The International Institute for Qualitative Methodology (IIQM) would like to announce that the International Journal of Qualitative Methods (IJQM) is now accepting applications for peer reviewers.

The goals of IJQM are to advance the development of qualitative methods, and to disseminate methodological knowledge to the broadest possible community of academics, students, and professionals who undertake qualitative research. As a result of the journal’s increasing profile we are seeking peer reviewers for submitted manuscripts. If you have expertise in qualitative research and would be interested in becoming a peer reviewer for IJQM, please send the following to ijqm@ualberta.ca:

1. a brief outline of your expertise and experience with qualitative methods
2. a list of your reviewing interests/expertise (include methods, theories, populations, and disciplines, etc.)
3. a CV or resumé

Please direct any questions to ijqm@ualberta.ca
