

Academy of Servant Leaders Certificate

Upon completion of the Emerging Leaders Certificate Program, students who wish to take their leadership capacity to the next level will enter the Academy of Servant Leaders. Students at this level will learn the skills necessary to effectively lead an organization. Servant Leaders will understand the importance of fostering common purpose, collaboration and commitment within their organization. Goal setting, developing a mission statement, motivating teams, empowering individuals, and project planning will be practiced and learned. Each Servant Leader will serve on the NSU Diversity Summit planning committee and will be expected to facilitate workshops for their peers within the campus and local communities. They will also serve their community through meaningful volunteer experiences. Servant Leaders will be identified by whether those they serve grow as persons; whether they, while being served, become healthier, freer, wiser, more autonomous, more likely themselves to become servants.” (Greenleaf Foundation)
