Shark Fins: https://sharkfins.nova.edu/ is a website that centralizes many of the events going on around campus.
The office of Recreation and Wellness is excited to announce the following opportunities to learn and enjoy scuba diving this fall semester!

**Scuba Refresher** - Offered Friday, August 23rd and Thursday, August 27th; 7:00 p.m.

The Scuba Refresher is a fun and easy way to review dive theory and practice dive skills after a period of inactivity. The course includes one classroom session and one pool session. Join our pre-scheduled class or contact us to set up your own private scuba review. This is not a certification course. We provide ALL equipment needed.

**Discover Scuba** - Offered Friday, August 30th or September 7th; 7:00 p.m.

The PADI Discover Scuba experience is a fun and exciting way to try scuba diving and to see what it is like to breathe underwater. No prior scuba diving experience is necessary, but you do need to be in good physical health. This is not a certification course. This class is FREE for NSU students, faculty, staff and alumni.

**Open Water Diver** - Offered Wednesday nights, August 28th - October 2nd, 7p.m.

This is the entry-level beginning scuba diver course. PADI Open Water Diver certification is issued upon successful completion of the course.

**Advanced Open Water Diver** - Offered Thursday nights, September 12th - September 26th, 7 p.m.

This is the second-level scuba diver course. PADI Advanced Open Water Diver certification is issued upon successful completion of the course.

**Divemaster** - Offered Friday nights, August 23, 30; September 13, 27; October 11, 25; November 1, 15, and 22

Divemaster candidates will learn the knowledge and skills necessary to transition from a recreational diver to a dive professional. Instructor-level academic knowledge will be developed in diving physics, physiology, decompression, equipment, and environment. Pool training includes perfecting skills to a level of “demonstration quality” for open water skills, rescue, navigation, and problem solving.

For more information and to register, please contact Bill Conrad, wconradi@nova.edu. We look forward to seeing you in the water!!!!

Childhood vaccination has proven to be one of the most effective public health strategies to control and prevent disease. In an effort to reduce childhood morbidity and mortality, the Centers for Disease Control and Prevention (CDC) Advisory Committee on Immunization Practices (ACIP) issues annual recommendations and guidelines for childhood and adolescent immunizations.

A new study shows that numerous states and large metropolitan centers have seen an increase in the number of nonmedical exemptions (NMEs) from childhood vaccinations granted (https://journals.plos.org/plosmedicine/article?id=10.1371/journal.pmed.1002578). In the past decade, the number of philosophical exemptions to vaccination has increased in two-thirds of the states that allow such exemptions. As a result, researchers suggest that these areas are becoming increasingly vulnerable to vaccine-preventable disease outbreaks.

Although school immunization laws in every state grant vaccination exemptions to children for medical reasons, states may also grant NMEs for other reasons. According to the National Conference of State Legislatures, 47 states have provisions that allow parents to exempt their children from receiving a vaccine if it contradicts their religious beliefs, and 18 states permit philosophical exemptions based on moral, personal or other beliefs.

There are a variety of reasons that parents refuse, delay, or are hesitant to vaccinate their child. These reasons vary widely between parents, but they can be encompassed in 4 overarching categories. The 4 categories are religious reasons, personal beliefs or philosophical reasons, safety concerns, and a desire for more information from healthcare providers.

Unvaccinated groups of people can generate local outbreaks of diseases that can later spread across the country, affecting anyone who was unable to get vaccinated for any reason. For example in 2000, measles was declared to be eliminated in the United States, when no sustained transmission of the virus was seen in this country for more than 12 months. However, since 2010, measles outbreaks (defined as 3 or more cases in a geographic area) have increased. In 2019 there were more than 1000 reported cases of measles across more than 20 states. Most of these cases occurred in unvaccinated people.

Contracting measles can be largely avoided through vaccination with the MMR vaccine. Though considered safe and effective, the MMR vaccine can have side effects. Most people who get the MMR vaccine do not have any serious problems with it. Common side effects of the MMR vaccine include sore arm from the shot, fever, mild rash, temporary pain and stiffness in the joints. The MMR vaccine has been linked with a very small risk of febrile seizures (seizures or jerking caused by fever). Febrile seizures following MMR are rare and are not associated with any long-term effects. Because the risk of febrile seizures increases as infants get older, it is recommended to follow the immunization schedule recommended by the American Academy of Pediatrics.

**CDC Implementation TASK Force**

The Center of Disease Control and Prevention (CDC) is spearheading a new task force to combat measles outbreaks. You have been selected by the CDC as a member of a three person task force in Florida, which will focus on how to increase the immunization rate in Florida, specifically addressing the number of nonmedical exemptions (NMEs) from the MMR vaccine. The CDC has asked that you address the issue from a Public Health, Psychological and Scientific perspective. Your task force will develop and submit a program proposal, which will be reviewed by the Florida Department of Health for approval of funding. The maximum request for funding would be $10,000. This proposal will aim to create a new program that will assist in combating the issue within Florida.

