Experience:	Behavioral Neuroscience Training Program
Description:	<p>This training program is an experiential learning focused program that aims to immerse students in cutting edge research opportunities, enhanced curriculum, and peer mentoring opportunities. Our program includes a mentoring component where NSU Neuroscience students serve as mentors to students in various Broward County high schools. NSU students will experience two weeks working with the high school students. This approach has been previously shown to be an effective method of educational enhancement. This allows high school mentees as well as more advanced NSU undergraduate students to mentors to engage in science in a way that can be applied to their future training and careers: one where more advanced scientists train newer investigators. In this type of vibrant relationship, both student mentees and mentors can grow collaborative and communication skills that are paramount to science. After receiving exposure to multiple techniques and research possibilities (some led by NSU students), students will be partnered with an NSU student to conduct an independent research project. This mechanism will allow for the same positive outcomes as traditional research (i.e., discovery based approach, hypothesis driven, professional presentation at conferences, peer-reviewed published articles), but with the added benefit of the ability to give the NSU students hands-on experience mentoring younger burgeoning scientists.</p>

Number of ExEL Units:	1 ExEL unit (40-79 hour experience)
Steps students take:	Email Dr. Tartar tartar@nova.edu or Dr. Munoz JM2701@nova.edu
Requirements:	Taken NEUR2500 or similar class

Experience:	Case Competitions
Description:	<p>Case competitions for NSU students allows for the cultivation of dynamic problem solving skills, collaborative solution proposals and real-life experience. A case competition starts with the presentation of a “problem,” fictitious or real, from an employer or campus partner. The case is usually presented as a short story or case with accompanying data to illustrate key aspects of the situation. A student or team is asked to identify how they would solve the problem and present their solution to a panel of judges, who evaluate the analysis and the effectiveness of the presentation. Case competitions provide an avenue to show employers or campus partner the value you can add to their organization. Each of these cases challenges had a student create solutions and then be presented to a panel of judges including representatives from the individual company, campus partners and NSU faculty.</p>

Important/relevant dates for the experience:	Depending on the competition date
Number of ExEL Units:	1 ExEL unit (40-79 hour experience)
Steps students take:	<ol style="list-style-type: none"> 1. Attend the Case Competition Orientation/Information Meeting 2. Sign the Case Competition Agreement Form
Requirements:	No minimum qualifications as long as the student meets all the other steps in the case competition process.

Experience:	Clinic Exploration Program
Description:	<p>The Clinic Exploration Program (CEP), housed within the Halmos College of Natural Sciences and Oceanography, offers students the opportunity to shadow medical professionals on the job in many of NSU's medical and health clinics. Program participants gain a broad perspective that shows how various medical fields work together and a practical, up-close review of several medical career options.</p> <p>All undergraduate students may take part in CEP, no matter what major they pursue. Each rotation lasts two hours per week, for three weeks. Because this is a volunteer program, member commitments are flexible and voluntary.</p>

Number of ExEL Units:	1 ExEL unit (40-79 hour experience)
Steps students take:	Complete the clinic exploration program application and submit to Parker building, suite 367 front desk or email cep@nova.edu .
Requirements:	<ul style="list-style-type: none"> *Undergraduate student should be in good standing with 2.5 GPA or higher (All undergraduate students are welcome) *Be registered for classes at NSU * Complete orientation * Complete OSHA and HIPAA training via Canvas

Experience:	Deliver the Dream
Description:	<p>Students participating in Deliver the Dream will spend a weekend at a family oriented retreat. Each retreat focuses on a different theme (illness, hardship..). For example, they have weekends centered around autism, epilepsy, death of a loved one, to list a few. Students will be assigned to a family for the weekend and it is their responsibility to help the family with whatever their needs are. Retreats are focused to help the family learn various coping mechanisms, communication, give them a structured way of addressing difficult topics such as family dynamics, expectations, letdowns, stresses.</p> <p>Students are present at each step of the day. Each family is different, and so are their needs. They may be assigned to a family that has all young children, or to one that is mostly teenagers.</p> <p>The student will be provided with background information on the illness/hardship. For example, if the weekend is focused on epilepsy, students will learn about what that is, how it can manifest, the issues families face, and so on.</p> <p>The retreat is also supposed to be fun! It's designed as a camp experience where there do campfire activities, tie dye, canoeing, fishing, hay ride, and more.</p>

