SOFTWARE FOR

CHILDREN &

ADOLESCENTS

1. Title:  

_ace Reporter_ [MindPlay]
Players of Ace Reporter assume the role of a reporter and write story headlines. “Ace Reporters” practice reading for main idea and details. Then they select a “main idea” headline before the paper goes to press. Ace Reporter includes sixty stories plus a Story Creator for adding original stories. Challenge Upgrade includes options for game play, difficulty levels, and performance summaries. Reading levels 2.5 to 5.5.

GRADE LEVEL: Grades 1 through 12

SKILLS / ACTIVITIES: Problem solving, reading, retelling the setting of a story, deductive reasoning, “wh” questions, and organization of information.

2. TITLE: Art Lesson, The

Location: WESTPORT

Available on: CD-ROM

Available in: MACINTOSH WINDOWS

With a click of the mouse, students can enjoy Tommy DePaola’s beloved story, filled with lively animations and sounds, exciting art activities, and video interviews with the author.

OPERATING SYSTEM: Windows 3.1, 95

AGES: Kindergarten through 4th grade

SKILLS / ACTIVITIES:

- Integrated art activities that spring from what Tommy is doing let children participate in the story.
- Open-ended activities encourage creativity and invite many replays.
- Easy to navigate independently, giving young users the freedom to enjoy learning and reading their own way.
- Activities within the program can be used to address a variety of communication objectives.

3. TITLE: Arthur's Birthday

Location: WESTPORT NMB

[Living Books]
Arthur's Birthday tells the story of Arthur's birthday dilemma; he's having a party on Saturday, but Muffy's having one at the same time.

AGES: Preschool and Elementary

SKILLS / ACTIVITIES: Reading, language development, and early childhood.

4. TITLE: Arthur's Teacher Trouble [Living Books]

Location: WESTPORT NMB

Available on: CD-ROM
Available in: MACINTOSH WINDOWS

Arthur suddenly finds himself representing his class in the school-wide spellathon.

AGES: Preschool, Elementary

SKILLS / ACTIVITIES: Reading, early childhood, and language development

5. TITLE: Bailey's Book House [Edmark Corp]

Location: WESTPORT NMB

Available on: CD-ROM
Available in: MACINTOSH WINDOWS

A developmentally appropriate introduction to reading concepts for young clients. Full of lively characters, colorful graphics, and spirited music. Children can explore six interactive activities, each of which has a strong, educational foundation. All directions, questions, and feedback are spoken in lifelike voices.

AGES: Preschool through 2nd Grade

SKILLS/ACTIVITIES: Letters, expand use of adjectives and early narrative skills, word meaning, rhyming, categorization, increase vocabulary, pre-reading skills, reading skills, and story completion.

6. Title: The Berenstain Bears Get in a Fight [Living Books]

Location: Westport

Available on: CD-ROM

Operating system: MACINTOSH OS 8 or higher, WINDOWS 3.1 or higher
In this 12-page story for readers and pre-readers, Brother and Sister bear share a typical day followed by a not so typical day when they get into a fight. They have several disputes throughout the story and “make up” in the end. This story can be read in English or Spanish. It includes the options of reading the story or choosing from one of the pages to play in.

**Operating system:** Macintosh OS 8 or higher, Windows 3.0 or higher.

**AGES:** Pre-K to 7th grade.

**SKILLS/ACTIVITIES:** Pre-reading skills, reading skills, story development, setting, and story organization.

7. **TITLE:** *Big Anthony's Mixed Up Magic*

**Location:** WESTPORT

**Available on:** CD-ROM

**Available in:** MACINTOSH  WINDOWS

In this program students can read the story themselves, hear it read to them by the author, or jump right in and join the main character, Big Anthony, in any of nine interactive activities. Along the way, Strega Nona helps the students develop problem solving and encourages reading and storytelling.

**AGES:** Kindergarten through 4th grade

**SKILLS / ACTIVITIES:**

- Promotes reading comprehension and word recognition
- Develops critical thinking skills through interactive activities
- Encourages reading for learning and enjoyment

8. **TITLE:** *Busy Town* (Richard Scarry)

**Location:** WESTPORT  NMB

**Available on:** CD-ROM

**Available in:** MACINTOSH  WINDOWS
This program emphasizes learning through play. Children visit 12 interactive environments related to the real-world life in the city. Children will serve food at the deli, bandage a sick patient and more.

**AGES:** 3 through 6

**SKILLS / ACTIVITIES:** Adding and subtracting, measuring, counting, pattern matching
Problem solving, reading, body parts.

---

**9. TITLE:** Car Builder

**Location:** WESTPORT

**Available on:** CD-ROM

**Available in:** MACINTOSH WINDOWS

Sophisticated, yet easy to use, this award-winning program appeals to students and adults who are fascinated by cars. As "design engineers," users build cars on screen, specifying chassis length, wheelbase, engine type, transmission, etc. Next, users can make body changes, such as paint, wheel treatment and rocker panels. Functional choices are interrelated and affect the performance of the final design. The program then tests the car in a wind tunnel and around a test track, accumulating data about top speed, cornering, acceleration, and braking.

**OPERATING SYSTEM:**

**AGES:** Grades 3 and up

**SKILLS / ACTIVITIES:** Narrative skills, problem solving, sequencing

---

**10. TITLE:** Cat in the Hat [Living Books]

**Location:** WESTPORT

**Available on:** CD-ROM

**Available in:** MACINTOSH WINDOWS

Tommy and Sally's rainy afternoon gets quite a boost when the Cat in the Hat steps in on the mat, and with the help of Thing One and Thing Two, turns the house upside down and inside out! The Cat in the Hat entertains with his daring tricks, wild antics and playful nature that have won the hearts of millions of readers for 40 years. In addition to the classic story, the CD includes a number of interactive activities.

**AGES:** Preschool, Elementary

**SKILLS / ACTIVITIES:** Language art, pre-reading, problem solving, reading, language
Creature Cartoons

Location: WESTPORT NMB
Available on: MUST BE INSTALLED FROM 3½ DISK
Available in: MACINTOSH

Creature Cartoons is a Macintosh program that contains five cartoons, each with an amusing story line. It is designed to teach cause and effect and turn-taking to individuals with severe/profound disabilities, but can also be used to train switch control to clients with motor impairments. The engaging art and animation help improve auditory and visual attention and increase intentionality. Accessible with single switch, mouse, keyboard, and touch sensitive screen.

