

## Alone

You live a small life

You go to school

with 20 friends

even despite random differences

You are all the same

You are not alone.

You now have 17 friends

the school forces You to watch films

about the glory coming

but this glory is from Hitler

Hitler does not care for You

but You are not alone.

You have 13 friends

they say You will be sent away

they say You are wrong

how are You wrong?

how is this Your fault

You are not alone.

You have 10 friends  
they do not know what is happening  
neither do You  
but You are scared  
You are not all the same  
but You are still not alone.

You have 8 friends  
they are scared  
Your parents are sacred  
You are scared  
You are told to pack your bags that night  
but you are not alone.

You have 4 friends  
You left together  
late at night  
everything left behind  
You cried  
but You are not alone.

You have 3 friends  
You are hiding

everyone is scared

You hear a knock

You have 2 friends

but You are not alone.

You have 2 friends

You go to camp

forced into labor

no one is coming

You are not being saved

but You are not alone.

You have 1 friend

You watch them go

You watch the fire burn

You pray

crying again

still You are not alone.

You have no friends

only Your family remains

father

mother

siblings

are You alone?

Your father is transported

Your brother dies from disease

Your mother's name is called

Your sister is there

but your sister does not care for you

You are alone.

Your family is gone

Your friends are gone

no one cares for You

no one knows You

You are alone

ALONE.