Important/relevant dates for the experience:	Application deadline varies
Number of ExEL Units:	1 ExEL unit (40-79 hour experience)
Steps students take:	Email Dr. Steinkohl to set up orientation. Complete Deliver the Dream application. Attend DTD orientation.
Requirements:	All volunteers are required to undergo a Criminal Record Check. They will have to sign a consent form allowing DTD to conduct the check.

Experience:	First Year Experience Peer Leader
Description:	Peer Leaders will serve as a mentor, role model and resource to freshman students within the UNIV 1000 (First Year Experience) course. Students have the opportunity to build relationships with freshman, guide them throughout their first semester and promote campus engagement in student clubs and organizations. Throughout the semester, Peer Leaders will co-facilitate valuable, thought provoking activities and discussions in tandem with their assigned instructor. At the conclusion of their experience, Peer Leaders will walk away with improved public speaking, communication, leadership, reflection and so much more.

Contact Number:	Contact info for all ExEL Career Advisors can be found here: https://www.nova.edu/career/staff/index.html
Website:	www.nova.edu/internships
Important/relevant dates for the experience:	Students should contact their ExEL Career Advisor at least two weeks before they intend to begin an internship to start the review and approval process.
Number of ExEL Units:	2 ExEL units (80+ hour experience)
Steps students take:	To get started on the path to completing an internship, students should contact their ExEL Career Advisor. Their Advisor can help them develop strategies to find internships then guide them through the approval process once they've secured an internship. Finding an internship can take some time, so students are encouraged to discuss their interest in doing an internship with their ExEL Career Advisor as early as possible.
Requirements:	Students need to have completed at least 12 credit hours at NSU and be in good academic standing in order to complete an internship for ExEL units..

Experience:	Student Leadership (Various)
Description:	Students can self-determine a current or upcoming leadership position, leadership project, or leadership participation (Leadership Development Experience) to qualify for a unit each academic year. Whether you are in a formal organizational leadership role or you are working on a project to create positive change, by completing this ExEL unit you will enhance your ability to lead on the individual, organizational, and community levels. The Leadership Pillar provides a framework to reflect upon meaningful and impactful involvements in the student leader's NSU experience. These opportunities promote engagement, leadership development, and reflective learning.

Important/relevant dates for the experience:	N/A
Number of ExEL Units:	1 or 2 ExEL units (depending on number of hours)
Steps students take:	Complete the ExEL Leadership Development Unit Interest Form on SharkHub. Students are contacted by a SLCE representative to review the intended experience and program requirements.
Requirements:	Students should plan to meet with a SLCE representative to review interest in the leadership opportunity and review the ExEL requirements. **Students are required to meet with a representative PRIOR to beginning the proposed leadership experience.

Experience:	Marine Fisheries Research
Description:	<p>Student participating in this experience will occur under the Fisheries Research Laboratory at the Oceanographic Center campus under the direction of NSU Assistant Professor Dr. David Kerstetter (DWK, hereafter; also, despite the name, several graduate students are conducting research on seabird-related projects). Students taking this ExEL opportunity will all engage in basic lab experiences, including specimen dissections, sample preparation and labeling, water quality monitoring, data entry, and database management. Basic statistical analyses of data (e.g., means and standard deviations) will also be expected from the data the students are collecting themselves. Students will be able to choose between the following four ongoing projects: (1) mortality/morbidity of inshore fauna exposed to monochloramine: tasks include water quality monitoring and animal feeding/maintenance; (2) stingray ageing: tasks include preparation of vertebrae from whole animals and vertebral sectioning for subsequent ageing analyses; (3) feeding efficiency of inshore fishes under varying hypoxia and temperature regimes: tasks include water quality monitoring and animal feeding/maintenance; and (4) alternative shorebird nesting substrates: tasks include site preparation and video/in-person site monitoring.</p>
ExEL Pillar:	Research