AGES: Preschool

SKILLS / ACTIVITIES: adapted access, early childhood, speech output, eye-hand coordination, language development, cause and effect, turn-taking

Creature Magic

Location: WESTPORT
Available on: MUST BE INSTALLED FROM 3½ DISK
Available in: MACINTOSH WINDOWS

This program contains five cartoons. It can be use to train cause and effect as well as turn taking. It also works well with higher-functioning individuals who have motoric impairments and need practice using a single switch. You can set the program to run with command prompts, such as “Show me more,” or situational prompts, which are natural pauses in the cartoon. As a reward you can run the cartoon without prompts so that no switch activation is required.

POPULATION: Children with developmental disabilities, physical impairments, and visual impairments, and autism.

SKILLS / ACTIVITIES: Cause and effect, turn taking, natural sounding speech, amusing sound effects, no reading required, colorful animated character

Destination Castle

Location: WESTPORT
Available on: CD-ROM
Available in: MACINTOSH      WINDOWS

Clients select background scenery, choose and animate characters, record conversations, write a story, narrate pages, and add music and sound effects to create interactive electronic books. These programs allow the user to record music speech, and video for use in the stories.

AGES: Pre K through 7th Grade

SKILLS / ACTIVITIES: Pre-reading skills, reading skills, verbal output, narrative skills. Can easily be adapted to work on articulation phonology, semantics and fluency

14. Title: Destination Neighborhood
Location: WESTPORT      NMB
Available on: CD-ROM
Available in: MACINTOSH      WINDOWS

Clients select background scenery, choose and animate characters, record conversations, write a story, narrate pages, and add music and sound effects to create interactive electronic books. These programs allow the user to record music speech, and video for use in the stories.

AGES: Pre K through 7th Grade

SKILLS / ACTIVITIES: Pre-reading skills, reading skills, verbal output, narrative skills. Can easily be adapted to work on articulation phonology, semantics and fluency

15. Title: Destination Rainforest
Location: WESTPORT
Available on: CD-ROM
Available in: MACINTOSH      WINDOWS

Clients select background scenery, choose and animate characters, record conversations, write a story, narrate pages, and add music and sound effects to create interactive electronic books. These programs allow the user to record music, speech, and video for use in the stories.

AGES: Pre K through 7th Grade

SKILLS / ACTIVITIES: Pre-reading skills, reading skills, verbal output, narrative skills. Can easily be adapted to work on articulation phonology, semantics and fluency
16. TITLE: Dr. Seuss' ABC [Living Books]

Location: WESTPORT

Available on: CD-ROM
Available in: MACINTOSH WINDOWS

Only Dr. Seuss could make the alphabet so unpredictably entertaining. More than 400 alphabetically-inspired surprises hidden within 26 pages make learning words and letters fun and even silly through Dr. Seuss’ distinctive brand of humor, rhyme and illustration.

AGES: Preschool and Elementary

SKILLS / ACTIVITIES: Early childhood, eye-hand coordination, reading, language development, language arts, pre-reading

17. TITLE: Earobics

Location: WESTPORT

Available on: CD-ROM
Available in: MACINTOSH WINDOWS

Earobics is a comprehensive auditory training program. Six interactive multi-media games, animated characters, and lively music captivate the child and make learning fun. Multiples levels of play provide extensive practice and comprehensive skill training. Adaptive learning format allows the child to work independently. A colorful and animated on-screen progress chart provides positive rewards.

AGES: 4 through 7 years

SKILLS: Sound discrimination, vowel sounds, auditory comprehension, and auditory selection

18. TITLE: Earobics Pro Plus Step 1

Location: WESTPORT

Available on: CD-ROM [Check to see if Password is needed]
Available in: MACINTOSH WINDOWS
Earobics Step 1, for children of developmental ages 4-7 years, develops a full range of phonological awareness, phonological processing, auditory processing and introductory phonics skills. Younger children learn these critical reading readiness and early literacy skills that will enable them to become better readers, listeners, and learners. Available in Classroom, Specialist/Clinician, and Home versions.

AGES: Preschool, Elementary

SKILLS / ACTIVITIES: Language arts, pre-reading and reading skills, spelling, early childhood, language development, IEP/IPP, instructional management.

19. TITLE: **Earobics Pro Plus Step 2**

Location: WESTPORT
Available on: CD-ROM [Check to see if Password is needed]
Available in: MACINTOSH WINDOWS

Earobics Step 2 teaches children developmental ages 7-10 a full range of phonological awareness, phonological processing, auditory processing, phonics, and language comprehension skills. Training of these skills allows older children to become better readers, listeners, and spellers. Classroom, Specialist/Clinician, and Home versions are available.

AGES: Elementary

SKILLS / ACTIVITIES: Scanning, single switch, communication, spelling, early childhood, eye-hand coordination, language development, reading, instructional management, language arts, pre-reading.

20. TITLE: **Fonologia en Espanol: Tratamiento (Spanish Phonology: Intervention)**

Location: WESTPORT
Available on: CD-ROM
Available in: WINDOWS Macintosh

Fonologia targets phonological patterns related to prevocalic consonant singletons (plosives /p,b/, Nasals /m,n/, fricatives /f,s/, Velars /c,qu/), Consonant sequences (/l/ clusters, /r/ clusters, /w/ clusters, /es/ + consonant), Postvocalic consonant singletons (/s,z/, /n/, /l/), and Liquid singletons (/l/ and /r/). All target phonological patterns are available in lessons for 1-4-syllable words. Lesson activities include identification of syllables in words (Uno, Dos y Tres), imitation of sound stimulus (Escuchar y Repetir), word blending (Sonidos Combinados), auditory
bombardment of word patterns (Cual Sigue), word repetition (Buscando Parejas), practicing target patterns in spontaneous speech (Que Es Diferente).

AGES: Elementary

SKILLS / ACTIVITIES: Scanning, single switch, communication, spelling, early childhood, eye-hand coordination, language development, reading, instructional management, language arts, and pre-reading.

Required Accessories: Microphone for recording voice.

---

21. TITLE: *Green Eggs and Ham* [Living Books]
Location: WESTPORT
Available on: CD-ROM
Available in: MACINTOSH, WINDOWS

Dr. Seuss' best selling classic is brought to life with crisp animation, quality sound effects, and creatively, interactive interpretation. While accompanying Sam I Am on his adventures, children will encounter three new activities: Color Match with a Mouse in a House, Make A Word with a Fox in a Box and Sam I Am's Find a Rhyme Game.

AGES: Preschool, Elementary

SKILLS / ACTIVITIES: Early childhood, language development, reading

---

22. TITLE: *Harry and the Haunted House* [Living Books]
Location: WESTPORT, NMB
Available on: CD-ROM
Available in: MACINTOSH, WINDOWS

Harry and the Haunted House tells the story of Harry's trip into a spooky old house to retrieve an errant fly ball.

