the field.

Mission

The Ph.D. Program in Family Therapy strives to develop students who utilize systemic/relational theory and are committed to advanced academic and clinical practice. Students are prepared for leadership in the field of Couples, Marriage, and Family Therapy through training in research, supervision, teaching, and clinical theory and practice. Students in the Ph.D. program are committed to servicing the community as ethical and professional practitioners focusing on the relational strengths and resources of both students and clients with an appreciation and respect for cultural and sexual diversity and inclusion.

Program Goals and Student Learning Outcomes

<p>PG 1:The Ph.D. Program in Family Therapy program demonstrates a commitment to issues of cultural and sexual diversity and inclusion.</p>	<p>SLO1: Ph.D. students demonstrate respect for issues of cultural and sexual diversity and inclusion in teaching</p> <p>SLO2: Ph.D. students demonstrate respect for issues of cultural and sexual diversity and inclusion in supervision.</p> <p>SLO3: Ph.D. students demonstrate respect for cultural and sexual diversity and inclusion in practice.</p>
<p>PG2:The Ph.D. Program in Family Therapy demonstrates a commitment to ethical and professional practice.</p>	<p>SLO4: Ph.D. students will demonstrate ethical and professional behaviors as practitioners.</p>
<p>PG3:The Ph.D. Program in Family Therapy trains students in research, teaching, supervision, and advanced clinical theory and practice.</p>	<p>SLO5: Ph.D. Students will successfully complete a dissertation research project</p> <p>SLO6: Ph.D. students will demonstrate competency in teaching.</p> <p>SLO7: Ph.D. students will demonstrate competency the practice of supervision</p> <p>SLO8: Ph.D. students demonstrate competency in advanced systemic/relational theory and practice</p>
<p>PG4:The Ph.D. Program in Family Therapy demonstrates a commitment to servicing the community.</p>	<p>SLO9: Ph.D. students will complete 4 Internal Practicums at the Family Therapy Clinic</p>
<p>PG5:The Ph.D. Program in Family Therapy demonstrates a commitment to graduating students in a timely manner, monitoring graduate employment, and assisting students/graduates in passing the licensure exam.</p>	<p>SLO10: Ph.D. students will graduate within the maximum allotted timeframe of 7 years.</p> <p>SLO11: Ph.D. graduates will be employed</p> <p>SLO12: Ph.D. students/graduates will pass the AMFTRB licensure exam.</p>

Curriculum

The Ph.D. in Family Therapy core curriculum includes the following:

Research (21 credits or more)

SFTD 5410 Quantitative Research I
 SFTD 6410 Quantitative Research II
 SFTD 6430 Qualitative Research I
 SFTD 7350 Qualitative Research II
 SFTD 6900 Dissertation
 SFTD 6825 Academic/Research Portfolio
 (0 Credits)

Advanced Clinical Theory (9 credits)

SFTD 5006 Introduction to Systems Theory
 SFTD 5120 Thinking Systems
 SFTD 5110 Language Systems
 SFTD 6750 Clinical Portfolio
 (0 credits)

Advanced Clinical Practice (33 credits)

SFTD 5010 Systemic Family Therapy I

SFTD 5020 Systemic Family Therapy II

SFTD 5030 Systemic Family Therapy III

SFTD 5040 Systemic Family Therapy IV

SFTD 6200 Internal Practicum I

SFTD 6200 Internal Practicum II

SFTD 6200 Internal Practicum III

SFTD 6200 Internal Practicum IV

SFTD 6750 Clinical Portfolio (0 credits)

SFTD 7410 Clinical Internship x 3 (9 credits, must be taken in 3 consecutive terms)

Teaching (3-6 credits)

SFTD 6321 Fundamentals of Teaching Marriage and Family Therapy

SFTD 7360 Teaching Practicum (credit or non-credit)

Supervision (6 credits)

SFTD 6325 Fundamentals of Supervision in Marriage and Family Therapy

SFTD 6320 Supervision Practicum

Writing (3 credits)

SFTD 5004 Reading/Writing/Editing for Doctoral Scholars

Family Therapy Topics (Electives):

(3 credits)

See description

Doctoral Seminar I-III (3 credits)**Courses Necessary for Licensure**

(6 credits)

See description

Core Curriculum Description

- Internal Practicum: Four terms of enrollment in Internal clinical practicums at the Family Therapy Clinic, the department's on-campus clinical facility are required. Teams of students (maximum of 6) meet weekly with a faculty supervisor to work with live, community-referred clients and supervision of cases throughout the calendar year. During a student's fourth practicum, they may choose a flexible practicum provided for students to see cases independently at the clinic. The faculty supervisor must approve this independent placement and students must continue to obtain supervision during this time.
- Supervision: One course in the fundamentals of supervision of family therapy clinicians. Additionally, students will register for a Supervision practicum offering them the opportunity to practice skills learned in that class.
- Teaching: One course in the fundamentals of teaching. Additionally, students may register for a teaching practicum offering them the opportunity to practice skills learned in that class.

Electives

Electives are offered to support students in fulfilling course requirements for licensure as a marriage and family therapist in Florida and other states. Electives are also taken to enhance student learning in special topics of interest. Elective courses available to doctoral students within the Family Therapy Department vary according to trimester and may not be offered

every term. They include Couples Therapy, Organization Consulting, Grief and Loss, Academic Writing, International Counseling and Therapy, Introduction to Equine Assisted Family Therapy, School Based Family Counseling, Advanced Bowen Systems, all courses in the Family Systems Health Care graduate certificate program, and others as offered.

Degree Plans

Below is a sample degree plan for students who have not transferred in credits.

Sample Ph.D. Degree Plan: 96 credit hours

FALL	WINTER	SUMMER
<p>SFTD 5001 Doctoral Seminar I</p> <p>SFTD 5006 Introduction to Systems Theories</p> <p>* SFTD 5008 Introduction to Marital and Family Therapy</p> <p>SFTD 5300 Legal, Ethical, and Professional Issues</p> <p>SFTD 6520 Diversity and Psychosocial Issues</p>	<p>*SFTD 5007 Research in Marital and Family Therapy</p> <p>*SFTD 5009 Theories of Marital and Family Therapy</p> <p>*SFTD 5045 Group Psychotherapy</p> <p>*SFTD 5046 Human Development Across the Life Cycle</p>	<p>SFTD 7301 Assessment in Marital and Family Therapy</p> <p>SFTD 7302 Theories of Personality & Psychopathology</p> <p>SFTD 7311 Human Sexuality and Gender</p> <p>**Annual Review</p>
<p>SFTD 5002 Doctoral Seminar II</p> <p>SFTD 5010 Systemic Family Therapy I</p> <p>SFTD 5120 Thinking Systems</p> <p>SFTD 6200 Internal Practicum I</p>	<p>SFTD 5004 Reading/Writing/Editing for Doctoral Scholars</p> <p>SFTD 5020 Systemic Family Therapy II</p> <p>SFTD 5110 Language Systems</p> <p>SFTD 6200 Internal Practicum II</p>	<p>SFTD 5410 Quantitative Research I</p> <p>SFTD 6200 Internal Practicum III</p> <p>SFTD 6321 Fundamentals of Teaching Marriage and Family Therapy</p> <p>** Annual Review</p>

<p>SFTD 7410 Clinical Internship</p> <p>SFTD 6320 Supervision Practicum</p> <p>SFTD 6900 Dissertation</p>	<p>SFTD 7410 Clinical Internship</p> <p>SFTD 6900 Dissertation</p> <p>Dissertation Proposal Defense</p>	<p>SFTD 7410 Clinical Internship</p> <p>SFTD 6900 Dissertation</p> <p>Final Defense</p>
<p>*Courses are prerequisite to the program and not included in the 96 credit requirement. Portfolios are completed by the end of the third year.</p>		

Program Format, Leave of Absences

The residentially offered Ph.D. in Family Therapy program should be completed in 5 years with the maximum timeframe of 7 years. If a student has not graduated once she/he has reached the 5-year mark, the student must apply for a one-year extension and receive approval from the Program Director. Approval from the Program Director must be obtained for each subsequent extension until the 7-year mark has been reached. Once students have passed the 7-year mark, students will be dismissed from the program. Full-time enrollment is considered to be at least nine credit hours per term, fall, winter, and summer. Please note that for purposes of financial aid, 6 credits are considered fulltime. Once students begin their dissertation, they are considered full-time when registered for at least three credit hours per term. After taking 9 credit hours of dissertation, students may enroll in one dissertation credit hour per term and still be considered full time in the program. Students must continually be enrolled to remain active in the program. If a student cannot take classes due to unforeseen circumstances, s/he must to apply for a Leave of Absence three weeks prior the beginning of a term. Approval by the Program Director is required. Students can request a leave of absence for no more than three terms. Obtaining a Leave of Absence

does not extend the time a student has to complete the program. A student who has not registered for one entire academic year is considered inactive and must confer with the Program Director to request readmission to the program. If approved for readmission, the student must be continually registered to remain in good standing in the program. Three terms of a Leave of Absence is the maximum for a student to remain active in the program.

Graduation Requirements/ Degree Completion

Students must comply with the following requirements in order to graduate with their Ph.D. in Family Therapy:

- Pass all course work with a 3.5 cumulative GPA or above. Nothing lower than a "C" is permitted. Only one "C" is allowed.
- Earn a minimum of 96 credit hours
- Pass, or show evidence of having passed, the Legal, Ethical and Professional Issues in MFT course with a "B" or better
- Pass Clinical and Academic/ Research Portfolios
- Successfully complete an Internship in three consecutive terms
- Successfully defend their dissertation
- Accumulate 1000 client contact hours in conjunction with 200 hours of supervision by a qualified supervisor according to the specification in the Practicum manual
- Participate in at least three Annual Reviews
- Comply with remediation plans as specified if necessary
- Maintain continuous ethical/ professional conduct throughout the program
- Complete the binding and submission of the final dissertation and PDF version
- Apply for and receive degree conferral
- Complete all requirements above within the stated time limit of the program

Accreditation

The Ph.D. Program is fully accredited by the Commission on Accreditation for Marriage and Family Therapy Education of the American Association for Marriage and Family Therapy.

The AAMFT is located at 112 South Alfred Street, Alexandria, Virginia, 22314-3061.
<https://www.coamfte.org/coamfte/>

Recruitment Policy

As noted in the Ph.D. Program Goals, the NSU Ph.D. in Family Therapy program demonstrates a commitment to diversity and inclusion, and prepares students for the clinical practice of family therapy, maintaining a high level of graduation and postgraduate success in the field. Our recruitment policy combines a commitment to diversity and underserved populations with a fair and realistic appraisal of qualities needed to graduate and have success in the field of marriage and family therapy. We do not require the GRE or other standardized testing, as standardized testing tends to privilege certain populations over others. We require a 3.5 GPA, and demonstrated interpersonal ability. In addition to letters of reference, an admissions essay, and a writing sample, we conduct in person interviews to assess prospective students. To attract qualified students, we maintain relationships with universities nationwide who have graduate programs in MFT and related fields.

We make it a point to build relationships with other universities nationwide. We also offer open houses, open to the community, and publicized through our website, where prospective students can talk with faculty and current students. Our students and graduates themselves are a primary source of prospective students for us, as they recommend the program to friends and colleagues. We strive to recruit a diverse student body, in terms of age, experience, sexual orientation, race, class, culture, gender, and national origin. We are transparent about our values and what we offer, providing all prospective students with a

statement of our core diversity/inclusion values, and publicizing both our licensure exam pass rates and our postgraduate employment statistics.

Retention Policy

As noted in the Ph.D. Program Goals, the NSU Ph.D. in Family Therapy program demonstrates a commitment to diversity and inclusion, and prepares students for the clinical practice of family therapy, maintaining a high level of graduation and postgraduate success in the field. Our retention policy balances our commitment to the best outcome for individual students, with the need to maintain a positive reputation for our graduates to ensure success in the field. The faculty advisors attend closely to the progress of individual students during the entire program as evidenced in the Annual Reviews. Most of our attrition occurs during the first semester, when students are not able to succeed academically or have underestimated the commitment required for a graduate program. In this event, the Program Director meets with the student and the faculty teaching the student that semester. Every effort is made to work towards a mutually agreeable outcome.

The Program Director is notified if a student earns a "C" in any course and a letter is sent to the student advising her/him that students are required to repeat a course in which a second "C" is earned. Additionally, students may be asked to take additional internal practicums above and beyond the minimum requirement. The Program Director and the faculty work with individual students to maintain their progress towards graduation. If at any time, however, it becomes clear that a student is interpersonally, ethically, or academically unqualified for the practice of marriage and family therapy, the Program Director will schedule an appointment with that student and the possibility for a remediation plan will be discussed along with the possibility of dismissal from the program. Our goal is a high level of retention, but balanced at all times with the need to maintain the integrity of the program and the profession.

Grievances/Student Complaints

The Ph.D. Program in Family Therapy encourages feedback from all of its faculty, supervisors, and students. If students have concerns, they initially discuss the issue with the faculty instructor, supervisor, or their faculty advisor. If the concern is not resolved, the student may consult with the Program Director. If the concern is then not resolved, the student may consult with the Department Chair. The department currently has a complaint/concern/grievance form students may fill out and give to the Program Director. Official grievances are required in writing if other methods have not resulted in the resolution of an issue.

Governance of the Program

The Ph.D. Program in Family Therapy employs a Program Director who is academically, professionally and experientially qualified and is vested with the authority necessary to accomplish the the program goals. The program values highly input from its communities of interest which include faculty, supervisors, and students. Faculty and supervisors participate in the governance of the program through their involvement in teaching and supervising students as well as through faculty meetings, faculty retreats, committee participation, and various other evaluative mechanisms. Faculty and supervisors are encouraged to offer feedback regarding the program throughout the year. Students are involved in the governance of the program through the feedback they provide via the course evaluations, Annual Reviews, Student Government Association (SGA), Doctoral Seminars, Doctoral Town Hall meetings, and various other evaluative mechanisms. Faculty and students are also represented on the Advisory Board as well as the Ph.D. Curriculum Committee. Feedback from all communities of interest is collected and reviewed at faculty meetings for possible program changes and improvement. Any major changes to the program, such as curricular

changes, are proposed to and approved by the faculty, then the department chair, then the CAHSS Curriculum Committee, then upper administration as needed, then accrediting bodies. Any changes to the program are communicated with students via the listserv.

Collection of Student and Graduate information

In order to comply with accreditation standards, the program is required to gather information from its students and graduates. The program sends an annual survey via email to students and graduates regarding achievements of graduates, employment information, employer information (in order to request satisfaction information), national exam pass rates, licensure rates, and other information as needed.

Student Achievement

The NSU Ph.D. in MFT program has a policy of continuous assessment of students and of graduate success.

1. Assessment of students includes individual course assessment measures as seen in all syllabi, practicum evaluations, Annual Reviews, and portfolio evaluations. Doctoral Seminars, Reading/Writing/and Editing for Doctoral Scholars course, portfolios, internships, and dissertations, are where students can earn Pass (P), No pass (NP), In Progress (IP or PR) grades. A student may earn an incomplete (I) or withdrawal (W) as permitted and indicated in the catalog.

2. Once students are graduated, we maintain data on graduation rates, licensure exam pass rates, and job placement rates in the field. We are able to verify graduation rates from our own internal data. Once students are graduated, we rely on alumni surveys and their maintaining contact with us to provide us with licensure exam pass rates and career data. To encourage students to do this, we utilize social media and personal contact.

3. Finally, we also maintain contact with major employers of our graduates and obtain their input through participation in our curriculum committee and advisory board. We have representatives of large private practices and agencies that employ our graduates in the tri-county area serving on this committee and this allows us to continuously assess the program fit with employer needs.

Graduation Rates

The Ph.D. in Family Therapy program advertises that students graduate within a 5-7 year time frame, beginning with the 2012-2013 cohort. Analysis of data from 2005-2007 cohorts, which had a maximum graduation time frame of 7-10 years, indicates that the program exceeded the program's benchmark.

Licensure Exam Preparation

The Department assists in preparing students for the AMFTRB national exam, taken after students graduate with a terminal degree in family therapy, through coursework. A powerpoint study guide has been prepared for graduates to help them study, and the department stays in close touch with graduates to assist them as requested as they study for the exam.

National Licensure Exam Pass Rate

Graduates of our Ph.D. in Family Therapy program are eligible to become registered interns in the state of Florida as Marriage and Family Therapists. Registered Interns can take the National licensing exam developed and administered by AMFTRB (Association of Marital and Family Therapy Regulatory Boards). Registered interns must take and pass the exam and

complete other clinical requirements in order to be eligible to become fully licensed marriage and family therapists in the state of Florida. Through the education, mentoring and diligent efforts on the part of the program, our graduates have a passing rate of 98% over last 10 years on the AMFTRB National Exam. The AMFTRB National Exam results can also be utilized for licensure in other states. It is encumbant on the student to learn the licensre requirements in other states. State board contact information can be obtained via the following link.

https://www.aamft.org/Directories/MFT_Licensing_Boards.aspx?hkey=c0f838ad-2672-4b4e-8b51-b9578fe5c28a

Racial/Ethnic Composition of Program Faculty, Supervisors, and Students

NSU’s Ph.D. MFT Program is proud to have a broad range of diversity represented among our faculty, supervisors, and students. Below is a chart depicting the composition of our faculty, students and supervisors based on IPEDS classification.

Ph.D.

AS OF SUMMER 2017	GENDER	ETHNICITY
Students – 120	Male – 19	African-American/African/Black/non-Hispanic – 40
	Female – 101	Hispanic/Latino/Chicano – 30 White/non-Hispanic – 40 Multiethnic – 1 Asian – 7 Other – 2
Faculty – 30	Male – 6	African-American/African/Black/non-Hispanic – 3
	Female – 24	Hispanic/Latino/Chicano – 6 White/non-Hispanic – 16 Multiethnic – 1 Asian – 4 Other – 0
Supervisors – 19	Male – 4	African-American/African/Black/non-Hispanic – 2

Program Specifics

Disclosure of Guiding Principle of our Programs

It is with great pride that, we, the members of the Department of Family Therapy at Nova Southeastern University, share one of the guiding principles of our training programs.

Our programs are guided by the importance of inclusion, diversity and affirmative practices in the classroom, coursework, clinical training, as well as in all professional and collegial relationships and interactions. We are committed to training our students in a manner that is respectful of and sensitive to religious/spiritual beliefs, cultural traditions and practices, gender identities and in all areas that distinguish individuals. Our goal is to be self-reflexive practitioners, holding ourselves accountable for our commitment to our principles.

We further strive to train students to respond to each other with the same honor and respect. Subsequently, we expect students will treat fellow students, staff, and clients accordingly. We stress a commitment to servicing clinical populations in an affirmative, supportive and competent manner including but not limited to underprivileged, minority, and socially oppressed groups, ethnic, racial, religious groups, LGBTQ individuals, foreign nationals, individuals with different levels of ability both physical and mental, as well as individuals of various genders, ages and socioeconomic and relationship statuses.

Ultimately, we believe that individual belief systems and values should be respected but that those belief systems and values do not hinder the practice of affirmative therapy.

Additionally, our programs abide by the AAMFT Code of Ethics. Specifically, the following:

- 1.1 Non-Discrimination. Marriage and Family Therapists provide professional assistance to persons without discrimination on the basis of race, age, ethnicity, socioeconomic status, disability, gender, health status, religion, national origin, sexual orientation, and gender identity or relationship status.*

Professional/Ethical Conduct

Students are expected to abide by the AAMFT Code of Ethics, conduct indicated in the Florida Statutes Chapter 491, conduct indicated in HIPAA, as well as the NSU Student Handbook. If at any time during a student's program, the faculty is alerted to concerns about a student's conduct, a meeting will be scheduled with the Program Director and at least one other faculty. The program follows all guidelines from the NSU Student handbook. The results of the meeting will be documented along with recommendation for a remediation plan. If it is found that a student's conduct fell outside those indicated in the above documents, the outcome of such a meeting could ultimately lead to immediate dismissal from the program.

Courses Necessary for Licensure

The following is a list of courses offered in our department that are necessary for licensure in the state of Florida as a Licensed Marriage and Family Therapist. If students plan on becoming licensed in another state, students must research the requirements in that state. A link to each state's licensing board can be found on the AAMFT website

https://www.aamft.org/Directories/MFT_Licensing_Boards.aspx?hkey=c0f838ad-2672-4b4e-8b51-b9578fe5c28aIf a student plans on becoming credentialed in another country, students are advised to research the requirements of the specific country where they plan on becoming credentialed.

From the list below, doctoral students may submit a request for Transfer of Credit for up to 21 credits toward their 96 required credits. The student must have passed with a grade "B"

or better in each course. The courses on this list which students have not transferred in must be taken prior to completing their 3rd Annual Review.

- SFTD 5007: Research in Marital and Family Therapy
- SFTD 5008: Introduction to Marital and Family Therapy: Counseling Theories and Techniques
- SFTD 5009: Theories of Marital and Family Therapy
- SFTD 5045: Group Psychotherapy
- SFTD 5046: Human Development Across the Life Cycle
- SFTD 5006: Introduction to Systems Theory
- SFTD 5300: Legal, Ethical, and Professional Issues
- SFTD 6520: Diversity and Psychosocial Issues
- SFTD 7311: Human Sexuality and Gender
- SFTD 7301: Assessment in Marital and Family Therapy
- SFTD 7302: Personality Theories & Psychopathology
- SFTD 5311: Substance Abuse/Addictions and Critical Issues in Systems Theory

Requirements for Work in the On-site Clinic, Clinical Practicums

Before entering Internal Practicum I, students are required to complete the following courses:

- SFTD 5006: Introduction to Systems Theory
- SFTD 5300: Legal, Ethical, and Professional Issues
- SFTD 5008: Introduction to Marriage and Family Therapy

All students must take and pass the following requirements within the first month of enrollment:

- Two HIPAA certificate courses
- Level two background check with photo badge [prior to orientation](#)
- CITI course

Students must also be familiar with the Practicum Handbook and Family Therapy Clinic/Brief Therapy Institute Policies and Procedures, both available on the website.

Clinical Practica

Students complete a minimum of four internal practicum at the Family Therapy Clinic at the Brief Therapy Institute. During this practicum sequence students see their own clients and are supervised in teams and individually. **Clients cannot be seen without approved supervision.** Details regarding practicum and the department clinic are available in the Policies and Procedures Manual of the Family Therapy Clinic/Brief Therapy Institute. Policies and Procedures are required reading and understanding of all policies is expected prior to commencing practicum are available online. In depth discussions of all policies will be a part of internal practicums. Students should also review and be familiar with the Practicum Handbook available on line. Students must maintain current their badge in order to see clients.

HIPAA

Nova Southeastern University and the Department of Family Therapy require that all students successfully complete the two NSU HIPAA certificate requirements during their first term in the program, prior to seeing clients. These programs are uploaded on each student's on-line platform at the beginning of the first term. Certificates must be printed, name entered in BLUE, and submitted to the DFT Internship Coordinator.

Background checks and fingerprinting are required of ALL students and must be completed prior to orientation. Students should contact the DFT Internship Coordinator for detailed information on these procedures.

Client Contact Hours

In order to graduate, all students must document that they have a minimum of 1000 hours of direct client contact hours. At least 500 of the 1000 required hours must be with couples and/or families present in the room.

Doctoral students who have graduated from a COAMFTE approved Master's program, or who had supervision from an AAMFT Approved Supervisor, can apply to have up to 500 client contact hours waived. Doctoral students who have a license in MFT or another mental health filed, or who obtain the license during their doctoral program, may petition the program to waive some of the required 1000 direct client contact hours. *However, waiving part of this client contact hour requirement does not release a student from completing all of the practicum or internship requirements of the program.* In order for a waiver request of client contact hours to be approved, the student must also provide a copy of their supervisor's credentials. In order for their supervision to count, these credentials must indicate that the previous supervisor was licensed in the mental health field AND had appropriate credentials for supervision.

If a waiver request is approved, students still are required to document a minimum of 100 in-the-room client contact hours with individuals, couples, and/or families during their time as a student in the program *before* beginning clinical internship. At least 50 of these hours must be accrued at the Brief Therapy Institute (BTI) Practicum hours may be included in the total. In order to count, all 100 direct client contact hours must be supervised by AAMFT Approved Supervisor, who will sign and document that the hours submitted are accurate. Students must follow all BTI policies and procedures.

For client contact hours obtained outside of BTI, documentation of client contact and supervision hours must include the date, type of session (i.e., family, couple, or individual), length, and location of each session. Students must have written case notes for all sessions listed. The necessary forms are available online at the CAHSS student resources website. Students must submit their completed forms to the Internship Coordinator at the end of EACH term to ensure progress is recorded and the student file remains updated. Students must submit to the Internship Coordinator the ORIGINAL SIGNED copy of the completed forms with all hours totaled and with all signatures in BLUE. Students must keep a copy of all completed and signed forms during their entire program and for future licensure needs.

Client Confidentiality and Use of Client Information (DVDs and/or flash drives)

Clients seen at the Brief Therapy Institute's Family Therapy Clinic sign a Therapy Agreement that gives student clinicians permission to record sessions for educational purposes. BTI provides students with the necessary materials to record their sessions. Students may NOT use their own DVDs and/or flash drives for recording sessions and all recordings must remain at BTI, on the premises, to ensure confidentiality. Viewing rooms are available at BTI for students to review their own work; they may not view another student's work without his or her prior written consent submitted to the BTI Clinic Office Manager for final approval. If students wish to show a recorded session in a class, or use them for their Clinical Portfolio requirements, they may sign out for a specified amount of time. This must be coordinated through the BTI Clinic Office Manager to ensure proper authorization. **At no time is case information to be taken off campus nor downloaded onto personal computers/flash drives.**

If students wish to write about a case seen at BTI and have obtained proper approval, they may schedule times to transcribe materials in the editing suite coordinated through the Clinic Office Manager. No identifying client information can appear on transcripts or written materials or be shared with others.

If students wish to show a recorded session to a professional audience outside of NSU, they must either have written consent or re-contact the clients seen on the recording and explain their request to present the case, when and where and for what purpose. The student must have each adult client sign a release, Authorization for Use or Disclosure of Information for Educational and Related Purposes, in advance of the presentation along with approval from the Clinic Director.

DVDs and the use of portable hard drives are supplied to students. All DVDs and/or hard drives assigned during a student's time at BTI must be stored at BTI. The Practicum Supervisor at the end of each practicum session returns all related information to BTI for placement in locked storage. DVDs or any client recordings or information are not allowed off BTI premises.

Annual Review

As part of the graduation requirements, students must have an annual review at the end of each of the first 3 years. This annual review will consist of an evaluation of the student's academic progress, clinical progress, student's professional and ethical conduct, and level of attainment of the program's student learning outcomes. The Annual Review is also utilized for collection of feedback from students about the program, support services by the institution, as well as the Program Director. This review is conducted in a manner needed for each individual student such as, but not limited to, a meeting with a faculty advisor, program director, or via email. Students must register for the Annual Review during the summer of each of the first 3 years.

Portfolios and Evaluations

As a requirement for completing the Ph.D. program in family therapy, a student must submit for faculty evaluation two separate performance based portfolios which are considered capstone experiences. Each of these portfolios is designed to help assess how students met various aspects of the program's learning objectives and outcomes. The portfolio requirements are also designed to help students become better able to present their work in professional contexts, such as seeking employment and academic exchange. Each of the two portfolios and their requirements are described in detail below.

The two-components of the Portfolio process are:

1. Clinical Portfolio
2. Academic/Research Portfolio

Each portfolio is intended to address major training and academic goals of the program. The portfolio process represents a steppingstone experience for students as they prepare to undertake their internship or dissertation. Successful completion of each successive portfolio indicates that the student is able to plan, undertake, and complete increasingly sophisticated projects, requiring independence of both thought and motivation.

1. Clinical Portfolio

The Clinical Portfolio is intended to provide an opportunity for students to demonstrate their clinical competence, creativity, and theoretical clarity, in a manner and setting similar to that which could be expected in a job interview situation. It is an assessment of the student learning outcome associated with advanced clinical theory, ethical and professional conduct,

attention to diversity and inclusion as well as practice. It should be viewed as the culmination of the on-site clinical training aspect of the doctoral program, and it is designed to allow students to demonstrate the full range and depth of their clinical skills and theoretical knowledge. To submit a Clinical Portfolio for faculty review, a student must have successfully completed the minimum of four (4) required internal practicum courses, or be enrolled in the fourth. Student's wishing to enhance their clinical skills or theoretical knowledge may do so with additional practicums, clinical work, or supervision before submitting their Clinical Portfolio.

Clinical Portfolio Components

The following are the 4 components to the Clinical Portfolio:

- Statement of Treatment Philosophy (5-7 pages, double spaced; APA formatted)
- Case Study (Written, single case from inception to treatment completion/evaluation) Video presentation (45 min–1 hour, professional audience) Students are required to utilize only the encrypted flash drives and corresponding computers provided by the department.
-
- Verbatim transcription of the video clips with identifying information removed

Statement of Treatment Philosophy

The Statement of Treatment Philosophy document should be between 5-7 pages, double spaced, and should adhere to all applicable APA formatting conventions. In this document, students should articulate their current overall philosophy of treatment as it applies to their work in the field of marriage and family therapy. This philosophy statement assumes that the student under review is still in a formative stage of development in terms of their clinical skills. Thus, it is important for the student to write honestly and openly about the ways they assess their own current stage(s) of development. This statement may differ from the case study or video materials presented in the other parts of the Portfolio, but if it is, it would be important for the statement to address how these disconnects are part of the overall development of the student. An important part of this statement is the honesty, maturity, integrity, and clarity with which the student describes their journey throughout the years of clinical training they have received in the course of the program, as well as the accuracy of any theoretical assertions they make. The evaluation form for this part of the written component is located on the CAHSS website.

Single Case Study

In this section of the written component of the portfolio, the student is asked to describe, in writing, their experience as a primary therapist with a single case, from inception and introduction to completion and evaluation. The purpose of this section of the portfolio is to allow the student to describe in great detail the how they managed a case from beginning to end, and in the process of doing so, giving insight into the theories, techniques, approaches, assumptions, supervision, and feedback that guided them through the process. This component of the Portfolio will be evaluated by the faculty review committee using a rating scale that evaluates the student based on the criteria indicated on the current evaluation form found on the CAHSS website.

Video Segments Presentation

Students are required to utilize only the encrypted flash drives and corresponding computers provided by the department.

This section of the Clinical Portfolio is designed to allow the student to demonstrate through video segments, the correlation between theory and their actual clinical practices. Each student is required to produce and display between 5-7 video segments that demonstrate the connections between their theory/philosophy and their actual therapeutic conduct in the room. For each segment presented, the student will describe the theoretical concept, construct, or technique that they believe most accurately reflects the actions that the audience is about to view. Students should preface the clips with ample information so the audience will be able to follow well, as in a professional presentation.

The concepts, constructs, or techniques that the student describes and shows video clips displaying can come from any of the classes, courses, or supervision they receive during their training in the program. The clips can be arranged to represent a single clinical point of view, or they may be arranged to represent a wide variety of the clinical approaches the student has used in the course of their training. This part of the Portfolio should be representative of a range of work that best demonstrates the student's acquisition of clinical and theoretical skills during the program, regardless of theoretical approach.

It is expected that students will conduct themselves in a professional and collegial manner throughout the preparation of materials as well as throughout the presentation. The process for selecting, editing and developing a video presentation is an involved process that should be organized through the BTI office manager. The entire process may take 2 full months to complete due to the time needed to secure time and space with the media service staff. Students should start early in the term for which they are registered in order to complete the process.

The committee will consist of members of the full time family therapy faculty, selected on a random, rotating basis. Once selected, the members of the committee will receive all portfolio materials for review. The clinical portfolio will be open only to DFT students and faculty only and scheduled for a maximum of one and one half hour. As a professional presentation, it is important that the student allocate the time for presentation and questions accordingly. Punctuality, time keeping, and facilitation are important parts of professional presentations.

The review will be publically announced to the Department of Family Therapy community, and **open for only DFT faculty and students to attend**. These events are not only a review of the student's portfolio of clinical work, but also an opportunity for active conversation with, and about, the clinical work of their colleagues of the dissertation. Care should be taken regarding appropriate dress, professional demeanor, clarity of presentation, and respect for clients and colleagues.

Upon completion of successfully passing the public presentation, the faculty review committee considers all of the materials presented in light of:

- The evaluation rubrics attached to those materials;
- The manner in which they were presented;
- The overall professionalism of the presenter, including dress, manner, tone, etc.; final defense, and
- The manner and substance of the ways in which the presenter handled questions, criticisms, theoretical disagreements, or ethical concerns raised by reviewers or members of the audience during the course of the review.

2. Academic/Research Portfolio

The Academic/Research Portfolio is considered a capstone experience assessing the student learning outcome associated with research, scholarship and academic development. As a matter of professional development and career building, students are strongly encouraged

to participate in a number of academic publishing and professional presentations before local, statewide, national, and international audiences.

All students are required to demonstrate that they possess doctoral level competency in both writing and professional presentation skills. There are 2 components to the Academic/Research Portfolio: There are the presentation component and the written component.

Presentation Component

In order to satisfy the presentation component of the Academic/Research Portfolio, a student must be a part of one or more professional presentations before local, statewide, national or international audiences. To be considered as equivalent experiences, such presentations should occur in settings where submission is subject to a peer review process, and the length of the presentation is at least 45 minutes. Because of the wide variety of professional presentation options available, students will need to submit a brochure where their name appears and copies of all relevant presentation materials to a committee of full time family therapy faculty reviewers. Any such presentations must be based on materials, projects, or research that the student has been involved in since they were enrolled in the family therapy program. Panel presentations will not be accepted. Students must demonstrate they had significant input to the preparation of the presentation.

Written Component

In order to fulfill the written component requirement of the Academic/Research Portfolio, a student must submit for publication a manuscript or chapter that the student authored prior to enrolling in dissertation. This manuscript or chapter must have submitted to a peer reviewed, professional journal in family therapy or other closely related professional journal or edited book. A committee of full time family therapy faculty will review the article or chapter to determine if it satisfies this requirement. The student may also be the second author of the manuscript or chapter.

Alternate written component: Students may submit to the faculty committee evidence that an article or chapter she/he has authored or co-authored has been accepted for publication in a peer reviewed, family therapy or other closely related professional journal or edited book. Documentation that the article or chapter has been accepted for publication is required.

Students are highly encouraged to seek a faculty mentor prior to submitting for publication. Also, students may co-publish with faculty and other students/colleagues. In order to fulfill the requirement students must be the 1st or 2nd author. If a student is not the 1st or 2nd author, but 3rd +, students must obtain and submit a letter from a faculty to the Program Director indicating that their work on the manuscript was a significant enough contribution to fulfill this requirement.

Portfolio Timeline Information

Doctoral students may not begin their internship until they have successfully completed their Clinical Portfolio. The presentation component of the Academic/Research portfolio as well as the submission of the manuscript or chapter must be completed prior to registering for dissertation credits.

Internship

An Internship 3 consecutive terms, is designed to provide the student with a full-time experience, emphasizing relationally focused practice, research, and/or supervision. The majority of a student's course requirements must be completed before beginning the internship experience. Students must have successfully passed their Clinical Portfolio requirement before registering for Internship. The three internship types are as follows: Clinical, Research, and Hybrid.

Clinical Internship

The Clinical Internship is designed to provide students with professional experience in the practice of marriage and family therapy. This internship option is designed for students who do not have a clinical master's degree or who would like to obtain further clinical experience.

The institution sponsoring the internship site(s) will have been in operation for at least two years. Internship site(s) will provide adequate facilities and equipment for the intern to carry out designated responsibilities. Students will work with both a faculty supervisor and a site supervisor. When requesting supervision from a full time faculty AAMFT Approved Supervisor students will register for 3 credit hours per term for a minimum of 3 consecutive terms. If students have an AAMFT Approved Supervisor on site to supervise their clinical hours, or will obtain an outside AAMFT Approved Supervisor, they can register for 1 credit hour per term for a minimum of 3 terms. They will also work with their faculty supervisor as part of their internship experience. When taking 1 credit hour, students need to review their degree plan to ensure they will meet the required credit hours for their degree, and/or they will be required to take two additional elective courses to meet the credit hour internship requirement of a minimum of 9 credit hours.

Research Internship

The Research Internship is designed for students with an MFT, or closely related field, master's degree and license and provides students with an opportunity to further develop their research skills and knowledge of research projects, grants, and other available resources (i.e., working with faculty on research projects). The Research Internship experience requires prior approval by the faculty member/supervisor, Program Director, and internship site. The research internship will also require students to register with a faculty supervisor for 3 consecutive terms for 3 credits each term.

Hybrid Internship

The Hybrid Internship is designed for students with an MFT, or closely related field, master's degree and license and who are interested in designing an internship that meets their specific needs and/or interests. It can be a combination Clinical and/or research internship OR a combination to include advanced supervision. The Hybrid Internship will also require students to register with a faculty supervisor for 3 consecutive terms for 3 credits each term. The students and the supervising faculty will develop a specific contract delineating the details of the internship including expectations of outcome which must be approved by the program director prior to starting the internship.

The Teaching Course and Practicum

Students take the Fundamentals of Teaching course during their first or second year in the program. This course is designed to promote learning on how to become an effective instructor/professor as part of a student's professional development and readiness for a

teaching career. Upon completion of this course, students are able to work with full time faculty as teaching assistants in a practicum format to advance their teaching skills. Students seek out faculty and request a position as a TA in their course. Prior to the term commencing, the faculty and TA discuss the student's interest and type of involvement in the course. The faculty and student develop a written agreement as to the TA's responsibilities for the course.

The Supervision Course and Practicum

The Supervision course and supervision practicum are designed for students to understand and practice the fundamentals of supervision and the advancement of a student's supervisory skills. Prior to taking the Supervision course students must have successfully passed their doctoral Internal Practicum courses and be enrolled in or completed the Fundamentals of Supervision course. . For the Supervision Practicum, students must contact a full-time faculty supervisor prior to beginning the supervision practicum to request permission to assist supervising. Students may also contact a master's level External Practicum full-time faculty supervisor for permission to assist supervising. Prior to the term commencing, the supervisor and student discuss the student's interest and type of involvement in the practicum. The supervisor and student develop a written agreement as to the student supervisor's responsibilities for the practicum.

Dissertation

The Ph.D. dissertation consists of original research in the Marriage and Family Therapy field. Students are encouraged to develop research topics that are not only of interest to them but also meaningful to the field at large. It is highly recommended that students begin the program with a general idea of a dissertation topic which they begin to evaluate upon entering the program. **During each of the four research courses**, students will be developing components of a manuscript, such as an Introduction, Literature Review, Methodology, and IRB proposal, that will lead to a dissertation. Students enroll in their Dissertation courses while completing their Internship. A dissertation committee for all doctoral students will be composed of at least three members, one of whom will serve as the dissertation chair. The dissertation chair and at least one other committee member must be full-time DFT faculty members. A student may have one or more outside members on the committee if methodological or substantive topical issues make such membership advisable, and is approved by the dissertation chair. All members who are not DFT faculty must have an earned doctorate degree, must be full-time faculty at a university, and must provide copies of their credentials to the department. Dissertation committee members may not be from among the student's family members or personal friends, nor have graduated from CAHSS within the past three academic years. The dissertation Chair will formalize a research study with the student and develop a timeline for moving through the process.

The Dissertation process is extensive and specific details about how students move through this process and write their dissertation can be found in the DFT Dissertation Guidelines available online at www.CAHSS.nova.edu/studentresources. Students must take a minimum total of 9 dissertation credit hours; three credit hours per term for three terms. Three hours of dissertation credits is considered full time by the program. Students must continually be registered for at least one dissertation credit each term until they complete, successfully defend their dissertation, bind, and turn in their final document, and register their dissertation with ProQuest, UMI.

The Dissertation process may entail taking more than the minimum of 9 dissertation credit hours as required by the program. Once a student takes 9 dissertation credits over three terms, they can register for one credit hour each term thereafter until completion of their dissertation. If, for some reason, students cannot continue working on their dissertation,

they must apply in writing to their Dissertation Chair and the Program Director requesting a Leave of Absence. The Leave of Absence form is located online and must be completed with original signature in BLUE to remain in good academic standing. A student requesting a leave for longer than one term (i.e., two or more), may be unable, upon returning, to continue with the same dissertation chair and committee. The student must submit a written request to their Dissertation Chair for approval to continue their work and all dissertation forms must be updated. If a Leave of Absence is requested and approved, this does not extend the 7 year timeframe for completing the degree program. Students not enrolled in the program for more than three terms are considered inactive and are required to reapply to the program. If approved for readmission, the student must be continually registered to remain in good standing in the program. Three terms of a Leave of Absence is the maximum for a student to remain active in the program. Students are required to adhere to the dissertation guidelines and timelines.

Individual Supervision for State Licensure or AAMFT Approved Supervisor

Due to the AAMFT Code of Ethics principles related to multiple relationships and conflict of interest, full-time faculty may not serve as the supervisor for licensure for students enrolled in the program.

AAMFT Membership

Student membership in the American Association for Marriage and Family Therapy is strongly suggested. Students gain additional educational information and familiarity in the MFT field.

American Association for Marriage and Family Therapy (AAMFT)
112 South Alfred Street, Alexandria, VA 22314-3061
<http://www.aamft.org>

Concentration in Family Systems Health Care

Students in the Ph.D. program in Family Therapy may choose to pursue a concentration in Family Systems Health Care. The concentration focuses on the relationships between psychosocial medicine and biomedicine in the treatment and prevention of illness and disease. Students learn the basics of biopsychosocial theory, practice, and collaboration. The program prepares professionals to offer therapeutic services in a variety of medical settings, including private medical practices, hospitals, community clinics, primary care/specialists' offices, and agencies.

Students in the Family Systems Health Care concentration program have ample opportunities to gain practical expertise through classroom learning and hands-on clinical, research, teaching, and service experiences. Specific areas of study include: adjustment patterns of clients and their families to chronic and acute illnesses; models of collaboration between medical family therapists and other health care professionals; the role of medical family therapists in the continuum of medical services; the politics and economics of health care; understanding human systems in health care; and brief interventions and systemic assessments useful in the treatment and care of patients and their families. Additionally, the program emphasizes professional development by assisting students in strengthening their professional and personal qualities necessary for successful participation in the medical milieu.

The student's growth as a reflective practitioner is encouraged through clinical research in physician, patient, therapist, family communications, adjustments to acute, chronic, or terminal illness, social effects and ethical dilemmas of new medical technologies, and other

issues that transcend historical distinctions between physical treatment and psychosocial interventions. Program faculty and students cooperate to publish research findings and clinical experiences. Also, faculty and students of the program contribute to the growth of Family Systems Health Care and medical family therapy by supporting and participating in professional groups such as the Collaborative Family Health Care Coalition, the Society of Teachers of Family Medicine, Bereavement, Gerontology, and others.

In addition to degree requirements, students must complete the following coursework to receive a Concentration in Family Systems Health Care (24 credit hours):

- FSHC 5000 – Family Systems Health Care I
- FSHC 5010 - Family Systems Health Care II
- FSHC 5100 - Practicum I in Family Systems Health Care*
- FSHC 5110 - Practicum II in Family Systems Health Care*
- FSHC 5300 – Integration and Collaboration Among Health Care Systems
- FSHC 5500 - Politics and Economics of Health Care
- FSHC 6400 - Understanding Human Systems in Health Care Settings
- One Elective

* Students may choose to complete their clinical internship in a medical setting to obtain the required 200 hours of face-to-face client contact for this concentration.

Doctor of Marriage and Family Therapy (D.M.F.T.)

Program Description

The D.M.F.T. is a 78 credit-hour program designed for individuals holding master's degrees in a mental health field. The program prepares students for careers as private practitioners, agency administrators, clinical supervisors, and senior clinicians. The D.M.F.T. program is designed to expand and enhance a student's existing clinical skills in order to become top level practitioners, while at the same time demonstrating the place of program/clinical research in this pursuit.

To this end, the D.M.F.T. degree requires students to complete an Applied Clinical Project (ACP). The APC requires a student to conceive, propose, implement, and evaluate the effectiveness of a particular clinical program under the supervision of a faculty committee. The clinical program under review should be grounded in a systems based approach to family psychotherapy, yet may include large educational and/or consultation components.

The Department of Family Therapy has full time faculty and supervisors as well as adjunct faculty and supervisors who represent diversity in gender, age, religion, race, culture, and sexual orientation. The student body of the doctoral program reflects the rich cultural diversity of South Florida and across the nation in terms of race, religion, gender, sexual orientation, and age.

Vision

The Doctor of Marriage and Family Therapy (D.M.F.T.) is an innovative program dedicated to advancing the practice skills of practitioners in mental health fields. This program embraces a systemic/relational paradigm while fostering training that supports the needs of our community focusing on inclusion, diversity, and cultural issues across all settings in which clinical and supervisory services are provided.

Mission

The Doctorate in Marriage and Family Therapy (D.M.F.T.) is a practitioner-oriented program with the primary emphasis of producing professionals whose chief contributions will be as clinicians, supervisors, and applied researchers in the field of Couples, Marriage, and Family Therapy. Graduates of the DMFT program are trained to practice within ethical and professional bounds and systemic/relational models. Graduates will be able to work on multiple levels in agencies, treatment facilities, medical offices, and other locations, while focusing on inclusion, diversity, and cultural issues across all settings.

Students entering the D.M.F.T. program are required to have the following core curriculum or closely related equivalent courses **prior** to entering this advanced systems program. When students need to take any of these prerequisites, these courses must be completed prior to beginning the core D.M.F.T. curriculum.

- Introduction to Marriage and Family Therapy
- Legal, Ethical and Professional Issues in MFT
- Theories of Marital and Family Therapy
- Human Development across the Life Cycle
- Theories of Personality and Psychopathology
- Human Sexuality and Gender
- Diversity and Psychosocial Skills
- Research in Marriage and Family Therapy
- Assessment in Marital and Family Therapy
-

Program Goals and Student Learning Outcomes

PG1:The DMFT Program demonstrates a commitment to issues of cultural and sexual diversity and inclusion.	SLO1: DMFT students demonstrate respect for issues of cultural and sexual diversity and inclusion in supervision. SLO2: DMFT students demonstrate respect for cultural and sexual diversity and inclusion in practice.
PG2:The DMFT Program demonstrates a commitment to ethical and professional practice.	SLO3: DMFT students will demonstrate ethical and professional behaviors as practitioners.
PG3:The DMFT Program trains students in applied research, supervision, and advanced clinical theory and practice.	SLO4: DMFT students will successfully complete a Applied Clinical research project SLO5: DMFT students will demonstrate competency the practice of supervision SLO6: DMFT students demonstrate competency in advanced systemic/relational theory and practice
PG4:The DMFT Program demonstrates a commitment to servicing the community.	SLO7: DMFT students will complete 2 Internal Practicum at the Family Therapy Clinic
PG5:The DMFT Program demonstrates a commitment to graduating students in a timely manner, monitoring graduate employment, and assisting students/graduates in passing the licensure exam.	SLO8: DMFT students will graduate within the maximum allotted timeframe of 7 years. SLO9: DMFT graduates will be employed SLO10: DMFT students/graduates will pass the AMFTRB licensure exam

Racial/Ethnic Composition of Program Faculty, Supervisors, and Students

NSU’s DMFT Program is proud to have a broad range of diversity represented among our faculty, supervisors, and students. Below is a chart depicting the composition of our faculty, students and supervisors based on IPEDS classification.

D.M.F.T.

AS OF SUMMER 2017	GENDER	ETHNICITY
Students – 42	Male – 4	African-American/African/Black/non-Hispanic – 20
	Female – 38	Hispanic/Latino/Chicano – 8
		White/non-Hispanic – 12
		Multiethnic – 1
		Asian – 1
Faculty – 30	Male – 6	African-American/African/Black/non-Hispanic – 3
	Female – 24	Hispanic/Latino/Chicano – 6
		White/non-Hispanic – 16
		Multiethnic – 1
		Asian – 4
Supervisors – 19	Male – 4	African-American/African/Black/non-Hispanic – 2
	Female – 15	Hispanic/Latino/Chicano – 2
		White/non-Hispanic – 12
		Multiethnic – 0
		Asian – 3

Core Curriculum

Developmental Courses (3 credits)

- DMFT 5001 Doctoral Seminar I (1 credit)
- DMFT 5002 Doctoral Seminar II (1 credit)
- DMFT 5003 Doctoral Seminar III (1 credit)

Theory Courses (9 credits)

- DMFT 5006 Introduction to Systems Theory (3 credits)
- DMFT 5010 Systemic Family Therapy I (MRI/SFBT) (3 credits)
- DMFT 5020 Systemic Family Therapy II (Narrative Therapy) (3 credits)

Research and Grant Writing Skills (9 credit hours)

- DMFT 6410 Qualitative Action Research (3 credits)
- DMFT 5340 Grant Writing and Funding Opportunities (3 credits)
- DMFT 6400 Evidence-based Research Models (3 credits)

Specialization Topics

FSHC 5001	Medical Family Therapy (3 credits)	<u>OR</u>
DMFT 5000	Family Systems Healthcare I (3 credits)	
DMFT 5036	Infant Mental Health (3 credits)	
DMFT 5038	Military Families (3 credits)	
DMFT 5362	Solution Focused Coaching (3 credits)	
DMFT 5361	Developing a Private Practice (3 credits)	
DMFT 6590	Advanced Bowen Family Systems (3 credits)	
Others as offered		

Clinical Internships (12 credit hours)

DMFT 6200	Internal Practicum I (3 credits)
DMFT 6200	Internal Practicum II (3 credits)
DMFT 6210	Internal Clinical Practicum I (3 credits)
DMFT 6210	Internal Clinical Practicum II (3 credits)

Capstones (2 credits)

DMFT 6825	Clinical Portfolio (0 credit hours)
DMFT 6950	Applied Clinical Project I (1 credit)
DMFT 60950	Applied Clinical Project II (1 credit)
Annual Reviews x 2	(0 credit hours)

Elective Courses

DMFT 6321	Fundamentals of Teaching MFT (3 credits)
DMFT 5110	Language Systems (3 credits)
DMFT 5120	Thinking Systems (3 credits)
DMFT 5004	Reading/Writing and Editing for Doctoral Students (3 credits)
Advanced Research Courses	
DMFT 5410	Quantitative Research I (3 credits)
	Quantitative Research II
DMFT 6430	Qualitative Research I (3 credits)
	Qualitative Research II
DMFT 5311	Substance Abuse/Addictions and Critical Issues (3 credits) (Required for licensure in Florida)
DMFT 5355	Introduction to Equine Assisted Family Therapy (3 credits)
DMFT 5363	Advanced Equine Assisted Family Therapy (3 credits) (Pre-requisite: DMFT 5355)
DMFT 6530	Family Therapy Topics (I-VIII) (3 credits)
DMFT 6140	Grief and Loss (3 credits)
Others as offered	

Electives and Specialization Topics

Electives and Specialization Topics are offered to support students in fulfilling course requirements for licensure as a marriage and family therapist in Florida and other states. Electives and Specialization Topics are also taken to enhance student learning in special topics. department, Additional courses may help students fulfill many of the course requirements for licensure in Florida (and other states) as a marriage and family therapist. Students must take a total of 5 Electives and Specialization Topics.

Degree Plan

Students enter the D.M.F.T. program in the fall term. Following is a sample degree plan. Degree plans are developed during a student’s first term and modified if needed throughout their program. In addition to the courses below, students must complete 5 courses from the list of Electives and Specialization Topics. These can be taken at anytime during the program.

