Week 5 Happenings: Week of February 4, 2019

Want to be a UNIV 1000 Peer Leader? Apply before the February 10th deadline! (Flyer below)

Get Involved!
- Shark Fins is a website that centralizes many of the events going on around campus, including S.O.S. Sharks on the Scene!
- Sharks And Service Trips 2019

Check it out! (Future/Ongoing Events & Opportunities)
- February 4-8: Sharks Abroad Week (Flyer Below)
- February 8: Black History Month & the 16th Annual Art Exhibition
- February 2 and 23: Golf Lessons (Flyer Below)
- Recyclemania 2019! (Flyer Below)
- February 5: Campus Diversity Dialogues (Flyer Below)
- February 9: CommunityFest
- February 12: Math Colloquium Series (Flyer Below)
- February 15: CAHSS Lecture Series Dr. Vicki Toscano “Back from the Brink: The Narratives of Pro-Life and Pro-Choice Politics” (Flyer Below)
- February 15-16: NSU’s Digital Curriculum Conference (Flyer Below)
- Diversity in Action: January-April
- Alvin Sherman Library “Update your skills, Get the job”: February - April

Did you know?
- NSU is using a new site for Registered Student Organizations and Events on Campus! Introducing...SharkHUB
- Tutoring Services Available (All Subjects)
- New Interfaith Room Now Open
- NSU Student Counseling Services
- Student Mediation Services
Seeking Fall 2019 UNIV 1000 Peer Leaders
Serve as a resource, mentor and role model for incoming freshmen

As a peer leader you will learn leadership skills, communication and problem solving, classroom management, facilitation, leading groups, conflict resolution and more.

APPLICATION DEADLINE EXTENDED:
Now open until Sunday, February 10, 2019
via handshake
# Sharks Abroad Week | February 4–8, 2019

## All presentations will be held in Carl DeSantis Building, Room 1052

<table>
<thead>
<tr>
<th>Day</th>

NSU Florida  
NOVA SOUTHEASTERN UNIVERSITY
African Presence 2019
16th Annual Art Exhibition

Face to Face
Art Through Haitian Eyes
Feb. 8 - March 3

Alvin Sherman Library | Adoffio and Manuela Ortola Gallery

Sponsored by NSU Division of Public Relations and Marketing Communications
Admission is free and funded by NSU Art Museum Fort Lauderdale.

Golf Lessons
Now Available!

One Day: Feb 2 & Feb 23
2 Hour, Full Game Clinic, 10:00 a.m. to Noon
Plantation Preserve Golf Course

Register Now!

Tennis Lessons
Now Available!

Begins: February 6, 2019
4 Week Session / Wednesday Nights / Rolling Hills

Register Now!
Feb. 4th
Kickoff: Sustainable Walk and Ride
1 Library Quad
4-6pm

Feb. 9th
Community Fest
12-4 PM, Gold Circle Lake

Feb. 12th
Sustainability 101
12-1 PM, Desantis 3000

Feb. 16th
Zero-Waste Basketball Game
4-6 PM, Sharks Arena

Feb. 21st
Annual Plastic Bag Drive
11-5, UC Spine

Feb. 26th
Sharks Survival: Dog Toys for Service Pups
12-1 PM, Flight Deck Backyard
Campus Diversity Dialogues

Black Leaders Who Have Inspired Us
Coffee Talk—Let’s Connect

Let’s celebrate Black History Month by sharing our stories and insights about Black leaders who have inspired us through their words and actions.

Come join us along with our panelists for an enlightening session.

Mr. Adrian N. Carter—Author, Keynote Speaker, Conflict Resolution Practitioner.

Ms. Ghenete “G” Wright Muir—Producer of Thou Art Woman, LGBTQ Advocate, Writer, Attorney

We’ll provide the coffee; you bring your favorite quotes and examples. Let your journey inspire others.

DATE: Tuesday, February 5, 2019
TIME: 12-1 PM
FACILITATOR: Suzette Henry-Campbell
LOCATION: DeSantis 5026 (through glass doors near elevator)
WHO: Students, faculty, staff, alumni
ONLINE: Feel free to participate via link below:
https://attendee.gototraining.com/r/4047471157583206146

Diversity Dialogues is held on the first Tuesday of each month at noon. Topics and presenters change monthly, but what is constant is the freedom to exchange ideas in a respectful environment.

Brought to you by the NSU Inclusion and Diversity Council
http://www.nova.edu/inclusion/

Who are we? We are a coalition of NSU students, faculty, staff, administrators, alumni, and community members who work together to make a positive impact on student success and inclusive excellence at NSU.

Do you want to be a member of the Inclusion and Diversity Council?
Email Robin Cooper at robicoop@nova.edu. We would love to hear from you.
Time: Tuesday, Feb. 12, 2019, 12:05-12:55pm
Place: Parker Building, Room 301
Speaker: Deborah L. Goldwasser, PhD, Florida International University
Department of Mathematics and Statistics
Title: Mathematical Modeling of Lung Cancer Screening Studies

Abstract: Lung cancer has the second highest cancer incidence, second only to prostate cancer in men and breast cancer in women. Furthermore, more cancer deaths are attributable to lung cancer than any other cancer for both genders. There is a high public health need for effective secondary prevention in the form of early detection and early treatment, complementary to smoking cessation efforts. The U.S. National Lung Screening Trial (NLST) demonstrated that non-small cell lung cancer (NSCLC) mortality can be reduced by 20% through a program of annual CT screening in high-risk individuals. However, CT screening regimen and adherence vary, potentially impacting the lung cancer mortality benefit.

The mortality benefit attributable to a program of CT screening is largely determined by the natural history of lung cancer progression. Tumor doubling times and the maximum tumor size at which a NSCLC would be curable by early detection (cure threshold) are key factors. In this talk, I will address novel statistical methodology used to estimate parameters governing a stochastic model of the natural history of lung cancer. We estimate the median tumor size at cure threshold among the most aggressive NSCLCs to be between 10-15 mm. We demonstrate consistency of our model with tumor size and stage data from distinct lung screening trials, namely, the Mayo Lung Project, the Mayo CT study and the NLST, in addition to data from SEER, the national cancer registry and highlight key differences between men and women. The majority of NSCLCs in the NLST were treated at tumor sizes greater than our median cure threshold estimates, consistent with the modest 20% mortality reduction attributable to CT screening observed in the NLST. These results highlight the strong need for novel classification technology that can better distinguish and treat the most aggressive NSCLCs when they are small (i.e. 5-15mm).

This talk will also discuss the model’s consistency with the recently announced European NELSON lung screening trial results (October 2018). I will also discuss how novel DNA sequencing technologies may be incorporated into a lung screening regimen in order to improve outcomes.