AGES: Preschool, Elementary

SKILLS / ACTIVITIES: Early childhood, language development, and reading
23. TITLE: *IntelliTalk*

Location: WESTPORT

Available on: MUST BE INSTALLED FROM 3½ DISK

Available in: WINDOWS

A talking, writing, and communication tool. It is ideal for a person who needs a simple talking word processing or for the nonverbal person who wants to use IntelliKeys as a communication device. IntelliTalk speaks as you type and can read either letters, words, sentences, or entire documents for auditory feedback.

**AGES:** Elementary, Secondary, and Adults

**SKILLS / ACTIVITIES:** Adapted access, large print, speech output, early childhood, language development, communication, language arts, and word processing.

---

24. TITLE: *JumpStart Kindergarten*

Location: WESTPORT

Available on: CD-ROM

Available in: MACINTOSH WINDOWS

This program is designed to stimulate, excite, and inform children entering school for the first time. Contains over 18 activities and six songs.

**AGES:** 4 through 6

**SKILLS / ACTIVITIES:** Develop concept of time, build decision-making skills, match letter combinations, pair rhyming words, and build simple sentences.

---

25. TITLE: *Jump Start Pre-K*

Location: WESTPORT NMB

Available on: CD-ROM
Available in:  MACINTOSH   WINDOWS

This program is packed with interactive play areas designed to advance a first-year preschooler into pre-kindergarten learning. Everywhere in Pre-K town, children solve puzzles, play games, and sing songs that reinforce fundamentals while presenting important social concepts like sharing, healthy eating, good manners, and safety rules.

AGES: 3 to 5

SKILLS / ACTIVITIES: Reading readiness, phonics, word sound recognition, memory development, sequencing, social concepts, and creative play.

26. TITLE: *Jump Start First Grade*  [Living Books]

Location:  WESTPORT   NMB

Available on:  CD-ROM

Available in:  MACINTOSH   WINDOWS

This program is packed with interactive play areas designed to prepare a child for first grade learning and allows for the teacher or child to independently change the difficulty of the language level. Children can choose from several interactive games in Frankie's classroom that cover the first grade curriculum.

AGES: 6 to 8

SKILLS / ACTIVITIES: Vocabulary & spelling, fractions, letter sounds & phonics, geography, decoding/deduction/inference, music, comprehension, art, visual discrimination/memory, time, literature, the environment, numbers & counting, life sciences, addition & subtraction, physical sciences, and money value.

27. TITLE:  *Just Grandma and Me*  [Living Books]

Location:  WESTPORT   NMB

Available on:  CD-ROM
In this 12 page story for pre-reading and beginning readers, Little Critter and his Grandma take a bus to the beach. Their adventures include riding on a wind blown umbrella, fending off a pesky crab, snorkeling, and meeting a variety of talented starfish. This story can be read or heard in English, Spanish, or Japanese.

AGES: Pre-K through 7th Grade

SKILLS / ACTIVITIES: Pre-reading skills, reading skills, story development, setting, and story organization

- Can be easily adapted for articulation-phonology, semantics, syntax and fluency

28. TITLE: Just Me and My Dad [Living Books]

Location: WESTPORT

Available on: CD-ROM

Available in: MACINTOSH WINDOWS

Twelve interactive story telling screens let you join Little Critter and his dad on a camping trip filled with wonderful sights, exciting sounds, and amusing mishaps. Readers can revisit their favorite page at any time. Also features a 22 minute full-motion Just Me and My Dad animated video.

AGES: Pre-K through 2nd Grade

SKILLS / ACTIVITIES: Content form interactions, increase vocabulary, and early narrative skill

29. TITLE: Kidspiration

Location: WESTPORT

Available on: CD-ROM

Available in: MACINTOSH WINDOWS
Allows children to see, organize and develop ideas by brainstorming ideas with pictures and words, organize and categorize information visually, create stories and descriptions and explore new ideas with thought webs and visual mapping.

**AGES:** K – 5

**SKILLS / ACTIVITIES:** Visual learning and thinking skills

---

**30. TITLE:** *KidWorks Deluxe*

Location: WESTPORT

Available on: CD-ROM

Available in: MACINTOSH, WINDOWS

Allows children to create and illustrate their own stories and the computer reads the child’s story back. Conversion of pictures-to-text and text-to-pictures teaches clients to express themselves visually and in writing.

**AGES:** Pre-K through 4th Grade

**SKILLS / ACTIVITIES:** Verbal output, reading skills, and pre reading skills

---

**31. TITLE:** *Little Monster at School* [Living Books]

Location: WESTPORT, NMB

Available on: CD-ROM

Available in: MACINTOSH, WINDOWS

Little Monster at School follows Little Monster through a day of school learning about ABC’s, Math, Science, and Recess.

**AGES:** Preschool, Elementary

**SKILLS / ACTIVITIES:** Early childhood, language development, and reading.
32. TITLE: *Millie's Math House*

Location: WESTPORT NMB

Available on: CD-ROM

Available in: MACINTOSH WINDOWS

You can count on Millie! For smiles and giggles in six fun-filled activities, students explore fundamental Math concepts with Millie and her friends. They count critters, build mouse houses, create crazy looking bugs, make jelly bean cookies, and find just the right shoes for Little, Middle, and Big-All to learn about numbers, shapes, sizes, patterns, and sequencing.

**AGES:** Preschool

**SKILLS / ACTIVITIES:** Early childhood, scanning, speech output, and math.

33. TITLE: *New Kid on the Block*

Location: WESTPORT NMB

Available on: CD-ROM

Available in: MACINTOSH WINDOWS

The first Living Book of poetry where kids can explore Jack Prelutsky's delightful poetry.

**AGES:** Preschool, Elementary

**SKILLS / ACTIVITIES:** Early childhood, language development, and reading.

34. Title: *Opening Night*

Location: WESTPORT

Available on: CD-ROM

Note: This Program is on 2 CD’s
Available in: MACINTOSH   WINDOWS

Clients stretch their imagination as they create, direct, and present their own plays. Clients select the actors, scenery, props, lighting, sound effects, and music. The program includes over 40 realistic costumed characters, 100 different sets, hundreds of props and sound effects, plus musical selections.

AGES: Grades 3 through 12. Usable with adults to address a variety of speech and language objectives.

