

Living the Values

EMPLOYEE RECOGNITION PROGRAM

Nova Southeastern University's Office of Human Resources is proud to announce the *Living the Values* employee recognition program.

Originally developed by Nova Southeastern University employee, Kelly Duke, the purpose of the ***Living the Values*** program is to recognize our co-workers who are living NSU's eight core values. Additionally, the program guides employees to a clear understanding of what the core values are and how they each contribute to the achievement of NSU's Vision 2020.

Each month we will highlight a different Core Value and share your stories and pictures of how you and your teammates live out the Core Values each and every day.

Speak with your Departmental Human Resources Contact for more details! We cannot wait to hear about all the exciting and inspirational ways that you are "*Living the Values.*"
