Computer Science Education
(Master’s Degree)

Higher-level thinking skills…we’re leading students every day.

Want to help students reach a higher level? If you are interested in learning a new skill set in computer technology, join the Graduate Teacher Education Program’s computer science education specialization. Begin with a fresh term in the fall, or start in the summer. Take face-to-face (Saturday) and online (anytime) courses and finish your degree in approximately 16 or 19 months. Online students can earn this degree from anywhere in the United States or world through WebCT courses. (This is a Florida and Nevada approved specialization that leads to K–12 certification. Students living in states other than Florida or Nevada must check with their local or state certification office to find out if these courses will lead to certification in their states.)

Estimated costs: $13,100 (Tuition, 36 credit hours x $325 per credit hour; fees, $400; and books, $1,000.)