SKILLS / ACTIVITIES: Setting, organization, and story development

35. TITLE: Phonology

Location: WESTPORT

Available on: CD-ROM

Available in: WINDOWS   Macintosh

Accessories needed: Microphone and speakers

Phonology uses Hodson and Paden’s program of target patterns. Patterns include: syllable reduction, cluster reduction, pre- and postvocalic singleton omission, stridency deletion, velar deviation, liquid deviation, nasal deviation, and glide deviation. Within these patterns, specific phonemes are targeted in the following activities: Final Consonants; Initial Consonants; Initial/s/ clusters; Initial /l/ and /r/ Clusters; and Two- and Tree-Syllable Words.

AGES: Elementary

SKILLS / ACTIVITIES: Scanning, single switch, communication, early childhood, eye-hand coordination, language development, reading, instructional management, language arts, and pre-reading.

Phonology in Spanish, see Fonologia.

36. Title: Putt-Putt Saves the Zoo [Humongous]

Location: NMB

Available on: CD-ROM

Available in: MACINTOSH   WINDOWS

Build powerful reasoning skills and encourage logical thinking while helping Putt-Putt find the missing animals. The bridge is out, the animal food is gone and 6 baby animals are lost! Putt-Putt needs help solving puzzles, matching shapes and finding solutions for "real life" situations.
Over 40 exciting locations offer hours of challenging activities that build essential critical-thinking skills.

AGES: PreK-3

37. TITLE: Reader Rabbit’s Reading Development Library 1

Reader Rabbit’s Reading Development Library 2

Location: WESTPORT NMB

Available on: CD-ROM

Available in: MACINTOSH WINDOWS

This program combines classic children’s literature with interactive learning to develop essential reading skills. Each tale in this series is told from three points of view by animated characters. Story lines are amplified by sound effects and vivid backgrounds. Students may choose to hear a story read aloud by a character or read it themselves. As children advance through the progressively challenging stories, their self-confidence grows as they realize they can be good readers.

AGES: Kindergarten through 2nd grade

SKILLS / ACTIVITIES: Narrative skills, sequencing, spelling, skill-building activities, developed with content from the stories, increase reading comprehension, vocabulary, and sequencing skills. Text for each story can be printed out for students to read and illustrate.

38. TITLE: Reader Rabbit’s Reading 1

Location: WESTPORT NMB

Available on: CD-ROM

Available in: MACINTOSH WINDOWS

This program combines classic children’s literature with interactive learning to develop essential reading skills. Each tale in this series is told from three points of view by animated characters. Story lines are amplified by sound effects and vivid backgrounds. Students may choose to hear a story read aloud by a character or read it themselves. As children advance through the progressively challenging stories, their self-confidence grows as they realize they can be good readers.

AGES: Kindergarten through 2nd grade
SKILLS / ACTIVITIES: Narrative skills, sequencing, spelling, three skill-building activities developed with content from the stories, reading comprehension, vocabulary, and sequencing skills. Text for each story can be printed out for students to read and illustrate.

39. TITLE:  
**Reader Rabbit's Reading 2**
Location: WESTPORT NMB
Available on: CD-ROM
Available in: MACINTOSH WINDOWS

This program combines classic children's literature with interactive learning to develop essential reading skills. Each tale in this series is told from three points of view by animated characters. Story lines are amplified by sound effects and vivid backgrounds. Students may choose to hear a story read aloud by a character or read it themselves. As children advance through the progressively challenging stories, their self-confidence grows as they realize they can be good readers.

AGES: Kindergarten through 2nd grade

SKILLS / ACTIVITIES: Narrative skills, sequencing, spelling, three skill-building activities developed with content from the stories, reading comprehension, vocabulary, and sequencing skills. Text for each story can be printed out for students to read and illustrate.

40. TITLE:  
**Reading Comprehension** [Educational Resources]
Location: WESTPORT
Available on: CD-ROM
Languages: English and Spanish
Available in: MACINTOSH WINDOWS

This program includes multilevel stories that teach reading comprehension skills. It includes eight volumes that allow for children to practice important reading skills: recognizing main ideas, sequence of events, factual details, and cause and effect.

SKILLS/ACTIVITIES: Reading skills, story development, setting, and story organization.

41. TITLE:  
**Ruff's Bone** [Living Books]
Ruff’s Bone is an offbeat adventure, following the fearless dog, Ruff, on a far-ranging hunt for his wayward bone. Meet all kinds of characters as Ruff searches for his bone.

**AGES:** Pre-K through 7th Grade

**SKILLS / ACTIVITIES:** Pre reading skills, reading skills, story development, setting, and story organization.

---

42. **TITLE:** *Sammy’s Science House* [Edmark Corp.]

**Location:** WESTPORT

**Available on:** CD-ROM

**Available in:** MACINTOSH      WINDOWS

Sammy and his friends guide you through a wonderful world of science and experimentation. Five activities challenge clients develop observation, classification, problem solving, and sequencing skills.

**AGES:** Pre-K through 2nd Grade

**SKILLS / ACTIVITIES:** Categorization     sequencing     problem solving

---

43. **TITLE:** *Science in Your Ear*

**Location:** WESTPORT

**Available on:** CD-ROM

**Available in:** MACINTOSH      WINDOWS

Multimedia exploration of human hearing, physiology of the ear, and psychoacoustics.

**AGES:** Upper Elementary through adult.

**SKILLS / ACTIVITIES:** Narrative skills, sequencing, and problem solving
44. TITLE:  *Sea Ice in the Polar Regions* [CIESIN]

Location:  WESTPORT

Available on:  CD-ROM
Available in:  MACINTOSH        WINDOWS

Multimedia presentation aimed at introducing the viewer to the role of sea ice in the climate system and the use of satellite data to monitor its distribution in both the Arctic and the Antarctic. Key topics are sea ice types, sea ice relevance, sea ice coverage, satellite observations of sea ice, and suggested further readings. The total presentation takes about 35 minutes.

OPERATING SYSTEM:  Windows 3.1, 95, Macintosh System 7.1 or later.

AGES:  Upper Elementary through Adult

SKILLS / ACTIVITIES:  Language arts, problem solving, and narrative skills.

45. TITLE:  *SimTown*  [Maxis]

Location:  WESTPORT

Available on:  CD-ROM
Available in:  MACINTOSH        WINDOWS

Build and manage a small town and influence the lives of the people who live there. SimTown includes animated graphics that show people in houses and buildings, kids skateboarding and more. Students learn to understand and control the environmental effects of real-life neighborhoods.

AGES:  Grades 3-8

SKILLS / ACTIVITIES:  Problem solving, sequencing, and narrative skills. Can be adapted to work on articulation and fluency.

