Honors College

HONR 1100A Changes of Our Chemical World Field Study (Summer 2011, 1 credit)

Instructor: Dimitri Giarikos, Ph.D., Associate Professor, Division of Math Science and Technology
giarikos@nova.edu | (954) 262-8337 | Parker Building, Room 309

This Honors course explores how the chemistry of the land, air, and water has changed overtime. Areas of investigation will include energy, climate change, farming, land, air, and water pollution. Students will learn how the Earth's chemical changes have impacted the world—by not just reading about and discussing them, but by visiting sites where these changes have occurred. Students will keep a journal during the trip, recording their observations, reactions, and forming hypotheses at the various areas visited. They will present their experiences through oral presentations upon their return. (Honors students only; prerequisite: HONR 1000V)

For an application, please contact the course instructor or visit the Travel Study Web page.

Tentative Travel Itinerary

June 10	Leave U.S. and fly to Santorini, Greece, through Athens
June 11	Arrive in Santorini, Greece
June 12	Santorini (visit to Perissa and the Black Sand beach)
June 13	Santorini (visit to Caldera and Oia)
June 14	Santorini (visit to winery and museum)
June 15	Leave Santorini; arrive in Athens (visit Plaka)
June 16	Athens (visit Acropolis, museum, agora)
June 17	Leave for Chios (sightseeing in Chios)
June 18	Chios (visit Emporios, Komi, and Cave in Olympi)
June 19	Chios (visit Mastic areas and museum)
June 20	Leave Chios; fly back to U.S.

Deposit of \$1,840 made payable to Nova Southeastern University is due by February 15, 2016
Second payment of \$2000 made payable to Nova Southeastern University is due by March 7, 2016 by 2 pm. All payments are nonrefundable. All payments must be submitted to Dr. Alejandra Parra at the Office of International Affairs-Horvitz Building-2nd Floor.

Tuition and Fees:

- \$3,840 trip cost: includes airfare, some transportation to the sites, some breakfasts, and shared accommodations