Sample D.M.F.T. Degree Plan: 78 credit hours

Fall (August)	Winter (January)	Summer (May)
D.M.F.T 5001 Doctoral Seminar I D.M.F.T 5006 Introduction to Systems Theory D.M.F.T 5010 Systemic Family Therapy I D.M.F.T 6200 Internal Practicum I D.M.F.T 6400 Evidenced-Based Research Methods	D.M.F.T 5020 Systemic Family Therapy II D.M.F.T 6200 Internal Practicum II D.M.F.T 6558 Couples Therapy: Theory and Application	D.M.F.T 6325 Fundamentals of Supervision in Marriage and Family Therapy D.M.F.T 6410 Qualitative Action Research DMFT 6301 Internal Clinical Practicum I *D.M.F.T 6600 Annual Review
D.M.F.T 5002 Doctoral Seminar II D.M.F.T 5030 Systemic Family Therapy III or Elective DMFT 6302 Internal Clinical Practicum II D.M.F.T 5130 Crisis Management	D.M.F.T 5040 Systemic Family Therapy IV or Elective D.M.F.T 5340 Grant Writing for Funding Opportunities D.M.F.T 6320 Supervision Practicum I D.M.F.T 6210 Clinical Practicum (BTI)	D.M.F.T 6320 Supervision Practicum II *D.M.F.T 6600 Annual Review D.M.F.T 6750 Clinical Portfolio
D.M.F.T 5003 Doctoral Seminar III D.M.F.T 6750 Clinical Portfolio Elective	D.M.F.T 6950 Applied Clinical Project I D.M.F.T 6750 Clinical Portfolio	D.M.F.T 6950 Applied Clinical Project II Graduation and Celebration (June)

Recruitment Policy

As noted in the DMFT Program Goals in ~~MFT Educational Outcomes~~, the NSU DMFT in program demonstrates a commitment to diversity and inclusion, and prepares students for the clinical practice of family therapy, maintaining a high level of graduation and

postgraduate success in the field. Our recruitment policy combines a commitment to diversity and underserved populations with a fair and realistic appraisal of qualities needed to graduate and have success in the field of marriage and family therapy. We do not require the GRE or other standardized testing, as standardized testing tends to privilege certain populations over others. We require a 3.5 GPA, and demonstrated interpersonal ability. In addition to letters of reference, an admissions essay, and a writing sample, we conduct in person interviews to assess prospective students. To attract qualified students, we maintain relationships with universities nationwide who have graduate programs in MFT and related fields.

We make it a point to build relationships with other universities nationwide. We also offer open houses, open to the community, and publicized through our website, where prospective students can talk with faculty and current students. Our students and graduates themselves are a primary source of prospective students for us, as they recommend the program to friends and colleagues. We strive to recruit a diverse student body, in terms of age, experience, sexual orientation, race, class, culture, gender, and national origin. We are transparent about our values and what we offer, providing all prospective students with a statement of our core diversity/inclusion values, and publicizing both our licensure exam pass rates and our postgraduate employment statistics.

Retention Policy

As noted in the DMFT Program Goals , the NSU DMFT program demonstrates a commitment to diversity and inclusion, and prepares students for the clinical practice of family therapy, maintaining a high level of graduation and postgraduate success in the field. Our retention policy balances our commitment to the best outcome for individual students, with the need to maintain a positive reputation for our graduates to ensure success in the field. The faculty advisors attend closely to the progress of individual students during the entire program as evidenced in the Annual Reviews (~~Preliminary Review~~). Most of our attrition occurs during this first semester, when students are not able to succeed academically or have underestimated the commitment required for a graduate program. In this event, the Program Director meets with the student and the faculty teaching the student that semester. Every effort is made to work towards a mutually agreeable outcome.

The Program Director is notified if a student earns a "C" in any course and a letter is sent to the student advising her/him that students are required to repeat a course in which a second "C" is earned. Additionally, students may be asked to take additional internal practicums above and beyond the minimum requirement. The Program Director and the faculty work with individual students to maintain their progress towards graduation. If at any time, however, it becomes clear that a student is interpersonally, ethically, or academically unqualified for the practice of marriage and family therapy, the Program Director will schedule an appointment with that student and the possibility for a remediation plan will be discussed along with the possibility of dismissal from the program. Our goal is a high level of retention, but balanced at all times with the need to maintain the integrity of the program and the profession.

Program Format, Leave of Absences

The residentially offered DMFT in Family Therapy program should be completed in 3 years with the maximum timeframe of 7 years. If a student has not graduated once she/he has reached the 3-year mark, the student must apply for a one-year extension and receive approval from the Program Director. Approval from the Program Director must be obtained for each subsequent extension until the 7-year mark has been reached. Once students have passed the 7-year mark, students will be dismissed from the program. Full-time enrollment is considered to be at least nine credit hours per term, fall, winter, and summer. Please note

that for purposes of financial aid, 6 credits are considered fulltime. Once students begin their dissertation, they are considered full-time when registered for at least three credit hours per term. After taking 9 credit hours of dissertation, students may enroll in one dissertation credit hour per term and still be considered full time in the program. Students must continually be enrolled to remain active in the program. If a student cannot take classes due to unforeseen circumstances, s/he must to apply for a Leave of Absence three weeks prior the beginning of a term. Approval by the Program Director is required. Students can request a leave of absence for no more than three terms. Obtaining a Leave of Absence does not extend the time a student has to complete the program. A student who has not registered for one entire academic year is considered inactive and must confer with the Program Director to request readmission to the program. If approved for readmission, the student must be continually registered to remain in good standing in the program. Three terms of a Leave of Absence is the maximum for a student to remain active in the program.

Program Specifics

Disclosure of Guiding Principle of our Programs

It is with great pride that, we, the members of the Department of Family Therapy at Nova Southeastern University, share with our students, one of the guiding principles of our training programs.

Our programs are guided by the importance of inclusion, diversity and affirmative practices in the classroom, coursework, clinical training, as well as in all professional and collegial relationships and interactions. We are committed to training our students in a manner that is respectful of and sensitive to religious/spiritual beliefs, cultural traditions and practices, gender identities and in all areas that distinguish individuals. Our goal is to be self-reflexive practitioners, holding ourselves accountable for our commitment to our principles.

We further strive to train students to respond to each other with the same honor and respect. Subsequently, we expect students will treat fellow students, staff, and clients accordingly. We stress a commitment to servicing clinical populations in an affirmative, supportive and competent manner including but not limited to underprivileged, minority, and socially oppressed groups, ethnic, racial, religious groups, LGBTQ individuals, foreign nationals, individuals with different levels of ability both physical and mental, as well as individuals of various genders, ages and socioeconomic and relationship statuses.

Ultimately, we believe that individual belief systems and values should be respected but that those belief systems and values do not hinder the practice of affirmative therapy. Additionally, our programs abide by the AAMFT Code of Ethics. Specifically, the following:

1.1 Non-Discrimination. Marriage and Family Therapists provide professional assistance to persons without discrimination on the basis of race, age, ethnicity, socioeconomic status, disability, gender, health status, religion, national origin, sexual orientation, and gender identity or relationship status.

Professional/Ethical Conduct

Students are expected to abide by the AAMFT Code of Ethics, conduct indicated in the Florida Statutes Chapter 491, conduct indicated in HIPAA, as well as the NSU Student Handbook. If at any time during a student's program, the faculty is alerted to questions about a student's conduct, a meeting will be scheduled with the Program Director and one other faculty. The program follows all guidelines from the NSU Student handbook. The results of the meeting will be documented along with recommendation for a remediation plan. If it is found that a student's conduct fell outside those indicated in the above documents, the outcome of such a meeting could ultimately lead to immediate dismissal from the program.

Grievances/Student Complaints

The DMFT program encourages feedback from all of its faculty, supervisors, and students. If students have concerns, they initially discuss the issue with the faculty instructor, supervisor, or their faculty advisor. If the concern is not resolved, the student may consult with the Program Director. If the concern is then not resolved, the student may consult with the Department Chair. The department currently has a complaint/concern/grievance form students may fill out and give to the Program Director. Official grievances are required in writing if other methods have not resulted in the resolution of an issue.

Governance of the Program

The DMFT Program in Family Therapy employs a Program Director who is academically, professionally and experientially qualified and is vested with the authority necessary to accomplish the the program goals. The program values highly input from its communities of interest which include faculty, supervisors, and students. Faculty and supervisors participate in the governance of the program through their involvement in teaching and supervising students as well as through faculty meetings, faculty retreats, committee participation, and various other evaluative mechanisms. Faculty and supervisors are encouraged to offer feedback regarding the program throughout the year. Students are involved in the governance of the program through the feedback they provide via the course evaluations, Annual Reviews, Student Government Association (SGA), Doctoral Seminars, Doctoral Town Hall meetings, and various other evaluative mechanisms. Faculty and students are also represented on the Advisory Board as well as the Ph.D. Curriculum Committee. Feedback from all communities of interest is collected and reviewed at faculty meetings for possible program changes and improvement. Any major changes to the program, such as curricular changes, are proposed to and approved by the faculty, then the department chair, then the CAHSS Curriculum Committee, then upper administration as needed, then accrediting bodies. Any changes to the program are communicated with students via the listserv.

Collection of Student and Graduate information

In order to comply with accreditation standards, the program is required to gather information from its students and graduates. The program will send an annual survey via email to students and graduates regarding achievements of graduates, employment information, employer information (in order to request satisfaction information), national exam pass rates, licensure rates, and other information as needed

Courses Necessary for Licensure

The following is a list of courses offered in our department that are necessary for licensure in the state of Florida as a Licensed Marriage and Family Therapist. From this list, doctoral students may submit a request for Transfer of Credit for up to 21 credits toward their 78 required credits. The student must have passed with a grade "B" or better in each course. The courses students wish to transfer must have been completed within the past 7 years.

- SFTD 5007: Research in Marital and Family Therapy
- SFTD 5008: Introduction to Marital and Family Therapy: Counseling Theories and Techniques
- SFTD 5009: Theories of Marital and Family Therapy
- SFTD 5045: Group Psychotherapy
- SFTD 5046: Human Development Across the Life Cycle
- SFTD 5006: Introduction to Systems Theory

- SFTD 5300: Legal, Ethical, and Professional Issues
- SFTD 6520: Diversity and Psychosocial Issues
- SFTD 7311: Human Sexuality and Gender
- SFTD 7301: Assessment in Marital and Family Therapy
- SFTD 7302: Personality Theories & Psychopathology
- SFTD 5311: Substance Abuse/Addictions and Critical Issues in Systems Theory

Requirements for Work in the On-site Clinic, Clinical Practicums

Before entering Internal Practicum I, students are required to complete the following courses:

- SFTD 5006: Introduction to Systems Theory
- SFTD 5300: Legal, Ethical, and Professional Issues
- SFTD 5008: Introduction to Marriage and Family Therapy

All students must take and pass the following requirements within the first month of enrollment:

- Two HIPAA certificate courses
- Level two background check with photo badge (prior to orientation)
- CITI course
- Students must also be familiar with the Practicum Handbook and Brief Therapy Institute Policies and Procedures, both available on the website.

Internal Practica

Details regarding Practica and the department clinic, the Brief Therapy Institute (BTI), are available in the Policies and Procedures Manual. Policies and Procedures are distributed each term to students attending practicum and are available online at <http://cahss.nova.edu/departments/ft/resources/btipoliproc-2016.pdf>. Students must make themselves familiar with the Practicum Handbook, also available on the website.

Nova Southeastern University and the Department of Family Therapy require that all students complete two HIPAA course requirements found on Blackboard before seeing clients in the clinic. Also, all students are required to complete Background checks which include fingerprinting prior to orientation. Contact the Internship Coordinator for more information.

HIPAA

Nova Southeastern University and the Department of Family Therapy require that all students successfully complete the two NSU HIPAA certificate requirements during their first term in the program, prior to seeing clients. These programs are uploaded on each student's on-line at the beginning of the first term. Certificates must be printed, name entered in BLUE, and submitted to the DFT Internship Coordinator.

Background checks and fingerprinting are required of ALL students and must be completed during the first two weeks of enrollment. Students will contact the DFT Internship Coordinator for detailed information on these procedures.

Client Contact Hours

In order to graduate, all students must document that they have a minimum of 1000 hours of direct client contact hours. At least 500 of the 1000 required hours must be with couples and/or families present in the room.

Doctoral students who have graduated from a COAMFTE approved Master's program, or who had supervision from an AAMFT Approved Supervisor, can apply to have up to 500 client contact hours waived. Doctoral students who have a license in MFT or another mental health filed, or who obtain the license during their doctoral program, may petition the program to waive some of the required 1000 direct client contact hours. *However, waiving part of this client contact hour requirement does not release a student from completing all of the practicum or internship requirements of the program.* In order for a waiver request of client contact hours to be approved, the student must also provide a copy of their supervisor's credentials. In order for their supervision to count, these credentials must indicate that the previous supervisor was licensed in the mental health field AND had appropriate credentials for supervision

If a waiver request is approved, students still are required to document a minimum of 100 in-the-room client contact hours with individuals, couples, and/or families during their time as a student in the program *before* beginning clinical internship. At least 50 of these hours must be accrued at the Brief Therapy Institute (BTI) Practicum hours may be included in the total. In order to count, all 100 direct client contact hours must be supervised by AAMFT Approved Supervisor, who will sign and document that the hours submitted are accurate. Students must follow all BTI policies and procedures.

For client contact hours obtained outside of BTI, documentation of client contact and supervision hours must include the date, type of session (i.e., family, couple, or individual), length, and location of each session. Students must have written case notes for all sessions listed. The necessary forms are available online at the CAHSS student resources website. Students must submit their completed forms to the Internship Coordinator at the end of EACH term to ensure progress is recorded and the student file remains updated. Students must submit to the Internship Coordinator the ORIGINAL SIGNED copy of the completed forms with all hours totaled and with all signatures in BLUE. Students must keep a copy of all completed and signed forms during their entire program and for future licensure needs.

Client Confidentiality and Use of Client Information (DVDs and/or flash drives)

Clients seen at the Brief Therapy Institute's Family Therapy Clinic sign a Therapy Agreement that gives student clinicians permission to record sessions for educational purposes. BTI provides students with the necessary materials to record their sessions. Students may NOT use their own DVDs and/or flash drives for recording sessions and all recordings must remain at BTI, on the premises, to ensure confidentiality. Viewing rooms are available at BTI for students to review their own work; they may not view another student's work without his or her prior written consent submitted to the BTI Clinic Office Manager for final approval. If students wish to show a recorded session in a class, or use them for their Clinical Portfolio requirements, they may sign out for a specified amount of time. This must be coordinated through the BTI Clinic Office Manager to ensure proper authorization. At no time is case information to be taken off campus nor downloaded onto personal computers/flash drives.

If students wish to write about a case seen at BTI and have obtained proper approval, they may schedule times to transcribe materials in the editing suite coordinated through the Clinic Office Manager. No identifying client information can appear on transcripts or written materials or be shared with others.

If students wish to show a recorded session to a professional audience outside of NSU, they must either have written consent or re-contact the clients seen on the recording and explain their request to present the case, when and where and for what purpose. The student must have each adult client sign a release, Authorization for Use or Disclosure of Information for Educational and Related Purposes, in advance of the presentation.

DVDs and the use of portable hard drives are supplied to students. All DVDs and/or hard drives assigned during a student's time at BTI must be stored at BTI. The Practicum Supervisor at the end of each practicum session returns all related information to BTI for placement in locked storage. DVDs or any client recordings or information are not allowed off BTI premises

The Supervision Course and Practicum

The Supervision course and supervision practicum are designed for students to understand and practice the fundamentals of supervision and the advancement of a student's supervisory skills. Prior to taking the Supervision course students must have successfully passed their doctoral Internal Practicum courses and be enrolled in or completed the Fundamentals of Supervision course. . For the Supervision Practicum, students must contact a full-time faculty supervisor prior to beginning the supervision practicum to request permission to assist supervising. Students may also contact a master's level External Practicum full-time faculty supervisor for permission to assist supervising. Prior to the term commencing, the supervisor and student discuss the student's interest and type of involvement in the practicum. The supervisor and student develop a written agreement as to the student supervisor's responsibilities for the practicum.

Program Requirements: Annual Review, Clinical Portfolio and Applied Clinical Project

As a requirement for completing the D.M.F.T. program, students prepare and submit a Clinical Portfolio that includes a written and video presentation of their clinical and supervision work at the end of their second year. The portfolio requirement is also designed to help students become better able to present their work in professional contexts, such as seeking employment and academic exchange. And, at the end of a student's third year, a paper and presentation of their Applied Clinical Project is required.

Each requirement is intended to address major training and academic goals of the program and the student's progress throughout their program. This review process represents a stepping stone experience for students as they prepare to undertake their Applied Clinical Project work. Successful completion of each component indicates that the student is able to plan, undertake, and complete increasingly sophisticated projects, requiring independence of both thought and motivation.

Each of these components and their requirements are described in detail below.

- Annual Review (summer after each year)
- Clinical Portfolio
- Applied Clinical Project (third year)

Annual Review

As part of the graduation requirements, students must have an annual review at the end of each of the first 3 years. This annual review will consist of an evaluation of the student's academic progress, clinical progress, student's professional and ethical conduct, and level of attainment of the program's student learning outcomes. The Annual Review is also utilized for collection of feedback from students about the program, support services by the institution, as well as the Program Director. This review is conducted in a manner needed for each individual student such as, but not limited to, a meeting with a faculty advisor, program director, or via email. Students must register for the Annual Review during the summer of each of the first 3 years.

Clinical Portfolio

The Clinical Portfolio is intended to provide an opportunity for students to demonstrate their clinical competence, creativity, and theoretical clarity, in a manner and setting similar to that which could be expected in a job interview situation. It is an assessment of the student learning outcome associated with clinical competence, ethical and professional conduct, attention to diversity and inclusion. It should be viewed as the culmination of the in-house clinical training aspect of the doctoral program, and it is designed to allow students to demonstrate the full range and depth of their clinical skills and theoretical knowledge. To submit a Clinical Portfolio for faculty review, a student must have successfully completed the Internal Practicum sequence. Student's wishing to enhance their clinical skills or theoretical knowledge may do so with additional practica, clinical work, or supervision before submitting their Clinical Portfolio.

Clinical Portfolio Components

The following are the 4 components to the Clinical Portfolio:

- Statement of Treatment Philosophy (5-7 pages, double spaced; APA formatted)
- Case Study (Written, single case from inception to treatment completion/evaluation)
- Video presentation (45 min–1 hour, professional audience) Students are required to utilize only the encrypted flash drives and corresponding computers provided by the department.
- Verbatim transcripts of the video clips with identifying information removed.

Statement of Treatment Philosophy

The Statement of Treatment Philosophy document should be between 5-7 pages, double spaced, and should adhere to all applicable APA formatting conventions. In this document, students should articulate their current overall philosophy of treatment as it applies to their work in the field of marriage and family therapy. This philosophy statement assumes that the student under review is still in a formative stage of development in terms of their clinical skills. Thus it is important for the student to write honestly and openly about the ways they assess their own current stage(s) of development. This statement may differ from the case study or video materials presented in the other parts of the Portfolio, but if it is, it would be important for the statement to address how these disconnects are part of the overall development of the student. An important part of this statement is the honesty, maturity, integrity, and clarity with which the student describes their journey throughout the years of clinical training they have received in the course of the program, as well as the accuracy of any theoretical assertions they make. The evaluation form for this part of the written component is located on the CAHSS website.

Single Case Study

In this section of the written component of the portfolio, the student is asked to describe, in writing, their experience as a primary therapist with a single case, from inception and introduction to completion and evaluation. The purpose of this section of the portfolio is to allow the student to describe in great detail the how they managed a case from beginning to end, and in the process of doing so, giving insight into the theories, techniques, approaches, assumptions, supervision, and feedback that guided them through the process. This component of the Portfolio will be evaluated by the faculty review committee using a rating scale that evaluates the student based on the criteria indicated on the current evaluation form found on the CAHSS website.

Video Segments Presentation

Students are required to utilize only the encrypted flash drives and corresponding computers provided by the department.

This section of the Clinical Portfolio is designed to allow the student to demonstrate through video segments, the correlation between theory and their actual clinical practices. Each student is required to produce and display between 5-7 video segments that demonstrate the connections between their theory/philosophy and their actual therapeutic conduct in the room. For each segment presented, the student will describe the theoretical concept, construct, or technique that they believe most accurately reflects the actions that the audience is about to view. Students should preface the clips with ample information so the audience will be able to follow well, as in a professional presentation.

The concepts, constructs, or techniques that the student describes and shows video clips displaying can come from any of the classes, courses, or supervision they receive during their training in the program. The clips can be arranged to represent a single clinical point of view, or they may be arranged to represent a wide variety of the clinical approaches the student has used in the course of their training. This part of the Portfolio should be representative of a range of work that best demonstrates the student's acquisition of clinical and theoretical skills during the program, regardless of theoretical approach.

It is expected that students will conduct themselves in a professional and collegial manner throughout the preparation of materials as well as throughout the presentation. The process for selecting, editing and developing a video presentation is an involved process that should be organized through the BTI office manager. The entire process may take 2 full months to complete due to the time needed to secure time and space with the media service staff. Students should start early in the term for which they are registered in order to complete the process.

The committee will consist of members of the full time family therapy faculty, selected on a random, rotating basis. Once selected, the members of the committee will receive all portfolio materials for review. The clinical portfolio will be **open only to DFT students and faculty only** and scheduled for a maximum of one and one half hour. As a professional presentation, it is important that the student allocate the time for presentation and questions accordingly. Punctuality, time keeping, and facilitation are important parts of professional presentations.

The review will be publically announced to the Department of Family Therapy community, and **open for only DFT faculty and students to attend**. These events are not only a review of the student's portfolio of clinical work, but also an opportunity for active conversation with, and about, the clinical work of their colleagues of the dissertation. Care should be taken regarding appropriate dress, professional demeanor, clarity of presentation, and respect for clients and colleagues.

Upon completion of successfully passing the public presentation, the faculty review committee considers all of the materials presented in light of:

- The evaluation rubrics attached to those materials;
- The manner in which they were presented;
- The overall professionalism of the presenter, including dress, manner, tone, etc.; final defense, and
- The manner and substance of the ways in which the presenter handled questions, criticisms, theoretical disagreements, or ethical concerns raised by reviewers or members of the audience during the course of the review.

Portfolio and Exam Timeline Information

For students to remain within the three year completion of the program, they will submit their portfolio during the 6th term, and show readiness to proceed with their Applied Clinical Project their 3rd year; failure to do so means that a student will need additional time in the program. The program has a maximum of 5 years to complete.

Applied Clinical Project (ACP)

The Applied Clinical Project (ACP) should be seen as the capstone experience of the D.M.F.T. degree process. The ACP is the student's demonstration of his/her ability to carry out a high quality, professional program of systemically based treatment. The ACP should be a project the student carries out under CAHSS faculty supervision from concept, to proposal, to implementation, and finally through eventual evaluation of the effectiveness of the program. An ACP is viewed as a career launching undertaking. At the time of its culmination, students should be able to articulate and demonstrate to other mental health professionals their unique area of systems based practice expertise. Students should review and be familiar with the ACP Guidelines available on the website.

Students select a DFT full-time faculty supervisor and one other full-time faculty reviewer for their ACP only after they have completed the majority of their coursework and have successfully passed their Clinical Portfolio. All proposals, data collection, and analysis toward the completion of the ACP must be conducted under faculty supervision.

At the end of the ACP, students will develop a professional quality presentation and review of their entire project to a faculty committee and the public. The faculty committee will consist of their project supervisor, faculty reviewer, and any other students and terminally degreed professionals that the student wishes to invite. However, only full time faculty of CAHSS will have the final say on the acceptability of the final product and its final presentation. Students register for a minimum of 6 credit hours of Applied Clinical Project. Students must continue to register for ACP credit hours until they complete, successfully defend, and finalize their project. This may entail taking more than the minimum Applied Clinical Project credit hours stipulated in the catalog. If for some reason, students cannot continue working on their ACP, they must apply in writing to their faculty supervisor and Program Director for a leave of absence, which must be in place three weeks prior to the start of a term. If a student requests a leave for longer than one term or takes a second term-long leave, they may not be able, upon their return, to continue with the faculty supervisor with whom they had earlier been working. If a student requests a leave for longer than three consecutive terms and has not registered for the following term, they are considered inactive and would need to reapply to the program. If a Leave of Absence is requested and approved, this does not extend the 7 year timeframe for completing the degree program.

Individual Supervision for State Licensure or AAMFT Membership

Due to the AAMFT Code of Ethics principles related to multiple relationships and conflict of interest, full-time faculty may not serve as the supervisor for licensure for students enrolled in the program.

Licensure Exam Preparation

The Department assists in preparing students for the AMFTRB national exam, taken after students graduate with a terminal degree in family therapy, through coursework. A powerpoint study guide has been prepared for graduates to help them study, and the department stays in close touch with graduates to assist them as requested as they study for the exam. Graduates of our DMFT in Family Therapy program are eligible to become

registered interns in the state of Florida as Marriage and Family Therapists. Registered Interns can take the National licensing exam developed and administered by AMFTRB (Association of Marital and Family Therapy Regulatory Boards). Registered interns must take and pass the exam and complete other clinical requirements in order to be eligible to become fully licensed marriage and family therapists in the state of Florida. The AMFTRB National Exam results can also be utilized for licensure in other states. It is incumbent on the student to learn the licensure requirements in other states. State board contact information can be obtained via the following link. https://www.aamft.org/Directories/MFT_Licensing_Boards.aspx?hkey=c0f838ad-2672-4b4e-8b51-b9578fe5c28a. If a student plans on becoming credentialed in another country, students are advised to research the requirements of the specific country where they plan on becoming credentialed.

AAMFT Membership

Student membership in the American Association for Marriage and Family Therapy is strongly suggested. Students gain additional educational information and familiarity in the MFT field.

American Association for Marriage and Family Therapy (AAMFT)
112 South Alfred Street, Alexandria, VA 22314-3061
<http://www.aamft.org>

Concentration in Family Systems Health Care

Students in the D.M.F.T. program may choose to pursue a concentration in Family Systems Health Care. The concentration focuses on the relationships between psychosocial medicine and biomedicine in the treatment and prevention of illness and disease. Students learn the basics of biopsychosocial theory, practice, and collaboration. The program prepares professionals to offer therapeutic services in a variety of medical settings, including private medical practices, hospitals, community clinics, primary care/specialists' offices, and agencies.

Students in the Family Systems Health Care concentration program have ample opportunities to gain practical expertise through classroom learning and hands-on clinical, research, teaching, and service experiences. Specific areas of study include: adjustment patterns of clients and their families to chronic and acute illnesses; models of collaboration between medical family therapists and other health care professionals; the role of medical family therapists in the continuum of medical services; the politics and economics of health care; understanding human systems in health care; and brief interventions and systemic assessments useful in the treatment and care of patients and their families. Additionally, the program emphasizes professional development by assisting students in strengthening their professional and personal qualities necessary for successful participation in the medical milieu.

The student's growth as a reflective practitioner is encouraged through clinical research in physician, patient, therapist, family communications, adjustments to acute, chronic, or terminal illness, social effects and ethical dilemmas of new medical technologies, and other issues that transcend historical distinctions between physical treatment and psychosocial interventions. Program faculty and students cooperate to publish research findings and clinical experiences..

In addition to degree requirements, students must complete the following coursework to receive a Concentration in Family Systems Health Care (24 credit hours):

FSHC 5000 Family Systems Health Care I
FSHC 5010 Family Systems Health Care II
FSHC 5300 Integration and Collaboration among Health Care Systems
FSHC 5500 Politics and Economics of Health Care Systems
FSCH 5110 External Practicum I and II*

*Students may choose to complete their external practicums in a medical setting to obtain the required 200 hours of face-to-face client contact for this concentration.

Master of Science in Family Therapy (M.S.)

Program Description

The M.S. in Marriage and Family Therapy is designed to help students develop clinical excellence and prepare for careers as marriage and family therapists. Students are prepared to assume professional positions in private practice, employee assistance programs, managed care and health care organizations, child care and child development systems, family service agencies, schools, churches, hospitals, and other clinical and organizational settings.

The 60 credit hour degree program consists of coursework and clinical practice. Training is concentrated on brief, interactional models of family therapy, preparing our graduates to practice in a time-sensitive, cost-effective manner. The M.S. in Marriage and Family Therapy has full accreditation with the: (703) 838-9809;

<https://www.coamfte.org/coamfte/>

The Department of Family Therapy has full time faculty and supervisors as well as adjunct faculty and supervisors who represent diversity in gender, age, religion, race, culture, and sexual orientation. The student body of the doctoral program reflects the rich cultural diversity of South Florida and across the nation in terms of race, religion, gender, sexual orientation, and age.

Vision

The Master's Program in Family Therapy strives to educate and train students through a systemic/relational paradigm to become competent Couples, Marriage, and Family therapists with the ability to work systemically with all populations including culturally and sexually diverse and marginalized groups in various community settings. Our program further strives to educate students in research and to uphold all ethical and professional standards in the field.

Mission

The Master's (MS) Program in Family Therapy strives to develop students who utilize systemic/relational theory and are committed to clinical practice in the field of Couples, Marriage, and Family Therapy. Students in the M.S. program are committed to servicing the community as ethical and professional practitioners focusing on the relational

strengths and resources of clients with an appreciation and respect for cultural and sexual diversity and inclusion. Graduates will also be trained in understanding clinically focused research.

Program Goals and Student Learning Outcomes

PG1	The M.S. Program in Family Therapy program demonstrates a commitment to issues of cultural and sexual diversity and inclusion.	SLO1: M.S. students demonstrate respect for issues of cultural and sexual diversity
PG2	The M.S. Program in Family Therapy demonstrates a commitment to ethical and professional practice.	SLO2: M.S. students will demonstrate ethical and professional behaviors as practitioners.
PG3	The Ph.D. Program in Family Therapy trains students in research, clinical theory and practice.	SLO3: M.S. students will demonstrate knowledge of clinically applied research. SLO4: M.S. students will demonstrate competency in clinical theory SLO5: M.S. students demonstrate competency in practice
PG4	The M.S. Program in Family Therapy demonstrates a commitment to servicing the community.	SLO6: M.S. students will complete 2 Internal Practicums at the Family Therapy Clinic and 2 External Practicums in the community.
PG5	The M.S. Program in Family Therapy demonstrates a commitment to graduating students in a timely manner, monitoring graduate employment, and assisting graduates in passing the licensure exam.	SLO7: M.S. students will graduate within the maximum allotted timeframe of 5 years. SLO8: M.S. graduates will be employed SLO9: M.S. graduates will pass the AMFTRB licensure exam

Recruitment Policy

The NSU MS in MFT program demonstrates a commitment to diversity and inclusion, and prepares students for the clinical practice of family therapy, maintaining a high level of graduation and postgraduate success in the field. Our recruitment policy combines a commitment to diversity and underserved populations with a fair and realistic appraisal of qualities needed to graduate and have success in the field of marriage and family therapy. We do not require the GRE or other standardized testing, as standardized testing tends to privilege certain populations over others. We do require a 3.0 undergraduate GPA, and demonstrated interpersonal ability. In addition to letters of reference, an admissions essay, and a writing sample, we conduct in person interviews to assess prospective students. To attract qualified students, we maintain relationships with universities nationwide with large undergraduate human development/family studies programs, as many of our students come to us with this background, referred by a trusted faculty member.

We make it a point to build relationships with other universities nationwide, including HBCU's and other majority minority institutions. We also offer open houses, open to the community, and publicized through our website, where prospective students can talk with faculty and current students. Our students and graduates themselves are a primary source of prospective students for us, as they recommend the program to friends and colleagues. We strive to recruit a diverse student body, in terms of age, experience, sexual orientation, race, class, culture, gender, and national origin. We are transparent about our values and what we offer, providing all prospective students with a statement of our core

diversity/inclusion values, and publicizing both our licensure exam pass rates and our postgraduate employment statistics.

Retention Policy

The NSU MS in the MFT program demonstrates a commitment to diversity and inclusion, and prepares students for the clinical practice of family therapy, maintaining a high level of graduation and postgraduate success in the field. Our retention policy balances our commitment to the best outcome for individual students, with the need to maintain a positive reputation for our graduates to ensure success in the field. The program director attends closely to the progress of individual students during their first semester. Most of our attrition occurs during this first semester, when students are not able to succeed academically or have underestimated the commitment required for a graduate program. In this event, the program director meets with the student and the faculty teaching the student that semester. Every effort is made to work towards a mutually agreeable outcome, as for example a transfer to a less academically rigorous, nonclinical program.

At the end of the first three semesters, when the students transition to their external practicums, the program director again consults with faculty as to the progress of individual students. Students having academic difficulties or low grades would have been noted before this point, but if students have performed well academically but the faculty has concerns about their clinical ability, Students may be asked to take additional internal practicums above and beyond the minimum requirement. The program director and the faculty work with individual students to maintain their progress towards graduation. If at any time, however, it becomes clear a student is interpersonally, ethically, or academically unqualified for the practice of marriage and family therapy, that student will be dismissed from the program. Our goal is a high level of retention, but balanced at all times with the need to maintain the integrity of the program and the profession.

Grievances/Student Complaints

The M.S. Program in Family Therapy encourages feedback from all of its faculty, supervisors, and students. If students have concerns, they initially discuss the issue with the faculty instructor, supervisor, or their faculty advisor. If the concern is not resolved, the student may consult with the Program Director. If the concern is then not resolved, the student may consult with the Department Chair. The department currently has a complaint/concern/grievance form students may fill out and give to the Program Director. Official grievances are required in writing if other methods have not resulted in the resolution of an issue.

Governance of the Program

The M.S. Program in Family Therapy employs a Program Director who is academically, professionally and experientially qualified and is vested with the authority necessary to accomplish the the program goals. The program values highly input from its communities of interest which include faculty, supervisors, and students. Faculty and supervisors participate in the governance of the program through their involvement in teaching and supervising students as well as through faculty meetings, faculty retreats, committee participation, and various other evaluative mechanisms. Faculty and supervisors are encouraged to offer feedback regarding the program throughout the year. Students are involved in the governance of the program through the feedback they provide via the course evaluations, Annual Reviews, Student Government Association (SGA), Doctoral Seminars, Doctoral Town Hall meetings, and various other evaluative mechanisms. Faculty and students are also represented on the Advisory Board as well as the Ph.D. Curriculum Committee. Feedback from all communities of interest is collected and reviewed at faculty meetings for possible program changes and improvement. Any major changes to the program, such as curricular

changes, are proposed to and approved by the faculty, then the department chair, then the CAHSS Curriculum Committee, then upper administration as needed, then accrediting bodies. Any changes to the program are communicated with students via the listserv.

Collection of Student and Graduate information

In order to comply with accreditation standards, the program is required to gather information from its students and graduates. The program will send an annual survey via email to students and graduates regarding achievements of graduates, employment information, employer information (in order to request satisfaction information), national exam pass rates, licensure rates, and other information as needed.

Student Achievement

The NSU MS in MFT program has a policy of continuous assessment of students and of graduate success.

1. Assessment of students includes course evaluations and grades; practicum evaluations (both on site and faculty supervisor evaluations); and comprehensive examination results. We also maintain close contact with external supervisors at agency sites and obtain their evaluations of our students.

2. Once students are graduated, we maintain data on graduation rates, licensure exam pass rates, and job placement rates in the field. We are able to verify graduation rates from our own internal data. Once students are graduated, we must rely on their maintaining in contact with us to provide us with licensure exam pass rates and career data. To encourage students to do this, we utilize social media and personal contact. We provide graduates with a permanent @nova.edu email address. In addition, we maintain three active Facebook pages: an NSU MS in MFT Club page; a page put together by graduates but linked to the program director, for those signed up to take the licensure exam; and the program director's individual page. The program director posts job openings and resources for graduates to encourage graduates to maintain contact with her and with the program. In addition, the NSU alumni office sends out a survey to graduates annually. . The program director is reliably in contact with the majority of program graduates, and supplies them with job openings, references, workshop information, and ongoing updates on the licensure examination.

3. Finally, we also maintain contact with major employers of our graduates and obtain their input through participation in our curriculum committee. We have representatives of large private practices and agencies that employ our graduates in the tri-county area serving on this committee and this allows us to continuously assess the program fit with employer needs.

Graduation Rates

The M.S. in Family Therapy program advertises that students graduate within a 2-5 year time frame. Analysis of data indicates that the program graduates 62% of its students by the 2 year mark and 96% by the 5 year deadline. These impressive statistics substantially exceeded the program benchmarks.

National Licensure Exam Pass Rate

Graduates of our M.S in Family Therapy program are eligible to become registered interns in the state of Florida as Marriage and Family Therapists. Registered Interns can take the National licensing exam developed and administered by AMFTRB (Association of Marital and Family Therapy Regulatory Boards). Registered interns must take and pass the exam and complete other clinical requirements in order to be eligible to become fully licensed marriage

and family therapists in the state of Florida. Through the education, mentoring and diligent efforts on the part of the program, our graduates have a passing rate of 99% over last 10 years on the AMFTRB National Exam.

Racial/Ethnic Composition of Program Faculty, Supervisors, and Students

NSU’s MS Program is proud to have a broad range of diversity represented among our faculty, supervisors, and students. Below is a chart depicting the composition of our faculty, students and supervisors based on IPEDS classification.

M.S.

AS OF SUMMER 2017	GENDER	ETHNICITY
Students – 75	Male – 8	African-American/African/Black/non-Hispanic – 21
	Female – 67	Hispanic/Latino/Chicano – 24
		White/non-Hispanic – 26
		Multiethnic – 0
		Asian – 4
Faculty – 30	Male – 6	African-American/African/Black/non-Hispanic – 3
	Female – 24	Hispanic/Latino/Chicano – 6
		White/non-Hispanic – 16
		Multiethnic – 1
		Asian – 4
Supervisors – 19	Male – 4	African-American/African/Black/non-Hispanic – 2
	Female – 15	Hispanic/Latino/Chicano – 2
		White/non-Hispanic – 12
		Multiethnic – 0
		Asian – 3

Degree Plans

Following is a sample degree plan for students who begin their studies in the Fall term. Degree plans are developed upon enrollment.

Sample M.S. in Family Therapy Degree Plan: 60 credit hours

Fall (August)	Winter (January)	Summer (May)
SFTM 5310 Introduction to Systems Theory	SFTM 5321 Theories of Marriage and Family Therapy	SFTM 5400 Internal Practicum II
SFTM 5320 Introduction to Marital and Family Therapy: Counseling Theories and Techniques	SFTM 5400 Internal Practicum I	SFTM 6333 Personality Theories and Psychopathology
SFTM 6340 Legal, Ethical, and Professional Issues	SFTM 6332 Human Sexuality and Gender	SFTM 6374 Group Psychotherapy
SFTM 5335 Human Development	<i>*(Elective can be taken any term)</i>	
SFTM 5322 Clinical Practice in Marriage & Family Therapy (must be taken with an External Practicum)	SFTM 6558 Couples Therapy	SFTM 6320 Assessment in Marital and Family Therapy
SFTM 6300 External Practicum I	SFTM 5350 Research in Marriage and Family Therapy	SFTM 5311 Substance Abuse and Critical Issues in Systems Theories
SFTM 6331 Diversity and Psychosocial Issues	SFTM 6300 External Practicum II	Graduation and Celebration (June)
	SFTM 5700 Comprehensive Examination	

*In addition to the above coursework, students are required to choose two electives from a selection of courses, including but not limited to:

- SFTM 5036: Infant Mental Health
- SFTM 5037: Suicide Prevention
- SFTM 5038: Military Families
- SFTM 5039: Collaborative Divorce
- SFTM 5301: Agency Practice in Organizational Consulting
- SFTM 5355: Introduction to Equine-Assisted Family Therapy
- SFTM 5357: Developing a Private Practice I Coaching and Therapy
- SFTM 5358: Solution Focused Coaching
- SFTM 6330: Grief and Loss
- SFTM 6550 International Perspectives
- SHSS 6620: Academic Writing

This required elective may be taken the term of the student’s choice.

The program fulfills the academic requirements for state licensure in Florida; additional post-master's clinical experience is required for licensure.

Program Formats

Students may enter the program term in the fall or summer terms. Full time students take 9 to 12 credit hours per term. If a student takes less than the 9 credits of required courses per term, they need approval from the admissions office. They also work with the program office staff to develop a viable degree plan. Students who attend full-time can expect to complete the program in 2 years. Summer attendance is required.

Course Requirements

To complete the M.S. in Family Therapy, students must complete 500 hours of client contact, 250 of which must consist of relational hours as defined by the program. Students also must accumulate at least 100 supervision hours, 50 of which must be based on raw material such as direct observation, audio, or DVD. a. They are responsible for documenting clinical and supervision hours, using the forms provided on the CAHSS website under student resources. Students are required to keep a copy of all documentation pertaining to both Internal and External Practicums. This includes their clinical and supervision hour forms, contracts, and clinical evaluations. These forms must be turned in to the DFT Internship Coordinator monthly. A student's first two Practicums are at the Brief Therapy Institute, Family Therapy Clinic; therefore, they are called Internal Practicums. Students must pass the first two Internal Practicums to be eligible to continue clinical training in two External Practicums. Students may elect to take more than two Internal Practicums to better hone in their clinical skills prior to moving into their External Practicum setting. The External Practicums are internships in the community where students provide clinical services in school, hospital, agency, private practice, and other settings.

Before students begin their External Practicum, they collaborate with the DFT Internship Coordinator to identify and develop an external practicum, community-based site and a contract with the site. DFT maintains relationships with community partners who host our students for External Practicum. A list of approved sites can be found on the DFT website. The list is updated regularly by the DFT Internship Coordinator. Attendance at the annual internship fair is strongly recommended to obtain an internship site. *Prior to beginning their external* practicum experience, students must have completed an internship contract, signed by the student, the internship site supervisor, their faculty supervisor, and the Program Director. If proof of a student's professional liability insurance coverage is needed for the practicum site, a copy can be obtained from the DFT Internship Coordinator. Students must have ALL documentation completed and presented to the Internship Coordinator for approval prior to beginning any training or clinical work at the practicum site. A site supervisor must be a licensed mental health professional who meets the supervisory requirements based on COAMFTE standards.

Students must register for a minimum of two terms of External Practicum as part of their program requirements. Students will need to register for additional External Practicums if needed to meet the clinical and supervision hour requirements. The DFT faculty teaching the course will supervise the student in one-hour weekly face to face meetings or more as needed. Faculty supervisors are AAMFT Approved Supervisors. Students also are required to have regularly scheduled supervision with their site supervisor at their clinical site(s).

There are four important documents of information that students must provide the DFT Internship Coordinator **prior** to beginning their internship:

1. The original signed copy of the internship contract.
2. A resume of the on-site supervisor to demonstrate that he or she has a master's degree and is a licensed mental health professional or meets the equivalent criteria and a copy of the AAMFT Supervisor Certificate, if applicable.

3. A brochure or written information about the internship site.
4. A written description from the on-site supervisor clearly identifying internship duties and responsibilities.

Students should plan on acquiring a **minimum** of 15-20 client contact hours per week at their site to ensure completion of the 500 required client-contact hours and supervision hours within two required terms of External Practicum. Students may also take a third external practicum to complete the required hours and to enhance their skills. Students must adhere to their site contract requirements (i.e., school systems provide therapeutic services throughout the school year and require student interns to sign a contract to provide continuous services). In addition to the weekly client contact hours, students are required to schedule additional time at the internship sites to complete paperwork, allow for missed appointments, and become a valued member of their site. Thus, 20 hours a week committed to the internship site is realistic. This time may include weekdays, evenings, and/or weekends, depending on the site requirements. If students are unable to commit the needed amount of time to a site, they will need to register and take additional practicum(s) to accrue the required 500 clinical hours. Students must be supervised throughout the practicums.

If students want more diverse experiences, or are not accumulating hours rapidly enough at one internship site, they may develop an additional site. A contract for each site must be completed prior to beginning at that site. The internship contract should be clearly understood by all parties. No more than two internship sites are recommended and must have their faculty supervisor's, Internship Coordinator's, and Program Director's approval.

Practicums are evaluated by both the site supervisor and faculty supervisor each term, utilizing the program's practicum evaluation forms. Students are invited to assess their own performance as well. These forms, designed by faculty, closely assess clinical skills and can be obtained online at the CAHSS website at <http://CAHSS.nova.edu/Downloads/index.htm> under the M.S. in Family Therapy program.

Practicum Evaluations

Students are enrolled in two Internal Practicums, one per consecutive two terms, once they complete their core courses. Within the internal practicums and later the external practicums, the supervisor and students are able to evaluate their progress in therapeutic skills by reviewing the following:

- Attention to Professional, Ethical and Legal Issues
- Systemic Case Conceptualization
- Clinical Session Management
- Attention to Client/Therapist Position
- Effective Use of Supervision

It is recognized that student progress in acquiring and practicing therapeutic skills and formulating their therapeutic orientation as they move through the program from novice to professional. As such, students have the opportunity to identify their strengths and needs for further development throughout their clinical experiences. The evaluation forms can be viewed under <http://CAHSS.nova.edu/Downloads/index.htm>.

Program Specifics

Disclosure of Guiding Principle of our Programs

It is with great pride that, we, the members of the Department of Family Therapy at Nova Southeastern University, share one of the guiding principles of our training programs.

Our programs are guided by the importance of inclusion, diversity and affirmative practices in the classroom, coursework, clinical training, as well as in all professional and collegial relationships and interactions. We are committed to training our students in a manner that is respectful of and sensitive to religious/spiritual beliefs, cultural traditions and practices, gender identities and in all areas that distinguish individuals. Our goal is to be self-reflexive practitioners, holding ourselves accountable for our commitment to our principles.

We further strive to train students to respond to each other with the same honor and respect. Subsequently, we expect students will treat fellow students, staff, and clients accordingly. We stress a commitment to servicing clinical populations in an affirmative, supportive and competent manner including but not limited to underprivileged, minority, and socially oppressed groups, ethnic, racial, religious groups, LGBTQ individuals, foreign nationals, individuals with different levels of ability both physical and mental, as well as individuals of various genders, ages and socioeconomic and relationship statuses.

Ultimately, we believe that individual belief systems and values should be respected but that those belief systems and values do not hinder the practice of affirmative therapy.

Additionally, our programs abide by the AAMFT Code of Ethics. Specifically, the following:

- 1.1 **Non-Discrimination.** Marriage and Family Therapists provide professional assistance to persons without discrimination on the basis of race, age, ethnicity, socioeconomic status, disability, gender, health status, religion, national origin, sexual orientation, and gender identity or relationship status.*

Professional/Ethical Conduct

Students are expected to abide by the AAMFT Code of Ethics, conduct indicated in the Florida Statutes Chapter 491, conduct indicated in HIPAA, as well as the NSU Student Handbook. If at any time during a student's program, the faculty is alerted to concerns about a student's conduct, a meeting will be scheduled with the Program Director and at least one other faculty. The program follows all guidelines from the NSU Student handbook. The results of the meeting will be documented along with recommendation for a remediation plan. If it is found that a student's conduct fell outside those indicated in the above documents, the outcome of such a meeting could ultimately lead to immediate dismissal from the program.

M.S. Comprehensive Exam

In addition to successfully completing all coursework and obtaining the required minimum 500 client contact hours and 100 supervision hours, students must pass a comprehensive examination as required for the M.S. in Family Therapy degree. This clinically focused examination tests the student's ability to apply what has been learned. Exams are given, and retakes arranged through the DFT administrative office.

The comprehensive examination is developed by the Program Director in consultation with the faculty and the community advisory council. The examination reviews core curriculum content and ability to apply this material to real life situations. Details of the examination and suggestions for study will be presented each term at a comprehensive examination review, one to three weeks prior to the exam.

Each comprehensive examination answer is reviewed independently and blindly by three faculty reviewers. Students may review their exam materials with the M.S. Program Director.

The comprehensive exam may be retaken one time after an initial failure, and twice after a score of "in progress". Remedial study and retake of classes as assigned by the program director may be required. Retake exams can be taken at the next scheduled exam date. Students in good academic standing are eligible to walk in the June graduation ceremony with a score of "in process" or "pass" on the comprehensive exam.

Leave of Absence

A student may request a Leave of Absence. The form is located on the Student Resources M.S. program and must be completed and approved three weeks prior to the date of the leave request. Students on leave for more than three consecutive terms and not registered within the following term are considered inactive and would need to reapply to the program. A Leave of Absence does not extend the 5-year timeframe for completing the M.S. in Family Therapy program.

Individual Supervision for State Licensure and AAMFT Membership

Due to the AAMFT Code of Ethics principles related to multiple relationships and conflict of interest, full-time faculty may not serve as the supervisor for licensure for students enrolled in the program. However, there may be occasions after completing the M.S. in Family Therapy degree that graduates seek private, individual clinical supervision from a member of the faculty. Before approaching a faculty member with such a request, students must have already successfully completed all degree requirements. If a student is being supervised by a full or adjunct faculty and enrolls in one of the DFT doctoral programs, the student is required to locate a different supervisor outside the program to prevent a potential dual relationship and conflict of interest.

Licensure Exam Preparation

The Department prepares students for the national exam, taken after graduation, through coursework in particular the Clinical Practice class. Students are required to take a practice exam for the national licensure exam before graduation, and a discount is arranged with a commercial test preparation service. A powerpoint study guide has been prepared for graduates to help them study, and the department stays in close touch with graduates to assist them as requested as they study for the exam. Graduates of our MS in Family Therapy program are eligible to become registered interns in the state of Florida as Marriage and Family Therapists. Registered Interns can take the National licensing exam developed and administered by AMFTRB (Association of Marital and Family Therapy Regulatory Boards). Registered interns must take and pass the exam and complete other clinical requirements in order to be eligible to become fully licensed marriage and family therapists in the state of Florida. The AMFTRB National Exam results can also be utilized for licensure in other states. It is incumbent on the student to learn the licensure requirements in other states. State board contact information can be obtained via the following link. https://www.aamft.org/Directories/MFT_Licensing_Boards.aspx?hkey=c0f838ad-2672-4b4e-8b51-b9578fe5c28a. If a student plans on becoming credentialed in another country, students are advised to research the requirements of the specific country where they plan on becoming credentialed.

AAMFT Membership

Student membership in the American Association for Marriage and Family Therapy is strongly suggested. Students gain additional educational information and familiarity in the MFT field.

American Association for Marriage and Family Therapy (AAMFT)
112 South Alfred Street, Alexandria, VA 22314-3061
<http://www.aamft.org>

Concentration in Family Systems Health Care

Students in the M.S. in Family Therapy program may choose to pursue a concentration in Family Systems Health Care. The concentration focuses on the relationships between psychosocial medicine and biomedicine in the treatment and prevention of illness and disease. Students learn the basics of biopsychosocial theory, practice, and collaboration. The program prepares professionals to offer therapeutic services in a variety of medical settings, including private medical practices, hospitals, community clinics, primary care/specialists' offices, and agencies.

Students in the Family Systems Health Care concentration program have ample opportunities to gain practical expertise through classroom learning and hands-on clinical, research, teaching, and service experiences. Specific areas of study include: adjustment patterns of clients and their families to chronic and acute illnesses; models of collaboration between medical family therapists and other health care professionals; the role of medical family therapists in the continuum of medical services; the politics and economics of health care; understanding human systems in health care; and brief interventions and systemic assessments useful in the treatment and care of patients and their families. Additionally, the program emphasizes professional development by assisting students in strengthening their professional and personal qualities necessary for successful participation in the medical milieu.

The student's growth as a reflective practitioner is encouraged through clinical research in physician, patient, therapist, family communications, adjustments to acute, chronic, or terminal illness, social effects and ethical dilemmas of new medical technologies, and other issues that transcend historical distinctions between physical treatment and psychosocial interventions. Program faculty and students cooperate to publish research findings and clinical experiences.

In addition to degree requirements, students must complete the following coursework to receive a Concentration in Family Systems Health Care (24 credit hours):

FSHC 5000: Family Systems Health Care I
FSHC 5010: Family Systems Health Care II
FSHC 5100: Practicum I in Family Systems Health Care*
FSHC 5110: Practicum II in Family Systems Health Care*
FSHC 5300: Integration and Collaboration Among Health Care Systems
FSHC 5500: Politics and Economics of Health Care
FSHC 6400: Understanding Human Systems in Health Care Settings
One Elective

* Students may choose to do part of all of their external practicums in a medical setting to obtain their required clinical hours for the M.S. program. At least 200 clinical hours are required for this concentration.

Concentration in Equine Assisted Family Therapy

Students in the M.S. in Family Therapy program may choose to pursue a concentration in Equine Assisted Family Therapy. Equine Assisted Family Therapy has become a specialty of the NSU family therapy programs. Our unique combination of family therapy and equine assisted therapy has attracted national attention. The concentration has also directly led to a relationship with the Quell Foundation and outside funding for student scholarships, as well as external funding for clinical and research initiatives which are ongoing.

Increasingly, equine family therapy programs have been included in residential treatment programs working with substance abuse and dual diagnosis treatment clients, and with programs working with veterans. In particular, equine family therapy is now recommended for programs working with veterans suffering with PTSD (www.va.gov/health/newsfeatures/2014/september/reining-in-ptsd-with-equestrian-therapy.asp). NSU has a tradition of innovative, cutting edge practice, and we are leading the field in providing these innovative Equine Assisted Family Therapy courses and clinical services.