Contact Email:	kerstett@nova.edu
Contact Number:	954-262-3664
Website:	N/A
Important/relevant dates for the experience:	None
Number of ExEL Units:	1 ExEL unit (40-79 hour experience)
Steps students take:	The interested students should contact the Dr. Kerstetter directly, preferably by email, and make arrangements to come to the lab for application and orientation.
Requirements:	MBIO or BIOL majors, or prior approval of PI

Experience:	Mindfulness Based Gardening
Description:	The Mindfulness Garden program is an experiential learning focused program that aims to engage students in an interactive project with faculty and community members with the goal of establishing a mindfulness garden. Students will work together to design and implement the planned garden. This collaborative process will allow students to understand the process of implementing a large project that will impact the NSU community and learn to deal with unexpected challenges during the process. During the semester long experience students will meet at scheduled intervals to design, implement, and maintain the garden. Students will work with faculty and a community member/ambassadors board member Mr. Scott Rassler, to design sections of the mindfulness garden.
ExEL Pillar:	Research
Contact:	Dr. Jonathan Banks
Contact Email:	jonathan.banks@nova.edu
Contact Number:	954-262-7965
Website:	N/A
Important/relevant dates for the experience:	Students need to contact Dr. Banks by the end of the third week of classes to be eligible to participate that semester. The meetings are held every other week during the afternoon. Students are expected to attend 80% of the scheduled events to receive credit.
Number of ExEL Units:	1 ExEL unit (40-79 hour experience)
Steps students take:	Students need to contact Dr. Banks by the end of the third week of the semester. Please email Dr. Banks for information regarding the dates of the event. Students are expected to attend the first meeting of the semester to get more information.
Requirements:	N/A

Experience:	Mock Trial
Description:	The College of Arts, Humanities, and Social Sciences sponsors the NSU Undergraduate Mock Trial Team. Members may be NSU undergraduate students from any major. The American Mock Trial Association (AMTA) is the governing body for collegiate mock trial competitions. The AMTA creates fictitious court case scenarios for undergraduate mock trial teams across the country to study, prepare, and perform in a simulated courtroom setting. The association hosts annual mock trial tournaments in which these teams compete. Up to 10 members of the NSU team can participate in the simulation of the courtroom trial, with members serving as lawyers or witnesses in each round of competition. Student participation on the team can enhance critical thinking, effective communication, and professional development. This experience can help prepare students for law school and the professional practice of law.

Experience:	Model UN
Description:	<p>The College of Arts, Humanities, and Social Sciences sponsors the Nova International Relations Association (NIRA) which serves as NSU's Model United Nations team. Members may be NSU undergraduate students from any major. The only requirement is that students must take POLS 2400 Model United Nations and pass the course to officially join the team. Students compete at a variety of conferences including the Florida Model United Nations Conference and the Southern Regional Model United Nations Conference. The team has also competed at the Harvard Model UN Conference and traveled internationally to Montreal. Model United Nations involves students acting as delegates of one of the 193 member states of the UN. At conferences students work collaboratively to try and solve pressing world issues through negotiation and compromise. In preparation for conferences, students do exhaustive research on their country and the issues and also write position papers which are submitted for a score. Once at the conference, students must utilize their public speaking and diplomacy skills to try and find consensus. Participating in the program thus works on critical thinking, research, writing, and public speaking skills.</p>

Important/relevant dates for the experience:	Interest form and meeting with Assistant Director of Student Leadership & Civic Engagement must be completed prior to beginning service experience; Service experience and requirements must be completed within 1 academic year
Number of ExEL Units:	1 or 2 ExEL units (depending on number of hours)
Steps students take:	Submit interest form on SharkHub under the SLCE organization page Meet with Assistant Director of Student Leadership & Civic Engagement to review program requirements
Requirements:	N/A