46. TITLE:  *Stellaluna*  [Living Books]

Location:  WESTPORT        NMB

Available on:  CD-ROM
Available in:  MACINTOSH        WINDOWS 3.1, 95
A baby fruit bat, separated from her mother, explores universal themes of upbringing, acceptance and friendship. The images, sounds, and music embedded in the Living Books version of the story give children an interactive sense of the imaginative experience available in reading. This rich context provides opportunities for language development for prereaders, and for beginning, primary and intermediate readers. The classroom activities offer lessons that can be adapted to the curriculum. The CD-ROM also includes a separate science section, Bat Quiz, full of information about, and illustrations of, bats and their world.

**AGES:** Grades PreK-5

**SKILLS / ACTIVITIES:** Language arts, reading, writing, science, math, and art.

---

**47. Title:** *Storybook Maker Deluxe*

**Location:** WESTPORT NMB

**Available on:** CD-ROM

**Available in:** MACINTOSH WINDOWS

Clients use a variety of elements, such as settings, colorful picture cards, and words to put their imagination onto a computer canvas. Creates illustrated stories that the computer can read back.

**AGES:** Kindergarten through 4th grade

**SKILLS / ACTIVITIES:** Setting, pre-reading, reading, narrative skills, story development, and sequencing, syntax development. Can be adapted to work on articulation, fluency and semantics.

---

**48. Title:** *Storybook Weaver Deluxe* [Learning Co.]

**Location:** WESTPORT

**Available on:** CD-ROM

**Available in:** MACINTOSH WINDOWS

Create your own storybooks with pictures, words, sounds, and music. Choose graphics and scenery combinations from folklore or the everyday life of many cultures. You can write in English or Spanish.

**AGES:** Grades 1st through 7th

**SKILLS/ACTIVITIES:** Spelling, reading, pre-reading, setting, narrative skills, story development, sequencing, and syntax development. Can be adapted to work on articulation, fluency and semantics.
49. **TITLE:** *Super Solvers Midnight Rescue*

**Location:** WESTPORT

**Available on:** CD-ROM

**Available in:** MACINTOSH  WINDOWS

Adventures game that builds reading comprehension and deductive thinking.

**AGES:** 3rd grade through 5th

**SKILLS / ACTIVITIES:** Increases vocabulary with over 500 words defined within the context of passages. Develops students' deductive thinking skills as they gather, organize, and analyze information. Provides hundreds of reading selections and questions, including letters, diaries, newsletters, and children’s classics.

50. **TITLE:** *Tackle English*

**Location:** WESTPORT

**Available on:** CD-ROM

**Available in:** MACINTOSH  WINDOWS

This program combines the excitement of football game with learning basic sentence structure. Correct answers earn cheers and time toward an interactive football game.

**AGES:** 3rd grade through 10th

**SKILLS / ACTIVITIES:** Identify parts of speech, correct capitalization, and punctuation.

51. **TITLE:** *Thinkin’ Science* [Edmark Corp.]

**Location:** WESTPORT

**Available on:** CD-ROM

**Available in:** MACINTOSH  WINDOWS

This program introduces students to the scientific methods needed to understand basic earth science, life science, and physical science. They learn to think like scientists as they solve problems using hypothesis, experimentation, observation and deduction. Five fun and engaging
learning environments: Fun Physics, Day and Night, Mystery Cave, Animal Tracking, and What Did You See? Invite exploration and mastery of fundamental science concepts.

AGES: Preschool though 1st Grade
SKILLS / ACTIVITIES: Problem solving, critical thinking, and elementary physics.

52. TITLE: *Thinkin’ Things Collection I* [Edmark Corp.]
Location: WESTPORT
Available on: CD-ROM
Available in: MACINTOSH WINDOWS

Colorful characters provide a comfortable environment where clients can explore their creativity, take intellectual risks, and learn to tackle new situations with confidence. Six innovative, engaging activities nurture intellectual and artistic development.

AGES: Pre K through 7th Grade
SKILLS / ACTIVITIES: Problem solving, auditory/visual memory attributes, narrative skills, semantic development, and content - form - use interactions

53. Title: *Tortoise and The Hare*
Location: WESTPORT NMB
Available on: CD-ROM
Available in: MACINTOSH WINDOWS

Retelling of the race between the slow and steady tortoise and the hurry-up hare that has entertained children for countless generations.

AGES: Preschool, Elementary
SKILLS / ACTIVITIES: Early childhood, language development, and reading.

54. TITLE: *Train Time*
Location: WESTPORT
Available on: CD-ROM
Available in: MACINTOSH WINDOWS

Train time includes a variety of activities designed to increase attentiveness, word retrieval skills, use of phrases and pronouns, sound blending skills, recognition of number of syllables in a
presented stimulus, auditory discrimination “Wh” words, color recognition, memory skills, repetition of words, symbols, and sounds.

AGES: Elementary-Adult. Designed for clients in Rancho Levels III-VII and is appropriate for children and adults who are learning language, pre-reading, and math skills; have difficulty with reading or spelling; or have a central auditory processing dysfunction.

SKILLS / ACTIVITIES: Language development, reading, auditory comprehension, visual scanning, and single stitch use.

55. TITLE: *Trip to the Zoo, A*
Location: WESTPORT
Available on: CD-ROM
Available in: MACINTOSH  WINDOWS
A cause and effect program that stimulates students with graphics, animations, sound effects, and digitized speech. Five areas of the zoo, each provide a different activity.

AGES: Preschool through elementary
SKILLS / ACTIVITIES: Pre-reading, language art, cognitive redevelopment, and language development.

56. TITLE: *Vocabulary Development*
Location: WESTPORT
Available on: CD-ROM
Languages: Spanish and English
Available in: MACINTOSH  WINDOWS
Program illustrates synonyms, antonyms, prefixes, suffixes, homophones, multiple meanings, and context clues allowing students to apply experience and context to generate meanings for unfamiliar words and to more accurately define known words. To change levels click on the bar
to the upper left of the student’s name and select student options on the following menu. In
student options, select the level at which you want to start your lesson.

AGES: Elementary

SKILLS/ACTIVITIES: Reading, language art, language development, and cognitive
redevelopment.

57. TITLE: What’s My Logic
Location: WESTPORT
Available on: TO BE INSTALLED FROM 3½ DISK
Available in: MACINTOSH WINDOWS

This program is an excursion into mind-stretching figural and verbal games that enhance
reasoning skills and teach fundamental rules of logic to students of all abilities. By moving
pieces on a game board, the player has to discover rules of logic that are chosen by the
computer (e.g., red and square, blue but not a triangle, square or triangle).