In addition to degree requirements, students must complete the following coursework to receive a Concentration in Equine Assisted Family Therapy (15 credits):

SFTM 5310 SFTD 5006 DMFT 5006	<i>Introduction to Systems Theories</i>
SFTM 6340 SFTD 5300 DMFT 5300	<i>Legal, Ethical, and Professional Issues</i>
SFTM 5320 SFTD 5008 DMFT 5008	<i>Introduction to Marital and Family Therapy</i>
SFTM 5355 SFTD 5355 DMFT 5355	<i>Introduction to Equine Assisted Family Therapy</i>
SFTM5363 SFTD 5363 DMFT 5363	<i>Advanced Equine Assisted Family Therapy</i>

* Students may choose to do part of all of their external practicum at the equine setting to obtain their required clinical hours for the M.S. program.

Concentration in Solution Focused Coaching

Students in the M.S. in Family Therapy program may choose to pursue a concentration in Solution Focused Coaching. Nationwide, coaching is a growing profession, separate and distinct from therapy. Increasingly, coaching services are requested in these settings as well as traditional therapy services. In the United States, the profession has also seen considerable growth. Our family therapy program is nationally and internationally known for expertise in solution focused therapy, which is an excellent fit with the brief, goal oriented nature of personal coaching.

In addition to degree requirements, students must complete the following coursework to receive a Concentration in Solution Focused Coaching (15 credits):

SFTM 5310 SFTD 5006 DMFT 5006	<i>Introduction to Systems Theory</i>
SFTM 6333 SFTD 7302 DMFT 7302	<i>Personality Theories and Psychopathology</i>
SFTM 5335 SFTD 5046 DMFT 5046	<i>Human Development Across the Life Cycle</i>
SFTM 5357 SFTD 5361 DMFT 5361	<i>Developing a Private Practice in Coaching and Therapy</i>
SFTM5358/5362 SFTD 5361 DMFT 5362	<i>Solution Focused Coaching</i>

Graduate Certificate in Family Studies

The Graduate Certificate in Family Studies is designed to train individuals who want to work with families in a variety of contexts: as educators, community organizers, legal professionals, child-care workers, or EAP counselors. Human Relations professionals, business managers or supervisors, among many others, would also benefit from the application of systemic family principles to their efforts. The curriculum includes coursework on systemic thinking in family studies, topics in human and family systems development, gender issues, sexuality issues, violence in the family, and diversity issues.

This program takes advantage of our school's unique access to a multidisciplinary faculty, incorporating coursework in peace studies, violence prevention, consultation, school systems, and business systems. Our multidisciplinary approach prepares students to apply knowledge about family systems directly to their work environment and demands.

The Graduate Certificate Program in Family Studies is a 24 credit hour program (8 courses). Students who decide to continue their studies in Family Therapy may be able to apply some of these credit hours toward the M.S., Ph.D., or D.M.F.T. in Family Therapy if accepted into the program.

Students may enroll full or part time, taking three to nine credit hours per term. Students can expect to complete the Graduate Certificate program in 10-15 months depending on the pace of study. Summer attendance is required.

Degree Plans

Below is a sample of a degree plan for a full-time student who begins their studies in the Fall term. Degree plans will be modified based on a student’s enrollment date and pace of study.

Sample Graduate Certificate in Family Studies Degree Plan: 24 credit hours

	Fall (August)	Winter (January)	Summer (May)
Year 1	SFTM 5310: Introduction to Systems Theories SFTM 6331: Diversity and Psychosocial Issues SFTM 5320: Introduction to Marital & Family Therapy <i>or</i> FSHC 6400: Understanding Human Systems in Health Care Settings	SFTM 5350: Research in Marital & Family Therapy SFTM 6332: Human Sexuality and Gender Elective	SFTM 5311: Substance Abuse/Addiction and Critical Issues in Systems Theory SFTM 6320: Assessment in Marital & Family Therapy Graduation and Celebration

*Electives are available depending on student needs to fulfill the certificate requirements.

Graduate Certificate in Family Systems Health Care

The Graduate Certificate in Family Systems Health Care offers students the fundamental applications of systemic family therapy in health care settings, including the discipline of medical family therapy.

The Graduate Certificate in Family Systems Health Care is appropriate for professionals who have already earned or are earning a graduate degree in their professional field, family systems, or related fields and who would benefit from an academic study of the applications of systemic thinking and strength-based models of relational and family systems that can be applied in health care and medical settings.

The Graduate Certificate in Family Systems Health Care focuses on the relationships between psychosocial medicine and biomedicine in the treatment and prevention of illness and disease. This program prepares professionals to offer systemic thinking in a variety of settings, including private practices, hospitals, community clinics, primary care/specialists' offices, health care and managed care agencies and organizations.

Specific areas of study include adjustment patterns of patients and their families to chronic and acute illnesses; models of integration and collaboration among medical systems and other health care professionals; the role of the family health care provider in the continuum

of services; the politics and economics of health care; understanding human systems in health care; and brief interventions and systemic assessments useful in the treatment and care of patients, their families, and interactions within the health care milieu.

The Graduate Certificate in Family Systems Health Care consists of eight courses (24 credits), which include biopsychosocial and systemic theories, relationship skills, professional issues, and health care systems. The program is offered in a distance-learning, online format, and some courses may also be available in a residential format. This flexible format allows mid-career working adults, and those unable to attend on-campus programs, to study in a creative, rigorous, and structured fashion. Students enrolled in the online program will be invited to participate in Residential Institutes on the main campus two times per year as part of their practical experience and add to their collaboration with co-professionals. Residential students in the family therapy master's or doctoral degrees can take their practicum experiences to apply their clinical and relational skills at a health care internship site. A minimum of 200 clinical hours, along with approved supervision, are required for this certificate.

Students must have a bachelor's degree and 3.0 GPA to apply. Students may enroll full or part time, taking 3 to 9 credit hours per term. Students who attend full time can expect to complete the program in 1 or more years, depending on pace of study. Students who complete Graduate Certificate in Family Systems Health Care courses online may wish to attend the Residential Institutes to further add to their collaboration with co-professionals and further their studies. Summer attendance is required based on course offerings.

Degree Plans

A sample of a degree plan is shown for a full time student who begins studies in fall term. Degree plans will be modified based on a student's enrollment date and pace of study. To complete the requirements for the Graduate Certificate in Family Systems Health Care, students must take 24 credit hours. Additional electives may be taken based on a student's interests with the approval of the program director.

Students in graduate programs (i.e., M.S. in Family Therapy, Ph.D., or D.M.F.T. in Family Therapy) that include the following courses can transfer up to 9 credit hours into this certificate program:

- SFTM 5010: Introduction to Systems Theory
- SFTM 5321: Theories of Marital & Family Therapy
- SFTM 6320: Assessment in Marital & Family Therapy

Electives are available and are based on a student's interests (i.e., Clinical Practicum III; Gerontology, others).

Two External Practicums are required to meet the requirements of placement in a medical setting to experience a collaborative learning process to combine theory and practice in a setting based on student interest. The Internship Coordinator facilitates site locations and contracts to support clinical placement(s). A minimum of 200 clinical hours are required to meet this certificate requirement, along with one hour of supervision from an AAMFT Approved Supervisor, as well as supervision by a medical professional. Students register for two terms of External Practicums. Clinical and supervisor hour forms are available on the CAHSS M.S. student resources website.

**Graduate Certificate in Family Systems Health Care
Sample Degree Plan: 24 credit hours**

	Fall (August)	Winter (January)	Summer (May)
Year 1	SFTM 5310: Introduction to Systems Theory (may be transferred in) FSHC 5000: Family Systems Health Care I FSHC 5500: Politics and Economics of Health Care Systems	SFTM 5321: Theories of Marital & Family Therapy (may be transferred in) FSHC 5010: Family Systems Health Care II (Grief and Loss across Cultures) FSHC 6400: Understanding Human Systems in Health Care Settings FSHC 5100: External Practicum I	SFTM 6320: Assessment in Marital & Family Therapy (may be transferred in) FSHC 5300: Integration and Collaboration Among Health Care Systems FSHC 5110: External Practicum II [*Electives offered each term]

**Electives can be created to fit student interests.*

Graduate Certificate in Solution Focused Coaching

Coaching, as an alternative to psychotherapy, is a growing field. According to the Canadian newspaper The National Post, personal coaching (which includes life coaching, career coaching, college coaching and health and wellness coaching) is the second fastest growing profession in Canada, second only to information technology. Here in the United States, the profession has also seen considerable growth. Our family therapy program is nationally and internationally known for expertise in solution focused therapy, which is an excellent fit with the brief, goal oriented nature of personal coaching. We offer this certificate to those seeking a career as professional personal coaches.

Curriculum Requirements

The Graduate Certificate Program in Solution Focused Coaching is a 15 credit hour program (five courses). Students who decide to continue their studies may be able to apply some of these credit hours toward the M.S., Ph.D., or D.M.F.T. in Family Therapy, if accepted into the program.

SFTM 5310	Introduction to Systems Theories
SFTM 6333	Theories of Personality and Psychopathology
SFTM 5335	Human Development Across the Life Cycle
SFTM 5357	Developing a Private Practice in Coaching and Therapy
SFTM 5358	Solution Focused Coaching

DEPARTMENT OF HISTORY AND POLITICAL SCIENCE

The Department of History and Political Science in the College of Arts, Humanities, and Social Sciences aims to help students develop a better understanding of their world through courses and degrees in academic disciplines focused on domestic and global affairs. Courses explore areas of study such as history, philosophy, legal studies, international studies, national security, and political science and are offered in the traditional classroom setting as well as online. Included among courses offered by the department are independent studies, internships, and study abroad programs.

The following programs are offered by the Department of History and Political Science:

- **Master of Science in National Security Affairs and International Relations**
- **Graduate Certificate in National Security Affairs**
- **Bachelor of Arts in History**
- **Bachelor of Arts in International Studies**
- **Bachelor of Science in Legal Studies**
- **Bachelor of Arts in Philosophy**
- **Bachelor of Arts in Political Science**
- **Undergraduate Minors:**
 - African Diaspora Studies**
 - History**
 - International Law**
 - International Studies**
 - Irish Studies**
 - Latin American and Caribbean Studies**
 - Legal Studies**
 - Philosophy**

Note: For information on all undergraduate programs, please see the Undergraduate Student Catalog: <http://www.nova.edu/undergraduatestudies/index.html>

MASTER OF SCIENCE IN NATIONAL SECURITY AFFAIRS AND INTERNATIONAL RELATIONS (M.S.)

M.S. in National Security Affairs and International Relations in the Department of History and Political Sciences is designed to provide students with theoretical, research, and applied skills in the emerging academic field of national security affairs. Students in this program will build a core understanding of critical issues informing the field of national security today, including the assessment and analysis of the threat of terrorism in the U.S. and beyond, and the analysis of intelligence collection. Students will also develop a deep understanding of the international context in which U.S. national security issues are shaped.

The program consists of a core of 7 courses (21 credits). Pedagogically, the program core focuses on building the critical analytical skills graduates need to succeed professionally and academically in the field of national security affairs. The ability to critically analyze intelligence information and global security issues, interpret historical and contemporary issues informing the field, and perform textual analyses, defines the program core's most important learning outcomes.

Following completion of the program core, students must complete 15 credits of coursework from the list of available electives. The majority of the elective offerings were developed specifically for the national security and international relations program, with a small number drawn from closely related fields. The elective list contains both courses that emphasize domestic security and courses that have a broader international focus, resulting in sufficient breadth of subject matter to allow students to tailor their choices around particular academic or professional interests.

Students interested in Cyber Security can choose to take a specific concentration in this area. Students who choose this option must complete 9 credits from the Cyber Security concentration and 6 credits from the elective list. Before choosing this option students must secure permission from the Department of History and Political Science. After a consultation, it will be determined whether the student can enter the cyber security concentration or if additional foundation courses will be required in order to enter and successfully complete the concentration.

Program Learning Outcomes

- Evaluate the domestic and international implications of U.S. national security policy
- Analyze critical historical and contemporary issues in U.S. national security
- Apply theoretical approaches to understanding U.S. foreign policy, international relations, global institutions and the practices of foreign powers

Curriculum

Core (21 hours)

NSAM 5001	Current Issues in National Security
NSAM 5003	National Intelligence Collection and Analysis: Theory and Practice
NSAM 5004	Border Protection and Military Issue
NSAM 5005	Research and Evaluation in National Security Affairs
NSAM 5010	US Foreign Policy and National Security
NSAM 5014	Ethical Issues in National Security
NSAM 5015	International Relations: Theory & Practice

Electives (15 hours)

NSAM 5002	Terrorists and Terrorism: Theory and Practice
NSAM 5016	Civil Liberties and National Security
NSAM 5020	International Law and Institutions
NSAM 5030	American Government and Domestic Security
NSAM 5040	Cyber Conflict and Statecraft
DEM 5090	Weapons of Mass Threat and Communicable Diseases
MHS 5314	Bioterrorism and Weapons of Mass Destruction
NSAM 5502	Directed Readings in National Security Affairs
NSAM 5650	Economic Statecraft in National Security Affairs
NSAM 6130	Practicum/Internship
NSAM 6690	Special Topics in National Security Affairs and International Relations
NSAM 6700	Directed Thesis in National Security Affairs and International Relations (6 credits)

Optional Cyber Security Concentration

Students who choose to take this option must complete 9 credits from this list in addition to 6 credits from the elective list.

MMIS 683	Fundamentals of Security Technologies
MMIS 684	Information Security Management
MMIS 685	Information Security Governance (Prerequisite: MMIS 684)
MMIS 686	Information Systems Auditing (Prerequisites: MMIS 683, 684)
MMIS 687	Information Security Project (Prerequisites: MMIS 683, 684, 685, and 686)

Program Formats

The NSA program aims at convenience and accommodation by utilizing the online and campus-based course delivery formats. We know many of our students are already engaged in work in the field of national security and this may preclude them from participating in residential classes. Therefore, the program is designed in two modalities: online or hybrid format. Students applying to the hybrid M.S. in National Security Affairs and International Relations must register for a minimum of 3 credits of campus-based coursework each fall and winter.

NSA students are not required to attend Residential Institutes (RI) on the Fort Lauderdale campus. However, they are encouraged to attend and participate in the event. Currently the RIs are held in February and late September/October. Please visit <https://cahss.nova.edu/ri/index.html> for current information.

Students may enroll full or part time, taking six to nine credit hours per term. Students who enroll in nine credits per term may complete the program in four terms. Part-time students can complete the program in 2 years. Unless requesting a Leave of Absence, all students must register for three terms per year.

Degree Plans and Student Advising

In the NSA program it is essential for a student to seek advice regarding course selection and their degree plan. They are expected to keep in periodic contact with the department chair or director of graduate programs, as well as the staff of the department. Students in the NSA program work closely with the department in designing appropriate individual degree plans for the successful completion of the program. Degree plans are designed and modified based on a student's enrollment date, pace of study and the scheduling of specific courses. Most courses are offered on a regular rotation, although some elective offerings may be more intermittent. Therefore it is essential that students work closely with the department in the design and maintenance of their individual degree plans.

Students who anticipate receiving veteran's benefits should consult with the NSU Veteran Benefit Administrator. Information may be found at:
<http://www.nova.edu/financialaid/veterans/index.html>.

Practicum/Internship

Practicum/Internship is not required in the NSA program but may be selected as an elective. The Department is available for assistance and advising regarding practicum/internship. It is taken as a class and students select a field site or professional setting to work in during the same term as the class. It is recommended students interested in exploring this option consult with the department chair or director of graduate programs early in their course of study.

Examinations, Evaluations, and Thesis Option

In addition to successfully completing all course work, students must EITHER a) pass a comprehensive examination to be administered by the National Security Affairs and International Relations Program; or b) complete a 6 credit, directed thesis option.

When a student has completed all coursework, has maintained a minimum of 3.0 GPA with no "incomplete" grades, and is a "student in good standing" with no disciplinary actions pending or disciplinary tasks to complete, the student will be eligible to take the comprehensive examination. Alternatively, when a student has completed all other coursework in the program, has maintained a minimum of 3.0 GPA with no "incomplete" grades, and is a "student in good standing" with no disciplinary actions pending or disciplinary tasks to complete, the student will be eligible to begin the directed thesis option.

The comprehensive exam is an assessment of the student's ability to integrate the knowledge and skills gained through course work and is designed to test the student's written ability to critically analyze and apply course based knowledge to a range of issues. The comprehensive exam will be administered in two parts. Part one will focus on historical and theoretical knowledge acquired through course work, while part two will test student's ability to apply knowledge and skills acquired through course work to hypothetical security situations. The comprehensive exam will be scored like all major assignments in the program, using a rubric and assessing students' competencies in regards to program outcomes. Students must receive a grade of 70% or higher to pass the comprehensive exam. The comprehensive exam is a graduation requirement. Students who score below 70% on this requirement must retake the comprehensive exam. The comprehensive exam can be taken a maximum of three times. Students who cannot pass it in three attempts will not graduate. The comprehensive exam is offered three times a year: in January, May and August/September. Faculty members are assigned to review the answers. Students are assigned an examination number. Thus, faculty members do not know whose answers they are reviewing. In order to fail a question, two faculty reviewers must award a failing grade.

The directed thesis serves as a capstone on the student's experience in the National Security Affairs and International Relations program. As such preparation for this course began on day one of the student's course of study of in the program. The theories, research methods and analytical skills, and substantive knowledge acquired by the student through the master's curriculum provide the foundation upon which this thesis project is built. Working under the direction of a designated faculty member in the program students will be responsible for developing and planning an innovative project, crafting a viable thesis, engaging in research using appropriate primary and secondary resource material, and executing a polished work of analysis that contributes to knowledge in the field. In addition to submitting a written thesis, students are required to offer an oral defense of their project. Subject to departmental approval, students may choose to undertake the directed thesis as

two, three credit options spread out over two consecutive terms, or as a single six credit option taken in one term.

Graduation Requirements

In order to be eligible for conferral of degree, NSA students must have completed all coursework and either passed the comprehensive examination or successfully completed the thesis option. In addition, they must have at least a 3.0 GPA with no "incomplete" grades, and must be a "student in good standing" with no disciplinary actions pending or disciplinary tasks to complete. NSA students may participate in the June graduation ceremonies if they have completed all coursework and taken their comprehensive examination or completed their directed thesis even if they have not yet received their grade for the exam or the thesis. Students must complete all coursework and pass the comprehensive exam or successfully complete a 6-credit thesis within 5 years of starting the program.

GRADUATE CERTIFICATE IN NATIONAL SECURITY AFFAIRS AND INTERNATIONAL RELATIONS

The certificate program is designed for professionals in the field seeking career advancement, those who aspire to enter the field, individuals in related professions, and those retired from the military and government seeking consulting and other positions. Examples of potential students include personnel in the military, federal, state and local governments, law enforcement, corporations, and academia, as well as recent college graduates. For students with a graduate degree or pursuing a graduate degree in another field, this would be a valuable complement to their existing program.

The program focuses on building the critical analytical skills graduates need to succeed professionally in the field of national security affairs. The ability to critically analyze intelligence information, historical and contemporary issues informing the field, and to perform textual analyses, defines the program core's most important learning outcomes.

The Graduate Certificate in National Security Affairs and International Relations is a 15 credit hour program. Students will complete any five of the six core courses in the M.S. in National Security Affairs and International Relations. Students who are in good standing in the NSA certificate program may speak with the department about the MS program.

The program is designed to be completed entirely online; however, there are few of the courses that maybe offered in the residential format and students may select those sections as appropriate.

Core Courses(Choose 5 courses – 15 credits)

NSAM 5001	Current Issues in National Security
NSAM 5003	National Intelligence Collection
NSAM 5004	Border Protection & Military Issues
NSAM 5010	U.S. Foreign Policy and National Security (3 credits)
NSAM 5014	Ethical Issues in National Security (3 credits)
NSAM 5015	International Relations: Theory & Practice (3 credits)

The 5th course would be an elective from the following list:

Electives (15 hours)

NSAM 5002	Terrorists and Terrorism: Theory and Practice
NSAM 5015	Civil Liberties and National Security
NSAM 5020	International Law and Institutions
NSAM 5030	American Government and Domestic Security
NSAM 5040	Cyber Conflict and Statecraft
DEM 5090	Weapons of Mass Threat and Communicable Diseases
MHS 5314	Bioterrorism and Weapons of Mass Destruction
NSAM 5502	Directed Readings in National Security Affairs
NSAM 5650	Economic Statecraft in National Security Affairs
NSAM 6130	Practicum/Internship
NSAM 6690	Special Topics in National Security Affairs and International Relations
NSAM 6700	Directed Thesis in National Security

DEPARTMENT OF LITERATURE AND MODERN LANGUAGES

The Department of Literature and Modern Languages offers coursework and degree programs related to literature, humanities, film, gender studies, and foreign languages. The department is committed to the study of language, literature, popular culture, and the interdisciplinary liberal arts.

The following programs are offered by the Department of Literature and Modern Languages:

- **Bachelor of Arts in English**
- **Undergraduate Minors:**
 - English**
 - Film Studies**
 - Folklore and Mythology**
 - Gender Studies**
 - Humanities**
 - Medical Humanities**
 - Spanish**

Note: For information on all undergraduate programs, please see the Undergraduate Student Catalog: <http://www.nova.edu/undergraduatestudies/index.html>

DEPARTMENT OF MULTIDISCIPLINARY STUDIES

The Department of Multidisciplinary (DMS) is committed to academic excellence by creating self-reflective, critical thinkers who possess the ability to recognize and understand multiple perspectives and who seek unique and thoughtful ways to address social issues and concerns. DMS strives to meet the needs of students in the current workplace environments by affording students the opportunity to engage in substantial study in different curricular disciplines. The department places an emphasis on critical thinking, analysis, and writing. DMS offers a Bachelor of Science in Applied Professional Studies, a Bachelor of Science in General Studies, a Master of Arts in Cross-disciplinary Studies, a Master of Science in College Student Affairs, a Graduate Certificate in College Student Personnel Administration, and a Graduate Certificate in Qualitative Research. DMS is also home to Deciding Majors, undergraduates in the process of deciding their major course of study.

The following programs are offered by the Department of Multidisciplinary Studies:

- **Master of Arts in Cross-disciplinary Studies**
- **Master of Science in College Student Affairs**
- **Graduate Certificate in College Student Personnel Administration**
- **Graduate Certificate in Qualitative Research**
- **Bachelor of Science in Applied Professional Studies**
- **Bachelor of Science in General Studies**

Note: For information on all undergraduate programs, please see the Undergraduate Student Catalog: <http://www.nova.edu/undergraduatestudies/index.html>

MASTER OF ARTS IN CROSS-DISCIPLINARY STUDIES (M.A.)

Program Description

The M.A. in Cross-disciplinary Studies (MACS) is multidisciplinary, experiential, and allows students to self-design their graduate studies. The program is designed to meet the needs of students who are seeking a broader learning forum and who appreciate the unique self-design of cross-disciplinary studies. The MACS program provides intellectual advancement and the opportunity to expand and enrich educational horizons in keeping with the liberal studies traditions. The MACS program utilizes a multidisciplinary approach and variety of perspectives for observing, analyzing, and addressing contemporary social issues. Students focus on systemic approaches and methodologies when studying human challenges. MACS utilizes experiential learning to provide students with hands-on training where theory and practice are integrated.

Students in MACS are interested in innovative ways to examine issues and social concerns and explore creative solutions. By using multiple perspectives, MACS invites students to use interdisciplinary lenses to do what a single discipline is unable to do.

MACS consists of an 11 course sequence (33 credits) that includes core classes, practicum, Capstone or Thesis and electives. Courses are offered both residentially and online, however not all courses students are eligible to take may be available in both formats. Students are urged to work closely with the department in the creation of their degree plans.

Program Formats

Students can complete the program residentially or online, and have a large selection of on-campus and online courses from which to choose. MACS aims at convenience and accommodation by utilizing online course delivery format and self-designed programs. The students enrolled in the program are afforded the greatest flexibility in self-selecting and self-directing their concentrated areas of interest, while at the same time retaining and reinforcing an emphasis on general professional skills.

MACS students taking online classes are **not** required to attend Residential Institutes (RI) on the Fort Lauderdale campus **unless they are taking Facilitation or Mediation**. If either of those courses is being taken in the fall or winter terms, attendance at RI is mandatory. Although not required, MACS students are encouraged to attend and participate in this event. Currently the RIs are held in February and late September/October. Please visit <http://CAHSS.nova.edu/RI> for current information.

Students may enroll full or part time, taking six to nine credit hours per term. Students who enroll in nine credits per term may complete the program in four terms. Part-time students can complete the program in 2 years. Students register for three terms a year.

REQUIRED COURSES

Students must complete 4 core courses as part of their degree requirements. These courses include:

- MACS 5210 Interdisciplinary Research and Writing
- MACS 5030 Interdisciplinary Theories and Perspectives
- MACS 6130 Practicum I
- MACS 6400 Capstone (or MACS 6300 Thesis)

Student Advising

In the MACS program it is essential for a student to seek advice regarding course selection and their degree plan. They are expected to keep in periodic contact with the Department Chair and Program Manager. Students are encouraged to work with the NSU Office of Career Development for career planning. Students are also encouraged to seek the advice of faculty in the departments in which they are taking courses.

Degree Plans

A sample degree plan for a residential student who begins their studies in the Fall term and enrolls in 3 courses per term can be found on the website at <https://cahss.nova.edu/departments/ms/graduate/macs/curriculum.html>. Degree plans will be modified based on a student's enrollment date, course selection, and pace of study.

Practicum

To complete the M.A. in Cross-disciplinary Studies, students must complete a total of 65 hours of practicum. Students are responsible for documenting practicum hours, and must have these hours verified and signed by an on-site supervisor. The practicum experience is designed to provide students with an experiential opportunity to utilize theory and methodology within a diversity of professional settings. Students will have the opportunity to apply theoretical concepts within a practical framework.

Practicum I provides a community placement for the student to develop and refine practitioner skills. Using the Practicum experience, students have the opportunity to apply theoretical concepts within a practical framework under the supervision of an on-site supervisor. The Department will work with students to establish a placement suited to each student's interests, if possible. Practicum I is required and is offered in the summer and fall terms. If a student wishes to take an additional practicum course as an elective, Practicum II is available in the fall and winter terms. Practicum I is a prerequisite for Practicum II.

Please consult with the Department for detailed information. During each term and at every Residential Institute, one or more Practicum Advising sessions are scheduled. Students who have not yet registered for practicum courses are encouraged to attend these sessions. Students may also seek individual in-person or telephonic appointments with the Department for assistance with practicum placements. Please visit <https://cahss.nova.edu/departments/ms/resources/index.html> for the Practicum Handbook and forms.

Some practicum sites require a background check before the practicum placement can begin. Generally the background check is done at the student's expense and should be done as soon as possible before the practicum term.

Thesis or Capstone

MACS students select a final project to complete at the end of the program: thesis or capstone. Final projects provide an opportunity for student to focus on their areas of interest. Both projects require department approval but the thesis has the added requirement of a minimum grade point average of 3.5. Typically, a thesis takes at least 6 credits. If the thesis is not completed after 6 credits, continued registration at one credit per term will be required until the thesis is complete. All classwork, practicum hours, and final capstone or thesis must be completed within five years.

Areas of Focus

MACS offers a number of courses designed to help students focus on topics and areas of their academic and professional interest. MACS has initiated courses such as Transformational Narratives, Foundations of Genocide, Editing I and II, and Introduction to Institutional Assessment. In addition, MACS has introduced the Directed Readings courses. These courses are designed to provide opportunities for a student to work one-on-one or in small group seminars with faculty on specific topics of interest. Directed Readings are offered on topics such as Media and Public Policy, Native American Studies, Sociology, Gender, Diversity and Multiculturalism, African American Studies, Social Justice, Religion and Society, Tribal Dynamics, Human Rights, Transformational Poetry, Homeland Security, Community Development, Latin American Studies, Philosophy, Family Violence, and Political Science.

For more information, see the course list or website:

<http://cahss.nova.edu/masters/macs/index.html>

Students work closely with the department in the selection of courses.

Graduate Assistantship

MACS students in good standing may apply for the program's graduate assistantship. The graduate assistant may perform research, work in community projects, and provide other services as needed by the department.

Graduation Requirements

In order to be eligible for conferral of degree, MACS students must have completed all coursework, practicum hours, and their Capstone or Thesis. In addition, they must have at least a 3.0 cumulative GPA with no "incomplete" grades, and must be a "student in good standing" with no disciplinary actions pending or disciplinary tasks to complete. Students eligible for conferral of degree may participate in the June graduation ceremony.

MASTER OF SCIENCE IN COLLEGE STUDENT AFFAIRS (M.S.)

Program Description

The M.S. in College Student Affairs is designed to prepare students for the expanded roles and responsibilities of student affairs professionals in today's diverse college and university educational environments. Students will learn and experience the practical application of the knowledge base and skill sets of student affairs administration and conflict analysis and resolution in higher education organizational settings. The program is designed for students who are interested in a career in student affairs, and for those currently working in student affairs who seek to advance their own personal knowledge and professional credentials. The CSA program consists of a 12 course (36 credits) sequence. Students are exposed to student affairs in higher education as well as conflict analysis and resolution.

Program Formats

The CSA program is offered in both residential and distance learning formats. The flexible distance learning formats allow mid-career working adults and those unable to attend the residential program, to study college student affairs in a creative, rigorous, and structured

fashion. CSA and CSPA students taking online classes are required to attend two Residential Institutes (RI) per academic year on the Fort Lauderdale campus as well as online Web-based courses. Each RI is 5 days long. Currently the RIs are held in February and late September/October. Please visit <http://CAHSS.nova.edu/RI> for current information.

Students may enroll full or part time, taking six to nine credit hours per term. Students who enroll in 2-3 courses per term can expect to complete the program in less than two years. terms. Students register for three terms a year.

Degree Plans

A sample degree plan for a residential student who begins their studies in the Fall term and enrolls in 3 courses per term can be found on the website at <https://cahss.nova.edu/departments/ms/graduate/csa/curriculum.html>. Degree plans will be modified based on a student's enrollment date and pace of study.

Program Specifics

Required Courses

Students enroll in 12 courses in order to complete the program. Students are advised to work closely with the department as many courses are only offered once a year. Failure to take courses at their recommended time may result in a student needing additional time to complete the program.

CSPA 5001	The 21 st Century College Student
CSPA 5002	Current Issues & Trends in Student Affairs
CSPA 5003	The College Student & the Law
CSPA 5004	Administration of College Student Affairs
CSPA 5006	College Student & Adult Development
CSPA 5007	Research Design & Assessment in Student Affairs
CSPA 5040	Communication Dynamics in Dispute Resolution: The Human Factor
CSPA 5100	Mediation Theory & Practice
CSPA 6130	Practicum I
CSPA 6140	Facilitation Theory & Practice
CSPA 6160	Practicum II
CSPA 6350	Capstone in Student Affairs

Practicum

To complete the M.S. in College Student Affairs, students must complete a total of 130 hours of practicum. Students are responsible for documenting practicum hours, and must have these hours verified and signed by an on-site supervisor. The practicum experience is designed to provide students with an experiential opportunity to utilize student affairs theory and practice within a diversity of professional settings. Students will have the opportunity to apply theoretical concepts within a practical framework.

Students complete two practicums during their course of study. Practicum I and II are comprised of coursework and field experience. Thus students are dually mentored by a course professor as well as a site supervisor. The field experience provides students with the opportunity to explore a breadth of student affairs functions and gain exposure, knowledge and experience in the variety of programs and services that make up a college/university division of student affairs: residential life, housing, career services,

student union, student activities, leadership development, recreation and wellness, volunteer services, special events, judicial programs and the office of the dean of students. The courses provide a framework for students to integrate and process their practical experiences through the lenses of theory and research. They also help students create a career plan. Practicum experiences may take place at Nova Southeastern University or another college or university. Practicum I is offered in the summer and fall terms and Practicum II is offered in the fall and winter terms. Practicum I is a prerequisite for Practicum II.

Some practicum sites require a background check before the practicum placement can begin. Generally the background check is done at the student's expense and should be done as soon as possible before the practicum term.

DMS provides advising sessions as well as individual appointments to assist students. Practicum Advising sessions are held each term and during Residential Institutes.

Graduate Assistantships

Students accepted to the full-time CSA program may apply for a Graduate Assistantship position. Graduate Assistantships will be available in the diverse functions within the Office of Student Affairs at NSU to residential students enrolled full-time in the CSA program. Assistantships are academic year appointments and, if awarded, there is a choice of packages. More information can be found on the website:

<http://www.nova.edu/studentaffairs/assistantships/index.html>

Capstone

In addition to successfully completing all coursework, and obtaining the required practicum hours discussed above, students must complete the Capstone course to be awarded the M.S. in College Student Affairs. The Capstone in Student Affairs is not offered every term, so students are urged to seek the guidance of the department to make sure they register for the course in a timely manner.

When a student has completed all coursework and practicum hours, has completed the capstone, has maintained a minimum of 3.0 GPA with no "incomplete" grades, and is a "student in good standing" with no disciplinary actions pending nor disciplinary tasks to complete, the student will be eligible to apply for conferral of degree.

Graduation Requirements

In order to be eligible for conferral of degree, CSA students must have completed all coursework, practicum hours, and completed their capstones. In addition, they must have at least a 3.0 GPA with no "incomplete" grades, and must be a "student in good standing" with no disciplinary actions pending or disciplinary tasks to complete. CSA students may participate in the June graduation ceremonies if they have completed all coursework including the capstone and their two practicum courses and hours.

GRADUATE CERTIFICATE IN COLLEGE STUDENT PERSONNEL ADMINISTRATION

Our program in College Student Personnel Administration (CSPA) prepare students for many professions related to Student Affairs in college, university, and community settings. We focus on training Student Affairs professionals who take a humanistic, learner-centered approach in their work as change agents within the university and the larger society.

The program explores important topics in the field of Student Affairs including diversity, student development, student services, judicial affairs, administration, on-campus and campus life, Greek affairs, peer counseling, and crisis intervention, to name a few. Students examine the current trends and historical approaches in higher education, as well as future needs for effective student affairs practices in the 21st century.

The Graduate Certificate appropriate for those who seek graduate training in CSPA, as well as those who have already earned a degree in their professional field but would benefit from academic training in the applications of college student personnel administration to their current professions.

The program CSPA seeks to: 1) apply an interdisciplinary approach to understanding the field of Student Affairs; 2) provide an opportunity for student to engage in significant study and practice within the field; and 3) prepare students for professional positions in the field of Student Affairs.

The program CSPA collaborates closely with the University's Division of Student Affairs. The Division of Students Affairs serves as a host site for practicum and other hands-on training opportunities.

The Graduate Certificate in CSPA consists of five courses (15 credits). Students who decide to continue their studies may apply to the M.S. in College Student Affairs program (CSA).

The Graduate Certificate in College Student Personnel Administration is offered in both residential and distance learning formats. These flexible formats allow mid-career working adults and those unable to attend the on-campus program, to study conflict resolution in a creative, rigorous, and structured fashion. Students enrolled in the online program must participate in Residential Institutes on the main campus as well as online Web-based courses.

Students may enroll full or part time. Students can expect to complete the Graduate Certificate program in a year, or longer if going part-time. Summer attendance is mandatory.

Required Courses

Students in the graduate certificate in CSPA will take the following courses:

- CSPA 5001** The 21st Century College Student
- CSPA 5002** Current Issues and Trends in Higher Education
- CSPA 5003** The College Student and the Law
- CSPA 5004** Administration in College Student
- CSPA 5006** Student and Adult Development in College

Degree Plans

A sample degree plan for a residential student who begins their studies in the Fall term and enrolls in 3 courses per term can be found on the website at:

<https://cahss.nova.edu/departments/ms/graduate/collegestudents/curriculum.html>

Degree plans will be modified based on a student’s enrollment date and pace of study. Students are urged to work closely with the department regarding their degree plans as these courses are only offered once a year.

GRADUATE CERTIFICATE IN QUALITATIVE RESEARCH

The Graduate Certificate in Qualitative Research (QRGP) is offered through the Department of Multidisciplinary Studies (DMS). It consists of six three-credit hour online courses (18 credit hours) designed to prepare academics, professional research consultants, and graduate students to understand a variety of qualitative research approaches and to conduct qualitative research studies. Our certificate students will (a) gain insight into the philosophical and theoretical foundations of qualitative research; (b) distinguish and critique qualitative research approaches and products; and (c) apply best practices in qualitative research to design, propose, conduct, and compose qualitative research of their own.

Students may take three to six credit hours per term. Students can expect to complete the QRGP in one to two years depending on their pace of study. Students in the program who are in good standing and wish to pursue a master’s degree may apply to the department for acceptance into the Master of Arts in Cross-disciplinary Studies (MACS). Twelve (12) QRGP credits are eligible for consideration for transfer of credit (TOC) into MACS provided they meet other TOC requirements. (See Transfer of Credit requirements). MACS students can take QRGP course as a part of their course of studies.

Degree Plans

A sample degree plan for a student who begins their studies in the fall term and enrolls in 2 courses per term can be found on the website at:

<https://cahss.nova.edu/departments/ms/graduate/qualitativeresearch/curriculum.html>

Degree plans will be modified based on a student’s enrollment date and pace of study.

Degree Plan: 18 credit hours

Fall (August)	Winter (January)	Summer (May)
QRGP 6300 Foundations of Qualitative Research	QRGP 6301 Qualitative Data Collection	QRGP 6305 Qualitative Research Design
QRGP 6302 Qualitative Data Analysis I	QRGP 6303 Qualitative Data Analysis II	Elective

DEPARTMENT OF PERFORMING AND VISUAL ARTS

The mission of the Department of Performing and Visual Arts (PVA) is to provide quality education that fosters creative growth and professional development in a liberal arts environment. PVA is a major part of the cultural fabric of NSU, and we foster advancement in artistic and academic creativity, scholarship, exhibition, performance and research. PVA aspires to provide leadership and serve as a major cultural resource for the university and a collaborative community.

Pathways to creative careers are launched in Bachelor of Arts programs in art and design (studio or graphic design concentrations), arts administration, dance, music (commercial music or performance concentrations), and theatre (acting for stage and screen, musical theatre, or design and technical production concentrations).

The following programs are offered by the Department of Performing and Visual Arts:

- **Bachelor of Arts in Art and Design**
- **Bachelor of Arts in Arts Administration**
- **Bachelor of Arts in Dance**
- **Bachelor of Arts in Music**
- **Bachelor of Arts in Theatre**
- **Undergraduate Minors:**
 - Arts Administration**
 - Dance**
 - Graphic Design**
 - Music**
 - Studio Art**
 - Theatre**

Note: For information on all undergraduate programs, please see the Undergraduate Student Catalog: <http://www.nova.edu/undergraduatestudies/index.html>

DEPARTMENT OF WRITING AND COMMUNICATION

The Department of Writing and Communication prepares students to become innovative thinkers capable of understanding complex communication situations and knowledgeable practitioners capable of working within diverse communities and media industries. Through instruction in creative and critical approaches to media arts and scholarship, undergraduate and graduate students learn to express ideas in verbal and visual forms while preparing for careers in areas such as new media, radio and television broadcasting, video production, film, journalism, public relations, education, professional writing, and more. The department also works with almost every undergraduate through Composition courses.

The following programs are offered by the Department of Writing and Communication:

- **Master of Arts in Composition, Rhetoric, and Digital Media**
- **Bachelor of Arts in Communication**
- **Undergraduate Minors:**
 - Communication**
 - Digital Media Production**
 - Journalism**
 - Strategic Communication**
 - Writing**

Note: For information on all undergraduate programs, please see the Undergraduate Student Catalog: <http://www.nova.edu/undergraduatestudies/index.html>

MASTER OF ARTS IN COMPOSITION, RHETORIC, AND DIGITAL MEDIA (M.A.)

Program Description

The Master of Arts in Composition, Rhetoric, and Digital Media provides students with a foundation for conducting and presenting research, applying rhetorical theories, teaching writing, and producing digital media. Through specialized coursework and experiential learning in the history and theory of composition, rhetoric, and digital media, students develop expertise researching and practicing writing in a variety of professional genres. The CRDM program prepares students for careers in writing, publishing, and teaching, and doctoral study in Composition and Rhetoric and related disciplines.

Learning Outcomes

The successful M.A. in Composition, Rhetoric, and Digital Media graduate is expected to:

- Demonstrate advanced knowledge of what effective writing is in a variety of rhetorical contexts.
- Evaluate writing curricula and pedagogical practices.
- Design successful digital media using rhetorically appropriate strategies.
- Produce and present original research based on the theories and methods applicable to composition, rhetoric, and digital media.

Curriculum

Major Requirements (30 credits)

Core Courses (12 credits)

WRIT 5010	Research Methods (3 credits)
WRIT 5100	Teaching Writing (3 credits)
WRIT 5120	Theories of Composition (3 credits)
WRIT 5340	Studies in Multimodality and Digital Media (3 credits)

Elective Courses (12 credits)

Select 12 credits from the following courses:

WRIT 5140	Writing Center Praxis (3 credits)
WRIT 5160	Teaching Writing Online (3 credits)
WRIT 5250	Social Media Writing and Strategy (3 credits)
WRIT 5320	Advanced Writing with Technologies (3 credits)
WRIT 5400	Technical Writing (3 credits)
WRIT 5620	Rhetorical Traditions in Writing Studies (3 credits)
WRIT 5650	Rhetorical Criticism (3 credits)
WRIT 5750	Transmedia Theory and Production (3 credits)
WRIT 5800	Editing, Layout, and Design (3 credits)
WRIT 5850	Teaching and Tutoring Second Language Writing (3 credits)
WRIT 5900	Special Topics (3 credits)

Thesis (6 credits)

WRIT 6000	Master's Thesis (3 credits, repeatable)
-----------	---

Thesis Requirements and Guidelines

The thesis represents the culmination of the student's work in a master's degree program at the College of Arts, Humanities, and Social Sciences. Completing the thesis demonstrates

that the student can integrate discipline-specific information and respond to feedback. The student must register for 18 credits of graduate coursework before taking master's thesis courses. The student must complete 6 credits of thesis coursework (at 3 credits per semester) to meet degree requirements.

If a student has not successfully defended the thesis after completing 6 credits of thesis coursework, the student must remain enrolled in a 3-credit thesis course for each subsequent semester (summer is not required), including the semester of defense. Students may complete a maximum of 12 thesis credits.

The thesis may take one of the following forms:

Research Thesis: Student designs, conducts, and reports findings from qualitative, quantitative, or mixed methods research projects.

Theoretical Thesis: Student examines a well-focused question or problem through an informed context that is critical, theoretical, and/or historical.

Digital Media Thesis: Student designs a piece of digital media, such as a website or app.

Technical Thesis: Student produces a substantial manual, guidebook, scholarly or professional Web site, white paper, report, or grant proposal.

Thesis details should be finalized with the thesis adviser. The thesis process should include the following three phases.

Phase One: Selecting a Committee and Writing a Proposal

Advising Committee

For guidance throughout the research and writing process, students first select a thesis adviser. The thesis adviser must be a full-time NSU faculty member in the student's discipline. Ideally, the thesis adviser will have expertise that is relevant to the student's area of study. In consultation with the adviser, students then select an additional faculty member to be a part of the thesis committee.

The thesis adviser meets regularly with the student to set goals, review drafts, and ensure progress. Committee members give feedback on the proposal and the final draft, as well as evaluate the Thesis Defense.

Writing a Thesis Proposal and Submitting an Institutional Review Board (IRB) Application

After selecting a committee, the student must write a short proposal describing the theoretical background, proposed methods, and timeline for the thesis project and submit it to the committee for approval. Under consultation with the committee, the proposal is reviewed to ensure feasibility, clear focus, and potential for development. When the proposal has been approved by the committee members, the student and committee members sign the Thesis Proposal Approval Form (can be obtained from the thesis adviser), and the committee authorizes the student to complete the IRB application form (if applicable). Students should initiate the thesis IRB application process as early as possible, as the process can be time consuming. The necessary requirements and forms are available at www.nova.edu/irb/manual/forms.html.

Once completed, the student submits the Thesis Proposal Approval Form and the IRB application (if applicable) to the Department Chair for review and approval.

Phase Two: Research, Data Collection, and Writing the Thesis

Thesis research and data collection should occur according to the approved timeline and IRB specifications (when applicable).

The student should meet with his/her thesis adviser regularly during all phases of the project (especially during the writing phase) and demonstrate consistent progress in the development of the thesis. During the writing process, the student should seek feedback from the adviser and committee member(s). Revision is considered complete when additional changes would result in minimal improvement of the document.

Prior to the defense, the student submits final copies of the project to each committee member and the Department Chair.

Phase Three: Thesis Defense

After the student has submitted final copies of the thesis, the thesis adviser will schedule a Thesis Defense. The student and the thesis adviser should discuss appropriate presentation of the project prior to the defense. The defense will be before the graduate faculty and an audience of other students and invited guests. During the event, the student summarizes the project, presents the major findings, and addresses questions from the thesis committee. The student's presentation of the project and answers to these questions will be considered as part of the assessment of the thesis project. After the committee finishes asking questions, audience members will have the opportunity to ask questions of the student.

After the Thesis Defense, the committee members will assess all parts of the project and decide whether or not to recommend approval of the thesis. The committee may require that the student complete further work or revisions following the defense. If approval is recommended, the committee will complete the signature page. Finally, the student will submit one copy of the final thesis to the department to be bound and become part of the university's thesis archive. This copy must adhere to the Thesis Format and Style Guidelines in this catalog.

Important Deadlines

	Fall Semester Completion	Winter Semester Completion
Thesis Proposal due to Thesis Adviser	midterm week of winter semester	midterm week of fall semester
Thesis due to Thesis Adviser	October 1	March 1
Thesis Defense	November 1-7	April 1-7

Thesis Format and Style Guidelines

Students must adhere to the following Thesis Format and Style Guidelines.

After successful completion of the Thesis Defense, each student will complete the following steps.

1. Make all final revisions and prepare one final manuscript according to the following guidelines.

- The manuscript should be double-spaced in Times New Roman, 12-point font.
 - The left margin should be 1.5".
 - All other margins (top, right, and bottom) should be 1".
 - Page numbers should be placed in a header: top right, ½" from the top, numeral only.
 - Front matter should be prepared.
2. Submit an electronic copy of the manuscript, including front matter, in one document to the thesis adviser. The adviser will review the formatting and alert the student to any necessary changes.
 3. Once the manuscript has been approved by the adviser, the student will:
 - Submit one final electronic copy that will become part of the department's digital archive.
 - Work with the department to include the manuscript in ProQuest and NSUWorks.
 - Print one copy of the complete manuscript, including front matter, on **white** 100% cotton fiber paper. The signature page must include original signatures. This copy will be bound and housed in the library.

If the student would like to have a bound copy, he/she must submit an additional manuscript, including front matter and original signatures, and a check for the total amount. Interested students should ask the department for current pricing information. All manuscripts should be submitted at the same time.

Orientation Information

Upon acceptance, students will be provided with important orientation information via e-mail. Phone and in-person meetings are utilized as needed.

Academic Advisement

Students are encouraged to consult with the department for academic advisement.

**GRADUATE DUAL DEGREE
PROGRAM**

ABOUT OUR DUAL DEGREE PROGRAM

M.S. in Conflict Analysis and Resolution/J.D. OR Ph.D. in Conflict Analysis and Resolution/J.D.

The Department of Conflict Resolution Studies will accept credits from the J.D. program offered through the Shepard Broad Law Center at NSU and apply them towards the M.S. or Ph.D. in Conflict Analysis and Resolution. The M.S. in Conflict Analysis and Resolution will accept 9 credits from the law program, and the Ph.D. program will accept 6 credits. Students must complete both programs in order to obtain the dual credits. For students in M.S. /J.D. and Ph.D. /J.D. programs only, the transfer of credit will apply toward elective courses.

Students must seek admission independently to both the Department of Conflict Analysis Resolution housed in CAHSS and the Shepard Broad Law Center.

ABOUT CAHSS-BASED EXPERIENTIAL TRAINING AND COMMUNITY SERVICES

Advanced Bowen Family Systems Training Project/Workshops

In conjunction with the Western Pennsylvania Family Center, CAHSS and the Department of Family Therapy has teamed up to present a series of Advanced Bowen Family Systems workshop trainings to members of the South Florida family therapy community, at no cost to the participants. These workshops are conducted at the training center of the WPFC in Pittsburgh, Pa., and are simultaneously broadcast electronically to the campus of Nova Southeastern University. These feature nationally and internationally renowned practitioners and experts in Bowen Family Systems theory who share their knowledge and expertise on various areas of family functioning and clinical practice. The electronic format allows for interactive question and answer sessions with the presenters, and exposes both students and members of the South Florida family therapy community to gain access to highly specialized professional resources. After the formal presentations conclude a "locals only" discussion follows, facilitated by a member of the Department of Family Therapy faculty.

Brief Therapy Institute and Family Therapy Clinic

The Brief Therapy Institute (BTI) is South Florida's primary training center for brief counseling and family therapy, as well as the community service provider for the Department of Family Therapy. Since 1988, BTI has provided affordable, innovative, culturally-sensitive counseling services to thousands of tri-county residents of diverse ethnic and cultural backgrounds, religious affiliations, and sexual orientation.

Located in the Maltz Building on NSU's main campus, BTI offers individuals, couples, and families a sliding-fee schedule, convenient times for appointments, and quick access to therapeutic treatment.

Much of the therapy at BTI is provided by practicum teams, each comprised of an AAMFT approved faculty member and up to six graduate student therapists. As one of the team members, a designated primary therapist works directly with the clients, the others join the supervisor in an observation room behind a one-way mirror. The two rooms are connected by telephone, so, as the session proceeds, the supervisor and team may call the therapist, make observations and pose questions.

Such "live supervision" of cases serves multiple purposes. The primary therapist receives ongoing, immediate feedback on his or her work. Team members behind the mirror are able to experience the session without having to conduct it, allowing them to learn from an intense, but non-demanding perspective. The supervisor is able to see clearly what the therapist is doing and how the clients are responding, making it possible to offer clear and relevant support and direction. And the clients are able to receive cutting-edge, non-pathologizing therapeutic involvement from committed professionals, helping them to resolve personal problems and interpersonal conflicts.

Our advanced doctoral students have an opportunity to participate in a more independent practicum which offers more flexibility for scheduling and seeing clients while still working with a supervisor and team. A wide variety of individuals, couples, and families are seen at BTI. We work closely with our community service providers to become a therapeutic resource for children and families facing, multiple issues, veterans, couples, and extended families. Issues may include school-related issues, reunification, substance abuse challenges, pre-marital, divorce, grief and loss, and other therapeutic issues. For more information, visit <http://CAHSS.nova.edu/BTI/>.

Community Resolution Services

Community Resolution Services (CRS) offers trainings and workshops, as well as facilitation and other services, to individuals, families, groups, and communities. CRS is an in-house practicum site available to students in DMS/MACS and DCRS. CAHSS students that are not engaged in practicum may apply as volunteers. CRS supports students who intend to enhance their skills and who want to participate in projects and activities rich with prospects for professional development. It also offers needed services to the community, at either no cost or based on a sliding fee scale. This enables our underserved community members to access and participate in conflict resolution services.

CRS offers professional opportunities in the community for students who want to enhance their skills beyond the classroom. It also offers opportunities for faculty to mentor students while enhancing their own practice skills.

CRS maintains a variety of projects including the VOICES Family Outreach Project; CRPS Project (Community Resources, Partnerships and Solutions); CRS Training and Consulting Project and Peace Place. Peace Place is a unique, long-term collaboration between CRS and the Broward County Library System. The library provides a public forum and CRS uses Peace Place as an opportunity to share important research, information, and skills with the community.

For more information about CRS, please contact the CRS Coordinator at crs@nova.edu.

Equine Assisted Family Therapy Outreach

In collaboration with Stable Foundations, an equine assisted therapy practice within the local community, the Department of Family Therapy offers opportunities for master's and doctoral students to serve as clinical interns, offering equine assisted family therapy for individuals, couples, and families. Integrating the systemic theoretical foundations that are the hallmark of the family therapy program with the practice of equine assisted therapies, this collaborative effort provides a unique clinical opportunity for students. Clinical supervision is provided by Dr. Green and by licensed mental health professionals affiliated with Stable Foundations. Additionally, the Department of Family Therapy offers an Equine Assisted Family Therapy course to both Master's and Doctoral students. Taught by Dr. Shelley Green, Professor of Family Therapy, the course offers students the opportunity to both learn about and practice equine assisted family therapy, and to utilize the equine model to enhance and reflect on their own clinical strengths and approach.