**Implementation Plan Proposal Breakdown**

1. **Background and significance – maximum 500 words**
   a. Describe the background and significance of measles and measles vaccination
   b. Describe the overall problem to be addressed in the context of biology, public health and psychology
   c. This section must include a clearly defined project goal
   d. Include minimum of 2 peer-reviewed articles, plus other credible sources
2. Define target population – maximum 300 words
   a. Describe specific population you are targeting in Florida
   b. Explain why you selected this target population

3. Program Summary/Approach – maximum 300 words
   a. Describe your program model and approach
      i. Describe the overall program strategy, methodology, and analyses to be used to accomplish the specific goals of your program. Discuss potential problems, alternative strategies, and benchmarks for success anticipated to complete the program.
      ii. Address any corresponding policy that will need to be addressed for your program to be effectively implemented

4. Innovation – maximum 75 words
   a. Describe how your approach is different from other approaches/models that have been used to improve vaccination rates

5. Proposed collaborations and partnerships – maximum 200 words
   a. Describe partners and collaborators you will need to engage to meet your desired outcomes

6. Evaluation methodology – maximum 300 words
   a. Describe how you will evaluate if your program works, including the specific indicators you will use to assess program effectiveness (process evaluation) and program outcomes (outcome evaluation).
   b. Describe how you will collect data and how often you will evaluate the progress of the program

7. Project timeline
   a. Present a program timeline: include critical milestones and mid-term and end of project deliverables

8. Budget
   a. Present a program budget: the purpose of the budget and justification section is to present and justify all expenses required to achieve project aims and objectives. (Ex: personnel, community resources, supplies, marketing, recurrent costs, logistics, state policy programs, awareness campaigns, monitoring costs etc.)

   a. 3 Teams will be selected to present their Implementation Plan to Faculty and Professionals on Wednesday, November 20th

4. Attend lunch on Friday, November 22nd from Noon to 1pm to hear the announcement of the winner

5. Prizes:
   - 1st Place: $900 ($300 each Team Member)
   - 2nd Place: $450 ($150 each Team Member)
   - 3rd Place: $150 ($50 each Team Member)
It all began in the summer of 1971 when founder, Kevin Koenig, set out to accomplish one mission: open his first waterbed store. With just $1,500 in his pocket, and an MBA from Florida Atlantic University, Kevin opened the first Waterbed City.

After 23 years of consistent growth, the waterbed industry had reached its plateau. Waterbed City evolved into City Furniture in 1994—offering not just bedroom furniture, but a full line of home furnishings to include living and dining room furniture, wall units, home theatre, and ready-to-assemble furniture.

It’s been over 20 years since the transition to City Furniture and with an incredible team of Associates, we have created a sought-after brand and top-rated shopping experience for our customers. Innovation, continuous reinvestments into our business, and a family spirited culture have created a destination where hundreds of thousands of Floridians have gotten their furniture. Today, we have 29 City Furniture and Ashley HomeStore locations throughout Florida and continue to be recognized as one of the top furniture companies in South Florida, and in the top 30 nationwide.

City Furniture’s Commercial Sales Department focuses primarily on large business accounts, developers and production builders. We have merchandised thousands of model homes in the past few years. We have also done hundreds of vacation rental homes and we help builders furnish their homes in less desirable lots in the communities. The furnishings in these less desirable lots incentivizes customers to purchase the homes. We recently completed work in the Marlins DEX club, helped refurnish the Dolphin stadium and redid all of the rooms at the Riverside hotel in Ft. Lauderdale. Our model home program drives millions of dollars into our showrooms annually. The customers visit the models in the community and then come to purchase furniture in our showrooms. We give away coupons/certificates in the models that have special offers enticing the customers to come and shop at our showrooms.

We would like your assistance in developing and understanding the apartment rental market better; focusing primarily on the millennial market. We would like to find out the average of how long the millennial market typically rents for, what is the average rent total, and what pieces of furniture are they interested in for their rentals (living rooms, bedrooms, dining rooms, etc.). We would like you to pull & analyze data to determine if renters are more interested in buying or renting furnishings for their rental units:

- How much do they expect to pay broken down as a percentage of the rent they pay, how do they want to pay (cash, financing, what type of terms are favorable)
- How long will they keep the furniture if renting or buying – does that amount of time change if renting or buying
- What type of style do they find most favorable?

Please prepare a presentation and show statistical data on how you arrived at your conclusion. How do we market and attract millennials into this new program? What have other companies done to attract millennials? Please show how you are obtaining this info and where you’re gaining these facts.
Prizes:
1st place-- $1,000
2nd place-- $200

Steps to Participate in Competition
1. Attend City Furniture Case Competition Information Session on September 11th.
2. Sign up your team for the competition by emailing Emilio Lorenzo at el541@nova.edu or Olivia Fogel at of107@nova.edu
   a. Participants can do the competition by themselves or have a team made up of 3 members.
3. Submit an short summary of your proposal for the case study by Monday, October 28th, 2019 to el541@nova.edu or Olivia Fogel at of107@nova.edu
4. Students will present their solutions to a panel of judges on Thursday November 14th between 12 p.m. – 5 p.m.