Experience:	Peer Tutor
Description:	The primary purpose for all tutors is to assist fellow students with understanding course material in a meaningful and accessible way. Tutors gain experience by working with both the subject material (i.e. Chemistry, Mathematics, Biology) and practicing their ability to relay that information. Refining the skill of disseminating their own knowledge to others is the focal point of all tutoring work and experience. Another key aspect that is often overlooked is the interaction tutors have with each other. As tutors who are expected to have a wide breadth of knowledge on many subjects, they often refer to each other's expertise and clarification if a difficult problem is presented to them in a session. The mentorship that begins on hiring continues well throughout their individual tenures.
ExEL Pillar:	Leadership
Contact:	Melissa Villalobos
Contact Email:	mvillalo@nova.edu
Contact Number:	954-262-8354
Website:	https://www.nova.edu/tutoring-testing/tutoring-services/index.html
Important/relevant dates for the experience:	The majority of hiring of new peer tutors takes place at the end of the semester prior to the student's start date. However, tutoring vacancies may open at anytime and our office will fill positions as they become available.
Number of ExEL Units:	2 ExEL units (80+ hour experience)
Steps students take:	When a vacancy opens for a specific subject area, tutors may come to our office via faculty referral. However, our positions are also posted on JobX and our own site, allowing students to apply without referral. After an application is received, the student's records are reviewed to ensure they meet minimum criteria for hire. Should they pass this step, they are invited to the office for an interview. Based on the interview, schedule availability, and courses taken, tutors are selected and written into the schedule.
Requirements:	<ul style="list-style-type: none"> - an overall GPA of 3.4 or higher - a "B+" or better in any course to be tutored - two faculty member references - two job references (optional) - a resume - email a copy to tutoringservices@nova.edu - an unofficial transcript - email a copy to tutoringservices@nova.edu - International students are required to obtain a Social Security card to become eligible for NSU student employment. All students must submit proper documentation--such as federal picture ID and W-4--to be eligible for hire.

Experience:	Public Health Experiential Book Club
Description:	The Public Health Experiential Book Club aims to explore selected issues or concepts in public health and the relationship between health, social justice, equity, quality, and access to healthcare. Participation in the Public Health Experiential Book Club involves a commitment to read one book per semester, the topic of which centers on an important issue or concept in public health. Each semester, a Public Health faculty facilitator will select a book. Book club participants will meet in small group settings (on-site and online). Activities will consist of chapter readings, reflection, group discussion, and practical exercises in collaborative problem solving.

Number of ExEL Units:	1 ExEL unit (40-79 hour experience)
Steps students take:	Submit online application via Sharks and Service SharkHub page and pay initial trip deposit, \$100-\$200 depending on trip.
Requirements:	Students must have the ability to pay for the trip experience in full prior to departure.

Experience:	Study Abroad
Description:	NSU's extensive, field-based, travel-study opportunities offer an unparalleled exposure to the real world, all over the world. Travel study can mean living in Paris for a year while studying French or art history. It might mean living aboard a ship in the Semester at Sea Program. Or it could be an archeological dig or conservation work in a rainforest. Students who want to add this experience to their academic lives have a great variety of programs to choose from, as well as opportunities to discover programs offered by other institutions and organizations, held in 150 countries. Such trips offer a broad range of international academic and cultural activities. The Office of International Affairs provides you with opportunities to explore the world while progressing towards your degree. The programs offered can be for a semester, for the summer or even for an entire year.

Important/relevant dates for the experience:	Winter Programs: October 1 / Summer, Fall & Academic Year Programs: March 1 (previously March 15 - still on some materials; will be honored until all old materials are out of circulation)
Number of ExEL Units:	1 or 2 ExEL units (depending on number of hours)
Steps students take:	<ul style="list-style-type: none"> - Attend information session - Identify program options - Submit courses to determine transfer credit - Determine financial aid availability - Complete all pre-departure requirements including pre-departure orientation
Requirements:	<ul style="list-style-type: none"> - Admissibility to program determined by program host (study abroad provider and/or foreign institution) - Eligibility for study abroad based only on conduct approval from Assistant Dean of Student Development, approval from Premier Program Director (if applicable), and recommendation from academic advisor.