Suicide and Violence Prevention

NSU's commitment to collaboration is clearly evidenced by the Office of Suicide and Violence Prevention. Dr. Douglas Flemons, CAHSS Professor of Family Therapy, co-directs the office with Dr. Scott Poland, CPS Professor of Psychology. The office, which reports to the Division of Clinical Operations, is also staffed by a post-doc psychologist and a graduate assistant. Drs. Flemons and Poland and their staff offer trainings throughout the campus on suicide prevention, suicide assessment, stress reduction, and time management, and their website at <http://www.nova.edu/suicideprevention/> provides resources for campus based *and* online students, faculty, and staff. The office is just completing a 3-year SAMHSA grant that funded the creation of three video-supported Blackboard training modules on suicide prevention and assessment, designed to assist in the creation of a human safety net for the entire NSU community. Drs. Flemons and Poland, co-PIs for the grant, were assisted by the grant coordinator, Dr. Erin Procacci, and by creative consultant Dr. David Spangler, a professor and administrator in the Fischler School of Education.

Systemic Change in Schools

Under the direction of NSU faculty and the Broward school district's office of Diversity and Multicultural Affairs, master's and doctoral level family therapy interns provide mentoring, family therapy and consultation to public schools serving an at risk population. For 2012/2013, the program will serve four elementary and three middle schools. The program has received district wide recognition, and has resulted in a publication in Family Therapy News, two national presentations and several dissertation projects.

Community Outreach

CAHSS has developed a verity of community outreach projects within the departments and in the community. These projects are developed for the students to advance their academic and experiential learning. Please visit our website for detailed information <http://CAHSS.nova.edu/>.

STUDENT SERVICES

CAHSS Online

In an effort to offer students, graduates, faculty, and staff greater access to important information, CAHSS provides a comprehensive World Wide Web homepage (<http://CAHSS.nova.edu>), which contains all necessary information. The CAHSS webpages are home to a number of unique online resources created and developed here at the college. The following is a list that students may find useful and interesting:

- Career Development Program
- CAHSS Dialogs
- Brief Therapy Institute
- Community Resolution Services
- Community Outreach
- NSU Distance Library Services: <http://www.nova.edu/community/libraries.html>
- NSU Computer Help Desk: <http://www.nova.edu/help/index.html>

CAHSS Student Government Association

The CAHSS Student Association (CAHSS SGA) is an organization whose goal is to unify the student body by building learning communities through social activities, academic events, and clubs, etc. The CAHSS SGA consists of the Executive Board (President, Vice-President, Treasurer, and Secretary) and Representative Council (Student Representatives from each department, International Student Representative and Online Student Representative). Elections are held in April for these offices. A CAHSS faculty member serves as SGA Advisor. Please visit: <http://cahss.nova.edu/sa/index.html>.

Career Development Program and Career Connections

The College is concerned not only with students' academic progress, but also with their career development. Whether a student is a master's student newly graduated from college or a student with significant professional experience, their career objectives and goals will likely change during this program as opportunities increase and horizons are expanded.

Students' academic studies will expose them to theories and concepts that may prompt them to see themselves in professional areas that had never been considered before; maybe had never even heard of before. If a student is uncertain of the best way to obtain information about new career possibilities or how to best link electives and practicum opportunities to this goal, the CDP can provide the support needed through its informative resources.

Students very often can work in positions across many professions maximizing their unique inter-professional and interdisciplinary training and skills. The field of college student affairs (CSA) involves not only colleges and universities, but touches upon related organizations and communities. The field of national security affairs (NSA) offers career opportunities in the public and provides sectors and requires the ability to critically analyze intelligence information, understand historical and contemporary issues informing the field, and to perform textual analyses. Our students have many creative options, but there is much to learn about these options.

Students' previous educational, professional, community, and volunteer experiences, coupled with their own unique personality, style, and people skills, will point toward specific opportunities. The student's career development plan is therefore a unique design with specialized long- and short-term objectives and goals. The student's goals today will likely be different from the goals he or she will have a few years from now, so this plan must be fluid and must reflect the student's academic and professional growth.

The Career Development Program works with NSU's Office of Career Development. Career Cafes are opportunities to meet practitioners and learn more about specific career paths and opportunities. We bring in local professionals and encourage our students to work closely with staff in NSU's Office of Career Development. The Career Connection is an online resource for DMS students and alumni, providing lists of jobs, hyperlinks, resource lists, references to helpful books and materials, and periodically offers online chats and workshops. In order to participate in Career Connections you must be our student or graduate and you must request to be added to the web environment. You may visit NSU's Office of Career Development at: <http://www.nova.edu/career/index.html>

Clubs and Organizations

Nova Southeastern University offers many opportunities for students to become involved, pursue their passions, and explore new activities. Please visit: <http://cahss.nova.edu/students/clubs.html>.

Graduate Assistantships

The College of Arts, Humanities, and Social Sciences offers some graduate assistantships (GA). GAs must be enrolled as full time students in graduate degree program at the CAHSS, maintain a minimum 3.5 GPA, and remain otherwise in good academic standing. The GA's duties may include but will not be limited to assisting the faculty member in developing and conducting research, preparing and facilitating grants and contracts, conducting research relevant to course preparation, and community outreach. Positions will be for a 10-20 hours per week. Continuation of the assistantship may be reviewed after each term based on the student's academic performance and performance as a GA.

Students enrolled in the M.A. in Cross-disciplinary Studies are eligible to apply for the GA position with the department. The same guidelines seen above apply.

Students enrolled in the programs in College Student Affairs are eligible for GA positions through NSU's Division of Student Affairs. GA's in these positions work closely with the Dean of Student Affairs and other campus life administrators. For more information, please visit: <http://www.nova.edu/studentaffairs/index.html>

Students enrolled in the M.A. in Composition, Rhetoric, and Digital Media program are eligible to apply for GA positions. Contact the Department of Writing and Communication for more information.

NSU Student Support

Nova Southeastern University provides extensive student support through its Office of Enrolled Students. For detailed information on Financial Aid, Registration, Student Accounts, Technology, and other student services, please visit <http://www.nova.edu/resources/current-students.html>.

Scholarships

Students are encouraged to seek internal and external scholarships. CAHSS provides an online database of organizations that fund social science and humanities programming and research. Please visit <http://CAHSS.nova.edu/Downloads/PDF/scholarships/scholarship-funds.pdf> for more information.

In addition, NSU has several scholarship programs administered through the Office of Student Financial Assistance.

Please visit <http://www.nova.edu/financialaid/scholarships/index.html> for more information.

Sponsored Programs

Commitment to scholarship and research is one of Nova Southeastern University's core values. Students are encouraged to explore the many resources for sponsored research available to them as members of the NSU community. Please visit the university's Sponsored Research website at: <http://www.nova.edu/osp/index.html>.

Students may be particularly interested in the following:

- [Pivot Funding Opportunities](#) is the world's largest source of information about available funding for all types of projects in all disciplines.

[Pivot Profile](#) is a database of over 3 million profiles that contain information about all aspects of a researcher's academic career: qualifications, positions held, patents, publications, grants, honors and awards, and much more.

Student Evaluation of Classes and Practica

At the end of each term, students are given the opportunity to provide the program with their comments about the courses they took. The student's anonymity is strictly protected in the following ways: a) no names are required on the evaluation; b) all evaluations are completed on a secure website; c) faculty members do not receive an overall summary of the evaluations until after grades have been submitted to the Registrar. Student feedback is welcomed and considered very valuable.

CAHSS Faculty, Staff, and Administration

For a full list of the College of Arts, Humanities, and Social Sciences faculty, staff, and administration please visit <http://cahss.nova.edu/faculty/index.html>.

Detailed information about CAHSS faculty scholarship can be found on the NSUWorks website: http://nsuworks.nova.edu/cahss_faculty/.

COURSE DESCRIPTIONS

CARD – Conflict Analysis and Resolution (Ph.D.)

CARD 5000 - Foundations and Development of Conflict Resolution & Peace Studies

This course outlines the substantive themes, history, origins, contexts, and philosophical foundations of conflict resolution, healing, peacemaking, and problem solving. Students will examine levels of interventions and processes in the field of conflict resolution. Offered all terms.

CARD 5040 Communication Dynamics in Dispute Resolution: The Human Factor

This course presents communication theories relevant to conflict resolution as well as theories about understanding, analyzing, and managing conflict. The course focuses on the human and emotional aspects of conflict, and includes the influence of gender and culture. This course is pragmatic as well as theoretical, and presents communication and conflict resolution models in a practice-based approach. Offered all terms.

CARD 5100 - Mediation Theory and Practice

This course examines theories, methods, and techniques of mediation. Students will have the opportunity to demonstrate their knowledge of mediation skills. Prerequisites: CARM or CARD 5040. Offered fall and winter.

CARD 5140 - Negotiation Theory and Practice

This course examines conflict intervention from the perspective of the disputant/negotiator. The integration of theory and practice will emphasize the tactics, strategies, and operations of effective and ineffective bargaining/negotiating behavior. The course develops negotiator skills and knowledge, leading to collaborative-based actions and solutions. Prerequisites: CARM or CARD 5040. Offered winter.

CARD 5401 Editing I

This course engages students in the principles and practices that create and sustain hard copy and online journals. These may vary from a fully-academic focus to literary materials, but all will create and deliver content that promotes contributions to their fields. Coursework will encompass all the steps that connect a publication with its intended audience. Coursework will vary depending on the current stage of a journal's development, including duties that enact the realistic responsibilities and opportunities that anyone can expect while serving on, or leading, a journal in a professional position. This course is useful for students who intend to pursue a professional role in journal editing and those who intend to contribute to respected journals or other regular publications with a high quality standard.

CARD 6120 - Culture and Conflict: Cross-Cultural Perspectives

This course examines the nature and meaning of conflict, conflict management techniques, and the assessment of conflict situations from a cross-cultural perspective. Explores various models for training third parties to function effectively in handling disputes where cultural differences are a significant factor. Also addresses various theoretical and practical implications of indigenous conflict management techniques and beliefs found in different cultural settings. Offered fall.

CARD 6130 - Practicum I: Supervised Field Experience

This course is a field research project that incorporates classroom knowledge and real-world settings. Students will demonstrate their ability to apply theory to practice and analyze situations utilizing knowledge from previous course work. Prerequisites: CARM 5000 or CARD 5000, and CARM 5040 or CARD 5040, and CARM 5020 or CARD 7040 AND 1 of the following CARM 5100, CARM 5140, CARM 6140, CARD 7020. Offered all terms.

CARD 6140 - Facilitation Theory and Practice

This course develops students' skills in working with groups. It incorporates theories and models of group dynamics, facilitation, and group development, as well as workshop development and delivery. This course uses a practice-based approach, including role-plays and workshop presentations. Prerequisites: CARM or CARD 5040. Offered fall and winter (online) and summer (on-campus).

CARD 6170 - Violence Prevention

This course examines various theories of human aggression and violence, exploring their underlying assumptions about human nature and the causes of violence. Also included is an introduction to a range of violence intervention and prevention approaches developed for use at the interpersonal, intergroup, and societal level. Offered summer and fall.

CARD 6600 Special Topics in Conflict Resolution

This course explores a variety of topics related to the field of conflict analysis and resolution, with the specific focus for each section determined by faculty on a case-by-case basis. The course provides for the exploration of topics of interest to faculty and students and/or timely topics, which are not covered by existing electives.

CARD 6601 International Conflict Resolution

This course reviews international conflict resolution in many settings and includes informal mediation by private interveners and scholar-practitioners; formal mediation by individual, regional, transnational, and international organizations; and mediation within small and large states. Offered occasionally.

CARD 6602 - Resolving Environmental and Public Disputes

This course focuses on the theoretical bases, practical applications, process orientations, and actual intervention into complex multiparty, multi-issue public disputes. Focus is on social/environmental

interactions and sources of political and economic conflict over human health environmental protection and natural resource scarcity. Offered occasionally.

CARD 6604 - Gender and Conflict

This course examines gender roles in conflict and how conflict is experienced and perceived by men and women. Course material includes feminist theories, men's studies, religion, literature, history, anthropology, film, television, psychology, the justice system, and alternative dispute resolution. Offered occasionally.

CARD 6605 – Institutional Assessment in Conflict Resolution Practice

This course will introduce students to the field of institutional assessment and planning, emphasizing the higher education environment and its unique challenges. Students will explore the functions of educational institutions across systems, develop an understanding of the concepts of institutional assessment and administrative issues in higher education, learn to use core technologies and methodologies for research applications, and build experience navigating the political and interpersonal dynamics that promote effective institutional assessment. Offered occasionally.

CARD 6606 Advanced Mediation Skills

This course will oblige students to examine conventional wisdom and the students' own beliefs to develop a more sophisticated understanding of the potentials and limits of mediation in a wide variety of contexts. The course will cover selected mediation issues and skills in more depth than possible in an introductory survey of mediation. Students will analyze issues such as convening mediations, eliciting and satisfying interests, maintaining impartiality, dealing with power imbalances, handling apparent impasses, identifying and handling various ethical problems, and writing agreements. Students will also discuss practical aspects

of operating a practice such as getting clients, billing, developing good relationships with other professionals, and creating standard forms. Prerequisites: CARM or CARD 5100. Offered occasionally.

CARD 6607 Ethno-political and Community-Based Conflicts

This course introduces the major methods used by states, international organizations, and conflict resolution practitioners to eliminate, manage, and resolve ethnic and community-based conflicts. Case studies are used to explain conflict escalation and de-escalation, and mechanisms of conflict intervention. Offered Yearly.

CARD 6608 - Nonviolent Social Movements

This course focuses on 20th-century nonviolent social movements such as the women's rights and suffragist movement; Gandhi's prolonged struggle against British colonialism; Martin Luther King, Jr., and the American Civil Rights movement; the American peace movement against the war in Vietnam; and the nonviolent movements that resulted in the end of communist rule in Eastern Europe. Offered occasionally.

CARD 6610 Family Violence: The Effects on Families, Communities and Workplaces

This course explores the overall effects of trauma and violence on individuals, families, communities, and the workplace. Issues of abuse, violence, and systemic responses are explored in relation to their effect on individual behavior, family dynamics, service provision, and community systems. Methods for identifying such issues in the context of family mediation and other types of conflict intervention are explored. Offered occasionally.

CARD 6611 Race and Ethnic Relations in America

This course examines the social constructionist approach toward the

study of racial and ethnic conflict and conflict analysis in the U.S. It is designed to assist students in increasing their ability to analyze racial issues from a historical and contemporary perspective, and to explore the basic theoretical paradigms that have been used to conceptualize the idea of race and ethnicity from the 19th century to the present. The course will also explore the effects of contemporary policies in addressing racial and ethnic inequities, and strategies to combat racism. Offered occasionally.

CARD 6613 – Arbitration Theory and Practice

The purpose of this course is to help understand the theory and processes of arbitration for a wide variety of cases. This course will cover the nature, enforceability and scope of arbitration clauses; other requirements to arbitrate; the powers of arbitrators; issues that typically arise in arbitration; the conduct of arbitration hearings; the remedies available in awards under federal and state law; and proceedings to confirm or to modify or vacate arbitration awards. Offered occasionally.

CARD 6614 Workshop Development

This course helps students to create a connection between the graduate program and professional life by learning how to create, develop, and present workshops and training in the field of conflict resolution. Students will learn concepts and principles necessary to create and design workshops for adults and for children. Students will actually develop and present workshops in class in order to gain experience, have a finished product, and get valuable feedback from participants. Offered occasionally.

CARD 6618 The Reflective Practitioner: Consulting, Conflict, and Change in Organizational Settings

A hands on, clinically based course in which students will form consulting teams (like in consulting firms) and actually do consulting in the community. Offered occasionally.

CARD 6619 - Strategic Community Planning and Partnerships

An overview of the community from a strategic perspective, identifying: social, economic, demographic and cultural trends and patterns within the community; areas of concern for law enforcement and government; ways to initiate and develop community-wide strategic planning for peaceful community relations and growth; building community partnerships between law enforcement, the criminal justice system and community agencies and groups; community justice; and the use of data, data collection and analysis in developing and implementing collaborative long and short term plans for community development, problem solving and funding initiatives. Offered occasionally.

CARD 6621 – Introduction to Human Rights

This course provides students with an introductory survey of political, philosophical, historical, economic, and legal considerations related to fundamental human rights concepts. Students will examine human rights issues in both domestic and international arenas. In particular, the course addresses the issues of the ideological and cultural origins of human rights theory; the sources of rights and rights violations; the impact of the nation-state system, governments and other institutions (such as corporations, churches and universities), and domestic and foreign policies particularly of the U.S.) on human rights law and enforcement. Finally, students examine the wide variety of political, civil, economic, social and cultural rights warranting protection. Offered Yearly.

CARD 6624 - Advanced Practicum

This practicum experience is a faculty-driven experience in which a faculty member will design a project in conjunction with another organization or university and students selected for the practicum will work on that project with the faculty member. The project may also

entail a one to two week mandatory field experience in which students and the faculty member will work on the project on location. Students will be responsible for their expenses. Students will apply for this practicum and must be selected. Offered occasionally.

CARD 6625 Global Practicum

The Global Field Studies Practicum Course in Conflict Resolution incorporates a field-immersion component as part of this practicum course. It is developed around principles of multidisciplinary conflict analysis, management, and resolution which promote scholarship of engagement in communities through research, education, and practice. This course provides a solid knowledge base by the application of conflict resolution concepts through experiential learning that lead to professional development. The field experience enhances students' cross-cultural skills, appreciation and understanding of diversity and global issues. During the course students are exposed to a diverse community of researchers, practitioners, policy makers, who share with students their experience and career journeys. The course provides for the enhancement of students' career development plans and requires the completion of all required practicum forms and paperwork. For their final project students are expected to work with a partner organization developing research, training, or consultancy projects where students apply theoretical concepts within a practical framework.

CARD 6626 - Conflict Resolution for the School and School System

This course is designed for anyone in a position to influence school policy, practice, and decision-making, from within or as a consultant. The course takes a systems approach to resolving conflicts within the school and school system, applying conflict analysis and conflict resolution models to conflict situations, using negotiation, mediation, and facilitation processes, developing a conflict resolution culture throughout the

system, providing training for parents, teachers, students, and school board. The course also examines methods to manage conflict, including using conflict resolution practices in crisis situations, and mediating and negotiating with parents, teachers, administrators, and students. The course uses a case study method. Offered Yearly.

CARD 6627 - Conflict Resolution and Peer Mediation for Students: Elementary, Middle and High School Levels

This course is designed to bring conflict resolution and peer mediation training to students at the classroom, school, or school system level with the objective of transforming student/classroom/school conflict resolution culture. Students will examine the elements of conflict resolution and peer mediation curricula, materials and resources in the field, and current research. Students will also do original curriculum/peer mediation design by integrating state-of-the-art thinking in conflict resolution methods, theories, and research into the design, implementation, and institutionalization of conflict resolution and peer mediation programs. Offered yearly.

CARD 6630—Foundations of Genocide

This course is a survey of the causes, forms, and nature of genocide. The course addresses the complexities in differentiating human rights violations and crimes against humanity, from genocide and government sponsored mass murder. Theoretical and applied cases studies will facilitate student engagement. The course will serve as an introduction to the theories and applied practices utilized in analyzing acts of genocide. Issues addressed throughout the course will include: genocidal intent, eugenics and genocide, demographic purging, as well as mass and public extermination.

CARD 6632 Civil Wars & Their Resolutions

This course examines the various complexities of violent civil conflict. Using a general survey of the field,

supplemented with numerous civil war case studies, students explore the various factors contributing to the outbreak of civil wars, the processes and consequences of such conflict, as well as the variety of methods available for resolution. Offered occasionally.

CARD 6633 - International War and Resolution

This course focuses on various aspects of international war and peace. Topics of discussion include defining war, historical patterns of warfare, motivations to engage in such conflict, as well as efforts to deter or resolve international war. Offered yearly.

CARD 6634 - Metropolitan Conflict

This course will explore historical and theoretical explanations for the different types of conflict prevalent in various metropolitan areas. A series of case studies, focusing on both cities within the United States and abroad, students will explore such topics as the role of ethnicity in conflict, structural inequalities of the system, urban/suburban relations, urbanization, and metropolitan growth and development. Offered occasionally.

CARD 6635 - Advanced Facilitation: Facilitating Complex Group Problem Solving

This course focuses on facilitation in complex problem situations. The focus will be on intercultural settings. Various approaches to complex facilitation are introduced, with special attention to dealing with difficult parties and principles of Interactive Management (IM). This course will provide students with the skills necessary to perform a facilitation workshop with a computer-assisted program developed to resolve complex problems. Students will gain experience as participants in problem-solving sessions, which they will study and analyze. Class sessions will consist of role-plays, discussion and analysis, and presentation of information. Prerequisites: CARD 6140. Offered occasionally.

CARD 6638 – Conflict and Crisis Management: Theory and Practice

This course is an overview of the theories of conflict and crisis management and the intervention models and protocols used. Conflict and crisis management will be explored among and between individuals and groups, organizations, communities, and governments around the globe. Topics will include the management of violent conflicts, such as kidnapping, hostage-barricade and terrorist acts, homeland security, and the response to natural disasters. There will be interactive exercises as well as a case study approach used. Offered yearly.

CARD 6639 – Organizational Conflict Intervention

This course will explore the diagnostic techniques and tools necessary to assess organizational conflict, and tools necessary for successful intervention. Offered yearly.

CARD 6641 – Conflict and Crisis Negotiation

This course will provide an overview of law enforcement crisis negotiation and its application to crisis situations, such as domestic violence encounters on an individual level and hostage/barricade encounters on an organizational level. Lecture, expert demonstration, and interactive negotiation with role play will provide an experiential learning environment for understanding and applying active listening skills, empathy, rapport, influence, and behavioral change concepts to conflict and crisis situations. Offered occasionally.

CARD 6643 - Social Aspects of Terrorism

In the last fifteen years we have seen a significant surge in acts of terrorism. Today, terrorism plays a significant role in international and domestic politics and affects each of us in varying degrees. This course is an advanced seminar dealing with terrorism. It is imperative that we understand terrorism, the history of terrorism, the types of terrorism, the terrorist, his motivations, and the causes

and consequences of terrorism. This course examines a wide range of topics in order to provide you with a deeper understanding the phenomenon of terrorism. We will engage in a thoughtful and in-depth examination of the definitions, causes, and consequences of terrorism, as well as consider the different means to countering terrorism. We will evaluate the domestic and international causes and effects of terrorism, state-sponsored terrorism, and suicide terrorism. We will examine and evaluate how terrorists raise, store, spend, and transfer their financial resources. Offered occasionally.

CARD 6644 - Consulting with Leaders in Organizational Conflict: A Four Frame Approach

Studies clearly show that successful leaders of twenty-first century organizations need to make sense of complex conflict situations before taking action. This course will combine theory and practice to equip students to assist organizational leaders in developing both diagnostic and behavioral sophistication by using multiple frames before taking action. Participants will engage in both classroom learning, on-line assistance, and leadership coaching with a client and organization of their own choosing. Offered yearly.

CARD 6645 – Indigenous Systems of Conflict Resolution

This course is designed to make contributions to the field by exploring the processes of conflict resolution and peacemaking as practiced by the indigenous communities around the world. Class members will engage in an in-depth exploration of techniques of peacemaking, as practiced in various parts of the world. Offered yearly.

CARD 6646 – The Anthropology of Peace and Conflict

This course will explore the social dynamics of disputing and undertaking detailed examinations of specific cases. By examining diverse expressions of conflict

and different means of controlling it, students will deepen their understanding of conflict analysis and broaden their perspectives on how disputes can be managed. Course topics will include the cooperative and aggressive components of human nature, the social construction of violence, genocide, and war, and the relationship between conflict resolution, social control, inequality, and justice. Offered occasionally.

CARD 6648 – Researching Conflict

In this course, students and instructors will together conceptualize, design and carry out a mixed methods research study on a topic connected to violence. The students and instructors will decide on a research problem to be studied. The goal of the elective is to help students deepen their understanding of quantitative and qualitative research and hone their research skills. The course will be a collaborative effort, building on the experience, knowledge, expertise, and interests of all of the participants. Offered yearly.

CARD 6649 Federalism & Inter-government Conflict

This course describes and analyzes the guiding principles and the operational processes of "American Federalism", as well as its intended and unintended consequences. It seeks to provide students with a working understanding of the complex set of interactions occurring between all government units and levels (national/federal, States, Counties, municipalities, school districts and special districts, townships, etc.) in the USA; the various types of conflicts which necessarily result from these interactions; and the solutions that have been implemented in the past, or are currently suggested, in order to address and resolve these conflicts.

CARD 6650 - International Negotiation: Principles, Processes, and Issues

This course describes and analyzes the major principles, processes and issues of international negotiation in the twentieth

and twenty-first centuries. It seeks to provide students with the analytical tools and skills required to explain and predict the outcome of specific (bilateral or multilateral) negotiations through the study of various explanatory factors, including: stability and change in the structure of the existing "international system"; the individual characteristics of the nations-states parties (power/capabilities, interests, culture/values, negotiating styles, etc.); the strategic and tactical moves of those considered as "key player"; as well as the role of smaller states and non-state actors. Offered yearly.

CARD 6651- Theories of Ethnicity and Nationalism

This course is foundational for theoretical understandings of ethnicity and nationalism. Students will analyze general theories from key debates and critically examine various points of view in relation to defining boundaries, conflict, context, difference, identity, migration, minority/majority, race, and tribalism in regard to ethnicity, as well as community, fantasy, ideology, neo-Marxism, modernism, perennialism, political, primordialism, semiotic, sociocultural, socioeconomic, imagination, invention, and tradition in association with nationalism and nationalists, and the entwinement and interrelation between all of these prevalent notions and themes. Upon completion of the course students will better grasp ethnic belonging, ethno-nationalist conflict, and intra/inter-group disputes from the standpoint of applied theory, cultural relativity, and humanism. Offered yearly.

CARD 6652- History, Memory & Conflict

Why do certain cycles of violence and revenge seem to be passed down from generation to generation? How do we in the present remember and interpret the traumas and conflicts our society endured in the past, and how might this lay the groundwork for the conflicts of today? By exploring the significance of history, memory, and cognition, this course

provides the most recent theoretical debates on these issues and their significance for understanding why populations persist in a state of violence. Questions to be considered include: how does the past become relevant to the present, and how do we as peace-builders respond to interrupt cycles of historical violence? Others are: how is the past re-invented, mythologized about, and re-imagined? How do the powerful manipulate collective memory to perpetuate cycles of violence? Why does memory have such an important role in the persistence of intractable hostilities and how does the learning of violence become transmitted from one generation to the next? Using cutting-edge theories and case studies from today's headlines, and incorporating tools of practice such as art and storytelling, this course will empower students to be a part of peace-building in the context of entrenched historical conflict.

CARD 6653 – Conflict in Conservation and Development

This course examines conflict in conservation and development. It covers theoretical frameworks and introduces participatory tools that will enable students to more effectively analyze and address situations of conflict in conservation and development initiatives. The course familiarizes students with concepts and methods from natural resource management, sustainable livelihood systems and collaborative learning approaches. Offered occasionally.

CARD 6654 - Islam, Conflict, and Peacemaking

This course will provide a historical overview of Islam, including an introduction to belief systems, the different branches of the faith and schools of Islamic law with a special emphasis on Muslim doctrines related to conflict and peace. It will include the contemporary era and investigate Muslim engagements with modernity and discuss the varied responses and perspectives. There will

some discussions of international relations, but the course will also emphasize micro level issues. Students will have the opportunity to develop research projects designed to extend their understanding of Islam and its potential as a resource for peace building. Offered occasionally.

CARD 6655 -The Interdisciplinary Writer

This course is designed to assist graduate students in creating essays, thought papers, and other pieces of writing that reach an intended audience with clarity, skillful craft, and purpose. It includes reading and writing assignments for an academic setting focused on interdisciplinary perspectives. Students will be expected to participate in class discussions and improvisational writing exercises. Because this is a writing course, rather than just a course about writing, there will be a workshop component to the class. This means that all participants will bring in copies of their work to share to develop writing strengths and skills, improve editing abilities, and better understand how an author's writing and those of others a piece's purpose, it's organizational structure, level of craft execution, authorial voice, and engagement of the audience. Offered occasionally.

CARD 6656 - Gender, Conflict and International Development

This course provides the student with essential understanding of the factors that shape the social, political and economic roles of women and men in developing countries. The course covers the concepts of gender in conflict resolution and peace building by examining women and men's human rights and security, and the consideration of gender within developmental policies and provides an overview of concepts and gender analysis frameworks from a historical perspective. Students examine specific projects aimed at integrating women into community development. Offered occasionally.

CARD 6657- Conflict Coaching Theory and Practice

This course examines the growing use of conflict coaching as a conflict intervention process and introduces different models and related theoretical foundations. The integration of theory and practice will emphasize the various stages including identity framework, narrative, needs assessment, goal setting, and feedback, utilizing a relational and systems orientation. The course develops coaching skills, strategies, and knowledge, and uses a practice-based approach, including role-plays and case studies. Offered yearly.

CARD 6658 - Transformational Narratives

Across cultures, people effectively communicate about their conflicts and issues through narratives. In any helping profession, it is effective to create useful change with a clear understanding of the strategies of transformational narratives. By understanding what creates change in stories, we can help people rewrite their own accounts in ways that redefine their possibilities. This course offers analyses of narratives from traditions of conflict resolution and other interdisciplinary perspectives, promoting the ability to reframe, refocus, and creatively intervene in stories of a personal and social nature to open useful possibilities for people who carry stories of unresolved struggle. Offered occasionally.

CARD 6659 Conflict Peace Building in Africa

This course examines conflict and peace building dynamics in the African continent. Its content includes a survey of contemporary macro-level conflicts in Africa and an examination of their historical and more immediate causes. Class participants will explore the causes and effects of such conflicts and investigate prospects for constructive transformation. Past and ongoing resolution and peace building efforts will be discussed, and class members will propose a peace building strategy for a case of their choice.

CARD 6660 - Conflict Management in Groups: Overt and Covert Dynamics

The purpose of this course is to provide participants with knowledge, skills and attitudes to be effective in groups with an emphasis on analyzing and managing overt and covert conflict. The course also examines issues of communication, leadership, power and authority in relation to group and interpersonal effectiveness. This course enables participants to cope with complex issues as they emerge in the natural life of small groups, large groups and organizations. Learning about group life is gained through direct experience in a temporary learning organization created in the course. The course is designed as a living laboratory where members can experience and explore group life as it occurs. Offered occasionally.

CARD 6661- Middle Eastern Conflict

This graduate seminar explores the many different types of conflict found in the Middle East. It seeks to provide students with the analytical tools and skills required to explain the causes, understand the actors, and analyze and/or predict the outcomes of specific Middle Eastern conflicts. To meet these objectives we will evaluate broad types of Middle Eastern conflict such as religious, ethnic, and cultural, militarized conflicts, civil wars, and occupations. We will also evaluate Middle Eastern conflict negotiation, the Middle East peace process, why negotiation and peace has failed, and what needs to be done so that Middle East peace could be achieved. Finally, we will look at the future of Middle Eastern conflicts. Offered occasionally.

CARD 6662 - Political Violence

Political Violence is a graduate seminar that explores the many different types of political violence; specifically looking at revolutions, terrorism, and transitional-institutional political violence. This seminar examines a wide range of topics in order to provide the student with a deeper understanding of political violence. We will engage in a thoughtful

and in-depth examination of the definitions, causes, and consequences of political violence, as well as consider the different means to countering political violence. Offered occasionally.

CARD 6663 Introduction to Peace Studies

This graduate seminar explores theories of peace and war, as well as the promotion of peace. This seminar provides students with an in-depth understanding various depictions of peace, emphasizing the concepts of positive peace, social justice, and international development. Peace will be examined systematically, highlighting connections between the experience of peace at the personal, community, national, and international levels. Students will therefore also investigate the relationships that human nature and culture have with peace, war, and violence. In addition, the course will investigate how international bodies promote peace and mitigate the effects of war. Students will also examine the causes of war and just war theory. The field of peace studies will be outlined as well, including a brief history of the field.

CARD 6664 - Restorative and Transitional Justice

This graduate seminar explores the theory and practice of both restorative justice and transitional justice. This seminar provides students with an in-depth understanding of the theory upon which restorative justice and transitional justice practice rest. Various forms of practice, stemming from diverse practice settings, are also examined, including: victim-offender mediation, victim-offender dialogue in cases of severe violence, family group conferencing, peacemaking circles, and restorative justice practice in schools. The seminar offers students opportunities to role-play and practice restorative justice skills. Forms of transitional justice are also surveyed, particularly truth and reconciliation commissions and their work around the globe. Offered occasionally.

CARD 6665 - Irish Social Conflict

This graduate seminar explores conflict at the societal-level in Ireland. Two case studies will be used to investigate Irish conflict. First, the conflict over Northern Ireland will be examined. In this conflict, students will consider Ireland's historical conflict with Britain and how it led to the conflict between Irish Catholics and British Protestants in Northern Ireland. Then the current conflict dynamics and those of the recent past will be considered, culminating in the Good Friday Agreement and the relative state of peaceful co-existence that exists today. Different conflict resolution strategies employed in the conflict will also be examined (like the use of restorative justice). The course will also examine the intra-Irish social conflict between the settled Irish and the Irish travelers. The travelers had a historic role as tin smiths in Irish society but, as this livelihood was left behind, their nomadic lifestyle and different culture led to a broad, long-term societal conflict between themselves and the settled Irish. This seminar will explore this conflict and consider current conditions of travelers, some of the underlying drivers of the conflict (like culture and power differences), and some of the ways that travelers have attempted to protect their culture and lifestyle in Ireland (such as through the traveler's social movement). Offered occasionally.

CARD 6666 - Social Advocacy/Patients Clients

This course examines strategies for developing advocacy toward marketing ideas, achieving buy in from others and shaping opinion. It includes strategies for developing advocacy on behalf of patients and clients in other settings as well as teaching individuals and other groups how to best advocate for themselves. The course will draw upon research in the fields of persuasion, power relations, and public advocacy. Topics covered will include: developing messages, context of communicating messages, emotional tenor of advocacy and creating a persuasive message. Offered occasionally.

CARD 6667 - Transitional Justice

War and large scale violence deeply scar individuals and societies. Peace does not come with the silencing of the guns and the danger of conflict resurgence is extremely high in the immediate aftermath of hostilities. Long term resolution of conflicts requires that the damage of past conflicts be addressed so as to enable societies to progress into peaceable, just futures. Transitional Justice has grown into a new subfield of study and it addresses some deeply challenging questions arising out of violence. How can societies torn apart by war, genocide, atrocities, and dictatorships emerge into a new and brighter future? Can people and citizens deeply scarred by violence learn to forgive, forget and/or co-exist? Or does true healing require punishment, vengeance, and retribution for crimes past? In this class we balance moral, legal, and psychotherapeutic theories against the realities of historical and contemporary examples. We will examine the solutions proposed so far including the International Criminal Court, Truth Commissions, Memorializations, Reparations etc. We will look at some specific exemplars such as South Africa, Bosnia-Herzegovina, Sri Lanka, Canada, Argentina and others. Offered occasionally.

CARD 6668 - Organizing Nonviolent Social Change

This is a practice course that aims to provide students with the skills necessary to make nonviolent social change happen. It grows out of experiences in legislative advocacy in Washington DC and community mobilization on conflict resolution and federal appropriations allocations for HIV Aids programming. Students will explore some of the practicalities of nonviolent social action and how to participate more effectively in initiatives. Cases of nonviolent struggle, principles of strategy, and the techniques and methods of nonviolent action will be covered. Some skills covered will be: How to frame messages for mobilization, how to raise funding (including taking

advantage of internet use), how to work with the media etc. Students will be assigned skill based exercises like creating posters (hard copy or electronic), writing talking points for legislative testimony etc. We will use strategies from Gene Sharp and Saul Alinsky (tutor to Hillary Clinton and President Obama). Offered occasionally.

CARD 6669- Peace Education

This course will introduce students to the central concepts, theories, current debates and cutting-edge practices as regards peace education. Essential questions include what peace education is, experiential learning, how do faculty design curriculum around peace education, how faculty can address nonviolence in the classroom, best practices in assisting students to understand the role of power and inequalities in conflict, and how to facilitate student (and teacher) understanding of entrenched historical conflicts. Offered occasionally.

CARD 6720 Preliminary Review

The preliminary review is an approximately 30 minute discussion between the student and one or two faculty members. The focus of the preliminary review will require the student to present arguments, class materials, evaluations, papers, and any other relevant material in support of their continuance in the doctoral program. Students should come prepared to discuss what they have learned, how they are applying it in their work, dissertation preparation or relevant practice areas. Must complete 12-15 credits.

CARD 6800 Qualifying Exam in Progress

The qualifying examination is a written examination given after students have completed all the required course work, and before beginning dissertation hours. Successful completion of the qualifying examination is required to move to advanced standing and begin dissertation research.

CARD 6900 Qualifying Exam

The qualifying examination is a written examination given after students have completed all the required course work, and before beginning dissertation hours. Successful completion of the qualifying examination is required to move to advanced standing and begin dissertation research. Qualifying exams are given two times per academic year, in January and June. The exam will be available on-line and will take place over three weekdays, with one section per day.

CARD 7001- Doctoral Seminar

This course is designed to provide support, information, resources, coaching and feedback to doctoral students in preparation for the qualifying examination. Primarily, the course focuses on preparation for the qualifying examination and assisting students in organizing their resources and time. Prerequisites: CARD 6130 and CARD 6160; CARD 7500 and CARD 7510; or CARD 6130 and CARD 7500. Offered all terms.

CARD 7020 – Systems Design: History and Contemporary Practice

An examination of concepts of dispute resolution systems design. Includes the influence of organizational culture and prevailing social and cultural norms on the design and implementation of dispute resolution systems. Explores dispute resolution systems for neighborhoods, religious organizations, ethnic groups, business associations, and other settings that have relatively clear boundaries and shared norms. Offered summer.

CARD 7040 - Theories of Conflict and Conflict Resolution I

This course examines macro and micro theories from social science disciplines about the nature of conflict and various approaches to conflict resolution. Offered winter.

CARD 7050 - Theories of Conflict and Conflict Resolution II

Continuation of CARM 5020 or CARD 7040. Prerequisite: CARD 7040. Offered summer.

CARD 7090 - Quantitative Research I: Methods and Tools

Covers a range of quantitative research methods and designs including questionnaires, interviews and surveys, sampling, attitude and rating scales, tests of statistical significance, experiments, and the basics of descriptive statistics and univariate analysis. Offered fall.

CARD 7100 - Quantitative Research II: Analysis and Statistics

This course explores various methods of analyzing and presenting quantitative research data. Includes common concepts and techniques for analyzing results of surveys and experimental research projects: computer statistical programs and an in-house database, bivariate and multivariate analysis, index and scale development, and more advanced techniques such as regression analysis. Prerequisite: CARD 7090. Offered winter.

CARD 7110 - Qualitative Research Methods I

This course provides an introduction to the qualitative research traditions and the philosophical and ethical considerations in conducting this type of research. The course explores a range of qualitative data collection with a focus on ethnography and biography. These are two of the five major traditions to be explored in this two-course series. Techniques used to research conflict and conflict resolution, including in-depth interviews and participant-observation, data collection and analysis, as well as review of relevant research literature in the field. Offered fall.

CARD 7120 - Qualitative Research Methods II

This course continues the exploration of qualitative research with a special focus on three of the five qualitative traditions, phenomenology, the case study, and grounded theory. Such traditions will also explore how to research conflict and conflict resolution. In addition, elements of the qualitative research proposal will be discussed and practiced such as

formulating an abstract, research problems, research questions/ objectives, and methodological analysis. Prerequisite: CARD 7110. Offered winter.

CARD 7250 - Public Policy

Analysis of current policy issues in the field of conflict resolution with an emphasis on the design, implementation, evaluation and analysis of legislation, including state and local policy initiatives in Florida, the United States, and abroad. Offered summer.

CARD 7500 - Teaching and Training

An introduction to teaching and training. Reviews instructional models and teaching literature with emphasis on teaching the adult learner.

Prerequisites: Prerequisites: CARD 5000 and CARD 5040 and CARD 7090 and CARD 7110 and CARD 7040, AND 2 of the following: CARD 5100, CARD 5140, CARD 6140, and CARD 7020. Offered fall.

CARD 7510 - Teaching and Training Practicum

Provides an opportunity for supervised teaching and training experience in graduate, undergraduate, continuing education, video and curriculum development, seminar, online course delivery, and/or workshop instruction in conflict resolution or related field. Prerequisite: CARD 7500. Offered winter.

CARD 7900 – Dissertation

Focuses on the development, writing, and defense of the dissertation. When approved, students register for at least three credits per term for a minimum of 12 credits. Prerequisites: successful completion of all coursework, the qualifying examination, and the approval of the Program Director and Dissertation Committee. Prerequisite: CARD 7901, 6900. Offered all terms.

CARD 7901 – Dissertation Preparation

This course is designed to provide structure and guidance for students entering the dissertation stage of the doctoral program. Emphasis in the course

will be on the steps necessary to prepare a draft dissertation proposal including research design, research tools, literature review, theoretical perspectives, and the design of research questions. Students in the class, in consultation with their dissertation chairs, will develop progress timelines and will be apprised of all the related policies and procedures for dissertation study. The course will utilize a facilitative approach and will employ peer review. Offered all terms.

Independent Study in Conflict Analysis and Resolution

An independent study is developed with a faculty of choice. This can be made available to students nearing the end of their course work and are experiencing extenuating circumstances. A request for independent study is to be made prior to the term in which it is to be taken as approval is needed from the department chair.

CARM – Conflict Analysis and Resolution (Masters)

CARM 5000 - Foundations and Development of Conflict Resolution & Peace Studies

This course outlines the substantive themes, history, origins, contexts, and philosophical foundations of conflict resolution, healing, peacemaking, and problem solving. Students will examine levels of interventions and processes in the field of conflict resolution. Offered all terms.

CARM 5040 – Communication Dynamics in Dispute Resolution: The Human Factor

This course presents communication theories relevant to conflict resolution as well as theories about understanding, analyzing, and managing conflict. The course focuses on the human and emotional aspects of conflict, and includes the influence of gender and culture. This course is pragmatic as well as theoretical, and presents communication and conflict

resolution models in a practice-based approach. Offered all terms.

CARM 5100 - Mediation Theory and Practice

This course examines theories, methods, and techniques of mediation. Students will have the opportunity to demonstrate their knowledge of mediation skills. Prerequisites: CARM or CARD 5040. Offered fall and winter.

CARM 5140 - Negotiation Theory and Practice

This course examines conflict intervention from the perspective of the disputant/negotiator. The integration of theory and practice will emphasize the tactics, strategies, and operations of effective and ineffective bargaining/negotiating behavior. The course develops negotiator skills and knowledge, leading to collaborative-based actions and solutions.

Prerequisites: CARM or CARD 5040. Offered winter.

CARM 5200 - Research Design and Program Evaluation

This course focuses on the development of applied research skills appropriate for dispute resolution practitioners, including basic research tools, assessment, social science research, current research in the field, and an introduction to program evaluation through analysis of published work. Offered winter and summer.

CARM 5401 Editing I

This course engages students in the principles and practices that create and sustain hard copy and online journals. These may vary from a fully-academic focus to literary materials, but all will create and deliver content that promotes contributions to their fields. Coursework will encompass all the steps that connect a publication with its intended audience. Coursework will vary depending on the current stage of a journal's development, including duties that enact the realistic responsibilities and opportunities that anyone can expect while serving on, or

leading, a journal in a professional position. This course is useful for students who intend to pursue a professional role in journal editing and those who intend to contribute to respected journals or other regular publications with a high quality standard.

CARM 6000 – Organizational Conflict: Theory and Practice

This course examines organizations, the causes and manifestations of organizational conflict, and interventions including: organizational theories, organizational development, systems theories, group dynamics, and dispute systems design. Students will learn to apply theory to the assessment of conflict and the design of appropriate intervention models within organizations, and will be introduced to consultation models. Prerequisites: CARM or CARD 5040. Offered summer.

CARM 6120 - Culture and Conflict: Cross-cultural Perspectives

This course examines the nature and meaning of conflict, conflict management techniques, and the assessment of conflict situations from a cross-cultural perspective. Explores various models for training third parties to function effectively in handling disputes where cultural differences are a significant factor. Also addresses various theoretical and practical implications of indigenous conflict management techniques and beliefs found in different cultural settings. Offered fall.

CARM 6130 - Practicum I: Supervised Field Experience

This course is a field research project that incorporates classroom knowledge and real-world settings. Students will demonstrate their ability to apply theory to practice and analyze situations utilizing knowledge from previous course work. Prerequisites: CARM 5000 and CARM 5040 and CARM 5020 AND 1 of the following CARM 5100, CARM 5140, CARM 6140. Offered all terms.

CARM 6140 - Facilitation Theory and Practice

This course develops students' skills in working with groups. It incorporates theories and models of group dynamics, facilitation, and group development, as well as workshop development and delivery. This course uses a practice-based approach, including role-plays and workshop presentations.

Prerequisites: CARM or CARD 5040. Offered fall and winter (online) and summer (on-campus).

CARM 6150 Professional Practice & Ethics

This course will examine current ethical challenges of practice in the field of conflict resolution and peace studies. Some questions to be explored will include the following: What are major ethical dilemmas facing peace and conflict resolution practitioners? Can there be and should there be universally-accepted, over-arching standards of ethical conduct and practice that guide their work? Through a combination of seminars, cases studies and discussions, students will explore challenges facing peace and conflict resolution practitioners, working at the local, national, and international levels. Students will analyze the ethical issues and dilemmas related to specific cases, research what various scholars and practitioners have written about best practices to determine what was done 'right' and what could have been improved. Students will also collaborate on reasoned approaches and responses to ethical issues in conflict resolution practice. This course takes a personal development approach, incorporating a learning laboratory model wherein students can learn about their personal values, biases, prejudices, and working assumptions in order to become reflective and ethical practitioners. Through the use of peer review exercises and several self-assessment tools, students will be able to explore their own personal readiness to help others prevent and resolve their conflicts. Students will also identify areas for further development and ways to help

overcome these shortcomings. Prerequisites: 2 of the following 3: CARM 5100, CARM 5140, CARM 6140.

CARM 6160 - Practicum II: Supervised Field Experience

Continuation of CARM 6130. Prerequisites: CARM 6130. Offered fall and winter.

CARM 6170 - Violence Prevention and Intervention

This course examines various theories of human aggression and violence, exploring their underlying assumptions about human nature and the causes of violence. Also included is an introduction to a range of violence intervention and prevention approaches developed for use at the interpersonal, intergroup, and societal level. Offered summer and fall.

CARM 6300 –Master's Thesis: (six credits) (optional)

This course is taken over a two-term period in lieu of two electives required for completion of the degree program. The thesis may be an extended literature review of an approved subject, an approved independent research project, or a combination of the two (for further information, including prerequisites, see master's thesis handbook) Prerequisites: students must have 27 credits.

CARM 6400 - Comprehensive Exam in Progress

Students who need to take any part of the comprehensive examination will be enrolled in this course.

CARM 6600 Special Topics in Conflict Resolution

This course explores a variety of topics related to the field of conflict analysis and resolution, with the specific focus for each section determined by faculty on a case-by-case basis. The course provides for the exploration of topics of interest to faculty and students and/or timely topics, which are not covered by existing electives.

CARM 6601 - International Conflict Resolution

This course reviews international conflict resolution in many settings and includes informal mediation by private interveners and scholar practitioners; formal mediation by individual, regional, transnational, and international organizations; and mediation within small and large states. Offered occasionally.

CARM 6602 - Resolving Environmental and Public Disputes

This course focuses on the theoretical bases, practical applications, process orientations, and actual intervention into complex multiparty, multi-issue public disputes. Focus is on social/environmental interactions and sources of political and economic conflict over human health environmental protection and natural resource scarcity. Offered occasionally.

CARM 6604 - Gender and Conflict

This course examines gender roles in conflict and how conflict is experienced and perceived by men and women. Course material includes feminist theories, men's studies, religion, literature, history, anthropology, film, television, psychology, the justice system, and alternative dispute resolution. Offered occasionally.

CARM 6605 - Institutional Assessment in Conflict Resolution Practice

This course will introduce students to the field of institutional assessment and planning, emphasizing the higher education environment and its unique challenges. Students will explore the functions of educational institutions across systems, develop an understanding of the concepts of institutional assessment and administrative issues in higher education, learn to use core technologies and methodologies for research applications, and build experience navigating the political and interpersonal dynamics that promote effective institutional assessment. Offered occasionally.

CARM 6606 – Advanced Mediation Skills

This course will oblige students to examine conventional wisdom and the students' own beliefs to develop a more sophisticated understanding of the potentials and limits of mediation in a wide variety of contexts. The course will cover selected mediation issues and skills in more depth than possible in an introductory survey of mediation. Students will analyze issues such as convening mediations, eliciting and satisfying interests, maintaining impartiality, dealing with power imbalances, handling apparent impasses, identifying and handling various ethical problems, and writing agreements. Students will also discuss practical aspects of operating a practice such as getting clients, billing, developing good relationships with other professionals, and creating standard forms. Prerequisites: CARM 5100. Offered occasionally.

CARM 6607 – Ethno-political and Community-Based Conflicts

This course introduces the major methods used by states, international organizations, and conflict resolution practitioners to eliminate, manage, and resolve ethnic and community-based conflicts. Case studies are used to explain conflict escalation and de-escalation, and mechanisms of conflict intervention. Offered yearly.

CARM 6608 - Nonviolent Social Movements

This course focuses on 20th-century nonviolent social movements such as the women's rights and suffragist movement; Gandhi's prolonged struggle against British colonialism; Martin Luther King, Jr., and the American Civil Rights movement; the American peace movement against the war in Vietnam; and the nonviolent movements that resulted in the end of communist rule in Eastern Europe. Offered occasionally.

CARM 6610 –Family Violence: The Effects on Families, Communities and Workplaces

This course explores the overall effects of trauma and violence on individuals, families, communities, and the workplace. Issues of abuse, violence, and systemic responses are explored in relation to their effect on individual behavior, family dynamics, service provision, and community systems. Methods for identifying such issues in the context of family mediation and other types of conflict intervention are explored. Offered occasionally.

CARM 6611 – Race and Ethnic Relations in America

This course examines the social constructionist approach toward the study of racial and ethnic conflict and conflict analysis in the U.S. It is designed to assist students in increasing their ability to analyze racial issues from a historical and contemporary perspective, and to explore the basic theoretical paradigms that have been used to conceptualize the idea of race and ethnicity from the 19th century to the present. The course will also explore the effects of contemporary policies in addressing racial and ethnic inequities, and strategies to combat racism. Offered occasionally.

CARM 6613 Arbitration

The purpose of this course is to help understand the theory and processes of arbitration for a wide variety of cases. The course will cover the nature, enforceability and scope of arbitration clauses; other requirements to arbitrate; the powers of arbitrators; issues that typically arise in arbitration; the conduct of arbitration hearings; the remedies available in awards under federal and state law; and proceedings to confirm or to modify or vacate arbitration awards.

CARM 6614 - Workshop Development

This course helps students to create a connection between the graduate program and professional life by learning how to create, develop, and present

workshops and training in the field of conflict resolution. Students will learn concepts and principles necessary to create and design workshops for adults and for children. Students will actually develop and present workshops in class in order to gain experience, have a finished product, and get valuable feedback from participants. Offered occasionally.

CARM 6618 - The Reflective Practitioner: Consulting, Conflict, and Change in Organizational Settings

A hands on, clinically based course in which students will form consulting teams (like in consulting firms) and actually do consulting in the community. Offered occasionally.

CARM 6619 - Strategic Community Planning and Partnerships

An overview of the community from a strategic perspective, identifying: social, economic, demographic and cultural trends and patterns within the community; areas of concern for law enforcement and government; ways to initiate and develop community-wide strategic planning for peaceful community relations and growth; building community partnerships between law enforcement, the criminal justice system and community agencies and groups; community justice; and the use of data, data collection and analysis in developing and implementing collaborative long and short term plans for community development, problem solving and funding initiatives. Offered occasionally.

CARM 6621 – Introduction to Human Rights

This course provides students with an introductory survey of political, philosophical, historical, economic, and legal considerations related to fundamental human rights concepts. Students will examine human rights issues in both domestic and international arenas. In particular, the course addresses the issues of the ideological and cultural origins of human rights theory; the sources of rights and rights violations; the

impact of the nation-state system, governments and other institutions (such as corporations, churches and universities), and domestic and foreign policies particularly of the U.S.) on human rights law and enforcement. Finally, students examine the wide variety of political, civil, economic, social and cultural rights warranting protection. Offered yearly.