AGES: Grade 3 through adult ability

SKILLS / ACTIVITIES: Students must use deductive and inductive reasoning to determine the
correct path from start to goal, with as few wrong moves as possible, then identify the logical rule
they used. Verbal reasoning. Complex sentences Connectives, conjunctions, negatives

58. TITLE: Zootopia
Location: WESTPORT
Available on: CD-ROM
Available in: MACINTOSH WINDOWS

The moment you enter Zootopia, you will learn that this is no ordinary zoo. You’ll listen to the
Lion’s talk radio show, sing the blues with Firebelly Toad, or even buy a used camel at the Camel
Lot. In the Temple of Knowledge, watch informative videos and create your own exotic animal
with Build a Beast.

AGES: Grades 3rd through 12th

SKILLS / ACTIVITIES: Categorization, narrative skills, semantic development, and content -
form - use interactions.
SOFTWARE
FOR
ADULTS
1. TITLE:  *Aphasia Mate* [AVAAZ Innovations Inc.]

Location:  WESTPORT
Available on:  CD
Available in:  WINDOWS

This is a comprehensive program that contains interactive tasks designed to enhance aphasia therapy. A log-on screen records the client’s name and the name of their therapist. At the end of each task the user can see an immediate visual display of his/her percentage score.

**POPULATION:** Aphasia, learning disabilities, and delayed or disordered language development.

**OBJECTIVES:** Auditory processing, visual matching, reading comprehension, semantics, sentence processing, spelling, time, and money.

2. TITLE:  *Conditional Statements Plus* [Parrot]

Location:  WESTPORT
Available on:  MUST BE INSTALLED FROM 3½ DISK
Available in:  WINDOWS

This program presents challenging language statements. A hierarchy of conditional statements (i.e. "If ___ then ___") is presented either visually or auditory. A simple instruction would be: “If the sun is in Box 12, click rain. Otherwise click clouds.” A complex instruction would be: “If sun is not in Box 3 or rain in box 2, click clock. Otherwise click car.”

**POPULATION:** Head injuries, learning disability, second language, cognitive impairment.

**OBJECTIVES:** Deductive reasoning memory logical thinking thought organization.

3. TITLE:  *Cook ‘N 2000*

Location:  WESTPORT
Available on:  CD
Available in:  WINDOWS

Cook n’ 2000 is an in depth guide to cooking which includes recipes for meals prepared in less than 30 minutes, menus and recipes that compile into grocery lists, meals designed to fit dietary needs, specialty recipes, and the option to save personal recipes.

**AGES:** Adult

**SKILLS / ACTIVITIES:** Following directions, problem solving, reading comprehension.
4. **TITLE: CrossWord Maker**

**Location:** WESTPORT

**Available on:** CD-ROM

**Available in:** WINDOWS

Crossword Maker will provide you with a puzzle created randomly by clicking on Quick Create. You may also create a puzzle using your own dictionaries, or by selecting from the available dictionaries by clicking on Create New. WordFind is a game for hidden words. You can create word lists, use foreign languages, or terms related to one specific subject.

**Ages:** Adult

**Skills/Activities:** Word recall, deductive reasoning, spelling, visual scanning.

5. **TITLE: Design It 3D**

**Location:** WESTPORT

**Available on:** CD-ROM

**Available in:** MACINTOSH, WINDOWS

Whether you’re renovating an office, rearranging retail space or designing your own dream house, Design It! 3-D is the easiest way to bring ideas to life. Using advanced architectural rendering techniques, Design It! 3-D lets you design amazingly life-like creations you can actually walk through. Start with a professionally designed scene, or create your own. Drag and drop furniture and appliances and choose from hundreds of architectural details. Explore your creation from every angle, door and window.

**OPERATING SYSTEM:** Windows 3.1, 95, Apple Macintosh LC, Mac II, PowerBook, Quadra, Power PC

**AGES:** Adult

**SKILLS / ACTIVITIES:** Problem solving, narrative skills, descriptive skills, and cognitive redevelopment
6. TITLE: Dragon Naturally Speaking: Continuous Speech Recognition

Location: WESTPORT
Available on: CD-ROM
Available in: WINDOWS

Dragon Naturally Speaking dragon is a speech recognition program that features voice dictation, text to speech playback (i.e., will read text on screen), editing and formatting text by voice, and dictation playback. It also allows you to communicate with the computer by voice to do actions such as browsing the net.

Ages: Adult

7. TITLE: Encyclopedia Britannica

Location: WESTPORT
Available on: CD
Available in: WINDOWS

This program consists of several volumes of encyclopaedias and links to related web based resources that are available on this CD. Actions that can be performed include searches of articles, world maps, historical and superlative statistics, and several topically related subject areas. As you perform searches, the research assistant will create notes, bookmarks, offer citations, and organize your findings.

Ages: Adult

SKILLS/ACTIVITIES: Inductive and deductive reasoning skills, reading comprehension, using the world map, exploring continents, regions, nations, historical time lines, dinosaurs, American presidential elections, anatomy, and ecosystems.
8. **TITLE:** *Floor Plan 3D Design Suite* [Imsisoft.com]

Location: WESTPORT

Available on: CD

Available in: WINDOWS

FloorPlan 3D is an alternative way to facilitate therapy with adults by creating building designs by clicking and dragging with a mouse. You and your client can work out design ideas, add home accessories, and then convert them into photorealistic 3D views. FloorPlan 3D will generate material lists that include quantities of materials and prices needed for the building project.

**Ages:** Adult

**SKILLS/ACTIVITIES:** Inductive and deductive reasoning skills, sequencing, following directions, and hand eye coordination for mouse use.

---

9. **TITLE:** *High School Learning*

Location: WESTPORT

Available on: CD

Available in: WINDOWS

High School learning is a series of tutorial programs that are designed for the academic performance level expected of students between the ages of 16 and 18. Targeted subject areas include mathematics, writing, and physical science in addition to test preparation skills and an encyclopedia reference tool.

**Age:** Adults

**SKILLS/ACTIVITIES:** Reading comprehension, college preparation.

---

10. **TITLE:** *Hoyle Card Game* [Sierra]

Location: WESTPORT

Available on: CD

Available in: WINDOWS
Select your own character and play a variety of popular card games against a partner, multiple partners, or the computer. Hoyle Card games include bridge, crazy eights, cribbage, euchre, gin rummy, go fish, hearts, memory match, old maid, pinochle, poker, solitaire, spades, and war. Other Hoyle games that link from the software to the Internet include the following: Word yacht, wordox, yacht, craps, roulette, mancala, card monte, abstraction, audio memory, code breaker, color code, cups, dicetrix, jigsaw, backgammon, killer dice, board games (i.e., hangman, pachisi, reversi, checkers, chess, dominos, mah jong), solitaire (i.e., peg solitaire, roof rats, bristol fans, freecell, pyramid solitaire, solitaire, tri peaks solitaire, Yukon solitaire), trivia (i.e., celebrity, challenge trivia, hodgepodge, movie, music, sports and television trivia), word games (i.e., crosswords, word search, doublecross, wordox), and arcade games (i.e., battlerox, beatdrop, Billy’s bone yard battle, fill it, prize invaders, robot hunter, snowcraft, volcanic stacker, warzone).

