

AMD Cross-Reference List
Use this list to identify formulary items and their standard stock status

PSS Historical				AMD Historical			AMD Current			
These were the items purchased with the previous primary medical supplies vendor. Proceed to the "AMD Current" section to the right to locate the replacement item from the current primary medical supplies vendor.				These were the originally identified items during Phase I of the transition from the previous primary vendor to the current primary vendor. Proceed to the "AMD Current" section to the right to locate the replacement item from the current primary medical supplies vendor.			During Phase II of the transition additional consolidation and standardization efforts were employed and have resulted in an improved catalog offering to reduce backorders, improve service, increase manufacturer contract utilization, reduce prices, and standardize when applicable.

AMD Cross-Reference List
Use this list to identify formulary items and their standard stock status

PSS Historical				AMD Historical			AMD Current			
These were the items purchased with the previous primary medical supplies vendor. Proceed to the "AMD Current" section to the right to locate the replacement item from the current primary medical supplies vendor.				These were the originally identified items during Phase I of the transition from the previous primary vendor to the current primary vendor. Proceed to the "AMD Current" section to the right to locate the replacement item from the current primary medical supplies vendor.			During Phase II of the transition additional consolidation and standardization efforts were employed and have resulted in an improved catalog offering to reduce backorders, improve service, increase manufacturer contract utilization, reduce prices, and standardize when applicable.