CARM 6622 Legal Concepts

This course will provide an overview of the U.S. legal system as it relates to alternative methods of resolving conflicts. Students will learn legal terminology, the judicial system, judicial procedures, the fundamentals of legal research and legal writing, and where alternative methods such as mediation and arbitration relate to legal processes. Students will also explore legal and procedural concepts such as: collaborative legal practices, state and federal authority, restorative justice, victim-offender programs, and the relationship between U.S. and international legal procedures. The class will be interactive with research, writing, class presentations, and guest presentations.

CARM 6624 - Advanced Practicum

This practicum experience is a faculty-driven experience in which a faculty member will design a project in conjunction with another organization or university and students selected for the practicum will work on that project with the faculty member. The project may also entail a one to two week mandatory field experience in which students and the faculty member will work on the project on location. Students will be responsible for their expenses. Students will apply for this practicum and must be selected. Offered occasionally.

CARM 6625 Field Studies Practicum

The Global Field Studies Practicum Course in Conflict Resolution incorporates a field-immersion component as part of this practicum course. It is developed around principles of multidisciplinary conflict

analysis, management, and resolution which promote scholarship of engagement in communities through research, education, and practice. This course provides a solid knowledge base by the application of conflict resolution concepts through experiential learning that lead to professional development. The field experience enhances students' cross-cultural skills, appreciation and understanding of diversity and global issues. During the course students are exposed to a diverse community of researchers, practitioners, policy makers, who share with students their experience and career journeys. The course provides for the enhancement of students' career development plans and requires the completion of all required practicum forms and paperwork. For their final project students are expected to work with a partner organization developing research, training, or consultancy projects where students apply theoretical concepts within a practical framework.

CARM 6626 - Conflict Resolution for the School and School System

This course is designed for anyone in a position to influence school policy, practice, and decision-making, from within or as a consultant. The course takes a systems approach to resolving conflicts within the school and school system, applying conflict analysis and conflict resolution models to conflict situations, using negotiation, mediation, and facilitation processes, developing a conflict resolution culture throughout the system, providing training for parents, teachers, students, and school board. The course also examines methods to manage conflict, including using conflict resolution practices in crisis situations, and mediating and negotiating with parents, teachers, administrators, and students. The course uses a case study method. Offered yearly.

CARM 6627 - Conflict Resolution and Peer Mediation for Students: Elementary, Middle and High School Levels

This course is designed to bring conflict resolution and peer mediation training to students at the classroom, school, or school system level with the objective of transforming student/classroom/school conflict resolution culture. Students will examine the elements of conflict resolution and peer mediation curricula, materials and resources in the field, and current research. Students will also do original curriculum/peer mediation design by integrating state-of-the-art thinking in conflict resolution methods, theories, and research into the design, implementation, and institutionalization of conflict resolution and peer mediation programs. Offered yearly.

CARM 6630 Foundations of Genocide

This course is a survey of the causes, forms, and nature of genocide. The course addresses the complexities in differentiating human rights violations and crimes against humanity, from genocide and government sponsored mass murder. Theoretical and applied cases studies will facilitate student engagement. The course will serve as an introduction to the theories and applied practices utilized in analyzing acts of genocide. Issues addressed throughout the course will include: genocidal intent, eugenics and genocide, demographic purging, as well as mass and public extermination.

CARM 6632 Civil Wars & Their Resolutions

This course examines the various complexities of violent civil conflict. Using a general survey of the field, supplemented with numerous civil war case studies, students explore the various factors contributing to the outbreak of civil wars, the processes and consequences of such conflict, as well as the variety of methods available for resolution. Offered occasionally.

CARM 6633 - International War and Resolution

This course focuses on various aspects of international war and peace. Topics of

discussion include defining war, historical patterns of warfare, motivations to engage in such conflict, as well as efforts to deter or resolve international war. Offered yearly.

CARM 6634 - Metropolitan Conflict

This course will explore historical and theoretical explanations for the different types of conflict prevalent in various metropolitan areas. A series of case studies, focusing on both cities within the United States and abroad, students will explore such topics as the role of ethnicity in conflict, structural inequalities of the system, urban/suburban relations, urbanization, and metropolitan growth and development. Offered occasionally.

CARM 6635 - Advanced Facilitation: Facilitating Complex Group Problem Solving

This course focuses on facilitation in complex problem situations. The focus will be on intercultural settings. Various approaches to complex facilitation are introduced, with special attention to dealing with difficult parties and principles of Interactive Management (IM). This course will provide students with the skills necessary to perform a facilitation workshop with a computer-assisted program developed to resolve complex problems. Students will gain experience as participants in problem-solving sessions, which they will study and analyze. Class sessions will consist of role-plays, discussion and analysis, and presentation of information. Prerequisites: CARM 6140. Offered occasionally.

CARM 6638 – Conflict and Crisis Management: Theory and Practice

This course is an overview of the theories of conflict and crisis management and the intervention models and protocols used. Conflict and crisis management will be explored among and between individuals and groups, organizations, communities, and governments around the globe. Topics will include the management of violent conflicts, such as kidnapping, hostage-barricade and terrorist acts,

homeland security, and the response to natural disasters. There will be interactive exercises as well as a case study approach used. Offered yearly.

CARM 6639 – Organizational Conflict Intervention

This course will explore the diagnostic techniques and tools necessary to assess organizational conflict, and tools necessary for successful intervention. Offered yearly.

CARM 6641 – Conflict and Crisis Negotiation

This course will provide an overview of law enforcement crisis negotiation and its application to crisis situations, such as domestic violence encounters on an individual level and hostage/barricade encounters on an organizational level. Lecture, expert demonstration, and interactive negotiation with role play will provide an experiential learning environment for understanding and applying active listening skills, empathy, rapport, influence, and behavioral change concepts to conflict and crisis situations. Offered occasionally.

CARM 6643- Social Aspects of Terrorism

In the last fifteen years we have seen a significant surge in acts of terrorism. Today, terrorism plays a significant role in international and domestic politics and affects each of us in varying degrees. This course is an advanced seminar dealing with terrorism. It is imperative that we understand terrorism, the history of terrorism, the types of terrorism, the terrorist, his motivations, and the causes and consequences of terrorism. This course examines a wide range of topics in order to provide you with a deeper understanding the phenomenon of terrorism. We will engage in a thoughtful and in-depth examination of the definitions, causes, and consequences of terrorism, as well as consider the different means to countering terrorism. We will evaluate the domestic and international causes and effects of terrorism, state-

sponsored terrorism, and suicide terrorism. We will examine and evaluate how terrorists raise, store, spend, and transfer their financial resources. Offered occasionally.

CARM 6644-Consulting with Leaders in Organizational Conflict: A Four Frame Approach

Studies clearly show that successful leaders of twenty-first century organizations need to make sense of complex conflict situations before taking action. This course will combine theory and practice to equip students to assist organizational leaders in developing both diagnostic and behavioral sophistication by using multiple frames before taking action. Participants will engage in both classroom learning, on-line assistance, and leadership coaching with a client and organization of their own choosing. Offered yearly.

CARM 6645 – Indigenous Systems of Conflict Resolution

This course is designed to make contributions to the field by exploring the processes of conflict resolution and peacemaking as practiced by the indigenous communities around the world. Class members will engage in an in-depth exploration of techniques of peacemaking, as practiced in various parts of the world. Offered yearly.

CARM 6646 – The Anthropology of Peace and Conflict

This course will explore the social dynamics of disputing and undertaking detailed examinations of specific cases. By examining diverse expressions of conflict and different means of controlling it, students will deepen their understanding of conflict analysis and broaden their perspectives on how disputes can be managed. Course topics will include the cooperative and aggressive components of human nature, the social construction of violence, genocide, and war, and the relationship between conflict resolution, social control, inequality, and justice. Offered occasionally.

CARM 6648 – Researching Conflict

In this course, students and instructors will together conceptualize, design and carry out a mixed methods research study on a topic connected to violence. The students and instructors will decide on a research problem to be studied. The goal of the elective is to help students deepen their understanding of quantitative and qualitative research and hone their research skills. The course will be a collaborative effort, building on the experience, knowledge, expertise, and interests of all of the participants. Prerequisite: CARM 5200. Offered Yearly.

CARM 6649 Federalism & Intergovernment Conflict

This course describes and analyzes the guiding principles and the operational processes of "American Federalism", as well as its intended and unintended consequences. It seeks to provide students with a working understanding of the complex set of interactions occurring between all government units and levels (national/federal, States, Counties, municipalities, school districts and special districts, townships, etc.) in the USA; the various types of conflicts which necessarily result from these interactions; and the solutions that have been implemented in the past, or are currently suggested, in order to address and resolve these conflicts.

CARM 6650 – International Negotiation: Principles, Processes, and Issues

This course describes and analyzes the major principles, processes and issues of international negotiation in the twentieth and twenty-first centuries. It seeks to provide students with the analytical tools and skills required to explain and predict the outcome of specific (bilateral or multilateral) negotiations through the study of various explanatory factors, including: stability and change in the structure of the existing "international system"; the individual characteristics of the nations-states parties (power/capabilities, interests,

culture/values, negotiating styles, etc.); the strategic and tactical moves of those considered as "key player"; as well as the role of smaller states and non-state actors. Offered yearly.

CARM 6651- Theories of Ethnicity and Nationalism

This course is foundational for theoretical understandings of ethnicity and nationalism. Students will analyze general theories from key debates and critically examine various points of view in relation to defining boundaries, conflict, context, difference, identity, migration, minority/majority, race, and tribalism in regard to ethnicity, as well as community, fantasy, ideology, neo-Marxism, modernism, perennialism, political, primordialism, semiotic, sociocultural, socioeconomic, imagination, invention, and tradition in association with nationalism and nationalists, and the entwinement and interrelation between all of these prevalent notions and themes. Upon completion of the course students will better grasp ethnic belonging, ethno-nationalist conflict, and intra/inter-group disputes from the standpoint of applied theory, cultural relativity, and humanism. Offered Yearly.

CARM 6652 - History, Memory & Conflict

By exploring the significance of history, memory, and cognition, this course provides the most recent theoretical debates on these issues and their significance for understanding why populations persist in a state of violence. Students will be introduced to the basic and major theoretical interpretations and the chronology of history of ideas. Questions to be considered include: how does the past become the present and remain in it, and, how do we as researchers interpret the relevance of history and memory? Others are: how is the past invented, mythologized about, and re-invented? Why does memory have such an important role in the persistence of intractable hostilities and how does the learning of violence become transmitted from one generation to the next? Offered occasionally.

CARM 6653 - Conflict in Conservation and Development

This course examines conflict in conservation and development. It covers theoretical frameworks and introduces participatory tools that will enable students to more effectively analyze and address situations of conflict in conservation and development initiatives. The course familiarizes students with concepts and methods from natural resource management, sustainable livelihood systems and collaborative learning approaches. Offered occasionally.

CARM 6654 - Islam, Conflict, and Peacemaking

This course will provide an historical overview of Islam, including an introduction to belief systems, the different branches of the faith and schools of Islamic law with a special emphasis on Muslim doctrines related to conflict and peace. It will include the contemporary era and investigate Muslim engagements with modernity and discuss the varied responses and perspectives. There will be some discussions of international relations, but the course will also emphasize micro level issues. Students will have the opportunity to develop research projects designed to extend their understanding of Islam and its potential as a resource for peace building. Offered occasionally.

CARM 6655 - The Interdisciplinary Writer

This course is designed to assist graduate students in creating essays, thought papers, and other pieces of writing that reach an intended audience with clarity, skillful craft, and purpose. It includes reading and writing assignments for an academic setting focused on interdisciplinary perspectives. Students will be expected to participate in class discussions and improvisational writing exercises. Because this is a writing course, rather than just a course about writing, there will be a workshop component to the class. This means that all participants

will bring in copies of their work to share to develop writing strengths and skills, improve editing abilities, and better understand how an author's writing and those of others, a piece's purpose, its organizational structure, level of craft execution, authorial voice, and engagement of the audience. Offered occasionally.

CARM 6656 - Gender, Conflict and International Development

This course provides the student with essential understanding of the factors that shape the social, political and economic roles of women and men in developing countries. The course covers the concepts of gender in conflict resolution and peace building by examining women and men's human rights and security, and the consideration of gender within developmental policies and provides an overview of concepts and gender analysis frameworks from a historical perspective. Students examine specific projects aimed at integrating women into community development. Offered occasionally.

CARM 6657 - Conflict Coaching Theory and Practice

This course examines the growing use of conflict coaching as a conflict intervention process and introduces different models and related theoretical foundations. The integration of theory and practice will emphasize the various stages including identity framework, narrative, needs assessment, goal setting, and feedback, utilizing a relational and systems orientation. The course develops coaching skills, strategies, and knowledge, and uses a practice-based approach, including role-plays and case studies. Offered yearly.

CARM 6658 - Transformational Narratives

Across cultures, people effectively communicate about their conflicts and issues through narratives. In any helping profession, it is effective to create useful change with a clear understanding of the strategies of transformational narratives. By understanding what creates change in

stories, we can help people rewrite their own accounts in ways that redefine their possibilities. This course offers analyses of narratives from traditions of conflict resolution and other interdisciplinary perspectives, promoting the ability to reframe, refocus, and creatively intervene in stories of a personal and social nature to open useful possibilities for people who carry stories of unresolved struggle. Offered occasionally.

CARM 6659 - Conflict and Peace Building in Africa

This course examines conflict and peace building dynamics in the African continent. Its content includes a survey of contemporary macro-level conflicts in Africa and an examination of their historical and more immediate causes. Class participants will explore the causes and effects of such conflicts and investigate prospects for constructive transformation. Past and ongoing resolution and peace building efforts will be discussed, and class members will propose a peace building strategy for a case of their choice. Offered occasionally.

CARM 6660 - Conflict Management in Groups: Overt and Covert Dynamics

The purpose of this course is to provide participants with knowledge, skills and attitudes to be effective in groups with an emphasis on analyzing and managing overt and covert conflict. The course also examines issues of communication, leadership, power and authority in relation to group and interpersonal effectiveness. This course enables participants to cope with complex issues as they emerge in the natural life of small groups, large groups and organizations. Learning about group life is gained through direct experience in a temporary learning organization created in the course. The course is designed as a living laboratory where members can experience and explore group life as it occurs. Offered occasionally.

CARM 6661 - Middle Eastern Conflict

This graduate seminar explores the many different types of conflict found in the Middle East. It seeks to provide students with the analytical tools and skills required to explain the causes, understand the actors, and analyze and/or predict the outcomes of specific Middle Eastern conflicts. To meet these objectives we will evaluate broad types of Middle Eastern conflict such as religious, ethnic, and cultural, militarized conflicts, civil wars, and occupations. We will also evaluate Middle Eastern conflict negotiation, the Middle East peace process, why negotiation and peace has failed, and what needs to be done so that Middle East peace could be achieved. Finally, we will look at the future of Middle Eastern conflicts. Offered occasionally.

CARM 6662 - Political Violence

Political Violence is a graduate seminar that explores the many different types of political violence; specifically looking at revolutions, terrorism, and transitional-institutional political violence. This seminar examines a wide range of topics in order to provide the student with a deeper understanding of political violence. We will engage in a thoughtful and in-depth examination of the definitions, causes, and consequences of political violence, as well as consider the different means to countering political violence. Offered occasionally.

CARM 6663 Introduction to Peace Studies

This graduate seminar explores theories of peace and war, as well as the promotion of peace. This seminar provides students with an in-depth understanding various depictions of peace, emphasizing the concepts of positive peace, social justice, and international development. Peace will be examined systemically, highlighting connections between the experience of peace at the personal, community, national, and international levels. Students will therefore also investigate the relationships that human nature and culture have with peace, war, and violence. In addition, the course will

investigate how international bodies promote peace and mitigate the effects of war. Students will also examine the causes of war and just war theory. The field of peace studies will be outlined as well, including a brief history of the field.

CARM 6664 - Restorative and Transitional Justice

This graduate seminar explores the theory and practice of both restorative justice and transitional justice. This seminar provides students with an in-depth understanding of the theory upon which restorative justice and transitional justice practice rest. Various forms of practice, stemming from diverse practice settings, are also examined, including: victim-offender mediation, victim-offender dialogue in cases of severe violence, family group conferencing, peacemaking circles, and restorative justice practice in schools. The seminar offers students opportunities to role-play and practice restorative justice skills. Forms of transitional justice are also surveyed, particularly truth and reconciliation commissions and their work around the globe. Offered occasionally.

CARM 6665 - Irish Social Conflict

This graduate seminar explores conflict at the societal-level in Ireland. Two case studies will be used to investigate Irish conflict. First, the conflict over Northern Ireland will be examined. In this conflict, students will consider Ireland's historical conflict with Britain and how it led to the conflict between Irish Catholics and British Protestants in Northern Ireland. Then the current conflict dynamics and those of the recent past will be considered, culminating in the Good Friday Agreement and the relative state of peaceful co-existence that exists today. Different conflict resolution strategies employed in the conflict will also be examined (like the use of restorative justice). The course will also examine the intra-Irish social conflict between the settled Irish and the Irish travelers. The travelers had a historic role as tin smiths in Irish society but, as this livelihood was left behind, their nomadic

lifestyle and different culture led to a broad, long-term societal conflict between themselves and the settled Irish. This seminar will explore this conflict and consider current conditions of travelers, some of the underlying drivers of the conflict (like culture and power differences), and some of the ways that travelers have attempted to protect their culture and lifestyle in Ireland (such as through the traveler's social movement). Offered occasionally.

CARM 6666- Social Advocacy/Patients Clients

This course examines strategies for developing advocacy toward marketing ideas, achieving buy in from others and shaping opinion. It includes strategies for developing advocacy on behalf of patients and clients in other settings as well as teaching individuals and other groups how to best advocate for themselves. The course will draw upon research in the fields of persuasion, power relations, and public advocacy. Topics covered will include: developing messages, context of communicating messages, emotional tenor of advocacy and creating a persuasive message. Offered occasionally.

CARM 6667- Transitional Justice

War and large scale violence deeply scar individuals and societies. Peace does not come with the silencing of the guns and the danger of conflict resurgence is extremely high in the immediate aftermath of hostilities. Long term resolution of conflicts requires that the damage of past conflicts be addressed so as to enable societies to progress into peaceable, just futures. Transitional Justice has grown into a new subfield of study and it addresses some deeply challenging questions arising out of violence. How can societies torn apart by war, genocide, atrocities, and dictatorships emerge into a new and brighter future? Can people and citizens deeply scarred by violence learn to forgive, forget and/or co-exist? Or does true healing require punishment, vengeance, and retribution for crimes

past? In this class we balance moral, legal, and psychotherapeutic theories against the realities of historical and contemporary examples. We will examine the solutions proposed so far including the International Criminal Court, Truth Commissions, Memorializations, Reparations etc. We will look at some specific exemplars such as South Africa, Bosnia-Herzegovina, Sri Lanka, Canada, Argentina and others. Offered occasionally.

CARM 6668- Organizing Nonviolent Social Change

This is a practice course that aims to provide students with the skills necessary to make nonviolent social change happen. It grows out of experiences in legislative advocacy in Washington DC and community mobilization on conflict resolution and federal appropriations allocations for HIV Aids programming. Students will explore some of the practicalities of nonviolent social action and how to participate more effectively in initiatives. Cases of nonviolent struggle, principles of strategy, and the techniques and methods of nonviolent action will be covered. Some skills covered will be: How to frame messages for mobilization, how to raise funding (including taking advantage of internet use), how to work with the media etc. Students will be assigned skill based exercises like creating posters (hard copy or electronic), writing talking points for legislative testimony etc. We will use strategies from Gene Sharp and Saul Alinsky (tutor to Hillary Clinton and President Obama). Offered occasionally.

CARM 6669 Peace Education

This course will introduce students to the central concepts, theories, current debates and cutting-edge practices as regards peace education. Essential questions include what peace education is, experiential learning, how do faculty design curriculum around peace education, how faculty can address nonviolence in the classroom, best practices in assisting students to

understand the role of power and inequalities in conflict, and how to facilitate student (and teacher) understanding of entrenched historical conflicts.

CARM 6670 Introduction to International Relations

This course is an introduction to world politics and is intended to give the student a better understanding of international relations and the complex issues and perspectives affecting the world community. We will investigate many aspects of international relations such as the dominant theories of international relations, the history of the nation-state, the definition of power, Islamic fundamentalism, terrorism, war, ethnic conflict, political economy, international institutions, transnational organizations, trade, modernization, dependency theory, imperialism, globalization, and the foreign policy of the United States and its impact on the world community. Students are expected to keep up to date with current global events by reading an international newspaper each day and being prepared to connect and apply those current events to the topics covered in class.

CFM – Family Ministry

CFM 5310 Introduction to Family Systems

Introduction to Family Systems: Presents and overview of systems theories that use metaphor of system, pattern interaction and communication, and language to describe human behaviors and relationships with emphasis on how these ideas may be useful in faith-based contexts.

CFM 5320 Introduction to Pastoral Care

Introduction to Pastoral Care: Reviews the history of marital and family therapy. Focuses on basic therapeutic concepts and skills with an emphasis in the spiritual community.

CFM 6330 Applied Family Ministry

Applied Family Ministry:

The course is designed to allow students to practice systemic ideas in their faith-based community. Focuses on expanding systemic ideas and practice in faith-based community.

CFM 6331 Diversity in Human Systems

Diversity in Human Systems and Relationships: Explores issues of difference that impact social and therapeutic relationships with emphasis on increasing and enhancing students' spiritual awareness of multiculturalism.

CSPA – College Student Personnel Administration

CSPA 5001 - The 21st Century College Student

An examination is made of students in higher education to prepare professionals for the various groups they will serve. Focus is given to the ever-changing student clientele, its subgroups and cultures. Along with student development theories, student characteristics, attitudes, values and broad issues regarding their participation in the educational experience will be explored.

CSPA 5002 - Current Issues and Trends in Higher Education

Staying abreast of current issues and trends in higher education is critical to becoming a competent student affairs educator. This course is designed to expose students to a variety of current issues and trends in higher education that have a dramatic impact on the student affairs profession and on our work as student affairs educators. Strategies to address major issues will be discussed.

CSPA 5003 - The College Student and the Law

Increasingly the courts play a pivotal role in the lives of student affairs practitioners. From student judicial cases to Supreme Court decisions on activity fees, a broad-based understanding of the law related to higher education is essential. This course

will examine the impact of the legal system on both public and private colleges and universities as well as explore model student codes of conduct. Offered summer.

CSPA 5004 - Administration in College Student Affairs Work

This course will examine attributes, skills and institutional conditions within student personnel work that impact effective administration. Some of the major areas to be explored include personnel practices, supervision, budget, finance, program development, short/long range planning, and internal and external governing bodies. An interactive course design will allow for "hands-on" practical applications and the development of well-grounded practitioners. Offered fall.

CSPA 5005 - College Student Affairs and the Greater University

Comprehensive professional training involves a working knowledge of the total educational environment. Frequently, practitioners miss opportunities for collaboration due to a lack of understanding of the mission of other university functions. Included within this course are the roles of faculty, athletics, development, business, and physical plant among others. Students will gain greater insight into the inner workings of institutions. Offered winter.

CSPA 5006 - Student and Adult Development in College

This course will focus on developing an understanding of students' intellectual, cognitive, social, moral, and identity development during the college years. Issues related to adult student development in the college setting will also be explored. Student development theories, research and current practices related to student development will be presented. Offered winter.

CSPA 5040 - Human Factors

This course presents communication theories relevant to conflict resolution as

well as theories about understanding, analyzing, and managing conflict. The course focuses on the human and emotional aspects of conflict, and includes the influence of gender and culture. This course is pragmatic as well as theoretical, and presents communication and conflict resolution models in a practice-based approach. Offered all terms.

CSPA 5100 - Mediation Theory and Practice

This course examines theories, methods, and techniques of mediation. Students will have the opportunity to demonstrate their knowledge of mediation skills. Prerequisite: CSPA 5040. Offered fall and winter.

CSPA 5200 - Research Design and Program Evaluation

This course focuses on the development of applied research skills appropriate for dispute resolution practitioners, including basic research tools, assessment, social science research, current research in the field, and an introduction to program evaluation through analysis of published work. Offered winter and summer.

CSPA 5509 – Directed Readings in Diversity

This course examines specific aspects of diversity. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

CSPA 5522 – Directed Readings in Multiculturalism

This course examines specific aspects of multiculturalism. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's

guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

CSPA 6000 - Organizational Conflict: Theory and Practice

This course examines organizations, the causes and manifestations of organizational conflict, and interventions including: organizational theories, organizational development, systems theories, group dynamics, and dispute systems design. Students will learn to apply theory to the assessment of conflict and the design of appropriate intervention models within organizations, and will be introduced to consultation models. Offered summer.

CSPA 6130 - Practicum I

This supervised practicum experience offers students the opportunity to explore a breadth of student affairs functions thereby gaining exposure, knowledge and experience in the variety of services and programs that make up a college/university division of student affairs. Students may select to generally explore all of the functional departments within the division, or select specific functions they wish to learn more about: residential life, housing, career services, student union, student activities, leadership development, recreation and wellness, volunteer services, special events, judicial programs, and the office of the dean of students. By experiencing the "big picture" of the functions, programs and services of the division of student affairs, students will have the opportunity to be exposed to the numerous professional positions and opportunities available to them upon graduation. Offered all terms.

CSPA 6140 - Facilitation Theory and Practice

This course develops students' skills in working with groups. It incorporates theories and models of group dynamics, facilitation, and group development, as

well as workshop development and delivery. This course uses a practice-based approach, including role-plays and workshop presentations. Offered all terms – fall and winter on-line; summer on campus.

CSPA 6160 - Practicum II

This supervised practicum experience offers students the opportunity to gain in-depth exposure, knowledge and practical experience in a selected area of specialization in student affairs that supports their professional goals, and will assist them in being prepared to work in a professional student affairs position in a college or university upon graduation. Students may select to focus their experience in: residence life (including conflict resolution and mediation services), housing, career services, student union, student activities, student leadership training and development, recreation and wellness, volunteer services, student judicial affairs, special events, orientation, and professional program student services. Students may elect to complete this phase of their practicum experience at Nova Southeastern University or at another college or university. Prerequisite: CSPA 6130. Offered Fall and Winter terms.

CSPA 6300 - Applied Research & Assessment in Student Affairs I

This course is designed to provide actual experience in designing and conducting an assessment or research project in a student affairs organization. The course is delivered in two 3-credit hours segments. This segment is designed to provide guidance in the conceptualization and writing of a student affairs assessment or research project. Project design topics discussed are: the research process, conceptualizing the project topic and proposal, developing a project proposal prospectus, and clear and effective writing. At the end of this segment, a project proposal prospectus focused on conducting assessment or research in an

actual student affairs organization will be completed. Offered fall.

CSPA 6330 - Applied Research & Assessment in Student Affairs II

This course is designed to provide actual experience in designing and conducting an assessment or research project in a student affairs organization. The course is delivered in two 3-credit hours segments. In this segment the project proposal will be used as a basis to conduct the proposed assessment or research. With the guidance of a faculty member or student affairs administrator, students will conduct the research, analyze the results, and based upon the results, make recommendations related to the research topic to the organization. Students will write a paper that will describe the project, discuss related research and literature, describe the methodology used to collect data, discuss the results of the research, and draw conclusions from the study that lead to recommendations to the organization. Prerequisite: CSPA 6300. Offered winter.

CSPA 6623 – Practicum III

This course is a more advanced field research project that incorporates classroom knowledge and real-world settings. Students will demonstrate their ability to apply theory to practice and analyze situations utilizing knowledge from previous course work. Program approval required. Prerequisite: CSPA 6130 and CSPA 6160.

CSPA 6626 Conflict Resolution for School

This course is designed for anyone in a position to influence school policy, practice, and decision-making, from within or as a consultant. The course takes a systems approach to resolving conflicts within the school and school system, applying conflict analysis and conflict resolution models to conflict situations, using negotiation, mediation, and facilitation processes, developing a conflict resolution culture throughout the system, providing training for parents, teachers, students, and school board. The

course also examines methods to manage conflict, including using conflict resolution practices in crisis situations, and mediating and negotiating with parents, teachers, administrators, and students. The course uses a case study method.

CSPA 6720 – Bridging the Gap from Graduate School to CSA Professional

The course is designed to assist students completing the CSA program in their transition from graduate student/graduate assistant to College Student Affairs professional. The course will focus on career search and career opportunities and dialogue with those in the CSA field. It affords students the further opportunity to enhance their career development.

D.M.F.T. – Doctorate in Marriage and Family Therapy

D.M.F.T 5001 - Doctoral Seminar I (1 credit hour)

General orientation to doctoral studies: Students learn advanced ethics, diversity, and social justice while focusing on research, writing, and library skills necessary for authoring papers in doctoral courses and for publications. Students take this 1 credit course each of their first three terms. Offered each term, first year.

D.M.F.T 5002 - Doctoral Seminar II (1 credit hour)

Continuation of D.M.F.T 5001: Students are introduced to professional development opportunities in diverse settings, specific details regarding professionalism, program and portfolio requirements, internships, and dissertation. Prerequisite: D.M.F.T 5001. Offered each term, second year.

D.M.F.T 5003 - Doctoral Seminar III (1 credit hour)

Continuation of D.M.F.T 5002: Students are tutored in the skills necessary to develop a successful coursework, clinical, and academic/research portfolios as part of the doctoral program requirements.

Prerequisite: D.M.F.T 5002. Offered third year.

D.M.F.T. 5004 Reading/Writing/Editing Doc Sc

Excellent reading, writing, and editing skills are essential for family therapists who wish to make scholarly contributions to the field. Researchers, supervisors, and clinicians must be able to compose and publish clear descriptions of their work, and professors and journal reviewers must be able to read with discernment and effectively critique the writings of others. This course develops and hones the necessary skills for making such contributions.

D.M.F.T 5006 - Introduction to Systems Theory

This course provides an overview of theories that use metaphors of system, pattern, interaction, and communication to describe human behavior and relationships as well as the study of the emergence of theories from cybernetics to language studies. Offered each term.

D.M.F.T 5007 - Research in Marriage and Family Therapy

This course offers a review of quantitative and qualitative methods of inquiry, as exemplified in recent marital and family therapy research studies. The course focuses on teaching students to be intelligent, critical consumers of research in the field. Offered winter term.

D.M.F.T 5008 - Introduction to Marital and Family Therapy: Counseling Theories and Techniques

An introduction and review of the history of marital and family therapy and the clinical approaches of interactional therapies are included in this course. The focus is based on basic therapeutic concepts and skills. Offered fall term.

D.M.F.T 5009 - Theories of Marriage and Family Therapy

This course offers a comparative study of theories of marital and family therapy, including systemic, structural, strategic,

intergenerational, contextual, behavioral, experiential therapies, and others, and provides a survey of differences in clinical practices. Prerequisite: D.M.F.T 5006. Offered winter term.

D.M.F.T 5010 - Systemic Family Therapy I

The study of those systemic therapies informed by cybernetics and oriented to the social organization of communication are included in this course. Emphasizes are placed on the work of the Mental Research Institute and Solution-Focused Brief Therapy. Prerequisites: Core courses and co-requisite D.M.F.T 5006. Offered fall term.

D.M.F.T 5020 - Systemic Family Therapy II

This course centers on Narrative Therapy theory and practice. Students will extensively explore assumptions, including distinctions between structuralist and post structuralist thought, which underline this model and contrast with other therapeutic models. Practice methods will focus on various maps and scaffolds which describe and organize Narrative practices. Students will explore the application of these assumptions and practices to a range of therapeutic problems as well as diversity and community issues. Prerequisites include core courses and D.M.F.T 5010. Offered winter term.

D.M.F.T 5030 - Systemic Family Therapy III

This course acquaints students with the basic concepts of the natural systems approach to family therapy. Emphasizes are placed on family-of-origin issues, multigenerational systems processes, and biological/evolutionary contributions to the understanding of human systems. Prerequisite: D.M.F.T 5020. Offered fall term.

D.M.F.T 5036 – Infant Mental Health

This course is designed to provide students with an introduction to the growing field of infant mental health. Emphasis will be placed on clinical assessment, and treatment of mental

health issues among infants and their caregivers within the contexts of social, cultural, and family systems. This course is a preparation for those who may wish to become certified in the area of infant mental health. It will also be useful for those who wish to practice general marriage and family therapy and gain more knowledge of the early parenting years of the family life cycle. Offered winter term.

D.M.F.T 5037 – Suicide Prevention and Crisis Intervention

Suicide is one of the most dangerous actions in which depressed people engage that may, in fact, be preventable. This is true for those with suicidal ideation at all ages. This course will help the student learn how to identify the potential for suicide and how to respond and refer. Since suicide is often precipitated by situational crises, early intervention techniques, particularly the identification of suicide potential, is crucial. Suicide ideation is frequently seen in criminal defendants, especially those who make suicide attempts when first admitted to jail or prison. Suicide-by-cop and highly publicized intentional and random multiple shooting events will be studied to better understand the shooter's motivations and early identification. Effective suicide prevention and crisis intervention strategies will be explored. Offered winter term. Offered winter term.

D.M.F.T 5038 – Military Families

This course will prepare the student to work with active military and veterans and their families. The course will cover the military culture as it interacts with the dominant culture, and trace the history of cultural conflict between these different ethics. In addition, course material will be presented on PTSD and Acute Stress Disorder as they particularly apply to military situations. The stresses of deployment and reintegration on the spouses and children of military and veterans will also be discussed. The student will become prepared to work in Veterans Administration and Department

of Defense settings, after appropriate experience and licensure requirements are met. Offered fall term.

D.M.F.T 5039 – Collaborative Divorce

This course will provide information regarding career opportunities for marriage and family therapists working with families transitioning into divorce. The course will cover collaboration with other professionals such as attorneys and mediators. The student will be guided as to how to become certified as a Mediator, Parent Coordinator, Guardian ad litem, or Collaborative Practitioner. In addition, the course will be useful to those wishing to practice general marriage and family therapy, and learn more about the experience of divorce in order to assist their clients. Offered fall term.

D.M.F.T 5040 - Systemic Family Therapy IV

Study of the complexities and subtleties of language and the art of therapeutic implication are focused on in this course with discussions on the relationships between hypnosis and brief therapy; draws on the work of Milton Erickson as a primary resource. Prerequisite: D.M.F.T 5030. Offered winter term.

D.M.F.T 5045 – Group Psychotherapy

This class is designed to provide an opportunity students and professionals to develop a set of core competencies in general group work from a systemic perspective. These core competencies include knowledge of group theories, common group dynamics, common group types, and legal and ethical issues. During the course students will also be introduced to various specialty/advanced competency areas in group work. The development of core skills will occur through a combination of didactic lecture in group theory, classroom discussion, and an experiential group (during the second part of each class meeting). Offered summer term.

D.M.F.T 5046 – Human Development Across the Life Cycle

Human Development covers the stages of the individual life cycle, and of the family life cycle, in cultural context. The interplay of individual development, unique individual difference, culture, socioeconomic context, and family context, will be considered and integrated with major models of family therapy. Therapy techniques appropriate for each stage of development will be explored. Offered fall term.

D.M.F.T 5050 – Family Play Therapy

This course will explore creative means of expression in therapy, including but not limited to art, music, sand tray, puppets and other play related materials. The use of these techniques with children, adolescents, and families will be discussed and practiced. This course is a preparation for those who may wish to focus on working with young children and/or on pursuing certification as a registered play therapist. It will also be useful to the general marriage and family therapist, to add creative techniques to his or her repertoire. Offered summer term.

D.M.F.T 5110 - Language Systems

This course locates the practice of therapy within cultural, philosophical, and scientific domains; it uses notions about the relational nature of language as a means of examining, critiquing, and explicating therapeutic practice. Prerequisite: D.M.F.T 5006. Offered winter term.

D.M.F.T 5120 - Thinking Systems

The study of systemic theory, particularly the ideas of relationship, difference, and context is the focus of this course, which emphasizes the ideas of Gregory Bateson. Prerequisites: D.M.F.T 5006, D.M.F.T 5110. Offered fall term.

D.M.F.T 5130 – Crisis Management

This course provides students advanced skills in crisis management for the expansion of their supervision and

training of other professionals. Offered winter term.

D.M.F.T 5140 – Advanced Micro Skills

This course provides student the most advanced micro skills in clinical work, providing them the resources for training and overseeing supervisees and become mentors of other mental health professionals. Offered fall term.

D.M.F.T 5300 - Legal, Ethical, and Professional Issues in Marriage and Family Therapy

This course offers an in depth explanation of accreditation and licensure organizations, along with the ethical codes they promote in family therapy and related fields. This includes a review of the therapist's legal responsibilities and liabilities in mental health and family law, insurance claims, and private practice management with inclusion of an overview of professional opportunities in public service and training programs. Offered fall term.

D.M.F.T 5301 Agency Practice and Organizational Consulting

This course examines applications of family therapy methods and ideas in community and agency settings including in-home, residential, outpatient and inpatient settings. The course will prepare students to work in the community and learn and refine their skills as related to completing clinical documentation, learning and meeting requirement of different funding sources, preparing safe aftercare and discharge plans and working collaboratively with clients, family and representatives of larger systems involved with such clients. Students will learn about managed care, Medicaid, Medicare, Private Insurance Systems. Students will also learn rules and regulations related to working with different funding sources and Federal and State Funding systems. Students will learn techniques of agency administration and organizational consultation. This course will be useful to those seeking careers in agencies,

hospitals, and managed care settings, and for the general marriage and family therapist. Offered summer term.

D.M.F.T 5311 - Substance Abuse/Addictions and Critical Issues in Systems Theories

This course addresses the application of modern and postmodern ideas to substance abuse, addictions, and critical issues in the practice of therapy. Emphasis is placed on the application of modern and postmodern ideas to substance abuse, additions, and critical issues based on research, theories, practice, and treatment. Also included are other critical issues of culture, ethnicity, gender, race, religion, violence and other areas of critical concern in social systems. Prerequisite: D.M.F.T 6200. Offered summer term.

D.M.F.T. 5312 Advanced Substance Abuse Training

This course addresses the application of modern and postmodern ideas to substance abuse, addictions, and critical issues in the practice of therapy. Emphasis is placed on the application of modern and postmodern ideas to substance abuse, additions, and critical issues based on research, theories, practice, and treatment. Also included are other critical issues of culture, ethnicity, gender, race, religion, violence and other areas of critical concern in social systems. Through course assignments and instructor approval, advanced doctoral students will construct an advanced level component to include specific requirements regarding certification and supervision in addictions.

D.M.F.T 5340 – Grant Writing and Funding Opportunities

This course provides students with knowledge of how to assess, identify, and write grants to acquire funding opportunities in agency and treatment facilities. Offered winter term.

D.M.F.T 5355 – Introduction to Equine Assisted Family Therapy

This course will provide students with an

introduction to all aspects of equine assisted mental health approaches. Beginning with an overview of the rapidly growing Animal Assisted Therapy field, the course will cover in greater depth equine assisted psychotherapy, team building, and therapeutic riding programs. Through hands-on experience working with horses, students will be introduced to the Equine Assisted Family Therapy model being developed as a collaborative effort between the NSU Family Therapy program and Stable Foundations, an independent equine-assisted therapy program in the community. Offered fall and winter terms.

D.M.F.T 5356 – Religious and Spiritual Diversity

The Religious and Spiritual Diversity course is a basic course on religious/spiritual difference that uses systemic and relational family therapy theory to train mental health professionals in the art and skill of acceptance and respect of other human being's deeply held faith/non-faith beliefs. The instructor will use basic therapeutic skill in creating a class community that is inviting, open, and honoring. Students will be challenged through the use of didactic, experiential, and written activities, related to both personal and professional experiences with religion and spirituality (R/S).

D.M.F.T 5357 Brief Coaching

The growing field of coaching draws from concepts associated with brief therapy models, in particular Solution Focused Brief Therapy. In this course, students will learn the distinctions between coaching and therapy; credentialing opportunities and potential career paths as a life coach, career coach, and/or independent educational consultant; and common theoretical assumptions shared between brief therapy and brief coaching. The course is designed for students who already have a working knowledge of brief family therapy models, but wish to broaden their scope of practice and understand the history and development of the parallel field of coaching.

D.M.F.T 5361 - Developing a Private Practice in Coaching and Therapy

This course examines applications of family therapy methods and ideas in private practice settings. The course will prepare students to develop a private practice as a marriage and family therapist, as a career/college/health and wellness coach, or both, depending on previous background and additional coursework. Students will learn the basics of developing a referral base, understanding managed care and insurance systems, and developing workshops and community outreach. The ethics of private practice and the need for practitioner self-care will also be stressed. This course will be useful for those planning a private practice career as all or part of their professional journey. Offered summer term.

D.M.F.T 5362 – Solution Focused Coaching

This course prepares the student for professional practice as a solution focused coach. In this course, the distinctions between therapy, education, and coaching are clearly presented, and the student learns basic skills and approaches to solution focused coaching. Students will also be educated on specializations in career, college, health and wellness, and other specific types of coaching practice. Offered summer term.

D.M.F.T 5363 Advanced Equine-Assisted Family Therapy

This course will utilize an equine-assisted, experiential model to provide students with an opportunity to explore and develop their awareness of the Self of the Therapist (SOTT). Additionally, through clinical role-plays incorporating application of MFT theories and models, students will learn to conduct equine-assisted clinical and training sessions with a variety of populations and presenting issues. Students will apply different interventions and activities involving the horses and mock clients in role-play situations, and will be expected to intentionally incorporate a systemic,

relational approach in all sessions. The course readings will also integrate concepts from other clinical and theoretical coursework in order to facilitate students' ability to consistently connect the systemic family therapy framework with an equine assisted approach.

D.M.F.T 5364 Advanced Narrative Therapy Practices

This course is designed to provide students with a chance more deeply explore narrative therapy ideas and practices than was possible in Systemic Family Therapy II, and to collaborate on developing skills in ongoing cases.

D.M.F.T 5410 - Quantitative Research I

This course covers fundamental concepts and practices in quantitative research method by introducing measurement and statistics, questionnaire development, and experimental and quasi-experimental research designs for the study of human sciences. Exemplary studies from family therapy literature are included. Prerequisite: D.M.F.T 5007 or equivalent. Offered summer term.

D.M.F.T 6110 – Systems Application in the Family Life Cycle of Aging

This course will provide a focus on the major concepts of systems thinking as applied to the family life cycle of aging. The class will focus on foundational concepts of systemic theories associated with work of Gregory Bateson, Humberto Maturana, and Heinz von Foester. Students will have an opportunity to explore interactional theories informed by cybernetics, language, and natural systems metaphors in the framework of the aging process. This course will provide not only an opportunity to learn about systemic theories, but also a possibility to reflect on applications of such theoretical concepts while examining the process of aging and family interactions involving older adults. Offered winter term.

D.M.F.T 6120 – Relationships in Aging

Multi-dimensional in nature, aging invites diverse health care professionals to work together to examine its various aspects. This course will offer students an opportunity to reflect on diverse relationships among older adults themselves, senior health care consumers and their health care providers, and among various health care professionals who are taking care of the aging population. The role modification in the American household, romantic relationships in later life, and the societal outlook on the process of aging are just a few topics addressed in this class. Students will also examine current needs and requirement of the working environment with older adults, including the subject of integrative primary care and a necessity of a multidisciplinary teamwork. Offered winter term.

D.M.F.T 6130 – Caregiving in the Family

Caregiving constitutes a challenging experience for the whole family. This course will provide an opportunity to examine diverse characteristics of the caregivers, emotional and physical issues associated with caregiving, and existing resources implemented to support families and caretakers. In addition, students will have an opportunity to examine the notions of well-being and quality of life as applied to those providing and receiving care. While reflecting on the caregiving process, students will use concepts from such theoretical frameworks as constructivism, social constructionism, and general systems theory to investigate diverse perceptions and ideas about caregiving. Providing theoretical guidelines, this class will also give students a possibility to acquire attuned therapeutic skills to provide assistance to caregivers and their families. Offered summer term.

D.M.F.T 6140 – Grief and Loss in Aging

Loss has multiple faces, especially when growing older. The experiences of loss are uniquely tinted by our cultural framework, spiritual beliefs, family traditions, and individual values. This course offers

students an opportunity to examine different types of losses in later life, paying particular attention to the concepts of anticipatory and disenfranchised grief. Students explore how loss is perceived among older adults from diverse ethnical and cultural backgrounds, paying particular attention to the variety of mourning traditions. In addition, the concept of resilience is introduced inviting students to become curious about diverse stories of healing. Offered fall term.

D.M.F.T 6200 – Internal Practicum I-II

These two supervised clinical courses consist of the application of systemic therapy ideas and practices at the Department of Family Therapy in house Family Therapy Clinic. Prerequisites: D.M.F.T 5006, D.M.F.T 5008, D.M.F.T 5300. Offered each term.

D.M.F.T 6210 - Clinical Practicums I

Clinical practicums I provides students with hands-on supervision in a team setting to promote their clinical skills and work with others. Offered each term.

D.M.F.T 6300 - External Practicum I - II

Advanced clinical training and supervision is provided to enhance the practice of systemic therapy from strength based, solution oriented models of therapy that can be incorporated in a wide variety of community settings. Faculty approval is required. Prerequisite: D.M.F.T 6200, I-IV. Offered each term.

D.M.F.T 6320 - Supervision Practicum I-II

Extensive live supervision and case consultation experience with clinicians in learning systemic therapies is conducted in the DFT in house Family Therapy Clinic. Students receive supervision of their supervision of others by AAMFT faculty supervisors. Faculty approve required. Prerequisite: D.M.F.T 6310. Offered each term.

D.M.F.T 6321 – Fundamentals of Teaching and Marriage and Family Therapy

This course will introduce students to the fundamentals of teaching Marriage and Family Therapy in both a Graduate and Undergraduate learning environment. It will cover the distinctions between clinical and theoretical courses, practicum instruction, as well as those designed specifically to prepare students for state licensing examinations. Students will be exposed to the basic elements of syllabus construction, the application of evaluative rubrics, and other evaluative teaching mechanisms. They will also be required to demonstrate skills in course planning, lecture construction and delivery. Offered summer term.

D.M.F.T 6325 – Fundamentals of Supervision in Marriage and Family Therapy

This course is designed to critically examine the most current literature in supervision from the field of Marriage and Family Therapy and assist students in the development of their own supervision philosophy. Practical elements of supervision such as contracts, evaluations, structure, and ethical issues are taught along with the examination of the systemic nature of supervision including isomorphism and diverse contextual variables. This course provides the coursework necessary to become an AAMFT Approved Supervisor as well as a Florida State Qualified Supervisor. This course is designed to be taken by advanced doctoral students in their 3rd summer term.

D.M.F.T 6400 - Evidence-Based Research Methods

Evidence-Based Research Methods is designed to promote the advancement of understanding research conducted in the MFT field, this course provides an opportunity to better understand and make informed decisions in practice and supervision based on evidence-based methods. Offered fall term.

D.M.F.T 6410 – Qualitative Action Research

Promotion of research skills and the understanding of qualitative action research provide a method for conducting research and especially conducting an Applied Clinical Project. Offered summer term.

D.M.F.T 6430 - Qualitative Research I

This course focuses on the introduction to qualitative research methodologies and the use of the investigator as the research instrument of choice. Participant observation and interviewing strategies are discussed. Students are introduced to methods for transcribing and organizing interviews and field notes. Exemplary studies from other disciplines are used; however, studies from the family therapy literature, when available, are offered. Prerequisites: D.M.F.T 6410. Offered winter term

D.M.F.T 6520 - Diversity and Psychosocial Issues

Human development in the context of family transitions across the life cycle such as childbirth, childhood, adolescence, courtship, marriage, maturity, aging, and death are reviewed. This course focuses on the diversity of psychosocial development across ethnicity, class, gender, race, age, and culture with discussions and implications for interactional therapies and practices. Prerequisite: SFTD 6200 I. Offered fall term.

D.M.F.T 6530 – Family Therapy Topics

This course provides in-depth information on special topics on a variety of family therapy issues. Content is determined by the expertise of the instructor. This is a second year course that advances critical thinking and practices across multiple venues. Topics include Advanced Bowen Systems, Couples Therapy, Grief and Loss, International Perspectives in Counseling and Therapy, Introduction to Equine Assisted Family Therapy, Organizational Systems and Consultation, School-based

Family Counseling, and others. Prerequisite: SFTD 5040. Offered most terms.

D.M.F.T 6540 - Independent Study in Family Therapy

An independent study is developed with a faculty of choice on a mutually determined critical family therapy topic that could include a specific research based or clinical project, or a grant funded research project. This course is generally taken at the end of the second year or later to enhance a student's independent studies and trainings. Prerequisite: Offered each term. Department approval required.

D.M.F.T 6550 – International Perspectives in Counseling and Therapy

This course is designed to review issues relevant to the practice of counseling, therapy, and human services work in an international context. Issues explored include: the adaptation of western models of therapy for practice in other countries; immigrant family experiences and the relevance to clinical practice in the U.S.; and global ethical issues in counseling and therapy. Specific cultures reviewed include Mexico, China, Cambodia, South America, and India, and others; designed to appeal to a wide variety of students from various backgrounds. Students will learn to become more sophisticated with regard to their understanding of family functioning and the role of counseling and therapy in an international context. This course is also available as D.M.F.T 6530: Family Therapy Topics. Prerequisite: D.M.F.T 5006, 5008, 5009, 6200 I, II. Offered summer term.

D.M.F.T 6558 - Couples Therapy: Theory and Application

In this course, students will examine their own experiences, biases and values about couples and working with couples as well as the historical development of couples' therapy. Students will learn current clinical approaches to couples therapy and evidenced-based models for working with couples. Students will examine current

couple and marital research as well as assessment instruments used for working with couples. Students will examine specific professional, ethical, and legal issues associated with couples work. Issues of diversity and a commitment to multicultural exploration are demonstrated and interwoven throughout all discussions as students explore specific areas of work with couples such as extra-marital affairs, intimate partner violence, divorce, step-parenting, and health and illness. Offered winter term.

D.M.F.T 6570 – School Based Family Counseling

This course offers training to work in educational setting utilizing a brief, solution oriented, and strength-based approaches to school issues. This course will assist those therapists seeking a certified educational planner credential. It is also available as D.M.F.T 6530: Family Therapy Topics. Prerequisite D.M.F.T 6200-I. Offered summer term.

D.M.F.T 6590 – Advanced Bowen Systems

This course advances the study of the concepts of the natural systems approach to family therapy, family of origin issues, multigenerational systems processes, biological/evolutionary constructions to the understanding of human systems and the practical applications across multiple disciplines. This course is also available as D.M.F.T 6530: Family Therapy Topics. Offered summer term.

D.M.F.T 6600 –Preliminary Review

The Preliminary Review an organized review of, and personal reflection upon, the collective body of work a student has produced during their progress through their first year. A written self-review of professional growth, personal growth, and responses to challenges, along with other significant contributions is submitted for faculty review. Offered each term.

D.M.F.T 6630 - Grief and Loss

The personal beliefs and philosophies regarding dying, loss, and death are explored. Bereavement across the life cycle, including developmental issues relating to adults and children and their understanding of loss are reviewed. The manner in which other cultures create meaningful rituals for life and death will be presented. This course is also available as D.M.F.T 6530: Family Therapy Topics. Offered summer term.

D.M.F.T 6650 – Coursework Portfolio

The Coursework Portfolio is an organized review of, and personal reflection upon, the collective body of work a student has produced during their progress through the course curriculum. A written self-review of professional growth, personal growth, and responses to challenges, along with other significant contributions is submitted in an electronic format that will include all course syllabi, papers, presentations, and other relevant data that reflects a successful doctoral student. Offered each term.

D.M.F.T 6750 – Clinical Portfolio

The Clinical Portfolio provides an opportunity for students to demonstrate their clinical competence, creativity, and theoretical clarity in a manner and setting similar to that which could be expected in a job interview situation. This culmination of in-house clinical training allows students to demonstrate the full range and depth of their clinical skills and theoretical knowledge through a written statement of treatment philosophy, case study, and video presentation. Offered each term.

D.M.F.T. 6875 Course Comp Exam

The Course Comprehensive Exam is a written exam assessing the student's ability to apply the knowledge they have gained across cases and topics based on their coursework.

D.M.F.T 6950 - Applied Clinical Project

The Applied Clinical Project is a capstone experience of a student's demonstration of ability to be able to articulate and

demonstrate to other mental health professionals their unique area of systems based practice expertise. The ACP should be a project the student carries out under faculty supervision from concept, to proposal, to implementation, and finally through eventual evaluation of the effectiveness of the program. Offered each term.

D.M.F.T 7301 - Assessment in Marital and Family Therapy

This course provides an overview of methods and instruments used to define problems and indicate solutions; including a comparative study of interactional approaches and individual and family dysfunction assessments. Prerequisite: D.M.F.T 6200. Offered summer term.