**Age:** Adults

---

11. **TITLE:** *Info Pedia 2* [SoftKey International Inc.]

**Location:** WESTPORT

**Available on:** CD

**Available in:** MACINTOSH

**Age:** Adults

---

12. **TITLE:** *Listening Skills Plus* [Parrot]

**Location:** WESTPORT

**Available on:** MUST BE INSTALLED FROM 3½ DISK

**Available in:** WINDOWS

A random selection of 1 to 5 parts, verbal instructions is presented that the user must follow. The instructions consist of assigning colors to specific geometric forms displayed on the screen. Users first select the appropriate color and assign it to a geometric form by pointing to the form and clicking the mouse button.
13. **TITLE:** *Lotus Organizer* [The Learning Company, Inc.]

**Location:** WESTPORT

**Available on:** CD

**Available in:** WINDOWS

Features include appointment scheduling, on screen calendar, planner, address book, calls manager, notepad, and anniversary reminder.

**Age:** Adults

14. **TITLE:** *Memory for Animated Sequences Plus* [Parrot]

**Location:** WESTPORT

**Available on:** MUST BE INSTALLED FROM 3½ DISK

**Available in:** WINDOWS

In this program, clients watch an animated sequence of events lasting between a few seconds and a minute. They must then select statements that describe what they just observe or as a more difficult option, select statements that do not describe what they just observed. The animated sequences are presented in random order and the statements describing the animated events are taken from a large pool of stimuli.

**POPULATION:** Head injuries, aphasia, learning and language disability, second language, and cognitive impairment.

**OBJECTIVES:** Observational attention, short term memory, receptive and expressive language, semantics, and syntax.

15. **TITLE:** *Memory for Directions Plus* [Parrot]

**Location:** WESTPORT

**Available on:** MUST BE INSTALLED FROM 3½ DISK

**Available in:** WINDOWS

In this program either written or spoken directions are given requesting the user to move small pictures to special locations on the screen. The pictures are moved with a mouse. If the picture is
moved to the correct location, a positive reinforcement is provided. Otherwise, the instruction is given again and the user is given a second chance.

**POPULATION:**  Head injuries, learning and language disability, second language, cognitive impairment.

**OBJECTIVES:**  Visual memory, auditory memory, and eye-hand coordination.

16. **TITLE:** *Microsoft Money* [Microsoft]

**Location:**  WESTPORT

**Available on:**  CD

**Available in:**  WINDOWS

The money setup assistant will ask you questions about your household then set up accounts, schedule payment of your regular bills, and track paycheck deposits. It will also help you to create accounts for checking, savings, credit card, retirement, brokerage or investment, and money market or CMA.

**Age:**  Adults

17. **TITLE:** *Midtown Madness* [Microsoft]

**Location:**  WESTPORT

**Available on:**  CD

**Available in:**  WINDOWS

**System Requirements:**  DirectX 7.1 or higher

Take a thrilling ride through downtown Chicago in a car of your own design. Players can choose to control his or her car either by mouse or keyboard. This game requires good hand-eye coordination and visual field acuity to maneuver the racecar and can be challenging to play even on the beginner level.

**Age:**  7 years – Adult
18. **TITLE:** *Print Premium* [Broderbund]

**Location:** Westport  
**Available on:** CD  
**Available in:** WINDOWS

Use Print Premium to create a variety of craft and business stationary items with eye-catching graphics and text. Craft items include banners, bookmarks, stickers, and T-shirts. **Location:** WESTPORT  
**Available on:** MUST BE INSTALLED FROM 3½ DISK  
**Available in:** WINDOWS

A video movie is presented and while it is playing, the user must select the best description of the action depicted in the movie from a list of three possible choices. The choices are semantically related to one another yet only one description really fits the movie being displayed.

**POPULATION:** Head injuries, aphasia, learning disability, second language, cognitive impairment.

**OBJECTIVES:** Verbal description, attention, observation

20. **TITLE:** *Speech Works*

**Location:** WESTPORT  
**Available on:** INSTALL FROM 3½ DISK TO RUN CD-ROM  
**Available in:** WINDOWS

This is a program for accent modification. Speech works has 24 lesson units, 16 professional vocabulary word sets, and a set of utilities that makes managing students and clients easier and effective. This program can automatically determine the Units that will be most helpful based on the user's native language.
POPULATION: Adults

OBJECTIVES: Accent reduction

21. TITLE: *Trip Maker* [Rand McNally]

Location: WESTPORT
Available on: CD-ROM
Available in: WINDOWS

Trip maker will map out your course of travel and create an itinerary based on your travel profile. Via the Internet it will post updates on road construction and offer any needed alternate travel routes. Other features of Trip Maker include trip cost estimates, listing of attractions for a given location, and planning day or weekend getaway trips.

Age: Adult

22. TITLE: *Trophy Bass 2* [Sierra]

Location: WESTPORT
Available on: CD-ROM
Available in: WINDOWS

Trophy Bass 2 is realistic bass fishing simulation program that replicates many of the variables of fishing such as weather conditions, season, bait type, etc. Single or multiple players can enter fishing tournaments and select their own casting areas and bait. By viewing the Pro video tips and reading the “How To” multimedia, users can learn the basics of bass fishing.

Skills/Activities: Reading comprehension, memory, inductive and deductive reasoning, following directions.

23. TITLE: *Typing Instructor Deluxe Edition* [Individual Software Inc.]

Location: WESTPORT
Available on: CD-ROM
Available in: WINDOWS

This program is a fun multi theme program for teaching typing. Users can practice their typing skills by choosing to type in one of several virtual adventure environments or in a magazine. Typing Instructor Deluxe Edition will test each new user and suggest the right lessons for individual skill levels. Each user’s progress is charted and graphed to show his or her typing progress by key, finger, row, and more.
**Skills/Activities:** Hand-eye coordination, fine motor, cognitive skills, reading comprehension, spelling.

---

24. **TITLE:** *Using Propositional Speech Plus* [Parrot]

**Location:** WESTPORT

**Available on:** CD-ROM

**Available in:** WINDOWS

Users are presented with a grid of pictures on the left side of the screen. They are instructed that they must move the pictures from the left side of the screen to the corresponding position on the right side of the screen. To do so requires that they use the name of the picture and its location, e.g. “put chair on number five.” The program reinforces correct response and signifies the error when the response is incorrect with the following phases:

- No, the picture does not go there
- You already moved that picture
- There is no picture here by that name
- That space is taken

If user cannot name the picture correctly, she/he can click on the picture to hear the name. If a user gives up, the program automatically moves the picture to the correct location.