Experience:	Supplemental Instruction
Description:	By serving as an SI Leader, students will be able to 1) understand the core principles and philosophical underpinnings of supplemental instruction 2) Ascertain core requirements, attend lecture and develop a productive relationship with the assigned faculty member 3) Identify difficult content and plan SI sessions that incorporate a variety of learning strategies and student engagement 5) Reflect on their growth as an SI leader via observations from SI supervisory staff, Senior SI leaders and Peer SI leaders.
ExEL Pillar:	Leadership Development
Contact:	Melissa Villalobos
Contact Email:	mvillalo@nova.edu
Contact Number:	954-262-8354
Website:	https://www.nova.edu/tutoring-testing/supplemental-instruction/index.html
Important/relevant dates for the experience:	Deadlines vary by semester. Supplemental Instruction Leaders are hired during the semester prior to the one in which they start the position. Once they are hired and begin working, training is an ongoing process throughout the semester, beginning at a mandatory training meeting the weekend before classes begin.
Number of ExEL Units:	2 ExEL units (80+ hour experience)
Steps students take:	Students are selected to serve as an SI Leader through faculty nomination or by self-selection in the application process. Prospective leaders are required to complete an application form. Once the application period closes, potential leaders are invited to attend an interview day. During the interview, students participate in a group activity and group interview. Once all interviews have been conducted, the SI Administrative team meets to discuss the candidates and assign to courses based on interest and eligibility. Courses supported by SI are determined based on course enrollment, faculty request, discretion of the SI Administrative Team, and funding.
Requirements:	<ul style="list-style-type: none"> - Content-competency (to be determined by the selected course professor). - A grade of B+ in the selected course is required, prior enrollment with the professor who is to teach the selected course is preferred. - An overall GPA of 3.0 or above (on a 4.0 scale). - Good interpersonal and communication skills (to be determined by SI supervisory staff). - Must be able to attend mandatory pre-semester SI Leader Training as well as ongoing professional development meetings. - Commitment to helping students learn and succeed. - International students must complete required paperwork to obtain a Social Security Card to be eligible for NSU Student Employment. All students are required to submit required documentation--such as federal photo identification and W-4--to be eligible for hire.

Experience:	Title IX Peer Educator
Description:	The NSU Title IX Peer Educator Program provides the bold, driven, and creative undergraduate and graduate students with the knowledge and practical skills to design and deliver educational workshop and programs to various campus audiences aimed at raising awareness and teaching strategies related to the prevention of sexual harassment, sexual assault, intimate partner violence, stalking and other forms of sexual misconduct.
ExEL Pillar:	Leadership Development

Experience:	Undergraduate Research
Description:	Undergraduate research experiences provide students with opportunities to acquire and build-upon important skills needed to be successful in scientific professions. Students can expect to learn basic lab protocols, improve their problem-solving and critical thinking skills, and increase their understanding of research methodologies. When considering a research opportunity, students should determine how much time they can commit to a project and which areas of research most interest them. Current and past faculty are a good source for finding research mentors and research opportunities.

Website:	https://www.nova.edu/research/undergraduate/index.html
Important/relevant dates for the experience:	Students should submit an application at least two weeks prior to the start of the experience.
Number of ExEL Units:	1 or 2 ExEL units (depending on number of hours)
Steps students take:	Students must secure a research opportunity prior to submitting the ExEL application.
Requirements:	It is recommended that students participate no earlier than the Winter semester of their freshman year.

Experience:	Undergraduate Student Symposium - presenting scholarship
Description:	NSU's Undergraduate Student Symposium, hosted by the Farquhar Honors College, showcases the outstanding scholarship of NSU undergraduate students through student poster displays, oral presentations, performances, and film presentations. For 18 years, this annual event has encouraged students to test their own hypotheses and uncover new ways of interpreting the world around them. Many of the projects featured at the symposium lead to further research, publication, or presentation at national conferences. Participating students develop mentoring relationships with faculty and experience firsthand the process and rewards of research and discovery.