D.M.F.T 7302 - Personality Theories and Psychopathology

A review of major theories of personality and psychopathology are the focus of this course, emphasizing psychiatric diagnostic classification systems. The study of implications for treatment and comparisons with interactional approaches are included. Prerequisite: D.M.F.T 5006. Offered summer term.

D.M.F.T 7311 - Human Sexuality and Gender

This course provides a review of the psychosocial development of sexuality and gender from childhood through aging. Also addressed is a summary of clinical approaches to sexual and gender issues comparing interactional approaches with psychodynamic and behavioral models. Prerequisite: D.M.F.T 6006. Offered winter term.

D.M.F.T 7360 Teaching Practicum

Supervised teaching experience in undergraduate or graduate instruction in family therapy or related field. May be repeated for credit.

FSHC – Family Systems Health Care

FSHC 5000 – Family Systems Health Care I

Students receive an orientation to the field of family systems in health care that focuses on the biopsychosocial model for understanding health care issues for patients, families, medical professionals, and health care providers. An in-depth study of relationship and clinical skills that translate well within health care settings will be presented. A case study method will be used to examine the impact of language, culture, beliefs, and specific chronic, debilitating, and terminal diseases upon the experience of illness. The biopsychosocial issues surrounding specific medical conditions throughout the life cycle will be presented. Offered fall term.

FSHC 5010 – Family Systems Health Care II

Personal beliefs and philosophies regarding dying, loss, and death will be explored. Bereavement across the life cycle, including developmental issues relating to adults and children and their understanding of loss, will be reviewed. The manner in which other cultures create meaningful rituals for life and death will be presented. Offered winter term.

FSHC 5100 – External Practicum I - Family Systems Health Care

A clinical practicum focusing on the transdisciplinary practice of family systems and therapy in health care settings will be offered with field placements in hospitals, medical schools, community clinics, and specialist's offices. This practicum is for one term. Prerequisites: FSHC 5000, FSHC 5010. Offered each term.

FSHC 5110 – External Practicum II - Family Systems Health Care

A continuation of Practicum I with a focus on advancing and refining relationship, clinical, and collaborative skills will enhance the integration and collaboration of health care systems within medical settings. This practicum is for one term. Prerequisite: FSHC 5000, 5010, and 5100.

Offered each term.

FSHC 5300 – Integration and Collaboration Among Health Care Systems

This course is an introduction to health care delivery systems through an investigation of medical models, terminology, and approaches used by physicians, medical specialists, and other health care professionals to diagnose and treat disease and to care for the human condition. Students will be oriented to health care systems and settings including hospitals, clinics, hospices, and private practices. Alternative approaches to health care will also be addressed. Offered summer term.

FSHC 5500 - Politics and Economics of Health Care Systems

An overview of the history of medicine will be presented to give students an understanding of how social and political changes affect medical care. Current issues in the health care field will be discussed, such as the growth in managed care companies, proposed nationalized health care, patient/physician/health care system relationships, and the rise in malpractice litigation. The potential roles of a Family Systems Health Care professional within these complex systems will be presented. Offered fall term.

FSHC 6400 - Understanding Human Systems in Health Care Settings

This course will introduce students to the fundamentals of relationship management within complex organizational settings, with special appreciation of the dynamics that apply within the world of health care. Students will learn to identify, assess, and intervene utilizing principles at both macro and micro levels of operation. Offered winter term.

HUMN – Humanities

HUMN 5000 History and Theory of Rhetoric (3 credits)

A survey of both theories and practices in rhetoric from the classical Greek and Roman eras to the present. The course will study rhetorical theorists ranging from Plato, Augustine, Aristotle, and Quintilian to Toulmin, Foucault, Derrida, and Kristeva, emphasizing the influences and trends in rhetoric over time.

MACS – Cross-Disciplinary Studies

MACS 0100 – Effective Environmental Communication

Professionals in a wide range of disciplines need to be able to effectively and credibly communicate science and environmental issues in terms that can be clearly understood. This course will cover the spectrum of media available for communicating environmental and science information together with writing and speaking skills for media and other communication channels.

MACS 0300 - Marine and Coastal Flora and Fauna

An introductory overview of life in the sea and along its margins, including microorganisms, plankton, algae, plants, invertebrates and vertebrates. Treatment of major groups will include aspects of diversity, ecology, evolution, life histories and classification.

MACS 0501 – Introduction to Java Programming

This course is an introduction to the Java programming language. The course will include an introduction to the concepts of object-oriented programming and will show how Java supports this programming paradigm. You will learn about the Java environment and will write both applets (programs that execute in a web browser) and applications (stand-alone programs). In addition to learning about basic language statements, you will also learn how Java provides support for such diverse applications as web pages, multimedia, education, etc.

MACS 0603 – Ocean and Coastal Law

A hodgepodge of laws and approaches apply to the oceans and coasts. Essentially all the legal attention arose within the past six decades. Rights divide among private landowners, resource extractors, local governments, national governments, or international authorities. Today a great period of legal adjustment is in motion as many living systems collapse, bearing social and economic consequences. Much ocean and coastal law is already a story of failure followed by rethinking or reconstruction. This background law is now asked to rise to the task of enabling prevention of global climate change, and to the task of adaptation to its impacts which elude prevention. Other courses in the distance program address science or policy for living and non-living resources. This course is about how law copes with emerging science and policy. It depicts examples of legal success and of disappointment to highlight the mechanisms and principles of law. From the examples, we understand and can recollect how these laws are created, revised, processed into regulations and administered. Limits on agencies and courts to make interpretation, apply science in legal settings, and enforce are evaluated.

MACS 0612 – Coastal Policy

This web-based distance education course explores the issues, problems, and potential political and public policy solutions to the challenges of achieving smart, sustainable stewardship of the seashores. Primary emphasis is on the United States experience. Students read two outstanding books and participate in on-line activities including original case studies, on-line tests, and selected interactive discussion with each other, the professor, and guests. Optional weekend or extended 3-credit field trips to experience and examine coastal policy venues in Fort Lauderdale and Palm Beach (Florida, USA) and other coastal locations will also be available.

MACS 0614 – Intl Coastal Zone Management

International Integrated Coastal Zone Management: This web-based distance education course focuses on the international dimensions of integrated coastal zone management. Students will examine the major "big picture" issues affecting the world's coastal areas and oceans, and will examine seven case studies that will help to bring alive the grave problems of mismanaging coastal and economic resources: the Black Sea, Newfoundland, the Louisiana Region of the Gulf of Mexico, Belize, the Marshall Islands, and Antarctica.

MACS 0630 – Life on a Water Planet

Life on a Water Planet has four broad aims: (1) to provide a holistic and current perspective on key water issues that includes ecological, socio-economic, historical and cultural perspectives, together with consideration of the water needs of other species; (2) to provide a forum for sharing understandings and perspectives; (3) to help you shift your perception of our planet from "the earth" to "water"; (4) to encourage you to take information and knowledge about water issues from a broad base and apply it to your own community or individual situation. The course is organized into ten units which involve readings available as direct links with the course homepage, online activities and discussion, and optional web resources for further exploration and study.

MACS 0636 – Marine Mammal Management

This course is essentially an interdisciplinary approach to examining the present state of the relationship between marine mammals, people and the environment: as this has evolved over time, as it stands today and as it is likely to be for the future, whether by default or by design.

MACS 0647 – Iraq: Restoring the Marshlands

International Coastal Zone Restoration in

the Marshlands of Iraq: Throughout the 1990's the regime of Saddam Hussein committed genocide and ecocide against the people and environment of Mesopotamia-the vast marshlands between the Tigris and Euphrates rivers in Southern Iraq. The government did this through a secret "Plan for the Marshes" to drain away its life-giving water and attack, kill and scatter its half-million inhabitants who were predominantly Sunni Moslem. Today, the former regime is gone and the country is occupied by other forces, but Mesopotamia is still a depopulated wasteland.

MACS 0655 – Environmental Remote Sensing

Environmental Remote Sensing & Geographic Information System: This course assumes that you have an interest in Remote Sensing (RS), Geographic Information System (GIS) and large-scale Earth observation, and wish to learn about using these tools to study the Earth and its processes. It doesn't matter whether you consider yourself a chemist, physicist, biologist, geologist or geographer, or simply have a reasonable grounding and interest in the Earth Sciences. Nonetheless, you must be prepared to grapple with some basic ideas of Physics. The distance-learning course is designed to be accessible and to give a general induction to a wide scope of relevant topics.

MACS 0664 – Internship in Coastal Policy

Students enrolled in this course are expected to invest the equivalent of 3 hours per week for 14 weeks (i.e. at least 42 hours) in their internship. This can be done at a research organization, private company or consulting firm; local, county, state or federal agency; or other approved venue that is related to coastal zone activities. In addition to hands-on work, each intern will also keep an academic journal of internship activities. The journal will be submitted for review for the final grade. The student's supervisor at the internship venue will also evaluate the student. Permission and approval of

supervising Professor is required before you enroll in this class.

MACS 0665 – Environmental Sustainability

This web-based distance education course highlights more than 25 years of international discussion, debate and ideas, with regard to the state of the environment and our actions towards it. Key considerations and voices are included, from both North and South. This unusual and challenging course avoids the usual categorizations, and instead examines in a cross-cutting approach the environmental and social issues that affect our lives.

MACS 0667 – Coastal Zone Interpretation

This is a web-based course that offers an exploration of communication and experiential learning theories and their application to the interpretation of coastal zone environments. This course provides the student with learning opportunities that will require them to, "go outside, sniff around," explore the coastal zone and thereby be engaged in hands-on interpretive experiences.

MACS 0671 Biology of Sharks and Rays

Sharks and rays (collectively termed "elasmobranchs") are creatures of biological elegance and perennial fascination. In recent years, new technologies have revealed fascinating details about the heretofore secret lives of elasmobranchs as well as demonstrated their population declines on an unprecedented and global scale. This unique 12-week course is a comprehensive, interdisciplinary introduction to the evolution, biology, ecology, and conservation of elasmobranch fishes.

MACS 0672 – Biology of Sharks and Rays: Part 1: Form and Function

In this course, we will explore the general biology of sharks and rays by examining topics concentrating on their anatomy, physiology and biochemistry with the goal of understanding how exquisitely adapted

these animals are to their environment.

MACS 0673 – Biology of Sharks and Rays: Part 2: Ecology and Evolution

In this course, we will survey the evolution and diversity of past and present sharks and rays and also examine distributions, environments inhabited, ecological roles, interactions within and among species, and review the life history characteristics of sharks and rays in relation to their occurrence and sustainability in fisheries with the overall goal of understanding the diversity of sharks and rays, their role in marine ecosystems and their interactions with humans (other than in terms of shark attack).

MACS 0676 – Chemical Biology of Coastal Zn.

Chemical Biology of Coastal Zones: This course deals with the application of chemistry to the biology of coastal zones. It consists of 10 units, 10 quizzes, 1 written assignment and a final exam. Each unit is followed by a quiz.

MACS 0677 – Coastline Environmental Security

Traditional terrorist targets include human assets (such as political leaders and foreign diplomatic staff), physical assets (such as aircraft, buildings, factories, power stations), and institutional assets such as legislatures and courts of law. However, we seek here to expand the notion of threat beyond these traditional determinants to include activities which target the natural environment. Although we may consider Eco-Terrorism (people and organizations which target the built environment and act in the defense of nature), this course will concentrate on the natural environment as a target. In this time of global instability, where people sacrifice themselves by strapping on explosives and where civilian aircraft are used as missiles, we must force ourselves to look beyond traditional threats and evaluate the risk confronting our greatest asset, our environment. This involves particular considerations for those who are

concerned with maintaining and managing the sustainability and health of the coastal zone. For S1 level students only.

MACS 0686 – Ocean Observing

The Ocean Observing course sets the stage for this new program. It is intended to give students a broad view to how the physical and biological factors are governing the distribution of the marine life and how the ocean influences climate variability. Human activities impact the orderly functioning of the ocean (and other components of the Earth system) by altering cycling rates and disturbing the equilibrium of biochemical cycles. Students will learn how society is attempting to minimize these impacts, remediate past damage, and avoid future problems. Answers to these and other questions require observational data on the ocean's properties and processes.

MACS 0687 – Coastal Ecology

The course provides a thorough synthesis of the physical processes in relation to biological functioning in near-shore environments. Course elements include consideration of; introductory level coastal oceanography and adaptations of marine organisms, principles for understanding the ecological structure and dynamics of coastal marine communities, ecological descriptions of major coastal marine ecosystems, and scientific principles relating to management and decision-making processes.

MACS 0690 – Tropical Marine Fish Ecology

This course will cover the ecology of tropical fishes, including coastal, estuarine, mangrove and pelagic fishes. Emphasis is on identification and natural history of local species. Current theories on distribution and abundance will be discussed in addition to ecological theory. Field work will take place at the Keys Marine Laboratory, Long Key, and Florida. On return to the Oceanographic Center a one week self-directed and self-scheduled

laboratory study will be required. Students will complete the lab on August 11th. Date of final exam to be determined.

MACS 0699 – Environmental Risk Assessment

The emphasis is on the coastal zone manager's understanding of pollution sources, relative risk and potential effects on human and marine life. Sources, measurement, and control.

MACS 0710 – Water: Cross Cultural Perspectives

This course will introduce students to the cross-cultural dialogue regarding water and coastal zone management that is occurring amongst the scientific, interfaith and policy communities, both within the USA and internationally.

MACS 0735 – Oil Pollution and the Marine Environment

This course will cover the chemistry and environmental impacts of oil spills and pollution on the marine environment. Topics will include the effects of oil on various organisms and ecosystems. Current and historical oil spills and other major pollution events and their clean-up will be analyzed and evaluated.

MACS 0745 – Ocean Debris Science

This class describes and analyzes coastal zone management and coastal policy through the analysis of human debris. Also called flotsam and jetsam, debris can be a valuable tool in the analysis of ecosystem degradation through human activity. The class will require each student to propose numerous concrete policy solutions to the problems of human garbage and debris in the coastal and ocean environments.

MACS 0790 – Aspects of Marine Pollution

The course deals with various forms of environmental pollution as they affect both the land and maritime environment. Sources, measurement and control of pollution in marine and coastal environments are discussed. It examines the fate of chemicals and their biological

effects on marine organisms. It also examines environmental toxicology and the general mechanisms of transport and transformation of chemicals in water/sediment systems and within marine organisms.

MACS 0806 – Coastal Pollution & Env. Toxic

The course deals with various forms of environmental pollution as they affect both the land and maritime environment. The emphasis is on the coastal zone manager's understanding of pollution sources, relative risk and potential effects on human and marine life. Sources, measurement, and control of pollution in marine and coastal environments are discussed. It examines the fate of chemicals and their biological effects on marine organisms. We will discuss environmental toxicology and the general mechanisms of transport and transformation of chemicals in water/sediment systems and within marine organisms.

MACS 0915 – Environmental Science

This course is intended to give students an overview of the physical environment, its relationship within the biosphere, and the human impacts upon natural systems. Topics include environmental sustainability; air, water and land ecosystems; biological resources; global atmospheric changes; pollution and waste management; and energy conservation.

MACS 0945 – Marine Protected Areas: Science, Siting and Monitoring

The online course consists of several power point presentations with voice-over as well as discussion topics and class interactive hypothetical scenarios. Lectures will address the logic of Marine Protected Areas (MPA) and their advantages and disadvantage. The science of MPA will be presented as well an overview of traditional approaches to fisheries management. The importance of ecological principles when creating an MPA will be emphasized. An overview of sampling theory and need for empirical

data to document the success or failure of MPA will be presented.

MACS 0955 – Archaeological Oceanography: Reefs and Wrecks

Archaeological Oceanography: Reefs and Wrecks will examine human interest in the tension of natural and cultural treasures. Students explore the dynamics of ocean systems, human systems, natural and artificial reefs. Legal, ethical and preservation considerations will be examined. Mapping, navigation through time and tools and technology through time will be featured as well as present day conservation of artifacts, archives and the nature of evidence. A self-selected student project will be a requirement. For the Oceanography major, the student project will focus on ocean science and/or engineering. For the Coastal Zone Management major, Certificate Program or Education Degree student, the focus for the student project can be from a broad range of relevant topics.

MACS 0957 – Archaeological Oceanography: Reefs and Wrecks; Field Experience Component

This distance learning and field-based course will examine human interest in the tension of natural and cultural treasures. Students will experience the dynamics of ocean systems and human systems, as well as natural and artificial reefs, within the context of legal, ethical and preservation considerations. Present day conservation of artifacts, archives and the nature of evidence will be highlighted. The distance learning portion of the course will be for delivery of on-line learning materials as well as dialogue with students/faculty prior to the field-based component and afterwards.

MACS 0960 – Alaska Coastal Ecology

This course takes place at a remote field laboratory at the southern tip of the Kenai Peninsula along the south central coast of Alaska. Each day will consist of a combination of lectures and lab exercises at the laboratory and field trips to the surrounding bays, beaches, glaciers and

riparian environments. Topics include zooplankton productivity, intertidal environments, fish and invertebrate ecology, marine mammals and bird populations, high latitude ecosystem management and detection and impacts of climate change. You will explore the environment via boat and on foot. You will also visit the Alaska SeaLife Center to view marine mammals and birds up-close and learn about in-depth research and rehabilitation being conducted. Students will have opportunities to sea kayak, fish, glacier hike and even cold water snorkeling.

MACS 0965 – Water World Revisited: Exploring Coastal Futurology This short course will feature readings, discussions, short digital video interviews and video case studies, and short lectures by the instructors. You will examine the context of futurology of coastal zones and oceans. Students will be assessed for participation in on-line discussions, short student video contributions to the class and weekly written brainstorming notes on the weekly topics. The major themes of the course are (1) Climate change and the urgency for humans to restore climate balance; (2) The interaction of human activity and climate; (3) Futuristic oceanic and coastal zone settlement and manufacturing ideas; (4) Futuristic energy systems, climate and the ethics of proposed human engineering of climate and habitat.

MACS 0985 – Climate Change at High Latitudes High latitudes are undergoing rapid and significant change associated with climate warming. Climatic changes in these regions interact with and affect the rate of the global change through atmospheric circulation, biogeophysical, and biogeochemical feedbacks. Changes in environmental conditions are often first exhibited in high latitudes and more sensitive to fluctuations. This course will explore the impacts of current and projected long-term environmental changes in both the northern and southern hemispheres' bodies of water.

Primary literature will be read and discussed covering a range of topics from the physical, chemical and biological perspectives as well as predictive models. Web sites and links of organizations and agencies studying high latitudes will be provided. Students will be responsible for active discussions weekly online and a term paper discussing a chosen topic related to high latitude environmental change.

MACS 0990 – Marine Mammals

Marine mammals discusses the physiology and behavioral aspects of many species throughout the world's oceans.

MACS 0995 – Conservation Behavior: Marine Mammals

Conservation Behavior, with a focus on Marine Mammal Conservation. Conservation behavior is the application of animal behavior knowledge to solving wildlife conservation problems. This course introduces upper level students to the relatively new discipline of Conservation Behavior and its importance to strategies for Marine Mammal Conservation. Concepts from ethology (Tinbergen's 4 perspectives on behavior), behavioral analysis (Skinner's matrix on how animals learn), and measuring behavior (Martin & Bateson) will be reviewed to ensure all students have the basic terminology & skills necessary for successful completion of the course. Learning activities would include extensive reading and written reading analysis of the text and relevant journal articles, weekly quizzes focused on concepts and vocabulary, and a term paper in the form of a Conservation Behavior Species Brief on a marine mammal of the student's choice. Prerequisites: an undergraduate or graduate level course in animal behavior is recommended.

MACS 4200 - Introduction to Marine and Coastal Processes: Essential Principles and Fundamental Concepts

An introduction to marine and coastal

processes for non-scientists, including the physical and chemical processes, ocean mixing and circulation, together with marine ecosystems and interactions, within a global context.

MACS 4945 - Ecotourism and Whale Watching Activities in ICZM

Whale-watching is one of the fastest growing tourism industries worldwide often viewed as sustainable, non-consumptive strategy for the benefits of cetacean conservation and the coastal communities. This course will focus upon: the historical aspects of Whale-Watching Activities (WWA) / Whale-Watching around the world, particularly in North America / the Blue Economy of WWA as an industry / conceptual modeling and decision-making systems for sustainable management / the role of Marine Protected Areas / the ecological impacts of navigation / governance, regulation, boaters and attitudes / the ecotourism experience / Research trends in WWA

MACS 5000 – Foundations and Development of Conflict Resolution & Peace Studies

This course outlines the substantive themes, history, origins, contexts, and philosophical foundations of conflict resolution, healing, peacemaking, and problem solving. Students will examine levels of interventions and processes in the field of conflict resolution. Offered all terms.

MACS 5001 – Current and Historical Issues

This course is an introductory seminar dealing with current and historical issues in American national security affairs. In the age of globalization and international terrorism it is imperative that we understand the history, topics, and concepts of national security affairs. The pursuit of security involves a wide range of both domestic and international activities that fall under the umbrellas of political, economic, and military relations and procedures. This course examines the history of American security, the workings

of the American national security institutions and organizations, cooperative security systems like NATO and the United Nations, international institutions, political violence, terrorism, war, and both domestic and international law on security. On all these topics, this course will emphasize both theoretical and practical issues that will further the student's knowledge of American national security affairs. Offered Fall and Winter terms.

MACS 5002 – Terrorists and Terrorism

This course analyzes terrorism from a number of perspectives including law enforcement (FBI), defense (DOD), and diplomatic (DOS) orientations in order to understand mitigation/prevention, preparedness, response, and recovery measures with regards to counterterrorism and antiterrorism. Individual (lone wolf) and group (Islamist) terrorist mindsets will be examined, as well as international and domestic domains. Offered Fall and Summer terms.

MACS 5003 – National Intelligence Collection

This course examines the work of current and future managers in the federal intelligence and homeland security arenas. Students will be introduced to the various ways in which the social and behavioral sciences inform approaches to intelligence collection and analysis and how these scientific approaches can facilitate the goals of countering terrorism and hostile intelligence service actions. Specifically, the emerging field of "Futuristics" will be explored in this context so that managers can forecast, manage and create preferable future outcomes for their agencies and the nation. Offered Winter and Summer terms.

MACS 5004 – Border Protection and Military Issues

This course is an in-depth analysis of the importance and the difficulties in security measures and tactics used to protect a sovereign nation's borders. Border

protection is an essential part of National Security. The threats to domestic populations include drug-smuggling, terrorism, human and arms trafficking, and illegal immigration. Theoretical and applied case studies will facilitate student engagement. The course will serve as an introduction to the theories and applied practices of successful border protection. Offered Fall and Winter terms.

MACS 5005 - Research and Evaluation in National Security Affairs

This course provides an in-depth introduction to the fundamental logic and principles of research design, with additional focus areas in critical thinking and analysis. Students will gain familiarity with key concepts in the philosophy of science and current debates over appropriate methods of data collection and analysis of the social sciences. Students will learn the differences between quantitative, qualitative, and mixed-methods research; from here the student will be introduced to the foundations of these approaches and learn what strategies, methods, and techniques are in use. Students will then be expected to formulate a research question, develop a set of hypotheses, develop a strategy for data collection, develop a literature review, and finally to formulate ways to operationalize their study. Offered Fall and Summer terms.

MACS 5006 - Assessment of Credibility-Theory and Implications

Students will explore a broad range of contemporary thought, discussion, and scientific research, relevant to the assessment of credibility with the goal of developing a base of knowledge for the assessment of statements made by, or on behalf of, individuals, groups, political parties, and government, both domestic and foreign. Topics that will be explored include, but are not limited to, the "making and unmaking of ignorance", defining what constitutes a "lie", the ubiquitous nature of lying, the many reasons for lying, and how lying is used in varying contexts by individuals, business,

and government. Offered Fall term.

MACS 5008 - Credibility Assessment: Methods and Implications

This is the second course in the realm of credibility assessment. Students will explore a broad range of issues, thought, discussion, and scientific research, relevant to the actual assessment of credibility using various contemporary methods. Topics that will be explored include, but are not limited to; defining what constitutes a "lie," the ubiquitous nature of lying, nonverbal and verbal cues to deception, non-instrumental forms of lie detection, and instrumental forms of lie detection. Offered Winter term.

MACS 5009 – US Relations with Latin America

This course focuses on strategic analysis while examining historical relations between the United States and Latin America. The material is presented in three segments; strategic analysis, historical relations, and current issues impacting US relations with the southern hemisphere. The course will enhance knowledge and understanding of the history of US-Latin American relations and the application of strategic analysis to those relations. The course will emphasize the strategic importance of Latin America to long term stability in the US. Offered occasionally.

MACS 5020 Conflict and Peace

Theories and Philosophies of Conflict and Peace: This course is designed as a survey course on contemporary theories of conflict and conflict resolution. Students will examine a variety of theories that center primarily on the fields of history, economics, sociology, social psychology, anthropology, political science, and social relations. For S1 students only.

MACS 5030 – Interdisciplinary Theories and Perspectives

This course starts by exploring the theories and the theoretical frameworks found in academic disciplines and their importance to interdisciplinarity. The

differences between disciplinary, multidisciplinary, transdisciplinary, and interdisciplinary perspectives will be examined and critiqued. Case studies and current issues will be critiqued using interdisciplinary approaches.

MACS 5032 - Aquatic Invasions Outbreaks and Diseases

Aquatic, coastal and marine ecosystems can be exposed to a number of biological stressors and disturbances such as (i) invasive species (e.g. lionfish, Asian carp, zebra mussels), (ii) outbreaks (e.g. crown-of-thorns starfish, mat tunicates), and (iii) diseases (e.g. Eelgrass wasting disease, Fibropapilloma in sea turtles), and (iv) mass mortality events (e.g. Diadema epizootic, 1998 worldwide coral bleaching, fish kills associated with HABs). The focus of this course shall include case studies from current scientific literature, anthropogenic and environmental factors that influence IODs, disturbance and adaptation theories, and contemporary solutions for prevention and protection.

MACS 5040 – Human Factors

This course presents communication theories relevant to conflict resolution as well as theories about understanding, analyzing, and managing conflict. The course focuses on the human and emotional aspects of conflict, and includes the influence of gender and culture. This course is pragmatic as well as theoretical, and presents communication and conflict resolution models in a practice-based approach. Offered all terms

MACS 5100 – Mediation Theory & Practice

This course examines theories, methods, and techniques of mediation. Students will have the opportunity to demonstrate their knowledge of mediation skills. Prerequisites: MACS 5040. Offered fall and winter.

MACS 5140 – Negotiation Theory and Practice

This course examines conflict intervention from the perspective of the

disputant/negotiator. The integration of theory and practice will emphasize the tactics, strategies, and operations of effective and ineffective bargaining/negotiating behavior. The course develops negotiator skills and knowledge, leading to collaborative-based actions and solutions. Offered winter.

MACS 5200 - Research Design and Program Evaluation

This course focuses on the development of applied research skills, including basic research tools, assessment, social science research, current research in the field, and an introduction to program evaluation through analysis of published work. Offered winter and summer.

MACS 5300 – Fundamental Concepts of Climate Change

Climate change is increasingly at the forefront of scientific and policy considerations worldwide, but the basic dynamics of the atmosphere and climate processes are not generally understood. This course will be one of the core courses in the Graduate Certificate and Coastal Climate Change, and an elective within the MS in Coastal Zone Management degree program. It will introduce simple concepts and observations regarding weather and the marine and coastal environment, and build into more complex enquiries and investigations regarding the physical, chemical, biological and geographical aspects. Upon course completion, students will better comprehend the science behind marine and coastal climate change and be able to make use of this knowledge in their decision-making within their communities and work environment.

MACS 5310 - Introduction to Systems Theories

This course presents an overview of systems theories that use metaphors of system, pattern, interaction, communication, and language to describe human behavior and relationships. Offered all terms.

MACS 5350 – Fundamental Concepts of Climate Change II

The social consequences of a changing climate are numerous and have the potential to significantly alter human-livelihood and even create community conflict and unrest. In this course, which is one of the two required (core) courses for the Graduate Certificate in Marine and Coastal Climate Change, students will explore climate change from a social perspective. Where appropriate, the course will be explored in the context of the marine and coastal environment.

MACS 5355 - Introduction to Equine Assisted Family Therapy

This course will provide students with an introduction to all aspects of equine assisted mental health approaches. Beginning with an overview of the rapidly growing Animal Assisted Therapy field, the course will cover in greater depth equine assisted psychotherapy, team building, and therapeutic riding programs. Through hands-on experience working with horses, students will be introduced to the Equine Assisted Family Therapy model being developed as a collaborative effort between the NSU Family Therapy program and Stable Foundations, an independent equine-assisted therapy program in the community.

MACS 5357 – Brief Coaching: An Outgrowth of Brief Therapy

The growing field of coaching draws from concepts associated with brief therapy models, in particular Solution Focused Brief Therapy. In this course, students will learn the distinctions between coaching and therapy; credentialing opportunities and potential career paths as a life coach, career coach, and/or independent educational consultant; and common theoretical assumptions shared between brief therapy and brief coaching. The course is designed for students who already have a working knowledge of brief family therapy models, but wish to broaden their scope of practice and understand the history and development of the parallel field of coaching.

MACS 5400 – The Interdisciplinary Writer

This course is designed to assist graduate students in creating essays, thought papers, and other pieces of writing that reach an intended audience with clarity, skillful craft, and purpose. It includes reading and writing assignments for an academic setting focused on interdisciplinary perspectives. Students will be expected to participate in class discussions and improvisational writing exercises. Because this is a writing course, rather than just a course about writing, there will be a workshop component to the class. This means that all participants will bring in copies of their work to share to develop writing speaks to others. At the end of this course you will be better able to recognize, in your own writings and those of others, a piece's purpose, its organizational structure, level of craft execution, authorial voice, and engagement of the audience. Offered Fall.

MACS 5401 – Editing I

This course engages students in the principles and practices that create and sustain hard copy and online journals. These may vary from a fully-academic focus to literary materials, but all will create and deliver content that promotes contributions to their fields. Coursework will encompass all the steps that connect a publication with its intended audience. Coursework will vary depending on the current stage of a journal's development, including duties that enact the realistic responsibilities and opportunities that anyone can expect while serving on, or leading, a journal in a professional position. This course is useful for students who intend to pursue a professional role in journal editing and those who intend to contribute to respected journals or other regular publications with a high quality standard.

MACS 5402 – Editing II

This course will guide students further through the process of developing a journal that represents an academic

program step by step to its delivery. Coursework will vary depending on the current stage of a journal's development, focusing on duties consistent with the ongoing production of a professional journal. The research, contributor enlistment, practical development, delivery, and distribution of both hard copy and online journals will fall within the expertise cultivated in this course. Students, who wish to pursue editorial positions with journals, or simply improve their understanding of what it takes to successfully publish in journals, will have an insider's understanding of the realities and opportunities that journals provide their communities. (Prerequisite MACS 5401).

MACS 5441 – Current Issues and Trends in Higher Education

Staying abreast of current issues and trends in higher education is critical to becoming a competent student affairs educator. This course is designed to expose students to a variety of current issues and trends in higher education that have a dramatic impact on the student affairs profession and on our work as student affairs educators. Strategies to address major issues will be discussed. Offered Winter term.

MACS 5442 – Administration in College Student Personnel Work

This course will examine attributes, skills and institutional conditions within student personnel work that impact effective administration. Some of the major areas to be explored include personnel practices, supervision, budget, finance, program development, short/long range planning, and internal and external governing bodies. An interactive course design will allow for "hands-on" practical applications and the development of well-grounded practitioners. Offered Fall term.

MACS 5500 – Directed Readings in Media and Public Policy

This course examines specific aspects of the media and the role it plays in influencing and being influenced by public policy. It is designed so it may be taken as

an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5501 – Directed Readings in Narrative and Community Development

This course examines specific aspects of the use of narrative and the role it plays in community development. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5502 – Directed Readings in National Security Affairs

This course examines specific aspects of national security affairs. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5503 – Directed Readings in African American Studies

This course examines specific aspects of the African American experience in the United States. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5504 – Directed Readings in Native American Studies

This course examines specific aspects of the Native American experience in the United States.. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5505 – Directed Readings in Sociology

This course examines specific aspects of sociology and the role of social groups. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5506 – Directed Readings in Anthropology

This course examines specific aspects of anthropology and the study of the human experience. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5507 – Directed Readings in Public Policy

This course examines specific aspects of public policy. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s

guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5508 – Directed Readings in Gender

This course examines specific aspects of gender. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5509 – Directed Readings in Diversity

This course examines specific aspects of diversity. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5510 – Directed Readings in Environmental Studies

This course examines specific aspects of environmental studies. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5511 – Directed Readings in Children, Youth and Families

This course examines specific aspects of children, youth and families. It is designed so it may be taken as an independent

study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5512 – Directed Readings in Crime and Society

This course examines specific aspects of crime and its impact on society. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5513 – Directed Readings in Poetry

This course examines specific aspects of poetry. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5514 – Directed Readings in Transformational Poetry

This course examines specific aspects of poetry and its use as a means of transformation. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5515 – Directed Readings in Short Stories

This course examines specific aspects of the short story. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5516 – Directed Readings in Philosophy

This course examines specific aspects of philosophy. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5517 – Directed Readings in Family Violence and Society

This course examines specific aspects of family violence and its impact on individuals, families, and society. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5518 – Directed Readings in Creative Writing

This course examines specific aspects of creative writing and the writing process. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the

directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5519 – Directed Readings in Political Science

This course examines specific aspects of political science. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5520 – Directed Readings in Fantasy Fiction and Society

This course examines specific aspects of fantasy fiction and how it may be used to depict various social issues. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5521 – Directed Readings in African Studies

This course examines specific aspects related to Africa. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5522 – Directed Readings in Multiculturalism

This course examines specific aspects of multiculturalism. It is designed so it may

be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5523 – Directed Readings in Communication

This course examines specific aspects of communication. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5524 – Directed Readings in African Diaspora

This course examines specific aspects of the African Diaspora. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5526 – Directed Readings in Asian Studies

This course examines specific aspects related to Asia. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5527 – Directed Readings in Latin American Studies

This course examines specific aspects related to Latin America. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5528 – Directed Readings in Middle Eastern Society

This course examines specific aspects related to the Middle East. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5529 – Directed Readings in Caribbean Studies

This course examines specific aspects related to the Caribbean region. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5530 – Directed Readings in Social Justice

This course examines specific aspects related to social justice. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final

project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5531 – Directed Readings in Humanitarian Relief

This course examines specific aspects related to humanitarian relief across the globe. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5532 – Directed Readings in Human Rights

This course examines specific aspects related to human rights domestically or internationally. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5533 – Directed Readings in Economics

This course examines specific aspects related to economics. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5534 – Directed Readings in Economic Development

This course examines specific aspects related to economic development. It is designed so it may be taken as an

independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5535 – Directed Readings in Community Development

This course examines specific aspects of community development. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5536 – Directed Readings in International Development

This course examines specific aspects of international development. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5537 – Directed Readings in Intelligence and Counterintelligence

This course examines specific aspects related to intelligence and counterintelligence as related to national and international security. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the

enhancement of subject matter knowledge and expertise.

MACS 5538 – Directed Readings in Homeland Security

This course examines specific aspects related to homeland security. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5539 – Directed Readings in History

This course examines specific aspects related to history. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5540 – Directed Readings in American History

This course examines specific aspects related to American history. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5541 – Directed Readings in Religion and Society

This course examines specific aspects related to religion and its impact and role in society. It is designed so it may be taken as an independent study or with a small

group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5542 – Directed Readings in Spirituality and Society

This course examines specific aspects related to society and its impact and role in society. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5543 – Directed Readings in Genocide

This course examines specific aspects related to genocide and its causes and impact on society. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5544 – Directed Readings in Writing and Art

This course examines specific aspects of writing and the writer's relationship with artists and their work. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5545 – Directed Readings in Slavery

This course examines specific aspects related to slavery, including its causes and impact on society. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5546 – Directed Readings in Human Trafficking

This course examines specific aspects related to human trafficking, including causes, social, political, and economic implications and the effects on society. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5547 – Directed Readings in Tribal Dynamics

This course examines specific aspects related to tribal dynamics. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5548 – Directed Readings in Islam and the State

This course examines specific aspects related to Islam and the State. It is designed so it may be taken as an independent study or with a small group

of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5549 – Directed Readings in Environmental and Governmental Affairs

This course examines specific aspects related to the environment and governmental affairs. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5550 – Directed Readings in Pre-Socratic Philosophy

This course examines specific aspects related to Pre-Socratic Philosophy. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5551 – Directed Readings in Higher Education

This course examines specific aspects related to Higher Education. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5552 – Directed Readings in Health

This course examines specific aspects related to the health field. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5553 – Directed Readings in Comparative Politics

This course examines specific aspects of Comparative Politics. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5554 – Directed Readings in Compassion

This course examines specific aspects of compassion. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5555 – Directed Readings in International Relations

This course examines specific aspects of world politics and is intended to give the student a better understanding of international relations and the complex issues and perspectives affecting the world community. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's

guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5556 – Directed Readings in Education and Society

This course examines specific aspects of education and its impact and role in society. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5557 – Directed Readings in Children, Education and Society

This course examines specific aspects of children and education and their impact and role in society. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5558 – Directed Readings in Children and Society

This course examines specific aspects of children and their impact and role in society. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5559 – Directed Readings in Grant Writing

This course examines specific aspects of grant writing. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5560 – Directed Readings in Terrorism

This course examines specific aspects of terrorism. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5561 – Directed Readings in Polygraph and Interview Techniques

This course examines specific aspects of polygraph and interview techniques. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5562 – Directed Readings in Writing

This course examines specific aspects of writing and the writing process. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for

the enhancement of subject matter knowledge and expertise.

MACS 5563 – Directed Readings in Non-Fiction

This course examines specific aspects of non-fiction writing and the writing process. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5564 – Directed Readings in National Intelligence History

This course examines specific aspects of the history of national intelligence. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5565 – Directed Readings in Critical Incidents in Intelligence/Counterintelligence

This course examines specific aspects of critical incidents in intelligence/counterintelligence. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5566 – Directed Readings in Analysis of Open Source Intelligence

This course examines specific aspects of analyzing open source intelligence. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5567 – Directed Readings in Museum Studies

This course examines specific aspects related to a museum and its operation. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5568 – Directed Readings in Non-Profit Organizations

This course examines specific aspects related to non-profits and its operation. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5602 – Marine Ecosystems

A study of the major plankton, nektonic, and benthic groups and associations, including their diversity, distribution, metabolism, production, trophic relationships, and ecological roles, with emphasis on coastal communities.

MACS 5603 – Biostatistics

This web-based distance education course introduces students to the fundamentals of statistics. More specifically, this course is designed to teach students: 1. how statistics relates to science and life in general. 2. Basic terminology and notations used in statistics 3. Techniques for describing and summarizing large amounts of data. 4. Methods for using a limited set of observed data (sample) to make inferences about a broader set of data (population) 5. Techniques for conducting statistical tests of scientific hypotheses at the end of this course, students should be able to identify appropriate procedures for examining different types of data, analyze data and interpret results, use statistical results to draw reasonable conclusions about data, and evaluate the appropriateness of statistical tests conducted by others.

MACS 5604 – Marine Geology

The objectives of the course are (1) to enable students to examine the structure, evolution and stratigraphy of the ocean basins and continental margins, and (2) to provide an understanding of the dynamic processes that shape the surface of the earth under the ocean surface.

MACS 5605 – Marine Chemistry

A web based study of the properties, composition, and origin of seawater; the importance, distribution, relationships, and cycling of major inorganic nutrients, dissolved gases, carbonate species, trace metals, radiotracers and organic compounds. The course is designed for students pursuing careers in marine biology and coastal management. It includes unit quizzes, online discussions, a literature research paper and a final exam.

MACS 5608 – Introduction to Physical Oceanography

This course is intended to give students a view of how wind, radiation, gravity, friction, and the Earth's rotation determine the ocean's temperature and salinity patterns and currents. Some important processes we will study include

heat budget of the oceans, exchange of heat with the atmosphere and the role of the ocean in climate, surface mixed layer, waves in the ocean, geostrophy, Ekman transport, Rossby waves. Students will learn how to explain physical features of the ocean ranging from microscopic turbulence to global circulation.

MACS 6000 – Organizational Conflict: Theory & Practice

This course examines consultation as used by dispute resolution professionals through the exploration of various consultation models: process, third party, expert, and systemic approaches to program and organizational evaluation. Students are oriented to the ways in which consultants establish, market, and develop their professional practices. Offered summer.

MACS 6110 – Public Policy and Strategic Planning

This course focuses on the theories and the analysis of public policy including the design, implementation and evaluation of legislation on the local, state, national and international levels. It includes current policy issue analysis emphasis with an emphasis on the role of public policy and strategic planning.

MACS 6120 – Culture and Conflict: Cross-Cultural Perspectives

This course examines the nature and meaning of conflict, conflict management techniques, and the assessment of conflict situations from a cross-cultural perspective. Explores various models for training third parties to function effectively in handling disputes where cultural differences are a significant factor. Also addresses various theoretical and practical implications of indigenous conflict management techniques and beliefs found in different cultural settings. Offered Fall.

MACS 6130 - Practicum I: Supervised Field Experience

This course is a field research project that incorporates classroom knowledge and

real-world settings. Students will demonstrate their ability to apply theory to practice and analyze situations utilizing knowledge from previous course work. Offered Fall and Summer terms.

MACS 6140 – Facilitation Theory & Practice

This course develops students' skills in working with groups. It incorporates theories and models of group dynamics, facilitation, and group development, as well as workshop development and delivery. This course uses a practice-based approach, including role plays and workshop presentations. Prerequisites: MACS 5040. Offered all terms (fall and winter – on-line; summer on campus)

MACS 6160 - Practicum II: Supervised Field Experience

This course is a field research project that incorporates classroom knowledge and real-world settings. Students will demonstrate their ability to apply theory to practice and analyze situations utilizing knowledge from previous course work. This is a continuation of MACS 6130. Prerequisites: MACS 6130. Offered Fall and Winter terms.

MACS 6170 – Violence Prevention & Intervention

This course examines various theories of human aggression and violence, exploring their underlying assumptions about human nature and the causes of violence. Also included is an introduction to a range of violence intervention and prevention approaches developed for use at the interpersonal, intergroup, and societal level. Offered Fall.

MACS 6299 – Foundations of Qualitative Research

This course introduces students to the epistemological, theoretical, methodological, and procedural foundations of qualitative research. Students will learn common factors qualitative approaches to inquiry share as well as learning the specifics of the major qualitative research methodologies such

as generic qualitative description, grounded theory, phenomenology, ethnography, narrative analysis, and discourse analysis. Students will also be introduced to the variety of professional settings in which qualitative research is utilized including academia, business and organizations, international development, and private consultation. Offered Fall.

MACS 6300 – Master’s Thesis

Focuses on the development and writing of the master's thesis. When approved, students register for three credits per term for first two terms. Additional registration will be required until completion of thesis – see program office for details. Prerequisites: approval of the program director and thesis committee.

MACS 6301 – Qualitative Data Collection

The course provides students an opportunity to learn the basics of qualitative research design with a focus on qualitative data generation, collection, and preparation. Students will learn how to select appropriate research sites, gain access to data sources, design and manage sampling strategies, conduct individual and group interviews, carry out field observations, collect documents, transcribe, and compose field notes. Students will also learn quality control measures such as maintaining research journals and diaries. Offered Winter.

MACS 6302 – Qualitative Data Analysis I

This course covers best practices in generic qualitative, ethnographic, and grounded theory analysis. Students will learn how to conduct within-case and across case analysis, coding and conceptualization, transforming data, and report writing. Students will also learn quality control measures such as constant comparison, member checking, peer debriefing, and conducting audit trails. Offered Fall.

MACS 6303 – Qualitative Data Analysis II

This course covers best practices in phenomenology, narrative inquiry, and discursive analysis. Students will learn

how to conduct thematic analyses, phenomenological reduction, creative synthesis, microanalysis, and report writing. Students will also learn quality control measures such as bracketing, epoché, and verisimilitude. Offered Winter.

MACS 6304 – Appraising Qualitative Research

This course covers the appraisal and review of products emanating from qualitative research including papers, articles, posters, grant proposals, books, book prospectus, dissertations, theses, and systematic reviews. Students will learn how to assess the quality of qualitative research products, construct and use criterion-based rubrics, and compose reviews. Students will also serve as ad hoc reviewers for The Qualitative Report (TQR). Offered occasionally.

MACS 6305 - Qualitative Research Design

This course covers knowledge and skills needed to design a qualitative research study and compose a qualitative research proposal. Students will learn how to construct and justify a qualitative research study, synthesize the relevant research literature, generate discovery-oriented research questions, select sites and samples, create a manageable method including a quality control system, address ethical issues, and discuss potential implications and limitations. Students will compose their own qualitative research proposals and Institutional Review Board for the Protection of Human Subjects (IRB) protocols and consent forms offered summer.

MACS 6306 – Conducting Qualitative Research I

This course covers the activities involved in the initiation of a qualitative research study. Students will start the study they proposed in MACS 6305 Qualitative Research Design. Offered occasionally.

MACS 6307 Conducting Qualitative Research II

This course covers the activities involved in the culmination of a qualitative research study. Students will complete the study they proposed in QRGP 6305 Qualitative Research Design and started in QRGP 6306 Conducting Qualitative Research I. Offered occasionally.

MACS 6308 - Writing Qualitative Research

Students will learn how to write up their qualitative research inquiries from the earliest steps of their studies through the manuscript submission process using writing and representational styles consistent with their research design and purpose. To this end, students will produce their own original qualitative research papers that incorporate the basic elements of qualitative research reports and best practices for communicating their methodological choices and research findings in transparent and coherent prose. Students will also learn how to evaluate the quality of their compositions and revise their drafts via the use of rubrics and manuscript checklists. While it is not necessary that other Qualitative Research courses have been taken in the Certificate Program, it is a requirement that you have conducted your own research – this course will assist writing up results of a qualitative study. Offered occasionally.

MACS 6309 - Arts-Based Qualitative Research

This course presents various ways in which to incorporate arts-based strategies into qualitative research design, in order to generate additional data, address researcher bias, deepen qualitative analysis, and enhance the presentation of research findings. For example, the course will explore ways in which the use of collage can be used to both strengthen researcher bracketing and reflexivity, as well as a data generation technique in combination with journaling. The course will also address how poetry can be used as a technique to both validate and represent research findings; students will practice found data poetry in developing

findings, and the use of various poetic forms to convey key findings. In addition, students will be introduced to photo voice, a method that involves study participants taking photos to capture their lived experience and understandings of particular social phenomena. Throughout the course, ethical issues related to arts-based qualitative research will be considered and discussed. Offered occasionally.

MACS 6310- Auto ethnography

This course introduces students to the historical, epistemological, theoretical, methodological, and procedural foundations of auto ethnography. Students will learn a variety of approaches to auto ethnography including individual, collaborative, critical, interpretive, and transformational forms and will practice appraising the quality of different types of auto ethnographic reports. They will also learn how to conceive and conduct an auto ethnography. Offered occasionally.

MACS 6322 – Food Web Dynamics

A food chain is simply "who eats what". A food web weaves together many food chains to form a complicated network of feeding relationships. Many animals eat more than one thing, and each link in each chain is important and integral to the entire system. The interactions in a food web are far more complex than the interactions in a food chain. This course is designed to study the basic components and processes of trophic dynamics, how these comprise different marine ecosystems and how these systems can be altered.

MACS 6332 – Human Sexuality and Gender

Reviews the psychosocial development of sexuality and gender from childhood through old age. Summary of clinical approaches to sexual and gender problems, comparing interactional approaches with psychodynamic and behavioral models.

MACS 6340 – Marine Mammals

This course provides an overview of the anatomy, biomedicine evolution, husbandry, natural history, pathology, and physiology of the cetaceans, pinnipeds, sirenians, and allies.

MACS 6550 – International Perspectives in Counseling and Therapy

The course is designed to review issues relevant to the practice of couples and family therapy in an international context. Issues explored during the course include: the adaptation of western models of therapy for practice in other countries; immigrant family experiences and the relevance to clinical practice in the US; and global ethical issues in counseling and therapy. Specific cultures reviewed during the course will include Mexico, China, Cambodia, South America and India, to name a few. The content of the course is designed to build on the Family Theory course. This course will include a continued review of some of the major historic leaders or selected therapy models, model specific vocabulary, clinical techniques and theoretical conceptualizations. As part of the course, students will learn to become more sophisticated with regard to their understanding of family functioning and the role of therapy in an international context.

MACS 6599 – Assessment of Credibility – Theory and Implications

Students will explore a broad range of contemporary thought, discussion, and scientific research, relevant to the assessment of credibility with the goal of developing a base of knowledge for the assessment of statements made by, or on behalf of, individuals, groups, political parties, and government, both domestic and foreign. Topics that will be explored include, but are not limited to, the "making and unmaking of ignorance", defining what constitutes a "lie", the ubiquitous nature of lying, the many reasons for lying, and how lying is used in varying contexts by individuals, business, and government.

MACS 6600 – International Conflict Resolution

This course reviews international conflict resolution in many settings and includes informal mediation by private interveners and scholar practitioners; formal mediation by individual, regional, transnational, and international organizations; and mediation within small and large states.

MACS 6603 – Resolving Environmental & Public Disputes

This course focuses on the theoretical bases, practical applications, process orientations, and actual intervention into complex multiparty, multi-issue public disputes. Focus is on social/environmental interactions and sources of political and economic conflict over human health environmental protection and natural resource scarcity. Offered occasionally.

MACS 6604 – Gender & Conflict

This course examines gender roles in conflict and how conflict is experienced and perceived by men and women. Course material includes feminist theories, men's studies, religion, literature, history, anthropology, film, television, psychology, the justice system, and alternative dispute resolution. Offered occasionally.

MACS 6605 – Introduction to Institutional Assessment

Introduction to Institutional Assessment: This course will introduce students to the field of institutional assessment and planning, emphasizing the higher education environment and its unique challenges. Students will explore the functions of educational institutions across systems, develop an understanding of the concepts of institutional assessment and administrative issues in higher education, learn to use core technologies and methodologies for research applications, and build experience navigating the political and interpersonal dynamics that promote effective institutional assessment. Offered occasionally.

MACS 6607 – Ethnopolitical and Community Based Conflicts

This course introduces the major methods used by states, international organizations, and conflict resolution practitioners to eliminate, manage, and resolve ethnic and community-based conflicts. Case studies are used to explain conflict escalation and de-escalation, and mechanisms of conflict intervention. Offered occasionally.

MACS 6608 - Nonviolent Social Movements

This course focuses on 20th-century nonviolent social movements such as the women's rights and suffragist movement; Gandhi's prolonged struggle against British colonialism; Martin Luther King, Jr., and the American Civil Rights movement; the American peace movement against the war in Vietnam; and the nonviolent movements that resulted in the end of communist rule in Eastern Europe.

MACS 6610 – Family Violence: The Effects of Families, Communities & Workplaces

This course explores the overall effects of trauma and violence on individuals, families, communities, and the workplace. Issues of abuse, violence, and systemic responses are explored in relation to their effect on individual behavior, family dynamics, service provision, and community systems. Methods for identifying such issues in the context of family mediation and other types of conflict intervention are explored. Offered occasionally.

MACS 6611 – Race and Ethnic Relations in America

The course examines the social constructionist approach toward the study of racial and ethnic conflict and analysis in the U.S. It is designed to assist students in increasing their ability to analyze racial issues from a historical to a contemporary perspective and to explore some of the basic theoretical paradigms that have been used to conceptualize the idea of race and ethnicity from the 19th Century to the present in the U.S. The

course will also explore the effects of contemporary policies in addressing racial and ethnic inequities and strategies used to combat racism. Offered occasionally.

MACS 6613 - Arbitration Theory and Practice

The purpose of this course is to help understand the theory and processes of arbitration for a wide variety of cases. The course will cover the nature, enforceability and scope of arbitration clauses; other requirements to arbitrate; the powers of arbitrators; issues that typically arise in arbitration; the conduct of arbitration hearings; the remedies available in awards under federal and state law; and proceedings to confirm or to modify or vacate arbitration awards.

MACS 6614 – Workshop Development

This course helps students to create a connection between the graduate program and professional life by learning how to create, develop, and present workshops and training in the field of conflict resolution. Students will learn concepts and principles necessary to create and design workshops for adults and for children. Students will actually develop and present workshops in class in order to gain experience, have a finished product, and get valuable feedback from participants. Offered winter.