**POPULATION:** Head injuries, aphasia, cognitive impairment, learning disability, second language learning.

**OBJECTIVES:** This program utilizes speech recognition technology to provide users with an activity requiring communication.

---

25. **TITLE:** *Verbal Picture Naming Plus* [Parrot]

**Location:** WESTPORT

**Available on:** CD-ROM

**Available in:** WINDOWS

**Needed accessories:**

This program utilizes a sophisticated speech recognition technology allowing the computer to recognized spoken words. The computer displays a photo-realistic picture and asks the user to say the name of the picture into the microphone. The computer evaluates the user's response and, if it is correct, provides positive reinforcement. If incorrect, the computer says "No, that was not correct. Listen. Say the word______.”

**POPULATION:** Head injuries, aphasia, and cognitive disorders

**OBJECTIVES:** To practice word-naming skills
26. TITLE: *Who Wants to be a Millionaire?*

Location: WESTPORT

Available on: CD-ROM

Available in: WINDOWS MACINTOSH

System Requirements: DirectX 8 or higher

After determining which player will go first, each player will be asked a question. He or she will then be given 4 answers to choose from and will press the letter that corresponds with their desired response. Each player has 4 lifelines to give him or her hints to the correct answer. After a correct response, a player has the option of walking away with their money because with an incorrect response he or she is eliminated from the game.

**Skills/Activities:** Memory, word recall skills.
ASSESSMENTS AND UTILITIES
1. TITLE:  *Automatic Articulation Analysis Plus*  [Parrot]

Location:  WESTPORT

Available on:  MUST BE INSTALLED FROM 3½ DISK

Available in:  WINDOWS

The program includes 72 interesting picture stimuli taken from Phonological Process Analysis (1979) humorously depicting Uncle Fred in a variety of interesting, humorous or sometimes compromising situations. Responses are elicited to each picture and the speech-language pathologist records those responses by clicking phonetic symbols displayed on the screen. After responses are elicited, a complete analysis is immediately available. The analysis consists of a listing of the specific occurrences of the following patterns of misarticulation: Fricatives replaced by stops, fricatives replaced by glides, fricatives replaced by affricates, nasals replaced by stops, affricates replaced by stops, syllabic consonants replaced by vowels, liquids replaced by glides, fricatives fronted, velars fronted, prevocalic voicing, final consonant devoicing, initial consonant devoicing, final consonant deletion, and cluster reduction.

**OPERATING SYSTEM:**  Windows 3.1, 95, 98, NT4.0

**AGES:**  Articulation impaired children and adolescents

**SKILLS / ACTIVITIES:**  Articulation

---

2. TITLE:  *Cooper Assessment for Stuttering Syndromes, Adolescent and Adult Version.*

Location:  WESTPORT

Available on:  MUST BE INSTALLED FROM 3.5 FLOPPY DISK

Available in:  WINDOWS

The Cooper Assessment for Stuttering Syndromes, Adolescent and Adult Version (CASS-A) is a programmed protocol that enables speech-language pathologist to complete fluency assessment of adolescents and adults while simultaneously preparing an assessment analysis and report. The program tabulates data and computes totals, means, and percentages. It then organizes report of the data and summaries of the results, all of which may be store and printed, along with the examiner’s observations and recommendations.

The CASS-A is designed to identify and quantify affective, behavioral, and cognitive components of stuttering syndromes. In addition, to providing opportunities to observe, record, and assess an individual’s disfluencies on a variety of tasks requiring vocal responses, the protocol elicits responses pertaining to the feelings and attitudes of the individual being examined and requires
the examiner to make judgments about the presence or absence of various affective, behavioral, and cognitive response patterns.

**AGES:** 14 years and older

---

### 3. TITLE: **Cooper Assessment for Stuttering Syndromes, Children’s Version** (CASS-C)

**Location:** WESTPORT

**Available on:** MUST BE INSTALLED FROM 3½ DISK

**Available in:** WINDOWS

The Cooper Assessment for Stuttering Syndromes, Children’s Version (CASS-C) is a programmed protocol that enables speech-language pathologist to complete fluency assessment of children while simultaneously preparing an assessment analysis and report. The program tabulates data and computes totals, means, and percentages. It then organizes reports of the data and summaries of the results, all of which may be stored and printed, along with the examiner’s observations and recommendations.

The CASS-C is designed to identify and quantify affective, behavioral, and cognitive components of stuttering syndromes. In addition, to providing opportunities to observe, record, and assess an individual’s disfluencies on a variety of tasks requiring vocal responses, the protocol elicits responses pertaining to the feelings and attitudes of the individual being examined and requires the examiner to make judgments about the presence or absence of various affective, behavioral, and cognitive response patterns.

**AGES:** 3 to 13 years

---

### 4. TITLE: **Click Art** [Broderbund]

Click art is a versatile graphic browser that will allow you to browse through Click Art’s Image Pak, use the search engine to find the perfect graphic, and import and organize your own photos.

---

### 5. TITLE: **HyperStudio 3.1** [Roger Wagner Pub.]

**Location:** WESTPORT

**Available on:** CD-ROM

**Available in:** MACINTOSH WINDOWS (Specify which)
HyperStudio allows non-technical people to create exciting interactive projects, thematic lessons, electronic portfolios, multimedia compositions, and more. HyperStudio takes complete advantage of video (such as QuickTime), laser discs, CDs, sound, graphic, text and animation-any of which can be effortlessly added to a project in 60 seconds or less.

**AGES:** 3rd grade through 10th

**SKILLS / ACTIVITIES:** Language development, cognitive re-development, authoring system

6. **TITLE:** *IntelliTalk*

   **Location:** WESTPORT
   **Available on:** MUST BE INSTALLED FROM 3½ DISK
   **Available in:** WINDOWS

   This is a talking word processor. Whatever you type in will be spoken back to you. You can specify how IntelliTalk will read back the text, by words, letters or sentences.

   **AGES:** older children through adults
   **SKILLS / ACTIVITIES:** Provides auditory feedback

7. **TITLE:** *Sign Language for Everyone*

   **Location:** WESTPORT
   **Available on:** CD-ROM
   **Available in:** WINDOWS

   This program provides common signs via videoclips.

   **AGES:** Elementary through adult.
   **SKILLS / ACTIVITIES:** Sign Language instruction.
