

*David W. Kerstetter, Ph.D. – Assistant Professor, NSU Halmos College of Natural Sciences and Oceanography.*

Dr. Kerstetter has 20 years of experience with commercial and scientific fisheries field research in the western North and South Atlantic, including fishing gear research and biological sampling for ageing, diet, and habitat utilization studies. He received his Ph.D. in Marine Science with a focus on fisheries science from the Virginia Institute of Marine Science, College of William & Mary, as well as a post-doctoral experience at the Rosenstiel School of Marine and Atmospheric Sciences, University of Miami. He has been at NSU since 2007, graduating over 30 masters-level marine biology students as their major advisor and teaching graduate and undergraduate courses in fisheries, elasmobranch and avian biology, and marine natural resource policy.