MACS 6615 – Storytelling: Identity, Power & Transformation

This course will examine the role of narrative and storytelling in the conflict resolution theory, research, and practice: (1) Theory regarding the relationship between language and power will be reviewed. How storytelling and narrative can be a part of destructive conflict or constructive conflict resolution will be explored. (2) The nature of narrative-based research and how such research can be empowering will be examined. (3) Case studies and possibilities for using storytelling-based projects as a means of peace building will be discussed. Offered occasionally.

MACS 6616 – Trauma & Violence: Global Perspectives

This course will look at issues of war, regional violence, torture, forced relocation, ethnic cleansing, rape and other issues related to regional conflict, and then focus on conflict intervention models. Relief and assistance programs from humanitarian relief, the Red Cross, UN programs, Quaker NGO's, Christian relief efforts, and others will be examined with a focus on trauma intervention as a conflict resolution career option. Discussion will center on how conflict specialists can connect, work with, and influence humanitarian aid efforts, capacity building, democratization efforts, and conflict transformation projects.

MACS 6618 – The Reflective Practitioner: Consulting, Conflict, and Change in Organizational Settings

A hands on, clinically based course in which students will form consulting teams (like in consulting firms) and actually do consulting in the community. Offered occasionally.

MACS 6619 – Strategic Community Planning

An overview of the community form a strategic perspective, identifying: social, economic, demographic and cultural trends and patterns within the community; areas of concern for law enforcement and government; ways to initiate and develop community-wide strategic planning for peaceful community relations and growth; building community partnerships between law enforcement, the criminal justice system and community justice; and the use of data, data collection and analysis in developing and implementing collaborating long and short terms plans for community development, problem solving and funding initiatives. Offered occasionally.

MACS 6621 – Introduction to Human Rights Theory & Practice

This course provides students with an introductory survey of political, philosophical, historical, economic, and

legal considerations related to fundamental human rights concepts. Students will examine human rights issues in both domestic and international arenas. In particular, the course addresses the issues of the ideological and cultural origins of human rights theory; the sources of rights and rights violations; the impact of the nation-state system, governments and other institutions (such as corporations, churches, and universities), and domestic and foreign policies particularly of the U.S. on human rights law and enforcement. Finally, students examine the wide variety of political, civil, economic, social and cultural rights warranting protection. Offered occasionally.

MACS 6622 – Legal Concepts

This course will provide an overview of the U.S. legal system as it relates to alternative methods of resolving conflicts. Students will learn legal terminology, the judicial system, judicial procedures, the fundamentals of legal research and legal writing, and where alternative methods such as mediation and arbitration relate to legal processes. Students will also explore legal and procedural concepts such as: collaborative legal practices, state and federal authority, restorative justice, victim-offender programs, and the relationship between U.S. and international legal procedures. The class will be interactive with research, writing, class presentations, and guest presentations. Offered occasionally.

MACS 6623 – Practicum III

This course is a more advanced field research project that incorporates classroom knowledge and real-world settings. Students will demonstrate their ability to apply theory to practice and analyze situations utilizing knowledge from previous course work. Pre-requisite – Program Approval Required.

MACS 6624 – Advanced Practicum

This practicum experience is a faculty-driven experience in which a faculty member will design a project in

conjunction with another organization or university and students selected for the practicum will work on that project with the faculty member. The project may also entail a one to two week mandatory field experience in which students and the faculty member will work on the project on location. Students will be responsible for their expenses. Students will apply for this practicum and must be selected.

MACS 6625 – Global Field Studies in Conflict Resolution

The Global Field Studies Practicum Course in Conflict Resolution incorporates a field-immersion component as part of this practicum course. It is developed around principles of multidisciplinary conflict analysis, management, and resolution which promote scholarship of engagement in communities through research, education, and practice. This course provides a solid knowledge base by the application of conflict resolution concepts through experiential learning that lead to professional development. The field experience enhances students' cross-cultural skills, appreciation and understanding of diversity and global issues. During the course students are exposed to a diverse community of researchers, practitioners, policy makers, who share with students their experience and career journeys. The course provides for the enhancement of students' career development plans and requires the completion of all required practicum forms and paperwork. For their final project students are expected to work with a partner organization developing research, training, or consultancy projects where students apply theoretical concepts within a practical framework.

MACS 6626 – Conflict Resolution for the School and School System

This course is designed for anyone in a position to influence school policy, practice, and decision-making, from within or as a consultant. The course takes a systems approach to resolving conflicts within the school and school system, applying conflict analysis and conflict

resolution models to conflict situations, using negotiation, mediation, and facilitation processes, developing a conflict resolution culture throughout the system, providing training for parents, teachers, students, and school board. The course also examines methods to manage conflict, including using conflict resolution practices in crisis situations, and mediating and negotiating with parents, teachers, administrators, and students. The course uses a case study method. Offered occasionally.

MACS 6627 – Conflict Resolution & Peer Mediation for Students: Elementary, Middle and High School Levels

This course is designed to bring conflict resolution and peer mediation training to students at the classroom, school, or school system level with the objective of transforming student/classroom/school conflict resolution culture. Students will examine the elements of conflict resolution and peer mediation curricula, materials and resources in the field, and current research. Students will also do original curriculum/peer mediation design by integrating state-of-the-art thinking in conflict resolution methods, theories, and research into the design, implementation, and institutionalization of conflict resolution and peer mediation programs. Pre-requisites: MACS 5100. Offered occasionally.

MACS 6630 – Foundations of Genocide Studies

This course is a survey of the causes, forms, and nature of genocide. The course addresses the complexities in differentiating human rights violations and crimes against humanity, from genocide and government sponsored mass murder. Theoretical and applied cases studies will facilitate student engagement. The course will serve as an introduction to the theories and applied practices utilized in analyzing acts of genocide. Issues addressed throughout the course will include: genocidal intent, eugenics and genocide, demographic

purging, as well as mass and public extermination. Offered occasionally.

MACS 6633 – International War and Resolution

This course focuses on various aspects of internal war and peace. Topics of discussion include defining war, historical patterns of warfare, motivations to engage in such conflict, as well as efforts to deter or resolve international war. Offered occasionally.

MACS 6634 – Metropolitan Conflict

This course will explore historical and theoretical explanations for the different types on conflict prevalent in various metropolitan areas. A series of case studies, focusing on both cities within the United States and abroad, students will explore such topics as the role of ethnicity in conflict, structural inequalities of the system, urban/suburban relations, urbanization, and metropolitan growth and development.

MACS 6635 – Advanced Facilitation: Facilitating Complex group Problem Solving

This course focuses on facilitation in complex problem situations. The focus will be on intercultural settings. Various approaches to complex facilitation are introduced, with special attention to dealing with difficult parties and the principles of Interactive Management (IM). This course will provide students with the skills necessary to perform a facilitation workshop with a computer-assisted program developed to resolve complex problems. Students will gain experience as participants in problem-solving sessions, which they will study and analyze. Class sessions will consist of role-plays, discussion and analysis, and presentation of information. Prerequisites: MACS 6140. Offered occasionally.

MACS 6638 – Conflict & Crisis Management Theory & Practice

This course is an overview of the theories of conflict and crisis management and the

intervention models and protocols used. Conflict and crisis management will be explored among and between individuals and groups, organizations, communities, and governments around the globe. Topics will include the management of violent conflicts, such as kidnapping, hostage-barricade and terrorist acts, homeland security, and the response to natural disasters. There will be interactive exercises as well as a case study approach used. Offered winter.

MACS 6639 – Organizational Conflict Intervention

This course will explore the diagnostic techniques and tools necessary to assess organizational conflict, and tools necessary for successful intervention. Prerequisite: MACS 6000.

MACS 6640 – Critical Incidents Response

This course will provide an in-depth analysis and understanding of inter-group and intra-group dynamics associated with the organizational response to critical incidents such as hostage/barricade management, terrorism, kidnapping, natural and other disasters, and tactical operations, which comprises the negotiations team, the tactical team, and the on-scene commander, as well as coordination of efforts with government, organizations, and the community. Topics include: inter-group and intra-group conflict intervention and communication strategies, negotiation, tactical, and command protocols, hostage/barricade resolution continuum options, and case studies. Offered summer.

MACS 6641 – Conflict and Crisis Negotiation

This course will provide an overview of law enforcement crisis negotiation and its application to crisis situations, such as domestic violence encounters on an individual level and hostage/barricade encounters on an organizational level. Lecture, expert demonstration, and interactive negotiation with role play will provide an experiential learning environment for understanding and

applying active listening skills, empathy, rapport, influence, and behavioral change concepts to conflict and crisis situations. Offered fall.

MACS 6643 – Social Aspects of Terrorism

This course will examine a wide range of different cultures and societies with a special emphasis placed upon political violence. Regions explored are: Basque country, Chechnya, Colombia, Northern Ireland, Palestine, Sri Lanka, and Zimbabwe. Of particular importance are the dimensions of terrorism, trauma, and violence through an understanding of colonialism, discourse, history, material culture, media, rebellion, revolution, and separatism. Additionally, the course will focus upon the causes of 9/11 and the recent fomentation of international terrorism. By exploring the subject of terrorism from an anthropological perspective will demonstrate the complexities and various interpretations concerning the political uses through the appreciation of interdisciplinary analysis.

MACS 6644 – Consulting with Leaders in Organizational Conflict: A Four Framed Approach

Studies clearly show that successful leaders of twenty-first century organizations need to make sense of complex conflict situations before taking action. This course combines theory and practice to equip students to assist organizational leaders in developing both diagnostic and behavioral sophistication by using multiple frames before taking action. Participants will engage in classroom learning, on-line assistance, and leadership coaching with a client and organization of their own choosing.

MACS 6645 – Indigenous Systems of Conflict Resolution

This course is designed to make contributions to the field by exploring the processes of conflict resolution and peacemaking as practiced by the indigenous communities around the world. Class members will engage in an in-depth exploration of techniques of

peacemaking, as practiced in various parts of the world.

MACS 6646 – The Anthropology of Peace and Conflict

This course will explore the social dynamics of disputing and undertaking detailed examinations of specific cases. By examining diverse expressions of conflict and different means of controlling it, students will deepen their understanding of conflict analysis and broaden their perspectives on how disputes can be managed. Course topics will include the cooperative and aggressive components of human nature, the social construction of violence, genocide, and war, and the relationship between conflict resolution, social control, inequality, and justice.

MACS 6647 – Risk Management for Organizations

This course examines risks across all types of organizations, including healthcare. The course will outline various types of risk exposures including pure, operational, project, technical, business and political. Students will learn how to develop a systemic risk management program for any organization through risk identification, qualitative impact analysis, quantitative impact analysis, risk response planning, and risk monitoring.

MACS 6648 – Researching Conflict

In this course, students and instructors will together conceptualize, design and carry out a mixed methods research study on a topic connected to violence. The students and instructors will decide on a research problem to be studied. The goal of the elective is to help students deepen their understanding of quantitative and qualitative research and hone research skills. The course will be a collaborative effort, building on the experience, knowledge, expertise, and interest of all of the participants. Prerequisites: MACS 5200

MACS 6650 – International Negotiation: Principles, Process and Issues

This course describes and analyzes the major principles, processes and issues of international negotiation in the twentieth and twenty-first centuries. It seeks to provide students with the analytical tools skills required to explain and predict the outcome of specific (bilateral or multilateral) negotiations through the study of various explanation factors, including: stability and change in the structure of the existing "international system"; the individual characteristics of the nations-states parties (power/capabilities, interests, culture/values, negotiating styles, etc.; the strategic and tactical moves of those considered as "key players"; as well as the role of smaller states and non-state actors.

MACS 6651 – Theories of Ethnicity & Nationalism

Theories of Ethnicity and Nationalism: This course is foundational for theoretical understandings of ethnicity and nationalism. Students will analyze general theories from key debates and critically examine various points of view in relation to defining boundaries, conflict, context, difference, identity, migration, minority/majority, race and tribalism in regard to ethnicity, as well as community, fantasy, ideology, neo-Marxism, modernism, perennialism, political, primordialism, semiotic, sociocultural, socioeconomic, imagination, invention, and tradition in association with nationalism and nationalists, and the entwinement and interrelation between all of these prevalent notions and themes. Upon completion of the course students will better grasp ethnic belonging, ethno-nationalist conflict, and intra/inter-group disputes from the standpoint of applied theory, cultural relativity, and humanism.

MACS 6652 – History, Memory and Conflict

By exploring the significance of history, memory, and cognition, this course provides the most recent theoretical debates on these issues and their significance for understanding why

populations persist in a state of violence. Students will be introduced to the basic and major theoretical interpretations and the chronology of history of ideas. Questions to be considered include: how does the past become the present and remain in it, and, how do we as researchers interpret the relevance of history and memory? Others are: how is the past invented, mythologized about, and re-invented? Why does memory have such an important role in the persistence of intractable hostilities and how does the learning of violence become transmitted from one generation to the next?

MACS 6653 – Conflict in Conservation and Development

This course examines conflict in conservation and development. It covers theoretical frameworks and introduces participatory tools that will enable students to more effectively analyze and address situations of conflict in conservation and development initiatives. The course familiarizes students with concepts and methods from natural resource management, sustainable livelihood systems and collaborative learning approaches.

MACS 6654 – Islam, Conflict, and Peacemaking

This course will provide an historical overview of Islam, including an introduction to belief systems, the different branches of the faith and schools of Islamic law with a special emphasis on Muslim doctrines related to conflict and peace. It will include the contemporary era and investigate Muslim engagements with modernity and discuss the varied responses and perspectives. There will be some discussions of international relations, but the course will also emphasize micro level issues. Students will have the opportunity to develop research projects designed to extend their understanding of Islam and its potential as a resource for peace building.

MACS 6656 – Gender, Conflict and International Development

This course provides the student with essential understanding of factors that shape the social, political and economic roles of women and men in developing countries. The course covers the concepts of gender in conflict resolution and peace building by examining women and men's human rights and security, and the consideration of gender within developmental policies. The course provides an overview of concepts and gender analysis frameworks from a historical perspective. Students examine specific projects aimed at integrating women into community development.

MACS 6657 – Conflict Coaching Theory and Practice

This course examines the growing use of conflict coaching as a conflict intervention process and introduces different models and related theoretical foundations. The integration of theory and practice will emphasize the various stages including identity framework, narrative, needs assessment, goal setting, and feedback, utilizing a relational and systems orientation. The course develops coaching skills, strategies, and knowledge, and uses a practice-based approach, including role-plays and case studies.

MACS 6658 – Transformational Narratives

Across cultures, people effectively communicate about their conflicts and issues through narratives. In any helping profession, it is effective to create useful change with a clear understanding of the strategies of transformational narratives. By understanding what creates change in stories, we can help people rewrite their own accounts in ways that redefine their possibilities. This course offers analyses of narratives from traditions of conflict resolution and other interdisciplinary perspectives, promoting the ability to re-frame, refocus, and creatively intervene in stories of a personal and social nature to open useful possibilities for people who carry stories of unresolved struggle. Offered Summer.

MACS 6659 – Conflict and Peace Building in Africa

This course examines conflict and peace building dynamics in the African continent. Its content includes a survey of contemporary macro-level conflicts in Africa and an examination of their historical and more immediate causes. Class participants will explore the causes and effects of such conflicts and investigate prospects for constructive transformation. Past and ongoing resolution and peace building efforts will be discussed, and class members will propose a peace building strategy for a case of their choice.

MACS 6660 – Conflict Management in Groups: Overt and Covert Dynamics

The purpose of this course is to provide participants with the knowledge, skills and attitudes to be effective in groups with an emphasis on analyzing and managing overt and covert conflict. The course also examines issues of communication, leadership, power and authority in relation to group and interpersonal effectiveness. This course enables participants to cope with complex issues as they emerge in the natural life of small groups, large groups and organizations. Learning about group life is gained through direct experience in a temporary learning organization created in the course. The course is designed as a living laboratory where members can experience and explore group life as it occurs.

MACS 6661 – Middle Eastern Conflict

This graduate seminar explores the many different types of conflict found in the Middle East. It seeks to provide students with the analytical tools and skills required to explain the causes, understand the actors, and analyze and/or predict the outcomes of specific Middle Eastern conflicts. To meet these objectives we will evaluate broad types of Middle Eastern conflict such as religious, ethnic, and cultural, militarized conflicts, civil wars, and occupations. We will also evaluate Middle Eastern conflict negotiation, the

Middle East peace process, why negotiation and peace has failed, and what needs to be done so that Middle East peace could be achieved. Finally, we will look at the future of Middle Eastern conflicts.

MACS 6662 – Political Violence

Political Violence is a graduate seminar that explores the many different types of political violence; specifically looking at revolutions, terrorism, and transitional-institutional political violence. This seminar examines a wide range of topics in order to provide the student with a deeper understanding of political violence. We will engage in a thoughtful and in-depth examination of the definitions, causes, and consequences of political violence, as well as consider the different means to countering political violence.

MACS 6663 – Introduction to Peace Studies

This graduate seminar explores theories of peace and war, as well as the promotion of peace. This seminar provides students with an in-depth understanding various depictions of peace, emphasizing the concepts of positive peace, social justice, and international development. Peace will be examined systemically, highlighting connections between the experience of peace at the personal, community, national, and international levels. Students will therefore also investigate the relationships that human nature and culture have with peace, war, and violence. In addition, the course will investigate how international bodies promote peace and mitigate the effects of war. Students will also examine the causes of war and just war theory. The field of peace studies will be outlined as well, including a brief history of the field.

MACS 6664 – Restorative and Transitional Justice

This graduate seminar explores the theory and practice of both restorative justice and transitional justice. This seminar

provides students with an in-depth understanding of the theory upon which restorative justice and transitional justice practice rest. Various forms of practice, stemming from diverse practice settings, are also examined, including: victim-offender mediation, victim-offender dialogue in cases of severe violence, family group conferencing, peacemaking circles, and restorative justice practice in schools. The seminar offers students opportunities to role-play and practice restorative justice skills. Forms of transitional justice are also surveyed, particularly truth and reconciliation commissions and their work around the globe.

MACS 6665 – Irish Social Conflict

This graduate seminar explores conflict at the societal-level in Ireland. Two case studies will be used to investigate Irish conflict. First, the conflict over Northern Ireland will be examined. In this conflict, students will consider Ireland's historical conflict with Britain and how it led to the conflict between Irish Catholics and British Protestants in Northern Ireland. Then the current conflict dynamics and those of the recent past will be considered, culminating in the Good Friday Agreement and the relative state of peaceful co-existence that exists today. Different conflict resolution strategies employed in the conflict will also be examined (like the use of restorative justice). The course will also examine the intra-Irish social conflict between the settled Irish and the Irish travelers. The travelers had a historic role as tin smiths in Irish society but, as this livelihood was left behind, their nomadic lifestyle and different culture led to a broad, long-term societal conflict between themselves and the settled Irish. This seminar will explore this conflict and consider current conditions of travelers, some of the underlying drivers of the conflict (like culture and power differences), and some of the ways that travelers have attempted to protect their culture and lifestyle in Ireland (such as through the traveler's social movement).

MACS 6666 - Social Advocacy for Patients and Clients

This course examines strategies for developing advocacy toward marketing ideas, achieving buy in from others and shaping opinion. It includes strategies for developing advocacy on behalf of patients and clients in other settings as well as teaching individuals and other groups how to best advocate for themselves. The course will draw upon research in the fields of persuasion, power relations, and public advocacy. Topics covered will include: developing messages, context of communicating messages, emotional tenor of advocacy and creating a persuasive message.

MACS 6667 – Advanced Transitional Justice

War and large scale violence deeply scar individuals and societies. Peace does not come with the silencing of the guns and the danger of conflict resurgence is extremely high in the immediate aftermath of hostilities. Long term resolution of conflicts requires that the damage of past conflicts be addressed so as to enable societies to progress into peaceable, just futures. Transitional Justice has grown into a new subfield of study and it addresses some deeply challenging questions arising out of violence. How can societies torn apart by war, genocide, atrocities, and dictatorships emerge into a new and brighter future? Can people and citizens deeply scarred by violence learn to forgive, forget and/or co-exist? Or does true healing require punishment, vengeance, and retribution for crimes past? In this class we balance moral, legal, and psychotherapeutic theories against the realities of historical and contemporary examples. We will examine the solutions proposed so far including the International Criminal Court, Truth Commissions, Memorializations, Reparations etc. We will look at some specific exemplars such as South Africa, Bosnia-Herzegovina, Sri Lanka, Canada, Argentina and others.

MACS 6668 – Organizing Nonviolent Social Change

This is a practice course that aims to provide students with the skills necessary to make nonviolent social change happen. It grows out of experiences in legislative advocacy in Washington DC and community mobilization on conflict resolution and federal appropriations allocations for HIV Aids programming. Students will explore some of the practicalities of nonviolent social action and how to participate more effectively in initiatives. Cases of nonviolent struggle, principles of strategy, and the techniques and methods of nonviolent action will be covered. Some skills covered will be: How to frame messages for mobilization, how to raise funding (including taking advantage of internet use), how to work with the media etc. Students will be assigned skill based exercises like creating posters (hard copy or electronic), writing talking points for legislative testimony etc. We will use strategies from Gene Sharp and Saul Alinsky (tutor to Hillary Clinton and President Obama).

MACS 6669 – Theory and Practice of Peace Education

This course will introduce students to the central concepts, theories, current debates and cutting-edge practices as regards peace education. Essential questions include what peace education is, experiential learning, how do faculty design curriculum around peace education, how faculty can address nonviolence in the classroom, best practices in assisting students to understand the role of power and inequalities in conflict, and how to facilitate student (and teacher) understanding of entrenched historical conflicts.

MACS 6670 – Introduction to International Relations and International Issues

This course is an introduction to world politics and is intended to give the student a better understanding of international relations and the complex issues and

perspectives affecting the world community. We will investigate many aspects of international relations such as the dominate theories of international relations, the history of the nation-state, the definition of power, Islamic fundamentalism, terrorism, war, ethnic conflict, political economy, international institutions, transnational organizations, trade, modernization, dependency theory, imperialism, globalization, and the foreign policy of the United States and its impact on the world community. Students are expected to keep up to date with current global events by reading an international newspaper each day and being prepared to connect and apply those current events to the topics covered in class.

MACS 7220 – Fundamental Concepts of Climate Change II

The social consequences of a changing climate are numerous and have the potential to significantly alter human-livelihood and even create community conflict and unrest. In this course, which is one of the two required (core) courses for the Graduate Certificate in Marine and Coastal Climate Change, students will explore climate change from a social perspective. Where appropriate, the course will be explored in the context of the marine and coastal environment.

NSAM – National Security Affairs

NSAM 0620 – Management Information Systems

The application of information system concepts to the collection, retention, and dissemination of information for management planning and decision making. Issues such as personnel selection, budgeting, policy development, and organizational interfacing are discussed. Conceptual foundations and planning and development of management information systems. The role of MIS in an organization and the fit between the system and the organization

NSAM 0653 - Telecommunications & Computer Networking

This course provides a framework for understanding computer network functionality, characteristics, and configurations. Topics include network topologies, protocols, and architectures and emerging trends in network technologies and services. The role of optical technologies in supporting national and international implementations is explored. Strategies for network planning, implementation, management, and security are introduced. Recent advances in standardization, internetworking, and deployment of LANs (local area networks), MANs (metropolitan area networks), and WANs (wide area networks) are introduced.

NSAM 0683 - Fundamentals of Security Technologies

An overview of the technical aspects of information security. Issues discussed include authentication, confidentiality, access control, trust and non-repudiation. Investigation of fundamental assurance technologies that can be applied to interface specifications, architectures, and implementations of information security mechanisms. The selection of appropriate security applications, security lifecycles, and interoperability issues will also be covered.

NSAM 0684 – Information Security Management

Provides an understanding to implement effectively the information security vision and strategy set forth by the executive management. The emphasis will be on the management of an information security program. Focus is on the implementation of information security policy, information security planning, development of information security processes, and establishment of information security measures. Concepts and techniques from the management and organizational behavior disciplines will be integrated in order to identify and propose solutions to

the problems of information security administration.

NSAM 0685 – Information Security Governance

Challenges and opportunities of effectively governing an organization's information security requirements and resources. Information security governance lays out the vision for the information security program. Discussions include what constitutes good information security governance, and development of an effective information security strategy and policy. Also focuses on how to improve information security accountability, regulatory compliance, and maturity.

NSAM 0686 - Information Systems Auditing

Fundamental concepts related to an information systems audit. Principles and practices related to secure operation of existing information technology. Information security accountability, development of internal control objectives and framework, and identification of appropriate audit procedures for a secure information system.

NSAM 0687 – Information Security Management Project

This project course integrates all of the knowledge accumulated through the previous courses and serves as a capstone for the Concentration in Information Security. The class focuses on best practices demonstrated through case studies and systems assessment. Students may enroll in this class only after completing all of the information security concentration courses.

NSAM 5001 Current and Historical Issues

This course is an introductory seminar dealing with current and historical issues in American national security affairs. In the age of globalization and international terrorism it is imperative that we understand the history, topics, and concepts of national security affairs. The

pursuit of security involves a wide range of both domestic and international activities that fall under the umbrellas of political, economic, and military relations and procedures. This course examines the history of American security, the workings of the American national security institutions and organizations, cooperative security systems like NATO and the United Nations, international institutions, political violence, terrorism, war, and both domestic and international law on security. On all these topics, this course will emphasize both theoretical and practical issues that will further the student's knowledge of American national security affairs.

NSAM 5002 – Terrorists and Terrorism

This course analyzes terrorism from a number of perspectives including law enforcement (FBI), defense (DOD), and diplomatic (DOS) orientations in order to understand mitigation/prevention, preparedness, response, and recovery measures with regards to counterterrorism and antiterrorism. Individual (lone wolf) and group (Islamist) terrorist mindsets will be examined, as well as international and domestic domains. Offered Fall and Summer terms.

NSAM 5003 – National Intelligence Collection

This course examines the work of current and future managers in the federal intelligence and homeland security arenas. Students will be introduced to the various ways in which the social and behavioral sciences inform approaches to intelligence collection and analysis and how these scientific approaches can facilitate the goals of countering terrorism and hostile intelligence service actions. Specifically, the emerging field of "Futuristics" will be explored in this context so that managers can forecast, manage and create preferable future outcomes for their agencies and the nation. Offered Winter and Summer terms.

NSAM 5004 – Border Protection and Military Issues

This course is an in-depth analysis of the importance and the difficulties in security measures and tactics used to protect a sovereign nation's borders. Border protection is an essential part of National Security. The threats to domestic populations include drug-smuggling, terrorism, human and arms trafficking, and illegal immigration. Theoretical and applied case studies will facilitate student engagement. The course will serve as an introduction to the theories and applied practices of successful border protection. Offered Fall and Winter terms.

NSAM 5005 – Research and Evaluation in National Security Affairs

This course provides an in-depth introduction to the fundamental logic and principles of research design, with additional focus areas in critical thinking and analysis. Students will gain familiarity with key concepts in the philosophy of science and current debates over appropriate methods of data collection and analysis of the social sciences. Students will learn the differences between quantitative, qualitative, and mixed-methods research; from here the student will be introduced to the foundations of these approaches and learn what strategies, methods, and techniques are in use. Students will then be expected to formulate a research question, develop a set of hypotheses, develop a strategy for data collection, develop a literature review, and finally to formulate ways to operationalize their study. Offered Fall and Summer terms.

NSAM 5006 – Assessment of Credibility – Theory and Implications

Students will explore a broad range of contemporary thought, discussion, and scientific research, relevant to the assessment of credibility with the goal of developing a base of knowledge for the assessment of statements made by, or on behalf of, individuals, groups, political parties, and government, both domestic and foreign. Topics that will be explored

include, but are not limited to, the "making and unmaking of ignorance", defining what constitutes a "lie", the ubiquitous nature of lying, the many reasons for lying, and how lying is used in varying contexts by individuals, business, and government. Offered Fall term.

NSAM 5007 – Leadership in National Security Affairs

This course is designed to assist national security leaders in identifying and developing their leadership style, building effective relationships with critical stakeholders, developing strategies to building effective teams, and enabling leaders and followers to optimize decision-making in the workplace. Students review remarkable leaders, organizations, and teams in order to hone their own observation, sense-making, and innovating skills in a national security setting. Offered occasionally.

NSAM 5008 - Credibility Assessment: Methods and Implications

This is the second course in the realm of credibility assessment. Students will explore a broad range of issues, thought, discussion, and scientific research, relevant to the actual assessment of credibility using various contemporary methods. Topics that will be explored include, but are not limited to; defining what constitutes a "lie," the ubiquitous nature of lying, nonverbal and verbal cues to deception, non-instrumental forms of lie detection, and instrumental forms of lie detection. Offered Winter term.

NSAM 5009 – US Relations with Latin America

This course focuses on strategic analysis while examining historical relations between the United States and Latin America. The material is presented in three segments; strategic analysis, historical relations, and current issues impacting US relations with the southern hemisphere. The course will enhance knowledge and understanding of the history of US-Latin American relations and the application of strategic analysis to

those relations. The course will emphasize the strategic importance of Latin America to long term stability in the US. Offered occasionally.

NSAM 5010 – US Foreign Policy and National Security

This course examines the history of United States foreign policy from World War II to the present, with an emphasis on the emergence of national security as the dominant feature of policymaking in this period. In this class, we will explore the expanding global reach of U.S. interests since 1945, paying considerable attention to the role of the Cold War and the War on Terror in the creation of and continued expansion of a national security apparatus within the United States government. In readings and course discussions students will be exposed to key concepts such as the national interest and identity, isolationism and internationalism, and realist and idealist approaches to foreign policy. Students will also be exposed to the major schools of thought on US foreign policy, and develop a greater contextual understanding of contemporary policies and issues in national security. Offered annually, Fall only

NSAM 5014 – Ethical Issues in National Security

This course provides an introduction to moral reasoning through a philosophical examination of major ethical problems in the context of national security, such as those encountered by security professionals; intelligence gathering; military engagements; responses to terrorism, among others. The relationship between security interests and traditional democratic values such as, privacy, truth and honesty will also be explored. Student will be introduced to the idea that ethical problems are largely a matter of normative ethical (philosophical) theory. Annually, Fall only

NSAM 5015 – International Relations: Theory & Practice

This course is a survey of the dominant theories of international relations including (but not limited to) realism, liberalism, their neo-variants, as well as critical theories. The course will examine the “great debates” within international relations and apply these theories to historical case studies and current issues in U.S. national security. Annually Winter only

NSAM 5016 – Civil Liberties and National Security

This course focuses on understanding the interconnection between Civil Liberties and National Security. Both elements are important – the first being the mechanism by which the Republic as an entity protects itself and the second by which many of the principles of the Republic are protected. How these two elements are balanced and shaped by the needs of the day will be examined by focusing on the historical development of this interaction, as well as the modern intersection by looking at readings in history, law and politics.

NSAM 5020 – International Law and Institutions

This course introduces students to the sources of international law, treaty and custom, and explains how the International Court of Justice at The Hague as well as American courts work with international rules in deciding cases. It considers the operation of the United Nations in creating international norms and in handling international disputes. This course covers as well bases of international criminal jurisdiction, state recognition, sovereign immunity as well as state responsibility. After considering the critical and fundamental concepts in the field, the course will explore a few interesting transnational problems relating to security issues, namely controlling piracy, preventing human smuggling, and stopping terrorism. Odd Year Winter.

NSAM 5030 – American Government and Domestic Security

This course is examination of the domestic national security state. It will explore the ways that concerns over domestic security have shaped the actions of American government and conversely, the ways that the structures of American Government have shaped our responses to domestic security concerns. Even Year Winter

NSAM 5040 – Cyber Conflict and Statecraft

This seminar introduces the concept of international conflict in cyber space and the related statecraft involved in addressing American national security affairs while sustaining international relationships. This course examines the history of American cybersecurity, vulnerabilities to past attacks, and attempts to interdict and mitigate damage inflicted by future attacks on the national cyber system. Additionally, through examination of multiple international cyber conflicts a view of this component of the changing nature of modern warfare helps to illuminate the varied issues facing federal, state, and critical infrastructure operators across the country. On all these topics, this course emphasizes both theoretical and practical issues that will further the student's knowledge of Americas cyber vulnerability and the potential employment of cyber weapons in future conflicts. Every Year Winter

NSAM 5500 Directed Readings in Media and Public Policy

This course examines specific aspects of the media and the role it plays in influencing and being influenced by public policy. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

NSAM 5502 – Directed Readings in National Security Affairs

This course examines specific aspects of national security affairs. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

NSAM 5507 – Directed Readings in Public Policy

This course examines specific aspects of public policy. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

NSAM 5510 – Survey Issues in Criminal Justice

This survey course will review the historical context, theory, policy making, political factors and behavioral influences related to criminal justice policy development as it relates to the organization of the criminal justice system in the United States. This course examines the various components of the criminal justice system, including police, courts, corrections, and the juvenile justice system. The course focuses on the relationship of the criminal justice system to broad political, economic, and social issues. Understanding the working relationship between these system components allows for a greater understanding of how the system works as a whole.

NSAM 5512 – Directed Readings in Crime and Society

This course examines specific aspects of crime and its impact on society. It is

designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

NSAM 5520 – Social Administration in Criminal Justice

The purpose of this course is to examine current strategies and issues related to social justice in the field criminal justice.

NSAM 5521 – Directed Readings in African Studies

This course examines specific aspects related to Africa. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

NSAM 5522 – Directed Readings in Multiculturalism

This course examines specific aspects of multiculturalism. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

NSAM 5524 – Directed Readings in African Diaspora

This course examines specific aspects of the African Diaspora. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's

guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

NSAM 5526 – Directed Readings in Asian Studies

This course examines specific aspects related to Asia. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

NSAM 5527 – Directed Readings in Latin American Studies

This course examines specific aspects related to Latin America. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

NSAM 5528 – Directed Readings in Middle Eastern Studies

This course examines specific aspects related to the Middle East. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

NSAM 5529 – Directed Readings in Caribbean Studies

This course examines specific aspects related to the Caribbean region. It is

designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

NSAM 5530 – Legal issues in Criminal Justice

This course examines a variety of legal issues critical to a thorough understanding of the various aspects of the criminal justice system. Students will examine the United States Constitution and its interpretation through court decisions that together have formed the cornerstone of the criminal justice system nationwide. By becoming familiar with this material, it is expected that the student will be able to better predict and prepare to meet fundamental legal problems facing the criminal justice professional, such as: (1) Constitutional restraints on how the criminal justice system handles the investigation of crime; (2) Constitutional restraints on how the criminal justice system satisfies the legal requisites as to an individual's guilt; (3) Constitutional restraints on the punishment imposed.

NSAM 5531 – Directed Readings in Humanitarian Relief

This course examines specific aspects related to humanitarian relief across the globe. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

NSAM 5532 – Directed Readings in Human Rights

This course examines specific aspects related to human rights domestically or internationally. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

NSAM 5537 – Directed Readings in Intelligence and Counterintelligence

This course examines specific aspects related to intelligence and counterintelligence as related to national and international security. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

NSAM 5538 – Directed Readings in Homeland Security

This course examines specific aspects related to homeland security. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

NSAM 5540 – Program Evaluation in Criminal Justice

This course will provide a fundamental analysis of research and methodology as related to evaluation of criminal justice administration. Included in this course will be an introduction to statistical analysis and the use of current technology.

NSAM 5543 – Directed Readings in Genocide

This course examines specific aspects related to genocide and its causes and impact on society. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

NSAM 5546 – Directed Readings in Human Trafficking

This course examines specific aspects related to human trafficking, including causes, social, political, and economic implications and the effects on society. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

NSAM 5547 – Directed Readings in Tribal Dynamics

This course examines specific aspects related to tribal dynamics. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

NSAM 5548 – Directed Readings in Islam and the State

This course examines specific aspects related to Islam and the State. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research

interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

NSAM 5549 Directed Readings in Environmental and Government Affairs

This course examines specific aspects related to the environment and governmental affairs. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

NSAM 5550 – Investigative Processes

This course is a masters-level, on-line core course within the Criminal Justice Institute at Nova Southeastern University, Fort Lauderdale, Florida. This course will provide an overview of investigative and crime scene processing theory, research, and practice and its application from the standpoint of criminal investigative personnel and other actors within the criminal justice system. Lecture and case studies will provide a learning environment for understanding and applying investigative processes including fundamentals, crime scene investigation, criminal intelligence and informants, physical evidence, testimonial evidence, documenting the investigation and testifying, crimes against persons, crimes against property, special investigations, and legal considerations.

NSAM 5553 – Directed Readings in Comparative Politics

This course examines specific aspects of comparative politics. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's

guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

NSAM 5555 – Directed Readings in International Relations

This course examines specific aspects of world politics and is intended to give the student a better understanding of international relations and the complex issues and perspectives affecting the world community. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

NSAM 5560 – Directed Readings in Terrorism

This course examines specific aspects of terrorism. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

NSAM 5561 – Directed Readings in Polygraph and Interview Techniques

This course examines specific aspects of polygraph and interview techniques. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

NSAM 5564 – Directed Readings in National Intelligence History

This course examines specific aspects of the history of national intelligence. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

NSAM 5565 – Directed Readings in Critical Incidents in Intelligence/Counterintelligence

This course examines specific aspects of critical incidents in intelligence/counterintelligence. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

NSAM 5566 – Directed Readings in Analysis of Open Source Intelligence

This course examines specific aspects of analyzing open source intelligence. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

NSAM 5650 – Economic Statecraft in National Security Affairs

This course examines the economic strategies employed by states to press other states to follow established agendas. Achieving National Security Policy objectives frequently involves the

integrative use of sanctions, embargoes, boycotts, dumping, freezing of assets, strategic materials policies, tariffs, as well as opening of markets, foreign investments, partnerships, and other developmental activities. Economic Statecraft is seen as a peaceful strategy to force countries to negotiate and then build their economy for strategic alignment.

NSAM 6110 – Public Policy and Strategic Planning

This course focuses on the theories and the analysis of public policy including the design, implementation and evaluation of legislation on the local, state, national and international levels. It includes current policy issue analysis emphasis with an emphasis on the role of public policy and strategic planning.

NSAM 6130 - Practicum I: Supervised Field Experience

This course is a field research project that incorporates classroom knowledge and real-world settings. Students will demonstrate their ability to apply theory to practice and analyze situations utilizing knowledge from previous course work. Offered Fall and Summer terms.

NSAM 6160 – Practicum II: Supervised Field Experience

This course is a field research project that incorporates classroom knowledge and real world settings. Students will demonstrate their ability to apply theory to practice and analyze situations utilizing knowledge from previous course work. This is a continuation of NSAM 6130. Prerequisite: NSAM 6130. Offered Fall and Winter terms.

NSAM 6170 - Violence Prevention

This course examines various theories of human aggression and violence, exploring their underlying assumptions about human nature and the causes of violence. Also included is an introduction to a range of violence intervention and prevention approaches developed for use at the interpersonal, intergroup, and societal level.

NSAM 6600 – International Conflict Resolution

This course reviews international conflict resolution in many settings and includes informal mediation by private interveners and scholar practitioners; formal mediation by individual, regional, transnational, and international organizations; and mediation within small and large states.

NSAM 6603 Special Topics in NSA III

This course continues to deepen students' understanding of a range of topics related to the content areas of existing NSA concentration tracks to give NSA students the opportunity to continue to add further depth to their academic experience. Selected course topics may include special topics in the security studies, terrorism and counter-terrorism, intelligence, military and borders, critical issues, research in national security, and strategic planning.

NSAM 6604 Special Topics in NSA IV

This course continues to deepen students' understanding of a range of topics related to the content areas of existing NSA concentration tracks to give NSA students the opportunity to continue to add further depth to their academic experience. Selected course topics may include special topics in the security studies, terrorism and counter-terrorism, intelligence, military and borders, critical issues, research in national security, and strategic planning.

NSAM 6607 - Ethnopolitical and Community-Based Conflicts

This course introduces the major methods used by states, international organizations, and conflict resolution practitioners to eliminate, manage, and resolve ethnic and community-based conflicts. Case studies are used to explain conflict escalation and de-escalation, and mechanisms of conflict intervention.

NSAM 6610 - Family Violence: The Effects on Families, Communities and Workplaces

This course explores the overall effects of trauma and violence on individuals, families, communities, and the workplace. Issues of abuse, violence, and systemic responses are explored in relation to their effect on individual behavior, family dynamics, service provision, and community systems. Methods for identifying such issues in the context of family mediation and other types of conflict intervention are explored.

NSAM 6611 – Race and Ethnic Relations in America

The course examines the social constructionist approach toward the study of racial and ethnic conflict and analysis in the U.S. It is designed to assist students in increasing their ability to analyze racial issues from a historical to a contemporary perspective and to explore some of the basic theoretical paradigms that have been used to conceptualize the idea of race and ethnicity from the 19th Century to the present in the U.S. The course will also explore the affects of contemporary policies in addressing racial and ethnic inequities and strategies used to combat racism. Offered occasionally.

NSAM 6616 – Trauma and Violence Global Perspective

This course will look at issues of war, regional violence, torture, forced relocation, ethnic cleansing, rape and other issues related to regional conflict, and then focus on conflict intervention models. Relief and assistance programs from humanitarian relief, the Red Cross, UN programs, Quaker NGO's, Christian relief efforts, and others will be examined with a focus on trauma intervention as a conflict resolution career option. Discussion will center on how conflict specialists can connect, work with, and influence humanitarian aid efforts, capacity building, democratization efforts, and conflict transformation projects.

NSAM 6619 – Strategic Community Planning

An overview of the community from a strategic perspective, identifying: social, economic, demographic and cultural trends and patterns within the community; areas of concern for law enforcement and government; ways to initiate and develop community-wide strategic planning for peaceful community relations and growth; building community partnerships between law enforcement, the criminal justice system and community agencies and groups; community justice; and the use of data, data collection and analysis in developing and implementing collaborative long and short term plans for community development, problem solving and funding initiatives.

NSAM 6621 – Introduction to Human Rights Theory and Practice

This course provides students with an introductory survey of political, philosophical, historical, economic, and legal considerations related to fundamental human rights concepts. Students will examine human rights issues in both domestic and international arenas. In particular, the course addresses the issues of the ideological and cultural origins of human rights theory; the sources of rights and rights violations; the impact of the nation-state system, governments and other institutions (such as corporations, churches, and universities), and domestic and foreign policies particularly of the U.S. on human rights law and enforcement. Finally, students examine the wide variety of political, civil, economic, social and cultural rights warranting protection.

NSAM 6624 – Advanced Practicum

This practicum experience is a faculty-driven experience in which a faculty member will design a project in conjunction with another organization or university and students selected for the practicum will work on that project with the faculty member. The project may also entail a one to two week mandatory field

experience in which students and the faculty member will work on the project on location. Students will be responsible for their expenses. Students will apply for this practicum and must be selected. Offered occasionally.

NSAM 6625 – Global Field Studies Practicum in Conflict Resolution

The Global Field Studies Practicum Course in Conflict Resolution incorporates a field-immersion component as part of this practicum course. It is developed around principles of multidisciplinary conflict analysis, management, and resolution which promote scholarship of engagement in communities through research, education, and practice. This course provides a solid knowledge base by the application of conflict resolution concepts through experiential learning that lead to professional development. The field experience enhances students' cross-cultural skills, appreciation and understanding of diversity and global issues. During the course students are exposed to a diverse community of researchers, practitioners, policy makers, who share with students their experience and career journeys. The course provides for the enhancement of students' career development plans and requires the completion of all required practicum forms and paperwork. For their final project students are expected to work with a partner organization developing research, training, or consultancy projects where students apply theoretical concepts within a practical framework.

NSAM 6630 – Foundations of Genocide Studies

This course is a survey of the causes, forms, and nature of genocide. The course addresses the complexities in differentiating human rights violations and crimes against humanity, from genocide and government sponsored mass murder. Theoretical and applied cases studies will facilitate student engagement. The course will serve as an introduction to the theories and applied practices utilized in analyzing acts of

genocide. Issues addressed throughout the course will include: genocidal intent, eugenics and genocide, demographic purging, as well as mass and public extermination.

NSAM 6632 - Civil Wars and Their Resolution

This course examines the various complexities of violent civil conflict. Using a general survey of the field, supplemented with numerous civil war case studies, students explore the various factors contributing to the outbreak of civil wars, the processes and consequences of such conflict, as well as the variety of methods available for resolution.

NSAM 6633 – International War and Resolution

This course focuses on various aspects of internal war and peace. Topics of discussion include defining war, historical patterns of warfare, motivations to engage in such conflict, as well as efforts to deter or resolve international war.

NSAM 6634 – Metropolitan Conflict

This course will explore historical and theoretical explanations for the different types on conflict prevalent in various metropolitan areas. A series of case studies, focusing on both cities within the United States and abroad, students will explore such topics as the role of ethnicity in conflict, structural inequalities of the system, urban/suburban relations, urbanization, and metropolitan growth and development.

NSAM 6638 - Conflict and Crisis Management Theory and Practice

This course is an overview of the theories of conflict and crisis management and the intervention models and protocols used. Conflict and crisis management will be explored among and between individuals and groups, organizations, communities, and governments around the globe. Topics will include the management of violent conflicts, such as kidnapping, hostage-barricade and terrorist acts,

homeland security, and the response to natural disasters. There will be interactive exercises as well as a case study approach used. Offered Winter term.

NSAM 6640 – Critical Incidents Response

This course will provide an in-depth analysis and understanding of inter-group and intra-group dynamics associated with the organizational response to critical incidents such as hostage/barricade management, terrorism, kidnapping, natural and other disasters, and tactical operations, which comprises the negotiations team, the tactical team, and the on-scene commander, as well as coordination of efforts with government, organizations, and the community. Topics include: inter-group and intra-group conflict intervention and communication strategies, negotiation, tactical, and command protocols, hostage/barricade resolution continuum options, and case studies. Offered Summer term.

NSAM 6641 – Conflict and Crisis Negotiation

This course will provide an overview of law enforcement crisis negotiation and its application to crisis situations, such as domestic violence encounters on an individual level and hostage/barricade encounters on an organizational level. Lecture, expert demonstration, and interactive negotiation with role play will provide an experiential learning environment for understanding and applying active listening skills, empathy, rapport, influence, and behavioral change concepts to conflict and crisis situations. Offered Fall term.

NSAM 6643 – Social Aspects of Terrorism

This course will examine a wide range of different cultures and societies with a special emphasis placed upon political violence. Regions explored are: Basque country, Chechnya, Colombia, Northern Ireland, Palestine, Sri Lanka, and Zimbabwe. Of particular importance are the dimensions of terrorism, trauma, and violence through an understanding of colonialism, discourse, history, material

culture, media, rebellion, revolution, and separatism. Additionally, the course will focus upon the causes of 9/11 and the recent fomentation of international terrorism. By exploring the subject of terrorism form an anthropological perspective will demonstrate the complexities and various interpretations concerning the political uses through the appreciation of interdisciplinary analysis.

NSAM 6650 – International negotiation: Principles, Process and Issues

This course describes and analyzes the major principles, processes and issues of international negotiation in the twentieth and twenty-first centuries. It seeks to provide students with the analytical tools skills required to explain and predict the outcome of specific (bilateral or multilateral) negotiations through the study of various explanation factors, including: stability and change in the structure of the existing "international system"; the individual characteristics of the nations-states parties (power/capabilities, interests, culture/values, negotiating styles, etc.; the strategic and tactical moves of those considered as "key players"; as well as the role of smaller states and non-state actors

NSAM 6651 – Theories of Ethnicity & Nationalism

Theories of Ethnicity and Nationalism: This course is foundational for theoretical understandings of ethnicity and nationalism. Students will analyze general theories from key debates and critically examine various points of view in relation to defining boundaries, conflict, context, difference, identity, migration, minority/majority, race and tribalism in regard to ethnicity, as well as community, fantasy, ideology, neo-Marxism, modernism, perennialism, political, primordialism, semiotic, sociocultural, socioeconomic, imagination, invention, and tradition in association with nationalism and nationalists, and the entwinement and interrelation between all of these prevalent notions and themes. Upon completion of the course students

will better grasp ethnic belonging, ethno-nationalist conflict, and intra/inter-group disputes from the standpoint of applied theory, cultural relativity, and humanism.

NSAM 6654 – Islam, Conflict and Peacemaking

This course will provide an historical overview of Islam, including an introduction to belief systems, the different branches of the faith and schools of Islamic law with a special emphasis on Muslim doctrines related to conflict and peace. It will include the contemporary era and investigate Muslim engagements with modernity and discuss the varied responses and perspectives. There will some discussions of international relations, but the course will also emphasize micro level issues. Students will have the opportunity to develop research projects designed to extend their understanding of Islam and its potential as a resource for peace building.

NSAM 6657 – Conflict Coaching Theory and Practice

This course examines the growing use of conflict coaching as a conflict intervention process and introduces different models and related theoretical foundations. The integration of theory and practice will emphasize the various stages including identity framework, narrative, needs assessment, goal setting, and feedback, utilizing a relational and systems orientation. The course develops coaching skills, strategies, and knowledge, and uses a practice-based approach, including role-plays and case studies.

NSAM 6659 – Conflict Peace Build in Africa

This course examines conflict and peace building dynamics in the African continent. Its content includes a survey of contemporary macro-level conflicts in Africa and an examination of their historical and more immediate causes. Class participants will explore the causes and effects of such conflicts and investigate prospects for constructive transformation. Past and ongoing

resolution and peace building efforts will be discussed, and class members will propose a peace building strategy for a case of their choice.

NSAM 6661 – Middle Eastern Conflict

This graduate seminar explores the many different types of conflict found in the Middle East. It seeks to provide students with the analytical tools and skills required to explain the causes, understand the actors, and analyze and/or predict the outcomes of specific Middle Eastern conflicts. To meet these objectives we will evaluate broad types of Middle Eastern conflict such as religious, ethnic, and cultural, militarized conflicts, civil wars, and occupations. We will also evaluate Middle Eastern conflict negotiation, the Middle East peace process, why negotiation and peace has failed, and what needs to be done so that Middle East peace could be achieved. Finally, we will look at the future of Middle Eastern conflicts.

NSAM 6662 – Political Violence

Political Violence is a graduate seminar that explores the many different types of political violence; specifically looking at revolutions, terrorism, and transitional-institutional political violence. This seminar examines a wide range of topics in order to provide the student with a deeper understanding of political violence. We will engage in a thoughtful and in-depth examination of the definitions, causes, and consequences of political violence, as well as consider the different means to countering political violence.

NSAM 6670 – Introduction to International Relations and International Issues

This course is an introduction to world politics and is intended to give the student a better understanding of international relations and the complex issues and perspectives affecting the world community. We will investigate many aspects of international relations such as the dominant theories of international

relations, the history of the nation-state, the definition of power, Islamic fundamentalism, terrorism, war, ethnic conflict, political economy, international institutions, transnational organizations, trade, modernization, dependency theory, imperialism, globalization, and the foreign policy of the United States and its impact on the world community. Students are expected to keep up to date with current global events by reading an international newspaper each day and being prepared to connect and apply those current events to the topics covered in class.

NSAM 6690 – Special Topics in National Security Affairs and International Relations

Special Topics in National Security Affairs and International Relations is reserved for advanced studies in the field. Specific focus and topics are to be approved by the chair of the Department of History and Political Science and advertised to students in advance of each offering. If the content changes, this course may be repeated with the prior permission of the department chair. Every Year Summer

NSAM 6700 – Directed Thesis in National Security Affairs and International Relations

The directed thesis serves as a capstone on the student's experience in the National Security Affairs and International Relations (M.S.) program. As such preparation for this course began on day one of the student's course of study of in the program. The theories, research methods and analytical skills, and substantive knowledge acquired by the student through the master's curriculum provide the foundation upon which this thesis project is built. Students must complete all other coursework in the program before undertaking the directed thesis. Working under the direction of a designated faculty member in the program students will be responsible for developing and planning an innovative project, crafting a viable thesis, engaging in research using

appropriate primary and secondary resource material, and executing a polished work of analysis that contributes to knowledge in the field. In addition to submitting a written thesis, students are required to offer an oral defense of their project. Every Year Fall, Winter, Summer

QRGP – Qualitative Research

QRGP 6300 Foundations of Qualitative Research

This course introduces students to the epistemological, theoretical, methodological, and procedural foundations of qualitative research. Students will learn common factors qualitative approaches to inquiry share as well as learning the specifics of the major qualitative research methodologies such as generic qualitative description, grounded theory, phenomenology, ethnography, narrative analysis, and discourse analysis. Students will also be introduced to the variety of professional settings in which qualitative research is utilized including academia, business and organizations, international development, and private consultation. Offered fall.

