

Find and Compare Private Student Loan Options

FastChoice is an online tool provided by your school to help you explore, compare, and select private student loan options in one place. It allows you to review key loan details side-by-side so you can make a more informed borrowing decision.

What is FastChoice?

FastChoice helps you:

- View private student loan options available for your program
- Compare important details like rates, terms, and benefits side-by-side
- Choose the loan that works best for your situation

FastChoice does not promote one lender over another – it's designed to help you make an informed decision.

For easier side-by-side loan comparisons, view FastChoice in a desktop or laptop browser. If using a phone, rotating your screen to landscape view may make comparisons easier.

How to Use FastChoice

1. Go to FastChoice

- Scan the QR code below or visit your school's FastChoice page to begin.

2. Select Your Program

- Choose your specific program (such as Undergraduate, Graduate, Medical, etc.) to view the loan options available to you.

3. Compare Your Options

- Select loan programs to compare side-by-side (up to 5 at a time)
- Review key details like rates, terms, and borrower benefits
- Use filters to narrow options by what matters to you—such as fixed or variable rates, cosigner options, residency type, or repayment features

4. Apply for a Loan

- Click Apply to go directly to the lender's website
- Complete the application with the lender
- Your school's financial aid office will review and certify the loan