QRGP 6301 Qualitative Data Collection

The course provides students an opportunity to learn the basics of qualitative research design with a focus on qualitative data generation, collection, and preparation. Students will learn how to select appropriate research sites, gain access to data sources, design and manage sampling strategies, conduct individual and group interviews, carry out field observations, collect documents, transcribe, and compose field notes. Students will also learn quality control measures such as maintaining research journals and diaries. Offered winter.

QRGP 6302 Qualitative Data Analysis I

This course covers best practices in generic qualitative, ethnographic, and grounded theory analysis. Students will learn how to conduct within-case and across case analysis, coding and

conceptualization, transforming data, and report writing. Students will also learn quality control measures such as constant comparison, member checking, peer debriefing, and conducting audit trails. Offered fall.

QRGP 6303 Qualitative Data Analysis II

This course covers best practices in phenomenology, narrative inquiry, and discursive analysis. Students will learn how to conduct thematic analyses, phenomenological reduction, creative synthesis, microanalysis, and report writing. Students will also learn quality control measures such as bracketing, epoché, and verisimilitude. Offered winter.

QRGP 6304 Appraising Qualitative Research

This course covers the appraisal and review of products emanating from qualitative research including papers, articles, posters, grant proposals, books, book prospectus, dissertations, theses, and systematic reviews. Students will learn how to assess the quality of qualitative research products, construct and use criterion-based rubrics, and compose reviews. Students will also serve as ad hoc reviewers for *The Qualitative Report (TQR)*. Offered occasionally.

QRGP 6305 Qualitative Research Design

This course covers knowledge and skills needed to design a qualitative research study and compose a qualitative research proposal. Students will learn how to construct and justify a qualitative research study, synthesize the relevant research literature, generate discovery-oriented research questions, select sites and samples, create a manageable method including a quality control system, address ethical issues, and discuss potential implications and limitations. Students will compose their own qualitative research proposals and Institutional Review Board for the Protection of Human Subjects (IRB) protocols and consent forms. Offered summer.

QRGP 6306 Conducting Qualitative Research I

This course covers the activities involved in the initiation of a qualitative research study. Students will start the study they proposed in QRGP 6305 Qualitative Research Design. Offered occasionally.

QRGP 6307 Conducting Qualitative Research II

This course covers the activities involved in the culmination of a qualitative research study. Students will complete the study they proposed in QRGP 6305 Qualitative Research Design and started in QRGP 6306 Conducting Qualitative Research I. Offered occasionally.

QRGP 6308 - Writing Qualitative Research

Students will learn how to write up their qualitative research inquiries from the earliest steps of their studies through the manuscript submission process using writing and representational styles consistent with their research design and purpose. To this end, students will produce their own original qualitative research papers that incorporate the basic elements of qualitative research reports and best practices for communicating their methodological choices and research findings in transparent and coherent prose. Students will also learn how to evaluate the quality of their compositions and revise their drafts via the use of rubrics and manuscript checklists. While it is not necessary that other Qualitative Research courses have been taken in the Certificate Program, it is a requirement that you have conducted your own research – this course will assist writing up results of a qualitative study. Offered occasionally.

QRGP 6309 - Arts-Based Qualitative Research

This course presents various ways in which to incorporate arts-based strategies into qualitative research design, in order to generate additional data, address researcher bias, deepen qualitative analysis, and enhance the presentation of

research findings. For example, the course will explore ways in which the use of collage can be used to both strengthen researcher bracketing and reflexivity, as well as a data generation technique in combination with journaling. The course will also address how poetry can be used as a technique to both validate and represent research findings; students will practice found data poetry in developing findings, and the use of various poetic forms to convey key findings. In addition, students will be introduced to photo voice, a method that involves study participants taking photos to capture their lived experience and understandings of particular social phenomena. Throughout the course, ethical issues related to arts-based qualitative research will be considered and discussed. Offered occasionally.

QRGP 6310 – Autoethnography

This course introduces students to the historical, epistemological, theoretical, methodological, and procedural foundations of auto-ethnography. Students will learn a variety of approaches to autoethnography including individual, collaborative, critical, interpretive, and transformational forms and will practice appraising the quality of different types of autoethnographic reports. They will also learn how to conceive and conduct an autoethnography. Offered occasionally.

SFTD – Family Therapy (Ph.D.)

SFTD 5001 - Doctoral Seminar I (1 credit hour)

General orientation to doctoral studies: Students learn advanced ethics, diversity, and social justice while focusing on research, writing, and library skills necessary for authoring papers in doctoral courses and for publications. Offered fall term.

SFTD 5002 - Doctoral Seminar II (1 credit hour)

Continuation of SFTD 5001: Students are introduced to professional development

opportunities in diverse settings, specific details regarding professionalism, program and portfolio requirements, internships, and dissertation. Prerequisite: SFTD 5001. Offered winter term.

SFTD 5003 - Doctoral Seminar III (1 credit hour)

Continuation of SFTD 5002: Students are tutored in the skills necessary to develop a successful coursework, clinical, and academic/research portfolios as part of the doctoral program requirements. Prerequisite: SFTD 5002. Offered fall term

SFTD 5004 - Reading/Writing/Editing for Doctoral Scholars

Excellent reading, writing, and editing skills are essential for family therapists who wish to make scholarly contributions to the field. Researchers, supervisors, and clinicians must be able to compose and publish clear descriptions of their work, and professors and journal reviewers must be able to read with discernment and effectively critique the writings of others. This course develops and hones the necessary skills for making such contributions.

SFTD 5006 - Introduction to Systems Theory

This course provides an overview of theories that use metaphors of system, pattern, interaction, and communication to describe human behavior and relationships as well as the study of the emergence of theories from cybernetics to language studies. Offered each term.

SFTD 5007 - Research in Marriage and Family Therapy

This course offers a review of quantitative and qualitative methods of inquiry, as exemplified in recent marital and family therapy research studies. The course focuses on teaching students to be intelligent, critical consumers of research in the field. Offered winter term.

SFTD 5008 - Introduction to Marital and Family Therapy: Counseling Theories and Techniques

An introduction and review of the history of marital and family therapy and the clinical approaches of interactional therapies are included in this course. The focus is based on basic therapeutic concepts and skills. Offered fall term.

SFTD 5009 - Theories of Marriage and Family Therapy

This course offers a comparative study of theories of marital and family therapy, including systemic, structural, strategic, intergenerational, contextual, behavioral, experiential therapies, and others, and provides a survey of differences in clinical practices. Prerequisite: SFTD 5006. Offered winter term.

SFTD 5010 - Systemic Family Therapy I

The study of those systemic therapies informed by cybernetics and oriented to the social organization of communication are included in this course. Emphasizes are placed on the work of the Mental Research Institute and Solution-Focused Brief Therapy. Prerequisites: Core courses and co-requisite SFTD 5006. Offered fall term.

SFTD 5020 - Systemic Family Therapy II

This course centers on Narrative Therapy theory and practice. Students will extensively explore assumptions, including distinctions between structuralist and post structuralist thought, which underline this model and contrast with other therapeutic models. Practice methods will focus on various maps and scaffolds which describe and organize Narrative practices. Students will explore the application of these assumptions and practices to a range of therapeutic problems as well as diversity and community issues. Prerequisites include core courses and SFTD 5010. Offered winter term.

SFTD 5030 - Systemic Family Therapy III

This course acquaints students with the basic concepts of the natural systems

approach to family therapy. Emphasizes are placed on family-of-origin issues, multigenerational systems processes, and biological/evolutionary contributions to the understanding of human systems. Prerequisite: SFTD 5020. Offered fall term.

SFTD 5036 – Infant Mental Health

This course is designed to provide students with an introduction to the growing field of infant mental health. Emphasis will be placed on clinical assessment, and treatment of mental health issues among infants and their caregivers within the contexts of social, cultural, and family systems. This course is a preparation for those who may wish to become certified in the area of infant mental health. It will also be useful for those who wish to practice general marriage and family therapy and gain more knowledge of the early parenting years of the family life cycle. Offered winter term.

SFTD 5037 – Suicide Prevention and Crisis Intervention

Suicide is one of the most dangerous actions in which depressed people engage that may, in fact, be preventable. This is true for those with suicidal ideation at all ages. This course will help the student learn how to identify the potential for suicide and how to respond and refer. Since suicide is often precipitated by situational crises, early intervention techniques, particularly the identification of suicide potential, is crucial. Suicide ideation is frequently seen in criminal defendants, especially those who make suicide attempts when first admitted to jail or prison. Suicide-by-cop and highly publicized intentional and random multiple shooting events will be studied to better understand the shooter's motivations and early identification. Effective suicide prevention and crisis intervention strategies will be explored. Offered winter term. Offered winter term.

SFTD 5038 – Military Families

This course will prepare the student to work with active military and veterans and

their families. The course will cover the military culture as it interacts with the dominant culture, and trace the history of cultural conflict between these different ethics. In addition, course material will be presented on PTSD and Acute Stress Disorder as they particularly apply to military situations. The stresses of deployment and reintegration on the spouses and children of military and veterans will also be discussed. The student will become prepared to work in Veterans Administration and Department of Defense settings, after appropriate experience and licensure requirements are met. Offered fall term.

SFTD 5039 – Collaborative Divorce

This course will provide information regarding career opportunities for marriage and family therapists working with families transitioning into divorce. The course will cover collaboration with other professionals such as attorneys and mediators. The student will be guided as to how to become certified as a Mediator, Parent Coordinator, Guardian ad litem, or Collaborative Practitioner. In addition, the course will be useful to those wishing to practice general marriage and family therapy, and learn more about the experience of divorce in order to assist their clients. Offered fall term.

SFTD 5040 - Systemic Family Therapy IV

Study of the complexities and subtleties of language and the art of therapeutic implication are focused on in this course with discussions on the relationships between hypnosis and brief therapy; draws on the work of Milton Erickson as a primary resource. Prerequisite: SFTD 5030. Offered winter term.

SFTD 5045 - Group Psychotherapy

This class is designed to provide an opportunity students and professionals to develop a set of core competencies in general group work from a systemic perspective. These core competencies include knowledge of group theories, common group dynamics, common group types, and legal and ethical issues. During the course students will also be

introduced to various specialty/advanced competency areas in group work. The development of core skills will occur through a combination of didactic lecture in group theory, classroom discussion, and an experiential group. Offered summer term.

SFTD 5046 – Human Development Across the Life Cycle

Human Development covers the stages of the individual life cycle, and of the family life cycle, in cultural context. The interplay of individual development, unique individual difference, culture, socioeconomic context, and family context, will be considered and integrated with major models of family therapy. Therapy techniques appropriate for each stage of development will be explored. Offered fall term.

SFTD 5050 – Family Play Therapy

This course will explore creative means of expression in therapy, including but not limited to art, music, sand tray, puppets and other play related materials. The use of these techniques with children, adolescents, and families will be discussed and practiced. This course is a preparation for those who may wish to focus on working with young children and/or on pursuing certification as a registered play therapist. It will also be useful to the general marriage and family therapist, to add creative techniques to his or her repertoire. Offered summer term.

SFTD 5110 - Language Systems

This course locates the practice of therapy within cultural, philosophical, and scientific domains; it uses notions about the relational nature of language as a means of examining, critiquing, and explicating therapeutic practice. Prerequisite: SFTD 5006. Offered winter term.

SFTD 5120 - Thinking Systems

The study of systemic theory, particularly the ideas of relationship, difference, and context is the focus of this course, which emphasizes the ideas of Gregory Bateson.

Prerequisites: SFTD 5006, SFTD 5110. Offered fall term.

SFTD 5140 Advanced Micro Skills

This course will introduce students to systemically focused clinical microskills for use in the advancement of their own clinical work, development of self supervision, and as a tool for supervising other clinicians. Students will advance through microskills at basic, therapeutic, epistemological, model, and advanced skill levels via role plays, observing other clinicians, transcript and video/audio recording analysis.

SFTD 5300 - Legal, Ethical, and Professional Issues in Marriage and Family Therapy

This course offers an in depth explanation of accreditation and licensure organizations, along with the ethical codes they promote in family therapy and related fields. This includes a review of the therapist's legal responsibilities and liabilities in mental health and family law, insurance claims, and private practice management with inclusion of an overview of professional opportunities in public service and training programs. Offered fall term.

SFTD 5301 Agency Practice and Organizational Consulting

This course examines applications of family therapy methods and ideas in community and agency settings including in-home, residential, outpatient and inpatient settings. The course will prepare students to work in the community and learn and refine their skills as related to completing clinical documentation, learning and meeting requirement of different funding sources, preparing safe aftercare and discharge plans and working collaboratively with clients, family and representatives of larger systems involved with such clients. Students will learn about managed care, Medicaid, Medicare, Private Insurance Systems. Students will also learn rules and regulations related to working with different funding sources and Federal and State Funding systems.

Students will learn techniques of agency administration and organizational consultation. This course will be useful to those seeking careers in agencies, hospitals, and managed care settings, and for the general marriage and family therapist. Offered summer term.

SFTD 5311 - Substance Abuse/Addictions and Critical Issues in Systems Theories

This course addresses the application of modern and postmodern ideas to substance abuse, addictions, and critical issues in the practice of therapy. Emphasis is placed on the application of modern and postmodern ideas to substance abuse, addictions, and critical issues based on research, theories, practice, and treatment. Also included are other critical issues of culture, ethnicity, gender, race, religion, violence and other areas of critical concern in social systems. Prerequisite: SFTD 6200. Offered summer term.

SFTD 5355 – Introduction to Equine Assisted Family Therapy

This course will provide students with an introduction to all aspects of equine assisted mental health approaches. Beginning with an overview of the rapidly growing Animal Assisted Therapy field, the course will cover in greater depth equine assisted psychotherapy, team building, and therapeutic riding programs. Through hands-on experience working with horses, students will be introduced to the Equine Assisted Family Therapy model being developed as a collaborative effort between the NSU Family Therapy program and Stable Foundations, an independent equine-assisted therapy program in the community. Offered fall and winter terms.

SFTD 5356 – Religious and Spiritual Diversity

The Religious and Spiritual Diversity course is a basic course on religious/spiritual difference that uses systemic and relational family therapy theory to train mental health professionals in the art and skill of acceptance and respect of other human

being's deeply held faith/non-faith beliefs. The instructor will use basic therapeutic skill in creating a class community that is inviting, open, and honoring. Students will be challenged through the use of didactic, experiential, and written activities, related to both personal and professional experiences with religion and spirituality (R/S).

SFTD 5357 Brief Coaching

The growing field of coaching draws from concepts associated with brief therapy models, in particular Solution Focused Brief Therapy. In this course, students will learn the distinctions between coaching and therapy; credentialing opportunities and potential career paths as a life coach, career coach, and/or independent educational consultant; and common theoretical assumptions shared between brief therapy and brief coaching. The course is designed for students who already have a working knowledge of brief family therapy models, but wish to broaden their scope of practice and understand the history and development of the parallel field of coaching.

SFTD 5358 Religious Spiritual Diversity

The Religious and Spiritual Diversity course is a basic course on religious/spiritual difference that uses systemic and relational family therapy theory to train mental health professionals in the art and skill of acceptance and respect of other human being's deeply held faith/non-faith beliefs. The instructor will use basic therapeutic skill in creating a class community that is inviting, open, and honoring. Students will be challenged through the use of didactic, experiential, and written activities, related to both personal and professional experiences with religion and spirituality.

SFTD 5361 - Developing a Private Practice in Coaching and Therapy

This course examines applications of family therapy methods and ideas in private practice settings. The course will

prepare students to develop a private practice as a marriage and family therapist, as a career/college/health and wellness coach, or both, depending on previous background and additional coursework. Students will learn the basics of developing a referral base, understanding managed care and insurance systems, and developing workshops and community outreach. The ethics of private practice and the need for practitioner self-care will also be stressed. This course will be useful for those planning a private practice career as all or part of their professional journey. Offered summer term.

SFTD 5362 – Solution Focused Coaching

This course prepares the student for professional practice as a solution focused coach. In this course, the distinctions between therapy, education, and coaching are clearly presented, and the student learns basic skills and approaches to solution focused coaching. Students will also be educated on specializations in career, college, health and wellness, and other specific types of coaching practice. Offered summer term.

SFTD 5363 Advanced Equine-Assisted Family Therapy

This course will utilize an equine-assisted, experiential model to provide students with an opportunity to explore and develop their awareness of the Self of the Therapist (SOTT). Additionally, through clinical role-plays incorporating application of MFT theories and models, students will learn to conduct equine-assisted clinical and training sessions with a variety of populations and presenting issues. Students will apply different interventions and activities involving the horses and mock clients in role-play situations, and will be expected to intentionally incorporate a systemic, relational approach in all sessions. The course readings will also integrate concepts from other clinical and theoretical coursework in order to facilitate students' ability to consistently connect the systemic family therapy

framework with an equine assisted approach.

SFTD 5364 Advanced Narrative Therapy Practices

This course is designed to provide students with a chance more deeply explore narrative therapy ideas and practices than was possible in Systemic Family Therapy II, and to collaborate on developing skills in ongoing cases.

SFTD 5410 - Quantitative Research I

This course covers fundamental concepts and practices in quantitative research method by introducing measurement and statistics, questionnaire development, and experimental and quasi-experimental research designs for the study of human sciences. Exemplary studies from family therapy literature are included. Prerequisite: SFTD 5007 or equivalent. Offered summer term.

SFTD 6110 – Systems Application in the Family Life Cycle of Aging

This course will provide a focus on the major concepts of systems thinking as applied to the family life cycle of aging. The class will focus on foundational concepts of systemic theories associated with work of Gregory Bateson, Humberto Maturana, and Heinz von Foester. Students will have an opportunity to explore interactional theories informed by cybernetics, language, and natural systems metaphors in the framework of the aging process. This course will provide not only an opportunity to learn about systemic theories, but also a possibility to reflect on applications of such theoretical concepts while examining the process of aging and family interactions involving older adults. Offered winter term.

SFTD 6120 – Relationships in Aging

Multi-dimensional in nature, aging invites diverse health care professionals to work together to examine its various aspects. This course will offer students an opportunity to reflect on diverse relationships among older adults themselves, senior health care consumers and their health care providers, and

among various health care professionals who are taking care of the aging population. The role modification in the American household, romantic relationships in later life, and the societal outlook on the process of aging are just a few topics addressed in this class. Students will also examine current needs and requirement of the working environment with older adults, including the subject of integrative primary care and a necessity of a multidisciplinary teamwork. Offered winter term.

SFTD 6130 – Caregiving in the Family

Caregiving constitutes a challenging experience for the whole family. This course will provide an opportunity to examine diverse characteristics of the caregivers, emotional and physical issues associated with caregiving, and existing resources implemented to support families and caretakers. In addition, students will have an opportunity to examine the notions of well-being and quality of life as applied to those providing and receiving care. While reflecting on the caregiving process, students will use concepts from such theoretical frameworks as constructivism, social constructionism, and general systems theory to investigate diverse perceptions and ideas about caregiving. Providing theoretical guidelines, this class will also give students a possibility to acquire attuned therapeutic skills to provide assistance to caregivers and their families. Offered summer term.

SFTD 6140 – Grief and Loss in Aging

Loss has multiple faces, especially when growing older. The experiences of loss are uniquely tinted by our cultural framework, spiritual beliefs, family traditions, and individual values. This course offers students an opportunity to examine different types of losses in later life, paying particular attention to the concepts of anticipatory and disenfranchised grief. Students explore how loss is perceived among older adults from diverse ethnical and cultural backgrounds, paying particular attention

to the variety of mourning traditions. In addition, the concept of resilience is introduced inviting students to become curious about diverse stories of healing. Offered fall term.

SFTD 6200 – Internal Practicum I - IV

These four supervised clinical courses consist of the application of systemic therapy ideas and practices at the Department of Family Therapy in house Family Therapy Clinic. Approval needed to register for Internal Practicum IV. Prerequisites: SFTD 5006, SFTD 5008, SFTD 5300. Offered each term.

SFTD 6310 Supervision and Teaching

Introduction to supervision and instruction in systemic therapies. Review of supervision and teaching literature and didactic training in live supervision, case consultation and instruction. Offered: Summer

SFTD 6320 - Supervision Practicum

Extensive live supervision and case consultation experience with clinicians in learning systemic therapies is conducted in the DFT in house Family Therapy Clinic. Students receive supervision of their supervision of others by AAMFT faculty supervisors. Faculty approve required.

SFTD 6321 – Fundamentals of Teaching Marriage and Family Therapy

This course will introduce students to the fundamentals of teaching Marriage and Family Therapy in both a Graduate and Undergraduate learning environment. It will cover the distinctions between clinical and theoretical courses, practicum instruction, as well as those designed specifically to prepare students for state licensing examinations. Students will be exposed to the basic elements of syllabus construction, the application of evaluative rubrics, and other evaluative teaching mechanisms. They will also be required to demonstrate skills in course planning, lecture construction and delivery. Offered summer term.

SFTD 6325 Fundamentals of Supervision in Marriage and Family Therapy

This course is designed to critically examine the most current literature in supervision from the field of Marriage and Family Therapy and assist students in the development of their own supervision philosophy. Practical elements of supervision such as contracts, evaluations, structure, and ethical issues are taught along with the examination of the systemic nature of supervision including isomorphism and diverse contextual variables. This course provides the coursework necessary to become an AAMFT Approved Supervisor as well as a Florida State Qualified Supervisor. This course is designed to be taken by advanced doctoral students in their 3rd summer term.

SFTD 6410 - Quantitative Research II

This course provides an overview of the principles and techniques of computer-aided data analysis with an introduction to the use of univariate, bivariate, and multivariate statistics for hypothesis testing. An in-depth look at the theory and assessment of reliability and validity are included. Prerequisite: SFTD 5410. Offered fall term.

SFTD 6430 Qualitative Research I

Introduction to qualitative research methodologies. Focuses on the use of the investigator as the research instrument of choice. Participant observation and interviewing strategies are discussed. Introduces methods for transcribing and organizing interviews and field notes. Exemplary studies from other disciplines are used; however, studies from the family therapy literature, when available, are offered. Offered: Winter

SFTD 6520 - Diversity and Psychosocial Skills

Human development in the context of family transitions across the life cycle such as childbirth, childhood, adolescence, courtship, marriage, maturity, aging, and death are reviewed. This course focuses on the diversity of psychosocial development across ethnicity, class, gender, race, age, and culture with discussions and implications for

interactional therapies and practices. Prerequisite: SFTD 6200 I. Offered fall term.

SFTD 6530 – Family Therapy Topics

This course provides in-depth information on special topics on a variety of family therapy issues. Content is determined by the expertise of the instructor. This is a second year course that advances critical thinking and practices across multiple venues. Topics include Advanced Bowen Systems, Couples Therapy, Grief and Loss, International Perspectives in Counseling and Therapy, Introduction to Equine Assisted Family Therapy, Organizational Systems and Consultation, School-based Family Counseling, and others. Prerequisite: SFTD 5040. Offered most terms.

SFTD 6540 - Independent Study in Family Therapy

An independent study is developed with a faculty of choice on a mutually determined critical family therapy topic that could include a specific research based or clinical project, or a grant funded research project. This course is generally taken at the end of the second year or later to enhance a student's independent studies and trainings. Prerequisite: Department approval required.

SFTD 6550 – International Perspectives in Counseling and Therapy

This course is designed to review issues relevant to the practice of counseling, therapy, and human services work in an international context. Issues explored include: the adaptation of western models of therapy for practice in other countries; immigrant family experiences and the relevance to clinical practice in the U.S.; and global ethical issues in counseling and therapy. Specific cultures reviewed include Mexico, China, Cambodia, South America, and India, and others; designed to appeal to a wide variety of students from various backgrounds. Students will learn to become more sophisticated with regard to their understanding of family functioning and the role of counseling and

therapy in an international context. This course is also available as SFTD 6530: Family Therapy Topics. Prerequisite: SFTD 5006, 5008, 5009, 6200 I; II. Offered summer term.

SFTD 6558 Couples Therapy: Theory and Application

In this course, students will examine their own experiences, biases and values about couples and working with couples as well as the historical development of couples' therapy. Students will learn current clinical approaches to couples therapy and evidenced-based models for working with couples. Students will examine current couple and marital research as well as assessment instruments used for working with couples. Students will examine specific professional, ethical, and legal issues associated with couples work. Issues of diversity and a commitment to multicultural exploration are demonstrated and interwoven throughout all discussions as students explore specific areas of work with couples such as extra-marital affairs, intimate partner violence, divorce, step-parenting, and health and illness. Offered winter term.

SFTD 6560 Family Therapy Topics

Special topics course on family therapy, with content determined by instructor. Offered: Fall

SFTD 6570 – School-based Family Counseling

This course offers training to work in educational setting utilizing a brief, solution oriented, and strength-based approaches to school issues. Also, this course will assist those therapists seeking a certified educational planner credential. Prerequisite SFTD 6200-I. Offered summer term.

SFTD 6590 – Advanced Bowen Systems

This course advances the study of the concepts of the natural systems approach to family therapy, family of origin issues, multigenerational systems processes, biological/evolutionary constructions to

the understanding of human systems and the practical applications across multiple disciplines. This course is also available as SFTD 6530: Family Therapy Topics. Offered summer term.

SFTD 6600 –Preliminary Review

The Preliminary Review an organized review of, and personal reflection upon, the collective body of work a student has produced during their progress through their first year. A written self-review of professional growth, personal growth, and responses to challenges, along with other significant contributions is submitted for faculty review. Offered each term.

SFTD 6630 – Grief and Loss

The personal beliefs and philosophies regarding dying, loss, and death are explored. Bereavement across the life cycle, including developmental issues relating to adults and children and their understanding of loss are reviewed. The manner in which other cultures create meaningful rituals for life and death will be presented. This course is also available as SFTD 6530: Family Therapy Topics. Offered summer term.

SFTD 6650 Course Portfolio

An organized review of and personal reflection of the collective body of work a student has produced during progress through the course curriculum.

SFTD 6700 Clinical Qualifying Exam

The Clinical Qualifying Exam offers student's a forum for developing a professional clinical presentation similar to that which might be expected in a job interview situation. Successful completion of this exam indicates the faculty's belief that the student is clinically prepared to perform successfully in real life situations and outside clinical settings.

SFTD 6710 Exam Prep

Creates an environment to promote educational advancement in the program.

SFTD 6750 – Clinical Portfolio

The Clinical Portfolio provides an opportunity for students to demonstrate their clinical competence, creativity, and theoretical clarity in a manner and setting similar to that which could be expected in a job interview situation. This culmination of in-house clinical training allows students to demonstrate the full range and depth of their clinical skills and theoretical knowledge through a written statement of treatment philosophy, case study, and video presentation. Offered each term.

SFTD 6800 Qualifying Exam

This exam requires a student to write a publishable-quality paper on a topic that is relevant to the field of family therapy.

SFTD 6825 – Academic/Research Portfolio

The Academic/Research Portfolio is developed as a way for students to demonstrate their academic and professional research accomplishments during the program; to include professional development and career building skills; and participate in academic publishing, research projects, and professional presentations across various venues. All students are required to demonstrate they possess doctoral level competency in both writing and professional presentation skills. Offered each term.

SFTD 6850 Research Qualifying Exam

This is a comprehensive assessment of your knowledge of qualitative and quantitative designs and methods.

SFTD 6900 Dissertation

The development, writing, and defense of the dissertation. When approved, students register for at least two credits per term for a minimum of 12 credits.

SFTD 7301 - Assessment in Marital and Family Therapy

This course provides an overview of methods and instruments used to define problems and indicate solutions; including a comparative study of interactional

approaches and individual and family dysfunction assessments. Prerequisite: SFTD 6200. Offered summer term.

SFTD 7302 - Personality Theories and Psychopathology

A review of major theories of personality and psychopathology are the focus of this course, emphasizing psychiatric diagnostic classification systems. The study of implications for treatment and comparisons with interactional approaches are included. Prerequisite: SFTD 5006. Offered summer term.

SFTD 7311 - Human Sexuality and Gender

This course provides a review of the psychosocial development of sexuality and gender from childhood through aging. Also addressed is a summary of clinical approaches to sexual and gender issues comparing interactional approaches with psychodynamic and behavioral models. Prerequisite: SFTD 5006. Offered winter term.

SFTD 7313 Individual and Group Psychotherapy

Human Development & Individual/Group Psychotherapy: Reviews major theories of psychotherapy and understanding of psychosocial development on which they are based. Explores individual and group techniques from psychodynamic, behavioral/cognitive, humanist/experiential, and systemic approaches.

SFTD 7350 - Qualitative Research II

This research course explores how qualitative data are transformed and categorized during description, explanation, and interpretation. Students are introduced to a variety of inductive, deductive, and abductive methods for categorizing meaning and interactive processes. Computer-assisted qualitative data analysis methods are addressed. Family therapy-related studies are offered. Prerequisite: SFTD 6430. Offered summer term.

SFTD 7360 - Teaching Practicum

Supervised teaching experience in undergraduate or graduate instruction in family therapy or related field provides students opportunities to develop their pedagogical understanding of teaching and enhance their teaching skills. Prerequisites: SFTD 6310 and faculty approval. Offered each term.

SFTD 7410 – Clinical or Research Internship

The Clinical Internship provides students the opportunity to advance their clinical and practice skills while they complete the clinical requirements for program and clinical requirements for MFT licensure. Students who are already licensed can take the Research Internship to expand their research skills and/or work with faculty on a research project. Faculty approval is required. Prerequisites: Successful completion of the Clinical Portfolio Offered each term.

SFTM – Family Therapy (Masters)**SFTM 5036 – Infant Mental Health**

This course is designed to provide students with an introduction to the growing field of infant mental health. Emphasis will be placed on clinical assessment, and treatment of mental health issues among infants and their caregivers within the contexts of social, cultural, and family systems. This course is a preparation for those who may wish to become certified in the area of infant mental health. It will also be useful for those who wish to practice general marriage and family therapy and gain more knowledge of the early parenting years of the family life cycle. Offered winter term.

SFTM 5037 – Suicide Prevention and Crisis Intervention

Suicide is one of the most dangerous actions in which depressed people engage that may, in fact, be preventable. This is true for those with suicidal ideation at all ages. This course will help the student

learn how to identify the potential for suicide and how to respond and refer. Since suicide is often precipitated by situational crises, early intervention techniques, particularly the identification of suicide potential, is crucial. Suicide ideation is frequently seen in criminal defendants, especially those who make suicide attempts when first admitted to jail or prison. Suicide-by-cop and highly publicized intentional and random multiple shooting events will be studied to better understand the shooter's motivations and early identification. Effective suicide prevention and crisis intervention strategies will be explored. Offered winter term. Offered winter term.

SFTM 5038 – Military Families

This course will prepare the student to work with active military and veterans and their families. The course will cover the military culture as it interacts with the dominant culture, and trace the history of cultural conflict between these different ethics. In addition, course material will be presented on PTSD and Acute Stress Disorder as they particularly apply to military situations. The stresses of deployment and reintegration on the spouses and children of military and veterans will also be discussed. The student will become prepared to work in Veterans Administration and Department of Defense settings, after appropriate experience and licensure requirements are met. Offered fall term.

SFTM 5039 – Collaborative Divorce

This course will provide information regarding career opportunities for marriage and family therapists working with families transitioning into divorce. The course will cover collaboration with other professionals such as attorneys and mediators. The student will be guided as to how to become certified as a Mediator, Parent Coordinator, Guardian ad litem, or Collaborative Practitioner. In addition, the course will be useful to those wishing to practice general marriage and family therapy, and learn more about the experience of divorce in order to assist

their clients. Offered fall term.

SFTM 5050 – Family Play Therapy

This course will explore creative means of expression in therapy, including but not limited to art, music, sand tray, puppets and other play related materials. The use of these techniques with children, adolescents, and families will be discussed and practiced. This course is a preparation for those who may wish to focus on working with young children and/or on pursuing certification as a registered play therapist. It will also be useful to the general marriage and family therapist, to add creative techniques to his or her repertoire. Offered summer term.

SFTM 5301 Agency Practice and Organizational Consulting

This course examines applications of family therapy methods and ideas in community and agency settings including in-home, residential, outpatient and inpatient settings. The course will prepare students to work in the community and learn and refine their skills as related to completing clinical documentation, learning and meeting requirement of different funding sources, preparing safe aftercare and discharge plans and working collaboratively with clients, family and representatives of larger systems involved with such clients. Students will learn about managed care, Medicaid, Medicare, Private Insurance Systems. Students will also learn rules and regulations related to working with different funding sources and Federal and State Funding systems. Students will learn techniques of agency administration and organizational consultation. This course will be useful to those seeking careers in agencies, hospitals, and managed care settings, and for the general marriage and family therapist. Offered summer term.

SFTM 5310 - Introduction to Systems Theory

This course provides an overview of theories that use metaphors of system, pattern, interaction, and communication

to describe human behavior and relationships as well as the study of the emergence of theories from cybernetics to language studies. Offered each term.

SFTM 5311 - Substance Abuse/Addictions and Critical Issues in Systems Theories

This course addresses the application of modern and postmodern ideas to substance abuse, addictions, and critical issues in the practice of therapy. Emphasis is placed on the application of modern and postmodern ideas to substance abuse, additions, and critical issues based on research, theories, practice, and treatment. Also included are other critical issues of culture, ethnicity, gender, race, religion, violence and other areas of critical concern in social systems. Prerequisites: SFTM 5400-I; 5321; Co-requisite SFTM 6300. Offered summer term.

SFTM 5320 - Introduction to Marital and Family Therapy: Counseling Theories and Techniques

An introduction and review of the history of marital and family therapy and the clinical approaches of interactional therapies are included in this course. The focus is based on basic therapeutic concepts and skills to include joining, listening, and conducting the initial interview through termination. Offered fall term.

SFTM 5321 - Theories of Marriage and Family Therapy

This course offers a comparative study of theories of marital and family therapy, including systemic, structural, strategic, intergenerational, contextual, behavioral, experiential therapies, and others, and provides a survey of differences in clinical practices. Prerequisite: SFTM 5310. Offered winter term.

SFTM 5322 - Clinical Practices in Marriage and Family Therapy

This course examines applications of family therapy methods and counseling theories and techniques in specific situations including divorce, child rearing,

school issues, and others and incorporates case study reviews. Prerequisite: SFTM 5400 II; taken with SFTM 6300. Offered fall term.

SFTM 5330 – Group Psychotherapy

This class is designed to provide an opportunity students and professionals to develop a set of core competencies in general group work from a systemic perspective. These core competencies include knowledge of group theories, common group dynamics, common group types, and legal and ethical issues. During the course students will also be introduced to various specialty/advanced competency areas in group work. The development of core skills will occur through a combination of didactic lecture in group theory, classroom discussion, and an experiential group (during the second part of each class meeting). Offered summer term.

SFTM 5335 – Human Development Across the Life Cycle

Human Development covers the stages of the individual life cycle, and of the family life cycle, in cultural context. The interplay of individual development, unique individual difference, culture, socioeconomic context, and family context, will be considered and integrated with major models of family therapy. Therapy techniques appropriate for each stage of development will be explored. Offered fall term.

SFTM 5350 - Research in Marriage and Family Therapy

This course offers a review of quantitative and qualitative methods of inquiry, as exemplified in recent marital and family therapy research studies. The course focuses on teaching students to be intelligent, critical consumers of research in the field. Prerequisite: SFTM 5310. Offered winter term.

SFTM 5355 – Introduction to Equine Assisted Family Therapy

This course will provide students with an introduction to all aspects of equine assisted mental health approaches.

Beginning with an overview of the rapidly growing Animal Assisted Therapy field, the course will cover in greater depth equine assisted psychotherapy, team building, and therapeutic riding programs. Through hands-on experience working with horses, students will be introduced to the Equine Assisted Family Therapy model being developed as a collaborative effort between the NSU Family Therapy program and Stable Foundations, an independent equine-assisted therapy program in the community. Offered fall and winter terms.

SFTM 5356 – Religious and Spiritual Diversity

The Religious and Spiritual Diversity course is a basic course on religious/spiritual difference that uses systemic and relational family therapy theory to train mental health professionals in the art and skill of acceptance and respect of other human being's deeply held faith/non-faith beliefs. The instructor will use basic therapeutic skill in creating a class community that is inviting, open, and honoring. Students will be challenged through the use of didactic, experiential, and written activities, related to both personal and professional experiences with religion and spirituality (R/S).

SFTM 5357 - Developing a Private Practice in Coaching and Therapy

This course examines applications of family therapy methods and ideas in private practice settings. The course will prepare students to develop a private practice as a marriage and family therapist, as a career/college/health and wellness coach, or both, depending on previous background and additional coursework. Students will learn the basics of developing a referral base, understanding managed care and insurance systems, and developing workshops and community outreach. The ethics of private practice and the need for practitioner self-care will also be stressed. This course will be useful for those planning a private practice career as all or

part of their professional journey. Offered summer term.

SFTM 5358 – Solution Focused Coaching

This course prepares the student for professional practice as a solution focused coach. In this course, the distinctions between therapy, education, and coaching are clearly presented, and the student learns basic skills and approaches to solution focused coaching. Students will also be educated on specializations in career, college, health and wellness, and other specific types of coaching practice. Offered summer term.

SFTM 5361 Developing a Private Practice

This course examines applications of family therapy methods and ideas in private practice settings. The course will prepare students to develop a private practice as a marriage and family therapist, as a career/college/health and wellness coach, or both, depending on previous background and additional coursework. Students will learn the basics of developing a referral base, understanding managed care and insurance systems, and developing workshops and community outreach. The ethics of private practice and the need for practitioner self-care will also be stressed. This course will be useful for those planning a private practice career as all or part of their professional journey.

SFTM 5362 Solution Focused Coaching

This course prepares the student for professional practice as a solution focused coach. In this course, the distinctions between therapy, education, and coaching are clearly presented, and the student learns basic skills and approaches to solution focused coaching. Students will also be educated on specializations in career, college, health and wellness, and other specific types of coaching practice.

SFTM 5363 Advanced Equine Family Therapy

This course will utilize an equine-assisted, experiential model to provide students with an opportunity to explore and

develop their awareness of the Self of the Therapist (SOTT). Additionally, through clinical role-plays incorporating application of MFT theories and models, students will learn to conduct equine-assisted clinical and training sessions with a variety of populations and presenting issues. Students will apply different interventions and activities involving the horses and mock clients in role-play situations, and will be expected to intentionally incorporate a systemic, relational approach in all sessions. The course readings will also integrate concepts from other clinical and theoretical coursework in order to facilitate students' ability to consistently connect the systemic family therapy framework with an equine assisted approach.

SFTM 5400 - Internal Practicum I - II

These two supervised clinical courses consist of the application of systemic therapy ideas and practices at the Department of Family Therapy in house Family Therapy Clinic. Prerequisites: SFTM 5310; 5320; 6340. Offered each term.

SFTM 5700 - Course Comprehensive Exam

The Course Comprehensive Exam is a written exam that assesses the student's ability to apply the theoretical knowledge gained across cases and topics based on their coursework and clinical experiences. Offered each term.

SFTM 6110 – Systems Application in the Family Life Cycle of Aging

This course will provide a focus on the major concepts of systems thinking as applied to the family life cycle of aging. The class will focus on foundational concepts of systemic theories associated with work of Gregory Bateson, Humberto Maturana, and Heinz von Foester. Students will have an opportunity to explore interactional theories informed by cybernetics, language, and natural systems metaphors in the framework of the aging process. This course will provide not only an opportunity to learn about

systemic theories, but also a possibility to reflect on applications of such theoretical concepts while examining the process of aging and family interactions involving older adults. Offered winter term.

SFTM 6120 – Relationships in Aging

Multi-dimensional in nature, aging invites diverse health care professionals to work together to examine its various aspects. This course will offer students an opportunity to reflect on diverse relationships among older adults themselves, senior health care consumers and their health care providers, and among various health care professionals who are taking care of the aging population. The role modification in the American household, romantic relationships in later life, and the societal outlook on the process of aging are just a few topics addressed in this class. Students will also examine current needs and requirement of the working environment with older adults, including the subject of integrative primary care and a necessity of a multidisciplinary teamwork. Offered winter term.

SFTM 6130 – Caregiving in the Family

Caregiving constitutes a challenging experience for the whole family. This course will provide an opportunity to examine diverse characteristics of the caregivers, emotional and physical issues associated with caregiving, and existing resources implemented to support families and caretakers. In addition, students will have an opportunity to examine the notions of well-being and quality of life as applied to those providing and receiving care. While reflecting on the caregiving process, students will use concepts from such theoretical frameworks as constructivism, social constructionism, and general systems theory to investigate diverse perceptions and ideas about caregiving. Providing theoretical guidelines, this class will also give students a possibility to acquire attuned therapeutic skills to provide assistance to caregivers and their families. Offered summer term.

SFTM 6140 – Grief and Loss in Aging

Loss has multiple faces, especially when growing older. The experiences of loss are uniquely tinted by our cultural framework, spiritual beliefs, family traditions, and individual values. This course offers students an opportunity to examine different types of losses in later life, paying particular attention to the concepts of anticipatory and disenfranchised grief. Students explore how loss is perceived among older adults from diverse ethnical and cultural backgrounds, paying particular attention to the variety of mourning traditions. In addition, the concept of resilience is introduced inviting students to become curious about diverse stories of healing. Offered fall term.

SFTM 6300 - External Practicum I - II

Advanced clinical training and supervision is provided to enhance the practice of systemic therapy from strength based, solution oriented models of therapy that can be incorporated in a wide variety of community settings. Prerequisite: SFTM 5400 II. Offered each term.

SFTM 6320 - Assessment in Marital and Family Therapy

This course provides an overview of methods and instruments used to define problems and indicate solutions. Diagnosis, appraisals, assessments, and testing appropriate to the practice of marriage and family therapy are addressed. This course also includes a comparative study of interactional approaches and individual and family dysfunction assessments. Prerequisite: SFTM 5310; 5321; 5400-I. Offered summer term.

SFTM 6331 - Diversity and Psychosocial Issues

Human development in the context of family transitions across the life cycle such as childbirth, childhood, adolescence, courtship, marriage, maturity, aging, and death are reviewed. This course focuses on the diversity of psychosocial

development across ethnicity, class, gender, race, age, and culture with discussions and implications for interactional therapies and practices. Prerequisite: SFTD 6200 I. Offered fall term.

SFTM 6332 - Human Sexuality and Gender

This course provides a review of the psychosocial development of sexuality and gender from childhood through aging. Also addressed is a summary of clinical approaches to sexual and gender issues comparing interactional approaches with psychodynamic and behavioral models. Co-requisite: SFTM 5310. Offered winter term.

SFTM 6333 - Personality Theories and Psychopathology

A review of major theories of personality and psychopathology are the focus of this course, emphasizing psychiatric diagnostic classification systems. The study of implications for treatment and comparisons with interactional approaches are included. Co-requisite SFTM 5310. Offered summer term.

SFTM 6340 - Legal, Ethical, and Professional Issues in Marriage and Family Therapy

This course offers an in depth explanation of accreditation and licensure organizations, along with the ethical codes they promote in family therapy and related fields. This includes a review of the therapist's legal responsibilities and liabilities in mental health and family law, insurance claims, and private practice management with inclusion of an overview of professional opportunities in public service and training programs. Offered fall term.

SFTM 6550 - International Issues in Counseling and Therapy

This course is designed to review issues relevant to the practice of counseling, therapy, and human services work in an international context. Issues explored include: the adaptation of western models of therapy for practice in other countries;

immigrant family experiences and the relevance to clinical practice in the U.S.; and global ethical issues in counseling and therapy. Specific cultures reviewed include Mexico, China, Cambodia, South America, and India, and others; designed to appeal to a wide variety of students from various backgrounds. Students will learn to become more sophisticated with regard to their understanding of family functioning and the role of counseling and therapy in an international context. Prerequisite: SFTM 5310; 5320; 5321; 6340; 5400-I. Offered summer term.

SFTM 6558 - Couples Therapy: Theory and Application

In this course, students will examine their own experiences, biases and values about couples and working with couples as well as the historical development of couples' therapy. Students will learn current clinical approaches to couples therapy and evidenced-based models for working with couples. Students will examine current couple and marital research as well as assessment instruments used for working with couples. Students will examine specific professional, ethical, and legal issues associated with couples work. Issues of diversity and a commitment to multicultural exploration are demonstrated and interwoven throughout all discussions as students explore specific areas of work with couples such as extra-marital affairs, intimate partner violence, divorce, step-parenting, and health and illness. Offered winter term.

SFTM 6570 – School-based Family Counseling

This course offers training to work in educational setting utilizing a brief, solution oriented, and strength-based approaches to school issues. Also, this course will assist those therapists seeking a certified educational planner credential. Co-requisite with SFTM 6300. Offered summer term.

SFTM 6630 – Grief and Loss

The personal beliefs and philosophies regarding dying, loss, and death are explored. Bereavement across the life cycle, including developmental issues relating to adults and children and their understanding of loss are reviewed. The manner in which other cultures create meaningful rituals for life and death will be presented. Offered summer term.

SHSS – Humanities and Social Sciences

SHSS 6620 - Academic Writing (Elective)

This writing course is a user-friendly seminar on how to write clear, unpretentious academic prose. Technical issues are covered that include sentence structure, punctuation, tenses, idea development and presented in a non-technical manner. The focus includes strategies for creating and editing manuscripts and for researching, organizing, and writing literature reviews. Offered each term.

WRIT—Writing

WRIT 5000 Professional and Public Writing (3 credits)

This course offers an advanced study of professional writing strategies for public documents, including documentation and research, proposals and reports, argument and persuasion, layout and design, and writing and etiquette within electronic media.

WRIT 5010 Research Methods (3 credits)

This course offers writers opportunities to practice various qualitative, quantitative, textual, and historical research methods.

WRIT 5020 Poetry Writing Workshop (3 credits)

An advanced poetry writing workshop focusing on the art and craft of poetry within a collaborative, peer-review environment. Development of metaphorical structure and metrical language exploration of the universal in

individual human experience will be particularly emphasized.

WRIT 5030 Fiction Writing Workshop (3 credits)

An advanced fiction writing workshop focusing on the art and craft of fiction within a collaborative, peer-review environment. Students will hone the techniques and tools of the fiction writer, such as a plot, narrative strategy, character, and motif.

WRIT 5040 Screenwriting Workshop (3 credits)

This workshop style class will examine the narrative structure and mechanics of the screenplay, as well as its creation and history. Particular emphasis will be on idea generation, plot development, screenplay format, writing treatments, scene construction, dialogue, and character development.

WRIT 5050 Autobiography and Memoir Workshop (3 credits)

This workshop style course focuses on the art and craft of autobiographical and memoir writing, by reading representative authors, understanding strategies used to represent the self in memory, and writing autobiographical/memoir pieces.

WRIT 5060 Writing Literary Nonfiction (3 credits)

This course focuses on reading and developing writing strategies for true-life stories in the nonfiction tradition exemplified by such writers as Agee, McPhee, Didion, Krakauer, and Sedaris, with particular emphasis on understanding and experimenting with the boundaries on non-fiction prose.

WRIT 5100 Teaching Writing (3 credits)

An introduction to teaching composition on the secondary and college undergraduate levels; methods of teaching composition based on modern theories of rhetoric, reading, language acquisition, and pedagogical strategies.

WRIT 5120 Theories of Composition (3 credits)

This course provides the necessary foundation for students to be able to examine critical and rhetorical theories related to writing. Students will engage academic discourse to synthesize and analyze existing theoretical frameworks and apply them in their own writing. This course prepares students to write for academic contexts and to propose writing-related research. Course Frequency: Every Winter

WRIT 5140 Writing Center Praxis (3 credits)

This course provides students with advanced theoretical and experiential grounding in peer conferencing. Students study writing center theory and practice, and they apply such strategies in conferences with writers. The course prepares students for administrative duties of writing center practitioners. Course Frequency: Even Year Winter

WRIT 5160 Teaching Writing Online (3 credits)

This course focuses on the development of online writing instruction. Students learn to use a variety of online teaching technologies in order to produce effective writing curricula based on appropriate theories of composition. Course Frequency: Odd Year Winter

WRIT 5200 Grammar and History of the English Language (3 credits)

A study of the structure and development of the English language from Old English to Modern English, including changes in word forms, meanings and sounds, syntax and grammar.

WRIT 5250 Social Media Writing and Strategy (3 credits)

This course offers students practical instruction in writing strategies for social media and other electronic media.

WRIT 5320 Advanced Writing with Technologies (3 credits)

This course focuses on developing advanced writing techniques for mobile and web-based technologies. Students in this course will examine in-depth the theories and approaches to writing within such digital environments and networks while at the same time investigate technologies as rhetorical objects. This course will prepare students to answer a variety of design problems related to technological contexts. Course Frequency: Odd Year Fall

WRIT 5340 Studies in Multimodality and Digital Media (3 credits)

This course explores the rhetorical relationships between multiple modes and media. It focuses on the acquisition of skills for editing and layout of multimodal publications, such as marketing materials, newsletters, online magazines, and websites. Students get hands-on experience applying these skills while working on student-led publications. Course Frequency: Every Winter

WRIT 5400 Technical Writing (3 credits)

This course focuses on developing techniques for writing reports, descriptions, instructions, graphic arts, and other types of writing in formats appropriate to the scientific or technical working world. Students will practice explaining technical issues to various audiences, analyze technical objects and processes, and write reports, technical manuals, and user instructions. The course will emphasize writing understandable, concise language, integrating text and graphics, and designing documents.

WRIT 5550 Feature Writing (3 credits)

This course offers students practical instruction in writing publishable features for print magazines and newspapers, as well as for electronic news and entertainment sources.

WRIT 5600 Science and Nature Writing (3 credits)

This course focuses on the particular genre of science and nature writing.

Students research, write, and understand marketing for articles on subjects such as astronomy, genetics, health, and the environment for newspapers, magazines, e-zines, and journals.

WRIT 5620 Rhetorical Traditions in Writing Studies (3 credits)

This course focuses on the primary texts that have been the core of rhetoric in the history of writing studies as well as alternative rhetorics that challenge this canon. Students apply ancient rhetorical concepts to contemporary practice in writing studies. The course provides a theoretical foundation for advanced study of rhetorical principles. Course Frequency: Even Year Fall

WRIT 5650 Rhetorical Criticism

This course focuses on applying various critical lenses to a variety of texts. Students reflect on the symbolism and power of language to promote civic participation and social change. The course provides students with a foundation for the analysis and interpretations of cultural artifacts. Course Frequency: Odd Year Summer

WRIT 5700 Travel Writing (3 credits)

This course focuses on the particular genre of travel writing, focusing on the history and forms of the literary travel essay and writing about travel for the book and magazine market.

WRIT 5750 Transmedia Theory and Production (3 credits)

This course offers an advanced study of transmedia theory and production, including design, delivery, and dissemination of compositional structures, and composer and consumer participatory behaviors across multiple media sites. Course Frequency: Even Year Fall

WRIT 5850 Teaching and Tutoring Second Language Writing (3 credits)

This course focuses on the theory and practice of teaching and tutoring culturally and linguistically diverse composition students. Students will explore theories of second language acquisition, including the roles of culture and identity, as well as L2 pedagogy, including course design, response, treatment of error, and assessment. Course Frequency: Odd Year Winter

WRIT 5800 Editing, Layout, and Design (3 credits)

This course focuses on the acquisition of skills for editing and layout of print and electronic publications, such as marketing materials, newsletters, magazines, and websites. These skills include copyediting, desktop publishing, project management, graphic design, typography, and layout using relevant software.

WRIT 5900 Special Topics (3 credits)

This course will focus on advanced study of topics in composition, rhetoric, and digital media. Students will study topics such as discourse analysis, stylistics, writing program administration, TESOL, writing assessment, writing in the community, literacy studies. May be repeated for credit as topics vary. Course Frequency: Every Summer

WRIT 6000 Master's Thesis (3 credits)

Research and writing for M.A. in CRDM thesis. Repeatable up to 12 credits. Prerequisite: permission of Department Chair.

PROVISIONS

The provisions set forth in this document are not to be regarded as an irrevocable contract between the student and Nova Southeastern University. Regulations and requirements, including tuition and fees, are necessarily subject to change without notice at any time at the discretion of the administration. The university further reserves the right to require a student to withdraw at any time, as well as the right to impose probation on any student whose conduct is unsatisfactory. Any admission on the basis of false statements or documents is void upon discovery of the fraud, and the student is not entitled to any credit for work that he or she may have done at the university. Upon dismissal or suspension from the University for cause, there will be no refund of tuition or fees. The balance due Nova Southeastern University will be considered receivable and will be collected. An official transcript of a student's academic record cannot be released until all of his or her accounts, academic and nonacademic, are paid.

*Catalog is updated periodically online.
